ONLINE CONTENT (1 H)

Unit Objectives:

- Discuss trends associated with the computerized electronic record, e-health, and mobile devices. (6,7)*
- Review the steps in evaluating the validity of a website. (7)*

***Course Objectives**

Review the assignment and place your answers to the questions in the Z-CH # 23 drop box by 0800 on March 25, 2024.

Patients often use the Internet to search for health-related issues. Search the Internet for any health-related issue of your choosing. Evaluate the website by answering the following questions:

1. Do the authors have qualifications listed? What are their qualifications? What is the domain? (.gov, .edu, .org) The qualifications listed is MD is next to the author's name. The domain is .org.
2. When was the site created? When was the site last updated or revised? When it was created is not listed on the website. The site was last updated January 31, 2024.
3. Who is the targeted audience? Does the web site present facts or opinions? The targeted audience is for those who have concerns or are experiencing issues with mastitis. The website presents facts and not opinions.
4. How complete and accurate is the content information? Does it agree with other expert sources? The content information is very complete and accurate for what a person may need to know, and it also agrees with other expert sources.
5. Does the site load quickly? Is it a secured site? Are there graphics, or pictures on the page that serve a purpose? If so what are they and how do they relate to the health issue? The site loads quickly, it is secure, and there are graphics that relate to the health related topic that I chose to search, which was mastitis and the picture that was provided was of a mother breastfeeding.
