

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing- 2024
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:

Kailee Felder

Final Grade: Satisfactory/Unsatisfactory

Semester: Summer Session

Date of Completion:

Faculty: Chandra Barnes MSN, RN, Fran Brennan MSN, RN, Monica Dunbar, DNP, RN
Brittany Lombardi MSN, RN, CNE, Heather Schwerer, MSN, RN

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

Clinical Patient Profile
Meditech Documentation
Evaluation of Clinical Performance Tool
Onsite Clinical Debriefing
Online Discussion Rubric
Nursing Process Recording Rubric
Geriatric Assessment Rubric
Lasater Clinical Judgment Rubric
Virtual Simulation scenarios
EBP Presentations
Hospice Reflection Journal
Observation of Clinical Performance
Clinical Nursing Therapy Group
Nursing Care Map Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
6/3/2024	1 hour	Late Therapy Group Assignment	6/3/2024
6/7/2024	1 hour	Late vSim	6/7/2024
Initials	Faculty Name		
CB	Chandra Barnes, MSN, RN		
FB	Frances Brennan, MSN, RN		
MD	Monica Dunbar, DNP, RN		
BL	Brittany Lombardi MSN, RN, CNE		
HS	Heather Schwerer, MSN, RN		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded “U.” A “U” in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the “U,” the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Objective										
	1. Apply the principles of psychiatric theory in the care of adolescent to geriatric patients with a mental illness diagnosis. (1, 2, 3, 5, 6, 7, 8)*									
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	N/A	S	S	N/A						
a. Demonstrate an understanding of the relationship between mental health, physical health, and environment for those patients diagnosed with a mental disorder. (noticing)										
b. Correlate prescribed therapies, psychotherapy, and alternative therapies in relation to the patient's mental disorder. (interpreting)	N/A	S	S	N/A						
c. Provide culturally and spiritually competent care within the scope of nursing that meets the needs of assigned patients from diverse cultural, racial and ethnic backgrounds. (responding)	N/A	S	S	N/A						
d. Identify appropriate methods that will assist the patient to regain independence and achieve self-care (noticing)	N/A	S	S	N/A						
e. Recognize social determinants of health and the relationship to mental health. (reflecting)	N/A	S	S	N/A						
f. Develop and implement an appropriate nursing therapy group activity. (responding)	N/A	S	S	N/A						
g. Develop a geriatric physical/mental health assessment and education plan. (Geriatric Assessment) (responding)				S						
Faculty Initials	MD	MD	FB							
Clinical Location	N/A	1S	1S	N/A						

Comments:

* End-of-Program Student Learning Outcomes

Week 2 Objective 1A and E-This week you were able to demonstrate an understanding for mental, physical, and environmental health along with recognizing SDOH with your responses in your CDG posting. Great job! MD

Week 2 Objective 1F-This week you were able to perform an appropriate nursing therapy group activity to encourage the patients to share and express themselves. Great job! MD

Week 3 (1a,c,d,f) Great job with understanding the relationship of mental illness, physical signs and symptoms, and risk factors as identified on your care map. You demonstrated empathy towards your assigned patient while meeting cultural and any spiritual needs during this week's clinical rotation. Appropriate methods to assist your patient in regaining an independence and regaining self-care was also displayed during clinical this week, great job! FB

Objective										
2. Synthesize concepts related to psychopathology, health assessment data, evidenced based practice and the nursing process using clinical judgment skills to plan and care for patients with mental illness. (1, 2, 3, 4, 5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	N/A	S	S	N/A						
a. Assemble a health history which includes past and current history of mental and medical health issues and chief reason for hospitalization. (noticing)	N/A	S	S	N/A						
b. Identify patient's subjective and objective findings including labs, diagnostic tests, and risk factors. (noticing, recognizing)	N/A	S	S	N/A						
c. Demonstrate ability to identify the patient's use of coping/defense mechanisms. (noticing, interpreting)	N/A	S	S	N/A						
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (noticing, interpreting, responding, reflecting)*	N/A	S	S NI	N/A						
e. Apply the principles of asepsis and standard precautions. (responding)	N/A	S	S	N/A						
f. Practice use of standardized EBP tools that support safety and quality. (noticing, responding)	N/A	S	S	N/A						
Faculty Initials	MD	MD	FB							

*When completing the 1South Care Map CDG refer to the Care Map Rubric

Comments:

* End-of-Program Student Learning Outcomes

Week 2 Objective 2A-B, and F-This week you did a great job of assembling a health history, identifying subjective and objective findings, and using EBP tools to support safety and quality in your CDG post. MD

Week 3 (2a,b,d) Great job identifying your patient's mental health history, reason for this admission, and correlating with medical health issues. You were able to assess for subjective and objective data including labs, diagnostic testing, and risk factors to provide a priority problem for your assigned patient. Kailee, your care map is not completed satisfactory because you did not provide an in-text citation, you did provide a reference, therefore this competency was changed to a "NI". You do need to complete with a satisfactory. Please see attached care map rubric. FB

Week 3 Care Map: I fixed my care map by adding an in-text citation to receive a satisfactory grade. How I can prevent this in the future is by carefully reading the rubric to make sure that I am doing my assignments correctly.

