

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing- 2024
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student: Karli Schnellinger

Final Grade: Satisfactory/Unsatisfactory

Semester: Summer Session

Date of Completion:

Faculty: Chandra Barnes MSN, RN, Fran Brennan MSN, RN, Monica Dunbar, DNP, RN
Brittany Lombardi MSN, RN, CNE, Heather Schwerer, MSN, RN

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

Clinical Patient Profile
Meditech Documentation
Evaluation of Clinical Performance Tool
Onsite Clinical Debriefing
Online Discussion Rubric
Nursing Process Recording Rubric
Geriatric Assessment Rubric
Lasater Clinical Judgment Rubric
Virtual Simulation scenarios
EBP Presentations
Hospice Reflection Journal
Observation of Clinical Performance
Clinical Nursing Therapy Group
Nursing Care Map Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
6/8/2024	1H	Missed SARCC Survey	6/10/2024/0800
Initials	Faculty Name		
CB	Chandra Barnes, MSN, RN		
FB	Frances Brennan, MSN, RN		
MD	Monica Dunbar, DNP, RN		
BL	Brittany Lombardi MSN, RN, CNE		
HS	Heather Schwerer, MSN, RN		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded “U.” A “U” in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the “U,” the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Objective										
	1. Apply the principles of psychiatric theory in the care of adolescent to geriatric patients with a mental illness diagnosis. (1, 2, 3, 5, 6, 7, 8)*									
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	NA	S	NA	NA						
a. Demonstrate an understanding of the relationship between mental health, physical health, and environment for those patients diagnosed with a mental disorder. (noticing)										
b. Correlate prescribed therapies, psychotherapy, and alternative therapies in relation to the patient's mental disorder. (interpreting)	NA	S	NA	NA						
c. Provide culturally and spiritually competent care within the scope of nursing that meets the needs of assigned patients from diverse cultural, racial and ethnic backgrounds. (responding)	NA	S	S	S						
d. Identify appropriate methods that will assist the patient to regain independence and achieve self-care (noticing)	NA	NA	NA	NA						
e. Recognize social determinants of health and the relationship to mental health. (reflecting)	NA	S	S	NA						
f. Develop and implement an appropriate nursing therapy group activity. (responding)	NA	NA	NA	NA						
g. Develop a geriatric physical/mental health assessment and education plan. (Geriatric Assessment) (responding)				S						
Faculty Initials	HS	FB	MD							
Clinical Location	No Clinical	Sandusky Artisans	Hospice	Detox						

Comments:

* End-of-Program Student Learning Outcomes

Week 2 (1a,b,c,e)- Great job with understanding the relationship between substance abuse and how this effects mental health of an individual. You provided the correlation of mental illness the assistance of group therapy and how the needs of diverse cultures are met through this therapy. You also recognized the effect social determinants of health can have on the use of addictive substances and how individuals recover or cope from addiction. FB

Objective										
2. Synthesize concepts related to psychopathology, health assessment data, evidenced based practice and the nursing process using clinical judgment skills to plan and care for patients with mental illness. (1, 2, 3, 4, 5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	NA	NA	NA	NA						
a. Assemble a health history which includes past and current history of mental and medical health issues and chief reason for hospitalization. (noticing)	NA	NA	NA	NA						
b. Identify patient's subjective and objective findings including labs, diagnostic tests, and risk factors. (noticing, recognizing)	NA	NA	S	NA						
c. Demonstrate ability to identify the patient's use of coping/defense mechanisms. (noticing, interpreting)	NA	S	NA	NA						
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (noticing, interpreting, responding, reflecting)*	NA	NA	NA	NA						
e. Apply the principles of asepsis and standard precautions. (responding)	NA	NA	S	NA						
f. Practice use of standardized EBP tools that support safety and quality. (noticing, responding)	NA	NA	NA	NA						
Faculty Initials	HS	FB	MD							

*When completing the 1South Care Map CDG refer to the Care Map Rubric

Comments:

Week 2 (2c)- Identification of coping strategies and defense mechanisms were provided as you interpreted the objectives and effect of the SARCC meeting. FB

Objective										
3. Refine basic verbal and nonverbal therapeutic communication skills when interacting with patients, families, and members of the health care team. (1, 2, 3, 5, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Illustrate professionally appropriate and therapeutic communication skills in interactions with patients, and families. (responding)	NA	S	S	S						
b. Demonstrate professional and appropriate communication with the treatment team by using the SBAR format for handoff communication during transition of care. (responding)	NA	NA	NA	NA						
c. Identify barriers to effective communication. (noticing, interpreting)	NA	S	S	S						
d. Develop effective therapeutic responses. (responding)	NA	S	S	S						
e. Develop a satisfactory patient-nurse therapeutic communication. (Nursing Process Study) (responding, reflecting)				NA						
f. Posts respectfully and appropriately in clinical discussion groups. (responding, reflecting)	NA	S	S	S						
g. Respect the privacy of patient health and medical information as required by federal HIPAA regulations. (responding)	NA	S	S	S						
h. Teach patient/family based on readiness to learn and patient needs. (responding, reflecting)	NA	NA	NA	NA						
Faculty Initials	HS	FB	MD							

