

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2024**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester: Spring

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN
Chandra Barnes, MSN, RN; Brian Seitz, MSN, RN, CNE
Brittany Lombardi, MSN, RN, CNE

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Clinical Assignments
- Completion of Patient Care
- Meditech Documentation
- Observation of Clinical Performance
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Clinical Discussion Rubric
- Preceptor Feedback
- Nursing Care Map Rubric
- Skills Lab Checklists/Competency Tool
- Lasater Clinical Judgment Rubric
- Virtual Simulation scenarios
- Pathophysiology Grading Rubric
- SBAR/Physician Orders Rubric
- Hand-Off Report Competency Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
2/14/2024	5H	Missed PD and Quality Scavenger Hunt due to illness	Sched. 2/22/2024- Done
Initials	Faculty Name		
CB	Chandra Barnes, MSN, RN		
FB	Fran Brennan, MSN, RN		
BL	Brittany Lombardi, MSN, RN, CNE		
AR	Amy Rockwell, MSN, RN		
BS	Brian Seitz, MSN, RN, CNE		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
a. Manage complex patient care situations with evidence of preparation and organization. (Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
b. Assess comprehensively as indicated by patient needs and circumstances. (Noticing)	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
c. Evaluate patient's response to nursing interventions. (Reflecting)	S	S	S	NA	NA	NA	NA	NA	S	S	S							
d. Interpret cardiac rhythm; determine rate and measurements. (Interpreting)	NA	NA	NA	NA	NA	NA	NA	NA	NA	S	NA							
e. Administer medications observing the six rights of medication administration. (Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
f. Perform venipuncture skill with beginning dexterity and evidence of preparation. (Responding)	NA	NA	NA	NA	NA	NA	NA	NA	NA	NA	S							
g. Respond appropriately to equipment alarms; IV pumps, ECG monitors, ventilators, etc. (Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	S

Comments:

Week 2 (1a,b)- Great job managing patient care and prioritizing care based on comprehensive assessment. FB

Week 3 (1a,b,c)- Satisfactory with managing patients during your patient management clinical experiences this week! Great job! FB

Week 4 (1c)- Great job evaluating the plan of care and patient needs to determine the order of care for several patients during this clinical rotation. FB

*End-of- Program Student Learning Outcomes

Week 7 (1c)- Satisfactory Patient Advocate/Discharge Planner clinical and with discussion via CDG posting. Preceptor comments: “Excellent in all areas. Megan was engaged in clinical, asked questions and spoke well with patients.” Great job! AR

Week 9 (1b)- Satisfactory during Cardiac Diagnostics clinical and with discussion via CDG posting. Preceptor comments: “Excellent in all areas. Megan seem very willing to learn about the different procedures. She asked some very well thought out, pertinent questions. Great job Megan!” Keep up the great work! AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	NA	S	NA	NA	NA	S	S								
a. Correlate relationships among disease process, patient’s history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding)																		
b. Monitor for potential risks and anticipate possible early complications. (Noticing, Interpreting, Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
c. Recognize changes in patient status and take appropriate action. (Noticing, Interpreting, Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (Noticing, Interpreting, Responding, Reflecting) *	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
e. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	S	S	S	NA	NA	NA	NA	NA	S	S	S							
Faculty Initials	FB	FB	FB	AR														

***When completing the 4T Care Map CDG refer to the Care Map Rubric**

Comments:

Week 2(2a,b)- Great use of clinical judgement skills to determine patient needs, plan care for patients, and implement appropriate nursing interventions. FB

Week 3 (2a,b,d)- Great job with correlation of patient condition, pathophysiology of disease process, and monitoring of any possible complications. Based off assessments you were able to implement the plan of care for several patients. FB

Week 4 (2a,b)- Good use of clinical judgement as you correlate the relationship between patient’s disease process, current symptoms, and present condition. You are also assessing for potential risks and anticipating possible complications as you prioritize care for your assigned patients. Keep up the good work! FB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	NA	NA	NA	NA	NA	S	S								
a. Critique communication barriers among team members. (Interpreting)									S									
b. Participate in QI, core measures, monitoring standards and documentation. (Interpreting & Responding)	NA	NA	NA	NA	S	S	NA	NA	S	NA	NA							
c. Discuss strategies to achieve fiscal responsibility in clinical practice. (Responding)	NA	NA	NA	NA	NA	S	NA	NA	S	NA	S							
d. Clarify roles & accountability of team members related to delegation. (Noticing)	S	S	S	NA	NA	NA	NA	NA	S	NA	NA							
e. Determine the priority patient from assigned patient population. (Interpreting) (Patient Mgmt.)	S	S	S	NA	NA	NA	NA	NA	S	NA	NA							
Faculty Initials	FB	FB	FB	AR														

Comments:

Week 2 (3a,d,e)- Great discussion, you provided barriers among team members, noticing accountability of delegation and the clarification of roles. You also did a great job interpreting facts to determine the need for prioritization of assigned patient during this clinical rotation. FB

Week 3 (3e) Great job with prioritizing the delivery of care to assigned patients assigned to you this week. FB

Week 4 (3d,e)- You have demonstrated the process of delegation, responsibility, and accountability of the interdisciplinary team members. Great job determining priority care of assigned patients. Keep up the great work! FB

Week 6 (3b)- Satisfactory during Quality Assurance/Core Measures observation and with discussion via CDG posting. Great job! AR

Week 7 (3b,c)- Satisfactory Quality Scavenger Hunt, documentation, and discussion via CDG posting. Keep up the great work! AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

4. 4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5,7)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	NA	S	S	NA	NA	S	S								
a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)									S									
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	S	S	S	NA	NA	NA	NA	NA	S	S								
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	S	S	S	NA	S	S	NA	NA	S	S								
Faculty Initials	FB	FB	FB	AR														

Objective 4a: Provide a comment for the highlighted competency each week. If no clinical experiences, put "NA" for that week.

Comments:

Week 2: one possible legal issue I observed was a patient’s family member calling asking for information on the patient, but they were not listed on the patient’s contact list, so we did not give out any information. If we had given the information it would be a violation of HIPAA.

Week 2 (a,c) Great job noticing the violation of HIPAA and the need to look up patient’s identified contact individual before offering any information on the patient. You are doing a great job presenting yourself in a professional manner through your attitude, commitment, and eagerness to learn. FB

Week 3: one ethical issue I observed was a homeless man was admitted, and he had three guests with him that were not relatives, and stated that they were homeless as well. They all insisted that they each receive their own meal tray, we educated on the rules of only the patient receiving a tray and that they were more than welcome to access the cafeteria downstairs.

Week 3 (3a) That’s a tough ethical issue, you don’t want people to starve but the hospital cannot feed individuals that are not hospitalized. If the patient is homeless he probably does not have any insurance so the hospital will get no reimbursement for any care that is delivered. FB

Week 4: one ethical issue I observed was with one of my elderly patients, they made medical decisions for themselves that contradicted what their children wanted, the children wanted to change the decisions.

Week 4 (3a) If the patient is of sound mind or has already provided documentation of their wishes, those should be followed. It makes it very difficult if the family is not granting the wishes of the patient and the patient is not capable at the time of care to express their wishes. This puts healthcare providers in a very difficult position. At times these issues have to be presented to the ethical committee of the facility if requests of the family are not reasonable or there are ulterior motives. FB

Week 6: one ethical issue that we could have experienced in the core measures clinical would be when providing education and there is conflicting information, as some patients base their lifestyles and medical decisions off of religious beliefs. There may be times education contradicts these beliefs. Excellent example! A situation like this would required thorough and accurate documentation and notifications. AR

Week 7: one possible legal issue that I observed was during my patient advocate clinical, we visited a male patient who stated he had an unpleasant experience in the emergency room before being transferred, stating that one of the staff performed an action it seemed he wasn’t educated on before hand, if this is the case then it would be without consent and a possible legal issue. This is a great example but concerning. Patient education and consent in so important! AR

*End-of- Program Student Learning Outcomes

Week 9: one possible legal issue with cardiac diagnostics, although I did not witness it, would be informed consent. It is very important for there to be thorough education of the entire procedure, and to answer any questions the patient may have beforehand. **You are absolutely correct; great example for your Cardiac Diagnostics experience. AR**

Week 10: one possible issue with the infusion center can relate to equality. While we are taught that everyone receives the same treatment regardless of personal factors, there are medications that need to be preauthorized for administration by the physician and insurance companies, if they are not then they are refused to be administered due to the high cost. If the patient cannot afford them and cannot be approved, they do not receive them.

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

5. Construct methods for self-reflection and critiquing healthcare systems, processes, practices and regulations on a weekly basis. (7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	NA	NA	S	NA	NA	S	S								
a. Reflect on your overall performance in the clinical area for the week. (Responding)	S	S	S	NA	NA	S	NA	NA	S	S								
b. Demonstrate initiative in seeking new learning opportunities. (Responding)	S	S	S	NA	NA	S	NA	NA	S	S								
c. Describe factors that create a culture of safety (error reporting, communication, & standardization, etc). (Interpreting)	NA	NA	NA	NA	S	S	NA	NA	S	NA S	S							
d. Maintain the principles of asepsis and standard/infection control precautions (Responding)	S	S	S	NA	S	NA	NA	NA	S	S								
e. Practice use of standardized EBP tools that support safety and quality. (Responding)	S	S	S	NA	S	S	NA	NA	S	S								
f. Utilize faculty feedback to improve clinical performance. (Responding & Reflecting)	S	S	S	NA	NA	NA	NA	NA	S	S								
Faculty Initials	FB	FB	FB	AR														

Comments:

Week 2 (5a)- Reported on by assigned RN during clinical rotation 1/16/2024– Excellent in all areas. Student goals: “To prepare for multiple patients, my self-goal is to be a little quicker with med pass.” Additional Preceptor comments: “First day back wen well. Will get confident as time goes on! Great job! Got to watch a para and learn about vit. K and albumin pre and post procedure benefits.” ER/FB

Week 3 (5a)- Reported on by assigned RN during clinical rotation 1/23/2024– Excellent in all areas, except NA for delegation. Student goals: “To be quicker with writing down report at beginning of shift.” Additional Preceptor comments: “Very friendly, knowledgeable, and prepared. Will make a great RN and her report taking was just fine.” LC/FB Reported on by assigned RN during clinical rotation 1/24/2024- Excellent in all areas. Student goals: “Cluster care.” Additional preceptor comments: “Megan demonstrates her knowledge and skills professionally and adequately. She will be a great nurse!” MS/FB

Week 4 (5a) Reported on by assigned RN during clinical rotation on 1/30/2024 –Excellent in all areas. Student goals: “Faster assessment while keeping it thorough in the morning first round to keep up with meds.” Additional Preceptor comments: “Great at communicating and asking questions when she doesn’t know. Great job!.”

SG/FB Reported on by assigned RN during clinical rotation on 1/31/2024 – Excellent in all areas, except satisfactory in collection/documentation of data. Student goals: “Quicker with navigating Meditech’s new system.” Additional Preceptor comments: Had a great day of clinical! Always ready to learn and ask questions.” AT/FB

*End-of- Program Student Learning Outcomes

Week 6 (5c)- Satisfactory discussion related to your Quality Department observation. AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective																		
6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*																		
Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	NA	NA	S	NA	NA	S	S								
a. Establish collaborative partnerships with patients, families, and coworkers. (Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
b. Teach patients and families based on readiness to learn and discharge learning needs. (Interpreting & Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	S							
c. Collaborate and communicate with members of the healthcare team, patients, and families to achieve optimal patient outcomes. (Responding)	S	S	S	NA	NA	S	NA	NA	S	S	S							
d. Deliver effective and concise hand-off reports. (Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	NA							
e. Document interventions and medication administration correctly in the electronic medical record. (Responding)	S	S	S	NA	NA	NA	NA	NA	S	NA	NA							
f. Consistently and appropriately posts in clinical discussion groups. (Responding and Reflecting)	S	S	S	S	S	S	NA	NA	S	S	S							
Faculty Initials	FB	FB	FB	AR														

Comments:

Week 2 (6c) Great job with communication and collaboration skills demonstrated as you worked with assigned RN and other healthcare disciplines. FB
 Week 3 (6d) Great job with effective and accurate hand off report provided to oncoming shift, 30/30 on hand-off report competency rubric. RN comments: Megan gives great reports with all necessary information!! MS/FB (6f)- Satisfactory CDG posting related to your patient management clinical experiences this week! Keep up the great work! FB

*End-of- Program Student Learning Outcomes

Week 4 (6f) This competency was a changed to an unsatisfactory because the post was to include a detailed education plan for one of your assigned patients. The education plan was very brief and did not fully meet the requirements. You also did not provide an in-text citation. If two criteria are not met as stated on the CDG grading rubric the post is considered unsatisfactory. This week's CDG provided a 2-hour timeframe, therefore there should have been detail on what education was provided, how it was provided, how it was evaluated after delivery, and any barriers of follow through. Make sure you are being thorough in your posts, answering the post entirely, and following the CDG grading rubric. (6e)- Great job with documenting accurately and appropriately for all aspects of care delivered. FB

I will ensure to complete CDGs to their entirety and include more details in the future, as well as ensure that I have an adequate citation. Thank you for addressing the "U". Even though you didn't have a CDG this week I have given you a satisfactory because you addressed the U. Thank you. AR

Week 6 (6f)- Satisfactory CDG posting related to your Quality Department observation. Keep up the great work! AR

Week 7 (6c,f)- Satisfactory CDG postings related to your Patient Advocate/Discharge Planner clinical experiences. Great job! AR

Week 9 (6f)- Satisfactory discussion via CDG posting related to your Cardiac Diagnostics clinical experience. Keep up the great work as you complete the semester! AR
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery. (1,3,4,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	NA	S	S	NA	NA	S	S								
a. Value the need for continuous improvement in clinical practice based on evidence. (Responding)																		
b. Accountable for investigating evidence-based practice to improve patient outcomes. (Responding)	S	S	S	NA	NA	S	NA	NA	S	S								
c. Comply with the FRMCSN "Student Code of Conduct Policy." (Responding)	S	S	S	NA	S	S	NA	NA	S	S								
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S	S	S	NA	S	S	NA	NA	S	S								
Faculty Initials	FB	FB	FB	AR														

Comments:

Week 4 (7d)- Great job displaying a great attitude, commitment to provide optimal care, and enthusiasm for the caring of individuals at a very vulnerable and often difficult time of their lives. **FB**

Week 6 (7a)- Satisfactory discussion related to your Quality Department observation. **AR**

Midterm- Great job in all clinical experiences throughout the first half of the semester! Keep up the great work as you proceed through the remainder of the course. **AR**

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Care Map Evaluation Tool**
AMSN
2024

Date	Nursing Priority Problem	Evaluation & Instructor Initials	Remediation & Instructor Initials

** AMSN students are required to submit one satisfactory care map (CDG) during the 3-week 4T clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback.

Comments:

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric
AMSN
2024

Student Name:		Course Objective: Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment.					
Date or Clinical Week:							
Criteria	3	2	1	0	Points Earned	Comments	
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)		
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)		
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)		
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	5. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	6. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)		
	7. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)		
Responding	8. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	9. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete		
	10. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete		
	11. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete		

*End-of- Program Student Learning Outcomes

	12. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete		
Reflecting	13. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete		
	14. Evaluation includes one of the following statements: <ul style="list-style-type: none"> • Continue plan of care • Modify plan of care • Terminate plan of care 	Complete			Not complete		
<p>Total Possible Points= 42 points 42-33 points = Satisfactory 32-21 points = Needs Improvement* < 21 points = Unsatisfactory*</p> <p>*Total points adding up to less than or equal to 32 points require revision and resubmission until Satisfactory. STUDENT NAME(S): J. Peterman, M. Barber, L. Sieger
 GROUP #: 4
 SCENARIO: Week 8 Simulation
 OBSERVATION DATE/TIME(S): 2/26/2024 1430-1630

CLINICAL JUDGMENT COMPONENTS						<u>OBSERVATION NOTES</u>
<p>NOTICING: (1,2) *</p> <ul style="list-style-type: none"> • Focused Observation: E A D B • Recognizing Deviations from Expected Patterns: E A D B • Information Seeking: E A D B 						<p>Patient identified, begins assessment. VS. Notices patient is complaining of being tired and nauseous. Notices bradycardia. Notices low SpO2. FSBS 124. Notices abnormal lung sounds. Change in rhythm noticed.</p> <p>Patient identified. Applies monitor. Begins assessment. Notices patient has an elevated heart rate with complaints of palpitations. Patient begins CO not feeling well, coughing.</p> <p>Notices patient is unresponsive, code blue called.</p>
<p>INTERPRETING: (1,2) *</p> <ul style="list-style-type: none"> • Prioritizing Data: E A D B • Making Sense of Data: E A D B 						<p>Heart rate and blood pressure interpreted as being below normal. Interpreted lung sounds- crackles. Rhythm interpreted as sinus bradycardia. Rhythm changed interpreted as 2nd degree AV block Type I. (changed to 2nd degree type 2).</p> <p>Heart rhythm interpreted as atrial fibrillation. Lung sounds interpreted to be crackles.</p> <p>Patient interpreted to be in cardiac arrest. Interprets correct doses of medications. Interprets need to address airway.</p>
<p>RESPONDING: (1,2,3,5,6,7) *</p> <ul style="list-style-type: none"> • Calm, Confident Manner: E A D B • Clear Communication: E A D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: B E A D 						<p>O2 applied. Assessment completed before calling physician. Call to physician to give update and request atropine for low heart rate. Order received and read back. Atropine prepared, patient identified, atropine administered. Call to provider to report patient is in a 2nd degree type 1 heart block- changed to 2nd degree type 2. Epinephrine drip (and dopamine) suggested as an alternate drug.</p> <p>Questions asked to determine orientation. O2 applied. Call to provider to report symptoms. Recommends diltiazem, wants to give a fluid bolus first. Order received (remember to read back). Fluid bolus administered. Lung sounds reassessed following fluid bolus, revealing crackles. Call to provider, recommends diltiazem. Orders received.</p> <p>Code blue called, CPR started, fast patches applied, shock delivered, CPR, epi administered. Shock delivered. Epi Q3 min. Amiodarone considered as an alternate drug.</p>

*End-of- Program Student Learning Outcomes

<p>REFLECTING: (1,2,5) *</p> <ul style="list-style-type: none"> • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B 	<p>Discussed first scenario, identification and treatments for symptomatic bradycardias. Reviewed chart to look for causes of heart block (metoprolol, patient history). Reviewed heart block interpretation. Talked about holding beta blocker to see if sinus rhythm will be restored. Alternate drugs for complete heart block discussed (epi (drip), dopamine). Discussed low BP due to cardiac output going down. Discussed pacing options for symptomatic bradycardias (transcutaneous, transvenous, permanent). Talked about the importance of adjusting electrical current to obtain capture, need for pain medication.</p> <p>Discussed recognition of A-fib and associated symptoms. Talked about goals of diltiazem therapy. Discussed amiodarone as an alternate medication to diltiazem. Explanation and demonstration of synchronized cardioversion; discussed differences between cardioversion and defibrillation, the need for sedating medications prior to delivering shock. Great teamwork and communication.</p> <p>Discussed the importance of immediate CPR and defibrillation with pulseless patient. Discussed alternative to epi (amiodarone). Potential causes of code blue discussed (review of chart reveals low K+). Defibrillation discussed.</p>
<p>SUMMARY COMMENTS: * = Course Objectives</p> <p>Satisfactory completion of the simulation scenario is a score of “Developing” or higher in all areas of the rubric.</p> <p>E= Exemplary A= Accomplished D= Developing B= Beginning</p> <p>Scenario Objectives:</p> <ul style="list-style-type: none"> • Differentiate the clinical characteristics and ECG patterns of common dysrhythmias. (1,2)* • Choose nursing interventions for patients who are experiencing dysrhythmias. (1)* 	<p>Lasater Clinical Judgement Rubric Comments:</p> <p>Noticing: Focuses observation appropriately; regularly observes and monitors a wide variety of objective and subjective data to uncover any useful information. Recognizes most obvious patterns and deviations in data and uses these to continually assess. Assertively seeks information to plan intervention; carefully collects useful subjective data from observing and interacting with the patient and family.</p> <p>Interpreting: Generally focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data. Even when facing complex, conflicting, or confusing data, is able to (a) note and make sense of patterns in the patient’s data, (b) compare these with known patterns (from the nursing knowledge base, research, personal experience, and intuition), and (c) develop plans for interventions that can be justified in terms of their likelihood of success.</p> <p>Responding: Generally displays leadership and confidence and is able to control or calm most situations; may show stress in particularly</p>

*End-of- Program Student Learning Outcomes

<ul style="list-style-type: none"> • Differentiate between defibrillation and cardioversion. (1,2,6)* • Communicates collaboratively to other healthcare providers utilizing SBAR. (3,5,6,7)* 	<p>difficult or complex situations. Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Interventions are tailored for the individual patient; monitors patient progress closely and is able to adjust treatment as indicated by patient response. Displays proficiency in the use of most nursing skills; could improve speed or accuracy.</p> <p>Reflecting: Reflecting: Evaluates and analyzes personal clinical performance with minimal prompting primarily about major events or decisions; key decision points are identified, and alternatives are considered. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses.</p> <p>You are satisfactory for this simulation. Great job! BS</p>

***Course Objectives**

Comments:

Meditech Documentation: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders/SBAR: Satisfactory completion of physician's order lab per the SBAR skills competency rubric: phone call to physician with SBAR report, receiving and reading back multiple physician orders, and hand-off report given to the next student in rotation. Discussion of the treatment, medications, and plan of care for a patient experiencing NSTEMI and STEMI. CB/BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! BL

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag-valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Start: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/BL/CB/BS

Blood Admin/IV Pumps: Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing Change: Satisfactory central line dressing change participation providing proper technique guidelines, maintenance of central line ports, and line flushing. FB

Ports/Blood Draw: You were satisfactory in accessing and de-accessing an infusaport device, demonstrated proper technique on how to draw blood from a CVAD, and properly labeled a blood tube per hospital policy. Great job! CB

Head to Toe Assessment: Satisfactory completion of the Head to Toe Assessment. Great job! BL/BS

*End-of- Program Student Learning Outcomes

ECG/Telemetry Placements/Hand-off report/CT: Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium tutorial; satisfactory completion of handoff report activity. BL/BS

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2024**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
