

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing- 2024
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:

Kailee Felder

Final Grade: Satisfactory/Unsatisfactory

Semester: Summer Session

Date of Completion:

Faculty: Chandra Barnes MSN, RN, Fran Brennan MSN, RN, Monica Dunbar, DNP, RN
Brittany Lombardi MSN, RN, CNE, Heather Schwerer, MSN, RN

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

Clinical Patient Profile
Meditech Documentation
Evaluation of Clinical Performance Tool
Onsite Clinical Debriefing
Online Discussion Rubric
Nursing Process Recording Rubric
Geriatric Assessment Rubric
Lasater Clinical Judgment Rubric
Virtual Simulation scenarios
EBP Presentations
Hospice Reflection Journal
Observation of Clinical Performance
Clinical Nursing Therapy Group
Nursing Care Map Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
6/3/2024	1 hour	Late Therapy Group Assignment	6/3/2024
6/7/2024	1 hour	Late vSim	6/7/2024
Initials	Faculty Name		
CB	Chandra Barnes, MSN, RN		
FB	Frances Brennan, MSN, RN		
MD	Monica Dunbar, DNP, RN		
BL	Brittany Lombardi MSN, RN, CNE		
HS	Heather Schwerer, MSN, RN		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded “U.” A “U” in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the “U,” the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Objective										
	1. Apply the principles of psychiatric theory in the care of adolescent to geriatric patients with a mental illness diagnosis. (1, 2, 3, 5, 6, 7, 8)*									
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	N/A	S	S	N/A	S	N/A				
a. Demonstrate an understanding of the relationship between mental health, physical health, and environment for those patients diagnosed with a mental disorder. (noticing)	N/A	S	S	N/A	S	N/A				
b. Correlate prescribed therapies, psychotherapy, and alternative therapies in relation to the patient's mental disorder. (interpreting)	N/A	S	S	N/A	S	N/A				
c. Provide culturally and spiritually competent care within the scope of nursing that meets the needs of assigned patients from diverse cultural, racial and ethnic backgrounds. (responding)	N/A	S	S	N/A	S	N/A				
d. Identify appropriate methods that will assist the patient to regain independence and achieve self-care (noticing)	N/A	S	S	N/A	S	N/A				
e. Recognize social determinants of health and the relationship to mental health. (reflecting)	N/A	S	S	N/A	S	N/A				
f. Develop and implement an appropriate nursing therapy group activity. (responding)	N/A	S	S	N/A	S NA	N/A				
g. Develop a geriatric physical/mental health assessment and education plan. (Geriatric Assessment) (responding)				S NA						
Faculty Initials	MD	MD	FB	FB	FB	BL				
Clinical Location	N/A	1S	1S	N/A	Sandusky Artisans	N/A				

Comments:

* End-of-Program Student Learning Outcomes

Week 2 Objective 1A and E-This week you were able to demonstrate an understanding for mental, physical, and environmental health along with recognizing SDOH with your responses in your CDG posting. Great job! MD

Week 2 Objective 1F-This week you were able to perform an appropriate nursing therapy group activity to encourage the patients to share and express themselves. Great job! MD

Week 3 (1a,c,d,f) Great job with understanding the relationship of mental illness, physical signs and symptoms, and risk factors as identified on your care map. You demonstrated empathy towards your assigned patient while meeting cultural and any spiritual needs during this week's clinical rotation. Appropriate methods to assist your patient in regaining an independence and regaining self-care was also displayed during clinical this week, great job! FB

Week 4 (1g)- Kailee, you completed your Nursing process study, not the Geriatric Assessment Assignment therefore this competency was changed to a "NA". Please make sure you are self-rating on the correct competencies. You have a tendency to go through directions and instructions too quickly. You are going to implement orders when you are the responsible RN and you cannot make mistakes, it could mean a life. Please be more careful going through directions. FB