Objective										
3. Refine basic verbal and nonverbal therapeutic communication skills when interacting with patients, families, and members of the health care team. (1, 2, 3, 5, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Illustrate professionally appropriate and therapeutic communication skills in interactions with patients, and families. (responding)	N/A	S	S	N/A						
b. Demonstrate professional and appropriate communication with the treatment team by using the SBAR format for handoff communication during transition of care. (responding)	N/A	S	S	N/A						
c. Identify barriers to effective communication. (noticing, interpreting)	N/A	S	S	N/A						
d. Develop effective therapeutic responses. (responding)	N/A	S	S	N/A						
e. Develop a satisfactory patient-nurse therapeutic communication. (Nursing Process Study) (responding, reflecting)				S						
f. Posts respectfully and appropriately in clinical discussion groups. (responding, reflecting)	N/A	S	S NI	N/A						
g. Respect the privacy of patient health and medical information as required by federal HIPAA regulations. (responding)	N/A	S	S	N/A						
h. Teach patient/family based on readiness to learn and patient needs. (responding, reflecting)	N/A	S	S	N/A						
Faculty Initials	MD	MD	FB							

Comments:

Week 2 Objective 3C-This week you were able to identify barriers to effective communication in your CDG posting. MD

Week 2 Objective 3F-You had a wonderful CDG this week! You were able to turn in your CDG on time, have the adequate word count for your post, and meet all of the objectives for the CDG! For the Day 1 in-text citation it should read: (Hesler, 2023) not Mayo Clinic. For Day 2 in-text citation should read: (Vallerand & Sanoski, 2024) not Skyscape. Both of your references were good. Please reach out if you have questions! MD

* End-of-Program Student Learning Outcomes

Week 3 (3c,f,h) Great job with the identification of barriers for your assigned patient that may hamper their communication skills. You did a great job with CDG post, following all expectations of CDG rubric for day 4 of 1-south clinicals. Day 3 clinical was the care map which did not have an in-text citation, therefore competency 3f was changed to a "NI". Great job with assessing your patient for the readiness to learn and comprehend adaptive coping skills and behaviors. FB

Week 3 Care Map: I added in my in-text citation so that way I receive the satisfactory grade. How I can prevent this is by making I cite my sources on all projects in the future.

Objective										
4. Demonstrate knowledge of frequently prescribed medications utilized in treating mental illness. (1, 4, 5, 6, 7)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Observe &/or administer medication while observing the six rights of medication administration. (responding)	N/A	S	S	N/A						
b. Demonstrate ability to discuss the uses and implication of psychotropic medications. (responding, reflecting)	N/A	S	S	N/A						
c. Identify the major classification of psychotropic medications. (interpreting)	N/A	S	S	N/A						
d. Identify common barriers to maintaining medication compliance. (reflecting)	N/A	S	S	N/A						
e. Explain the effects, adverse effects, nursing interventions and safety issues, related to the use of psychotropic medications. (responding, reflecting)	N/A	S	S	N/A						
Faculty Initials	MD	MD	FB							

Comments:

Week 2 Objective 4B-E-In your CDG post this week you were able to provide information about implications of psychotropic medications, classifications of medications, barriers to medication compliance, and specific details about the medications you administered this week. Great job! MD

Week 3 (4a-e) Excellent job with medication administration following all six rights of administration. You demonstrated knowledge and implications for each medication administered, identified classification, significant signs and symptoms, pertinent nursing interventions, and any safety concerns, great job! FB

* End-of-Program Student Learning Outcomes

Objective										
5. Develop an awareness of community Mental Health resources and services. (5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify the need for the community resources-detox unit available to patients with a mental illness. (noticing, interpreting)	N/A	N/A	N/A	N/A						
b. Discuss recommendations for referrals to appropriate community resources and agencies. (reflecting)	N/A	N/A	N/A	N/A						
c. Collaborate with the Erie County Health Department Detox Unit while observing the care of a patient with mental illness-substance abuse. (Community Agency Observation-Detox Unit) **	N/A	N/A	N/A	N/A						
d. Recognize and describe the need for substance abuse recovery resources. (Alcoholics/Narcotics Anonymous at the Sandusky Artisans Recovery Center (Observation))	N/A	N/A	NA	N/A						
Faculty Initials	MD	MD	FB							