Comments:

Week 2 (3a,c,d)- Great job with communication skills during the SARCC meeting. You identified many barriers that can occur including culture, individual personality, and the milieu present at the meeting. You participated responding in a therapeutic manner as you participated in the meeting. Great job! (3f) CDG was posted on time and followed all expectations from CDG rubric. FB

* End-of-Program Student Learning Outcomes

Objective										
4. Demonstrate knowledge of frequently prescribed medications utilized in treating mental illness. (1, 4, 5, 6, 7)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Observe &/or administer medication while observing the six rights of medication administration. (responding)	NA	NA	S	S						
b. Demonstrate ability to discuss the uses and implication of psychotropic medications. (responding, reflecting)	NA	NA	NA	NA						
c. Identify the major classification of psychotropic medications. (interpreting)	NA	NA	NA	NA						
d. Identify common barriers to maintaining medication compliance. (reflecting)	NA	NA	S	S						
e. Explain the effects, adverse effects, nursing interventions and safety issues, related to the use of psychotropic medications. (responding, reflecting)	NA	NA	NA	NA						
Faculty Initials	HS	FB	MD							

Comments:

* End-of-Program Student Learning Outcomes

Objective										
5. Develop an awareness of community Mental Health resources and services. (5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify the need for the community resources-detox unit available to patients with a mental illness. (noticing, interpreting)	NA	NA	NA	NA						
b. Discuss recommendations for referrals to appropriate community resources and agencies. (reflecting)	NA	NA	NA	NA						
c. Collaborate with the Erie County Health Department Detox Unit while observing the care of a patient with mental illness-substance abuse. (Community Agency Observation-Detox Unit) **	NA	NA	NA	S						
d. Recognize and describe the need for substance abuse recovery resources. (Alcoholics/Narcotics Anonymous at the Sandusky Artisans Recovery Center (Observation))	NA	S	NA	NA						
Faculty Initials	HS	FB	MD							

****Alternative Assignment
Comments:**

Week 2 (5d)- Great job discussing the need and benefits for referrals to the SARCC community resource. You also recognize the need for this type of resource in the community and the great asset it is to have available. FB

* End-of-Program Student Learning Outcomes

Objective										
	6. Demonstrate satisfactory proficiency when using informatics and techniques in the assessment of patients with a mental illness diagnosis. (1, 2, 3, 4, 6, 8)*									
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	NA	NA	NA	NA						
a. Demonstrate competence in navigating the electronic health record. (responding)										
b. Demonstrate satisfactory documentation of psychiatric assessments and nursing notes utilizing the electronic health record. (responding)	NA	NA	NA	NA						
c. Demonstrate the use of technology to identify mental health resources. (responding)	NA	NA	NA	NA						
Faculty Initials	HS	FB	MD							

Comments:

Objective

7. Evaluate self-participation in patient care experiences with the focus on safety, ethical, legal, and professional responsibilities. (7)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify your strengths for care delivery of the patient with mental illness. (reflecting)	NA	S	S	S						
b. Demonstrates effective use of strategies to reduce risk of harm to self or others. Create a safe environment for patient care. (responding)	NA	NA	S	S						
c. Illustrate active engagement in self-reflection and debriefing. (reflecting)	NA	NA S	S	S						
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE" – attitude, commitment, and enthusiasm during all clinical interactions. (responding)	NA	S	S	S						
e. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (responding)	NA	S	S	S						
f. Comply with the standards outlined in the FRMCSN policy, "Student Conduct While Providing Nursing Care." (responding)	NA	S	S	S						
Faculty Initials	HS	FB	MD							

Objective 7a: Provide a comment for the highlighted competency each week of your 1 South clinical. Put "NA" for the weeks not assigned to 1 South.

Comments:

Week 2 7a: I really enjoyed going to the dual-diagnosis meeting at the Sandusky Artisans. I think it allowed me to see the other side of recovery, whereas in the hospital you might only see the start of the recovery process. A strength for this week would be my active listening skills and participating during the meeting. At the end, when we were all getting our things together to leave, one of the participants came up and thanked me for coming and sharing my thoughts, and how much she really appreciated us. This showed how much it can really mean to someone when you just sit and listen to them as they express how they are feeling, and everything they have been through. **Exactly, we all can make a difference by practicing kindness and listening! Great job this week. FB**

Week 2 (7c-f)-You demonstrated active engagement and participation with an ACE attitude, professional behavior, and excellent student code of conduct. **FB**

Week 3 7a: A strength for this week's clinical experience at hospice would be when I sat down and held hands with one of the patients when they were super nervous and anxious feeling. When the nurse and I went in to give this patient her medications, she grabbed my hand, and did not want to let go, and when we tried to leave the room, you

could tell she felt scared, so I stayed awhile until she was ready for me to leave and she felt okay. This was definitely something different that I have to do that I have never done at a clinical experience, and it made me very grateful to be in the position I am to help people on their worst days. **This is wonderful! I am so glad you were able to have this experience! MD**

