

FINAL SUMMARY OF STUDENT'S PROGRESS AND DEVELOPMENT

Firelands Regional Medical Center School of Nursing Faculty Manual

Prior to graduation, senior students will complete the Final Summary of Student's Progress and Development form which is filed and retained in the graduate folder.

NAME OF STUDENT (LAST)	(FIRST)	(MIDDLE)
Silas	Caitlyn	M

1. Describe your outstanding personality characteristics (relevant to nursing) possessed at the completion of the program:

I have possessed the ability to communicate very well with patients and their family members. I also feel like I have a great sense of organizing myself and getting prepared for working as a nurse. I know I will have to work on time management as a nurse due to having more patients than what I would typically have in clinical but I feel that with the organizational skills I have developed that my time management will be easy to grasp when I start in the hospital.

2. Describe your special interests and abilities in nursing:

I do not have specific interests in nursing, I am so open to new opportunities and am willing to try any position. My strongest ability is being able to connect and talk with patients and make them feel comfortable with the care that I will be providing them.

3. Discuss your experiences with interpersonal relationships – faculty and staff, patients and their families, and members of the healthcare team throughout the nursing program:

The faculty has been nothing but exceptional. They are all always there to help answer questions and clarify something more if you do not understand it. They are also willing to get to know their students on a personal level to help understand and get to know them a little better as well. The Firelands staff have also always been super accommodating to students being with them for the day. The families also always seem to be super interested in having a student help take care of their loved one and are also very understanding that we are learning and accept that factor.

4. Participation in activities throughout the program:

I have participated in student welfare and student senate and have enjoyed them both. The faculty seem to always listen and make changes that are reasonable upon the meetings that occur. The faculty values our opinions and wants honest communication about if there is anything that they can do to improve our nursing school experience.

5. Explain at least 2 professional goals you would like to achieve during your nursing career:

Two professional nursing goals I would like to achieve are getting my BSN and possibly going even further and going to CRNA school, and the second is being a preceptor for nursing students. I always loved it when the nurse I was with was very informative and hands on, it helped my

learning so much and I would love to help other students feel that way.

6. List your address at the time of graduation- Include a future address if known:

2846 North Topsail Way
Vermilion, Ohio 44089