****Alternative Assignment
Comments:**

* End-of-Program Student Learning Outcomes

Objective										
6. Demonstrate satisfactory proficiency when using informatics and techniques in the assessment of patients with a mental illness diagnosis. (1, 2, 3, 4, 6, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	N/A	S	S	N/A						
a. Demonstrate competence in navigating the electronic health record. (responding)	N/A	S	S	N/A						
b. Demonstrate satisfactory documentation of psychiatric assessments and nursing notes utilizing the electronic health record. (responding)	N/A	S	S	N/A						
c. Demonstrate the use of technology to identify mental health resources. (responding)	N/A	S	S	N/A						
Faculty Initials	MD	MD	FB							

Comments:

Week 2 Objective 6A-You were able to proficiently navigate the EHR independently. MD

Week 3(6a-c) Great job using the electronic health record to gather information on your assigned patient. FB

* End-of-Program Student Learning Outcomes

Objective

7. Evaluate self-participation in patient care experiences with the focus on safety, ethical, legal, and professional responsibilities. (7)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify your strengths for care delivery of the patient with mental illness. (reflecting)	N/A	S	S	N/A						
b. Demonstrates effective use of strategies to reduce risk of harm to self or others. Create a safe environment for patient care. (responding)	N/A	S	S	N/A						
c. Illustrate active engagement in self-reflection and debriefing. (reflecting)	N/A	S	S	N/A						
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE" – attitude, commitment, and enthusiasm during all clinical interactions. (responding)	N/A	S	S	N/A						
e. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (responding)	N/A	S U	S	N/A						
f. Comply with the standards outlined in the FRMCSN policy, "Student Conduct While Providing Nursing Care." (responding)	N/A	S	S	N/A						
Faculty Initials	MD	MD	FB							

Objective 7a: Provide a comment for the highlighted competency each week of your 1 South clinical. Put "NA" for the weeks not assigned to 1 South.

Comments:

Week 2: I feel like my strength this week was that I overcame my discomfort of being around psychiatric patients. I always had this stereotype that they would be scary or freak me out once I started to talk to them, but once I actually did that I realized that they are just people who need help and if I were to ever be in the same boat as them, I would someone to treat me like a normal person. This is a great strength! There is a huge stigma that having a mental health illness makes you "crazy". The more we interact with these people the more we can encourage others that they are truly just individuals that needs some help. MD

Week 2 Objective 7B-In your CDG this week you were able to identify effective use of strategies to reduce risk of harm for the patient and others. Great job! MD

Week 2 Objective 7E-This week you did not turn in your preparation assignment for the nursing therapy group in on time. You received 1 hour missed clinical for this late assignment. Please respond with how you will prevent this from occurring in the future. MD

7E- How I will prevent this mistake from happening again is by being more attentive to my schedule so that way I know when things are due and if they are supposed to be online or on paper. Great idea, pay attention and be thorough. This will get in the habit of double checking physician orders and act promptly. FB

Week 3: I think that my strength this week was that I was able to help my patient understand what was going on. My patient was very confused and quite frankly upset on her first day on 1 South, so I tried my best to explain to her what was going on so she felt less afraid. After this she seemed more accepting of what had happened and she began to talk to more people around her. Great job communicating with your assigned patient this week. The use of therapeutic communication is beneficial for all types of patients. Being patient is very essential for patient with neurocognitive disorders. FB

Care Map Evaluation Tool**
Psych
2024

Date	Nursing Priority Problem	Evaluation & Instructor Initials	Remediation & Instructor Initials
6/11/2024	Risk for physical trauma	NI/FB	

**Psych students are required to submit one satisfactory care map (CDG) during the 4-day 1 South clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback.

Comments: Your overall score for the care map is 39/45. You received a “NI” because you did not provide an in-text citation, you did provide a reference. Both an in-text and reference are needed to receive a satisfactory grade. You will need to complete and resubmit by Friday 6/21/2024 at 0800 am. FB

Firelands Regional Medical Center School of Nursing
Nursing Care Map Rubric

Student Name: Kailee Felder				Course Objective: 2. Synthesize concepts related to psychopathology, health assessment data, evidenced based practice and nursing process using clinical judgment skills to plan and care for patient with mental illness. (1, 2, 3, 4, 5, 6, 7, 8)*			
Date or Clinical Week: 6/11/2024 Week 3							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Great job with identification of all subjective and objective assessment findings, abnormal laboratory data, diagnostic testing, and risk factors.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Nice job distinguishing the appropriate abnormal findings as they relate to the priority problem. Priority problems provided were relevant to your assigned patient. Possible complications were appropriate with signs and symptoms provided.
	5. State the goal for the top nursing priority.	Complete			Not complete	3	
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Nursing interventions were prioritized. All interventions were not provided with time frame or frequency, and did not have rationales. In the future make sure to follow the care map guidelines provided.
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	0	
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	0	
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	Evaluation of your priority problem identified was done appropriately, great job!
	15. Evaluation includes one of the following statements: - Continue plan of care - Modify plan of care - Terminate plan of care	Complete			Not complete	3	

Reference

An in-text citation and reference are required.