WEEK 5-KAILEE, YOU AGAIN HAVE SELF-RATED A COMPETENCY THAT YOU DID NOT COMPLETE THIS WEEK. MAKE SURE YOU ARE READING FEEDBACK THAT IS PROVIDED AND THAT YOU ARE FOLLOWING DIRECTIONS. YOU SHOULD BE SELF-RATING ON COMPETENCIES COMPLETED THE CORRESPONDING WEEK. FB

Objective										
2. Synthesize concepts related to psychopathology, health assessment data, evidenced based practice and the nursing process using clinical judgment skills to plan and care for patients with mental illness. (1, 2, 3, 4, 5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	N/A	S	S	N/A	N/A	N/A				
a. Assemble a health history which includes past and current history of mental and medical health issues and chief reason for hospitalization. (noticing)	N/A	S	S	N/A	N/A	N/A				
b. Identify patient's subjective and objective findings including labs, diagnostic tests, and risk factors. (noticing, recognizing)	N/A	S	S	N/A	N/A	N/A				
c. Demonstrate ability to identify the patient's use of coping/defense mechanisms. (noticing, interpreting)	N/A	S	S	N/A	N/A	N/A				
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (noticing, interpreting, responding, reflecting)*	N/A	S	S NI/S	N/A	N/A	N/A				
e. Apply the principles of asepsis and standard precautions. (responding)	N/A	S	S	N/A	N/A	N/A				
f. Practice use of standardized EBP tools that support safety and quality. (noticing, responding)	N/A	S	S	N/A	N/A	N/A				
Faculty Initials	MD	MD	FB	FB	FB	BL				

*When completing the 1South Care Map CDG refer to the Care Map Rubric

Comments:

Week 2 Objective 2A-B, and F-This week you did a great job of assembling a health history, identifying subjective and objective findings, and using EBP tools to support safety and quality in your CDG post. MD

Week 3 (2a,b,d) Great job identifying your patient's mental health history, reason for this admission, and correlating with medical health issues. You were able to assess for subjective and objective data including labs, diagnostic testing, and risk factors to provide a priority problem for your assigned patient. Kailee, your care map is not completed satisfactory because you did not provide an in-text citation, you did provide a reference, therefore this competency was changed to a "NI". You do need to complete with a satisfactory. Please see attached care map rubric. FB

Week 3 Care Map: I fixed my care map by adding an in-text citation to receive a satisfactory grade. How I can prevent this in the future is by carefully reading the rubric to make sure that I am doing my assignments correctly. Care map is completed satisfactorily with resubmission. See grading rubric below. FB

* End-of-Program Student Learning Outcomes

Objective										
3. Refine basic verbal and nonverbal therapeutic communication skills when interacting with patients, families, and members of the health care team. (1, 2, 3, 5, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Illustrate professionally appropriate and therapeutic communication skills in interactions with patients, and families. (responding)	N/A	S	S	N/A S	N/A	N/A				
b. Demonstrate professional and appropriate communication with the treatment team by using the SBAR format for handoff communication during transition of care. (responding)	N/A	S	S	N/A	N/A	N/A				
c. Identify barriers to effective communication. (noticing, interpreting)	N/A	S	S	N/A S	N/A	N/A				
d. Develop effective therapeutic responses. (responding)	N/A	S	S	N/A S	N/A	N/A				
e. Develop a satisfactory patient-nurse therapeutic communication. (Nursing Process Study) (responding, reflecting)				S						
f. Posts respectfully and appropriately in clinical discussion groups. (responding, reflecting)	N/A	S	S NI	N/A	N/A S	N/A				
g. Respect the privacy of patient health and medical information as required by federal HIPAA regulations. (responding)	N/A	S	S	N/A	N/A	N/A				
h. Teach patient/family based on readiness to learn and patient needs. (responding, reflecting)	N/A	S	S	N/A	N/A	N/A				
Faculty Initials	MD	MD	FB	FB	FB	BL				

Comments:

Week 2 Objective 3C-This week you were able to identify barriers to effective communication in your CDG posting. MD

