#### **Patient Scenarios:**

1. Twenty-four-year-old Alisha was informed that her spouse was killed in an industrial accident. An hour later, Alisha was found walking down a busy highway saying, "I'm looking for my lucky rabbit's foot. Everything will be okay if I can just find my lucky rabbit's foot." What type of crisis is Alisha experiencing? What are some nursing interventions for this type of crisis?
  - a. Dispositional Crisis
  - b. Nursing interventions include offering her a mental health counselor to provide support and guidance in terms of giving alternatives.
2. Savannah was transferred on her job to a distant city. Her spouse, Carson, had never lived away from his family before. He became despondent, living only for daily phone calls to his relatives back in their hometown. What type of crisis is Carson experiencing? What are some nursing interventions for this type of crisis?
  - a. Crisis of anticipated life transitions
  - b. Nursing interventions include encouraging the patient to vent their feelings, provide reassurance and support.
3. Faith had a history of obsessive-compulsive disorder. She was phobic about germs and washed her hands many times every day. Last night, after a party, she had sex with a fellow college student she barely knew. Today, she is extremely anxious and keeps repeating that she knows she has AIDS. Her roommate cannot get her to come out of the shower. What type of crisis is Faith experiencing? What are some nursing interventions for this type of crisis?

- a. *Crisis reflecting Psychopathology*
  - b. Nursing interventions include initially reducing anxiety about being infected, encourage patient to explain their feelings after anxiety has gone away, and have someone stay with her for safety and security.
  
4. Elijah knew when he married Matt that he had a drinking problem, but he believed Matt would change. Last night, after becoming intoxicated, Matt beat Elijah until he was unconscious. When he regained consciousness, Matt was gone. Elijah took a taxi to the emergency department of the local hospital. What type of crisis is Elijah experiencing? What are some nursing interventions for this type of crisis?
  - a. Psychiatric emergencies
  - b. Nursing interventions include monitoring vitals, maintain airway, discuss ways to effectively cope with feeling related to self-esteem.
  
5. At age 13, Sue was raped by a family member. The abuse continued for several years. The abuser threatened to kill Sue's mother if she told. Sue is 23 years old now and recently became engaged. She has never had an intimate relationship and experiences panic attacks at the thought of her wedding night. What type of crisis is Sue experiencing? What are some nursing interventions for this type of crisis?
  - a. *Maturational and Developmental crisis*
  - b. Nursing interventions include helping Sue with anxiety reduction, encourage her to seek counseling to express feeling about the situation and how it affects her today.
  
6. Nevaeh was proud of her home. She had saved for many years and built it herself virtually from the ground up. Last night, while she and her spouse were visiting in a nearby town, a tornado ripped through their neighborhood and totally destroyed the home. Nevaeh is devastated and for more than a week has sat and stared into space, barely eating and rarely speaking. What type of crisis is Nevaeh experiencing? What are some nursing interventions for this type of crisis?
  - a. Crisis resulting from traumatic stress
  - b. Nursing interventions include offering Nevaeh the opportunity to talk about her experience about what the house meant to her, explore new effective coping mechanisms arising from the tornado destroying her home, discuss stages of grief.