Week 3 Hospice Objective 7C-You had a wonderful reflection journal this week! You were able to turn in your reflection journal on time, have the adequate word count, and meet all of the objectives! It really was evident that you had an eye-opening experience with this type of nursing. I appreciated reading your reflection journal and all you were able to learn about this clinical setting. MD

Date	Nursing Priority Problem	Evaluation & Instructor Initials	Remediation & Instructor Initials

Week 3 Hospice Objective 7E-This week in hospice clinical you were rated excellent in all areas by your nurse you were working with. Great job! MD

Week 4 7a: A strength this week at detox would be sitting in during a meeting with one of the case managers and a patient during my time there, and learning as much as I could within the time I had. Since I have never worked in a hospital before, I have never seen what case managers do especially in a detox unit setting. It was interesting to listen in on the types of questions he was asking the patient as well as having different comforting conversations with her throughout.

****Psych students are required to submit one satisfactory care map (CDG) during the 4-day 1 South clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback.**

Firelands Regional Medical Center School of Nursing
Nursing Process Grading Rubric- Psychiatric Nursing 2024

Criteria	Ratings				Points Earned
Criterion #1 Process Recording is organized and	5 Points Typed process recording with spelling and grammar correct.	3 Points Typed process recording with 5 or less spelling and grammar mistakes.	1 Points Typed process recording with 5 or more spelling and grammar mistakes.	0 Points Process recording is not typed with 10 or more spelling and	

neatly completed				grammar mistakes.	
Criterion #2 Assessment	7 Points Identifies pertinent patient background, current medical and psychiatric history. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	5 Points Identifies areas of assessment but incomplete data provided in 2 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	3 Point Identifies areas of assessment but incomplete data provided in 3 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	0 Points Missing data in all 4 areas of assessment.	
Criterion #3 Mental Health Nursing Diagnosis (priority problem)	8 Points Identifies priority mental health problem (not a medical diagnosis) providing at least 5 relevant/related data and potential complications.	5 Points Identifies Priority mental health problem provides at least 4 relevant/related data and potential complications.	3 Point Identifies priority mental health problem provides at least 3 relevant/related data and potential complications.	0 Points Does not provide priority mental health problem and/or less than 3 relevant/related data and potential complications.	
Criterion #4 Nursing Interventions	10 Points Identifies at least 5 pertinent nursing interventions in priority order including a rationale and timeframe. Interventions must be individualized and realistic. Identifies a therapeutic communication goal.	6 Points Identifies 4 or less nursing interventions in priority order including a rationale and time frame. Interventions are not individualized and/or realistic. Identifies a therapeutic communication goal.	4 Point Identifies 4 or less nursing interventions but not prioritized and/or no rationale or time frame provided. Interventions are not individualized and/or realistic. Identifies a therapeutic communication goal.	0 Points Identifies less than 4 interventions, not prioritized, individual, realistic, no rationale, no time frame. No therapeutic communication goal.	
Criterion #5 Process Recording	15 Points Provides direct quotes for all interchanges. Nonverbal and Verbal behavior is described for all interactions. Students thoughts and feelings concerning each interaction is provided.	10 Points Direct quotes are not provided. Nonverbal and Verbal behavior is described for at least 7 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	5 Point Direct quotes are not provided. Nonverbal and Verbal behavior is described for at least 5 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	0 Points Direct quotes are not provided. Nonverbal and Verbal behavior is not described for less than half of the interactions. Student thoughts and feelings for less than half of the interactions provided.	

Criterion #6 Process Recording	20 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic) and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 75% of interactions.	15 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 50% of interactions.	10 Point Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), no technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 25% of interactions.	0 Points Analysis not provided for each interaction	
Criterion #7 Process Recording	10 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 10 interchanges between patient and student.	6 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 7 interchanges between patient and student.	4 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 5 interchanges between patient and student.	0 Points There was less than 5 interchanges between patient and student provided.	
Criterion #8 Evaluation	15 Points Self-evaluation of communication with patient. Identify at least 3 strengths and 3 weaknesses of therapeutic communication.	10 Points Self-evaluation of communication with patient. Identified 2 strengths and 2 weaknesses of therapeutic communication.	5 Point Self-evaluation of communication with patient. Identified 1 strength and 1 weakness of therapeutic communication.	0 Points No self-evaluation was provided.	
Criterion #9 Evaluation	10 Points Identify at least 3 barriers to communication including interventions or communication that could have been done differently. Identify all pertinent social determinants of health.	6 Points Identify at least 2 barriers to communication including interventions or communication that could have been done differently. Identify all pertinent social determinants of health.	4 Point Identify at least 2 barriers to communication did not include interventions or communication that could have been done differently. Did not identify any pertinent social determinants of health.	0 Points Identify at least 1 barrier to communication did not include interventions or communication that could have been done differently. Did not identify any pertinent social determinants of health.	
Total Possible Points= 100 points 77-100 points= Satisfactory completion. 76-53 points= Needs Improvement < 53 points= Unsatisfactory					Total Points:

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date:
