Patients often use the Internet to search for health-related issues. Search the Internet for any health-related issue of your choosing. Evaluate the website by answering the following questions:

1. Do the authors have qualifications listed? What are their qualifications? What is the domain? (.gov, .edu, .org)
   There is no author except for the organization, no qualifications listed.
   https://www.mayoclinic.org/diseases-conditions/heart-failure/symptoms-causes/syc-20373142
2. When was the site created? When was the site last updated or revised?
   It was created in April 20, 2023 Shows no reference to update

3. Who is the targeted audience? Does the web site present facts or opinions?
   The target it patients with congestive heart failure. Site presents facts
4. How complete and accurate is the content information? Does it agree with other expert sources?
   The content is accurate and is backed by numerous expert references.

5. Does the site load quickly? Is it a secured site? Are there graphics, or pictures on the page that serve a purpose? If so what are they and how do they relate to the health issue?

The site loaded very quickly. It is secure and can not be changed by outside sources. There are some graphics, and they serve a good purpose with the content listed on the site. The images show what the heart looks like inside, how the blood flows through it, and what happens to the heart when it is overworked, creating left ventricular hypertrophy.