The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both.

The care map will be graded “unsatisfactory” if no in-text citation or reference is included.

Total Possible Points= 45 points

45-35 points = Satisfactory

34-23 points = Needs Improvement*

< 23 points = Unsatisfactory*

***Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

*****Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *****

Faculty/Teaching Assistant Comments:

Both an in-text and reference are needed to receive a satisfactory grade. You will need to complete and resubmit by Friday 6/21/2024 at 0800 am. FB

Total Points _____

You must receive a total of 77 out of 100 points to receive a “S” grade on the Evaluation of Clinical Performance tool. Due date can be located on the clinical schedule.

Firelands Regional Medical Center School of Nursing
Nursing Process Grading Rubric- Psychiatric Nursing 2024

Criteria	Ratings				Points Earned
Criterion #1 Process Recording is organized and neatly completed	5 Points Typed process recording with spelling and grammar correct.	3 Points Typed process recording with 5 or less spelling and grammar mistakes.	1 Points Typed process recording with 5 or more spelling and grammar mistakes.	0 Points Process recording is not typed with 10 or more spelling and grammar mistakes.	
Criterion #2 Assessment	7 Points Identifies pertinent patient background, current medical and psychiatric history. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	5 Points Identifies areas of assessment but incomplete data provided in 2 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	3 Point Identifies areas of assessment but incomplete data provided in 3 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	0 Points Missing data in all 4 areas of assessment.	
Criterion #3 Mental Health Nursing Diagnosis (priority problem)	8 Points Identifies priority mental health problem (not a medical diagnosis) providing at least 5 relevant/related data and potential complications.	5 Points Identifies Priority mental health problem provides at least 4 relevant/related data and potential complications.	3 Point Identifies priority mental health problem provides at least 3 relevant/related data and potential complications.	0 Points Does not provide priority mental health problem and/or less than 3 relevant/related data and potential complications.	
Criterion #4 Nursing Interventions	10 Points Identifies at least 5 pertinent nursing interventions in priority order including a rationale and timeframe. Interventions must be individualized and realistic. Identifies a therapeutic communication goal.	6 Points Identifies 4 or less nursing interventions in priority order including a rationale and time frame. Interventions are not individualized and/or realistic. Identifies a therapeutic communication goal.	4 Point Identifies 4 or less nursing interventions but not prioritized and/or no rationale or time frame provided. Interventions are not individualized and /or realistic. Identifies a therapeutic communication goal.	0 Points Identifies less than 4 interventions, not prioritized, individual, realistic, no rationale, no time frame. No therapeutic communication goal.	
Criterion #5	15 Points	10 Points	5 Point	0 Points	

Process Recording	Provides direct quotes for all interchanges. Nonverbal and Verbal behavior is described for all interactions. Students thoughts and feelings concerning each interaction is provided.	Direct quotes are not provided. Nonverbal and Verbal behavior is described for at least 7 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	Direct quotes are not provided. Nonverbal and Verbal behavior is described for at least 5 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	Direct quotes are not provided. Nonverbal and Verbal behavior is not described for less than half of the interactions. Student thoughts and feelings for less than half of the interactions provided.	
Criterion #6 Process Recording	20 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic) and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 75% of interactions.	15 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 50% of interactions.	10 Point Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), no technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 25% of interactions.	0 Points Analysis not provided for each interaction	
Criterion #7 Process Recording	10 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 10 interchanges between patient and student.	6 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 7 interchanges between patient and student.	4 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 5 interchanges between patient and student.	0 Points There was less than 5 interchanges between patient and student provided.	
Criterion #8 Evaluation	15 Points Self-evaluation of communication with patient. Identify at least 3 strengths and 3 weaknesses of therapeutic communication.	10 Points Self-evaluation of communication with patient. Identified 2 strengths and 2 weaknesses of therapeutic communication.	5 Point Self-evaluation of communication with patient. Identified 1 strength and 1 weakness of therapeutic communication.	0 Points No self-evaluation was provided.	
Criterion #9 Evaluation	10 Points Identify at least 3 barriers to communication including interventions or communication that could have been done differently. Identify all pertinent social determinants of health.	6 Points Identify at least 2 barriers to communication including interventions or communication that could have been done differently. Identify all	4 Point Identify at least 2 barriers to communication did not include interventions or communication that could have been done differently. Did not	0 Points Identify at least 1 barrier to communication did not include interventions or communication that could have been done	

		pertinent social determinants of health.	identify any pertinent social determinants of health.	differently. Did not identify any pertinent social determinants of health.

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
