| a. Panic disorder | e. GAD |
| b. Agoraphobia | f. Social anxiety disorder |
| c. Specific phobia | g. OCD |
| d. Trichotillomania | h. Body dysmorphic disorder |

Scenario	Dissociative Disorder
Janet becomes panicky when she gets near a dog.	
Patricia weighs and measures her food. Long after everyone else has finished eating, she is still calculating the caloric value of her food and remeasuring her portion.	
Frances will not leave her home unless a friend or relative goes with her.	
The nurse asks Heather about the bald spots on her scalp. Heather replies that when she gets nervous, she feels better if she pulls on her hair.	
Sonja refuses to eat in a restaurant. She is afraid others will laugh at the way she eats.	
About once a week, without warning, Stanley's heart begins to pound, he becomes short of breath, and sometimes he experiences chest pain. The doctor has ruled out physical problems.	
Janie wants desperately to visit a foreign country with her friends, but because of her fear of needles, she has not been able to get the required immunizations.	
Helen is a very restless person. She is always nervous and keyed up. She worries about many things over which she has no control.	
Virginia has some freckles across her nose and cheeks. She visits dermatologists regularly trying to find one who will "get rid of these huge, ugly spots on my skin."	
George never volunteers to speak in class. He is afraid his classmates will laugh at what he says.	
Carl will go to church, but only if he can sit right near the door.	
When Sally sees a spider on the floor, she screams and runs out of the room.	
Every day when Wanda gets home from work, she cleans her house. She has told her friends not to call her during this time, and if anything	

4. What are the primary nursing interventions for a person in panic anxiety?
