

Women's Health Online Assignment

Chapter objectives:

1. Identify factors that place a woman at risk for adverse health conditions. (1, 2, 5)*
2. Describe common alterations in women's health, including medical management and nursing actions. (1, 2, 4, 5)*
3. Summarize preventative health screenings suggested for women (1, 2, 5)*
4. Identify and discuss various women's health diagnoses (1, 2, 3)*
5. Explain types and guidelines for early detection of breast cancer (1, 2, 5)*

*Denotes course objective

For this assignment you will be required to create an educational pamphlet or handout on a women's health topic of your choice.

You should use at least two sources (one may be the textbook). This should be typed and submitted to the appropriate dropbox.

In order to receive a satisfactory grade on this assignment, please reference the rubric below. Only 2 "needs improvement" ratings will allow for an overall "satisfactory" grade. If there are any "unsatisfactory" ratings, the student will have one attempt to remediate to make the final rating "satisfactory."

Please print your assignment and bring a copy to class on August 23, 2024 to participate in class discussion on all topics chosen.

In order to receive full credit (1 hour theory time) for this assignment, it must be completed in its entirety by the due date/time assigned. Any assignment not completed in its entirety will result in missed theory time and must be made up.

	Satisfactory	Needs Improvement	Unsatisfactory
Brief description of disease/illness/condition	Full description of disease/illness/condition	Missing some details in description	Incorrect description or missing major components of disease/illness/condition
Risk factors	Lists at least 3 risk factors (if less than 3 available, use of resource that proves less than 3)	Lists 2 risk factors	Lists only 1 risk factor
Signs/symptoms	Lists at least 3 signs/symptoms (if less than 3 available, use of resource that proves less than 3)	Lists 2 signs/symptoms	Lists only 1 sign/symptom
Diagnostic studies (if applicable)	Lists at least 3 diagnostics (if less than 3 available, use of resource that proves less than 3)	Lists 2 diagnostic studies	Lists only 1 diagnostic study
Prevention	Lists at least 3 preventative measures (including routine testing. if less than 3 available, use of resource that proves less than 3)	Lists 2 preventative measures	Lists only 1 preventative measure
Treatment options	Lists 3 treatment options (if less than 3 available, use of resource that proves less than 3)	Lists 2 treatment options	Lists only 1 treatment option
Reference	Use of at least 1 external source in addition to textbook for information	Use of only textbook for reference, no external source used	Does not use reference at all