Week 2 Objective 3F-You had a wonderful CDG this week! You were able to turn in your CDG on time, have the adequate word count for your post, and meet all of the objectives for the CDG! For the Day 1 in-text citation it should read: (Hesler, 2023) not Mayo Clinic. For Day 2 in-text citation should read: (Vallerand & Sanoski, 2024) not Skyscape. Both of your references were good. Please reach out if you have questions! MD

* End-of-Program Student Learning Outcomes

Week 3 (3c,f,h) Great job with the identification of barriers for your assigned patient that may hamper their communication skills. You did a great job with CDG post, following all expectations of CDG rubric for day 4 of 1-south clinicals. Day 3 clinical was the care map which did not have an in-text citation, therefore competency 3f was changed to a "NI". Great job with assessing your patient for the readiness to learn and comprehend adaptive coping skills and behaviors. FB

Week 3 Care Map: I added in my in-text citation so that way I receive the satisfactory grade. How I can prevent this is by making I cite my sources on all projects in the future.

Week 4 (3a,c,d) These competencies were changed because they are all related to the Nursing Process Study assignment completed this week. Again, make sure you are reading through competencies carefully and making sure you are correlating the correct assignment to the competency. Slow down, Kailee! You need to be able to follow directions and healthcare provider orders correctly and by rushing through areas and important information will be missed. Satisfactory completion of Nursing Process Study, please see comments below. FB

Week 5 (3f)- this competency was changed because your CDG related to your clinical experience this week was completed and submitted in a timely manner following all expectations of CDG rubric. **Make sure you are completely the clinical tool correctly. FB**

Objective										
4. Demonstrate knowledge of frequently prescribed medications utilized in treating mental illness. (1, 4, 5, 6, 7)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Observe &/or administer medication while observing the six rights of medication administration. (responding)	N/A	S	S	N/A	N/A	N/A				
b. Demonstrate ability to discuss the uses and implication of psychotropic medications. (responding, reflecting)	N/A	S	S	N/A	N/A	N/A				
c. Identify the major classification of psychotropic medications. (interpreting)	N/A	S	S	N/A	N/A	N/A				
d. Identify common barriers to maintaining medication compliance. (reflecting)	N/A	S	S	N/A	N/A	N/A				
e. Explain the effects, adverse effects, nursing interventions and safety issues, related to the use of psychotropic medications. (responding, reflecting)	N/A	S	S	N/A	N/A	N/A				
Faculty Initials	MD	MD	FB	FB	FB	BL				

Comments:

Week 2 Objective 4B-E-In your CDG post this week you were able to provide information about implications of psychotropic medications, classifications of medications, barriers to medication compliance, and specific details about the medications you administered this week. Great job! MD

Week 3 (4a-e) Excellent job with medication administration following all six rights of administration. You demonstrated knowledge and implications for each medication administered, identified classification, significant signs and symptoms, pertinent nursing interventions, and any safety concerns, great job! FB

* End-of-Program Student Learning Outcomes

Objective										
5. Develop an awareness of community Mental Health resources and services. (5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify the need for the community resources-detox unit available to patients with a mental illness. (noticing, interpreting)	N/A	N/A	N/A	N/A	N/A	N/A				
b. Discuss recommendations for referrals to appropriate community resources and agencies. (reflecting)	N/A	N/A	N/A	N/A	N/A	N/A				
c. Collaborate with the Erie County Health Department Detox Unit while observing the care of a patient with mental illness-substance abuse. (Community Agency Observation-Detox Unit) **	N/A	N/A	N/A	N/A	N/A	N/A				
d. Recognize and describe the need for substance abuse recovery resources. (Alcoholics/Narcotics Anonymous at the Sandusky Artisans Recovery Center (Observation))	N/A	N/A	NA	N/A	S	N/A				
Faculty Initials	MD	MD	FB	FB	FB	BL				

****Alternative Assignment Comments:**

Week 5 (5 d)- Great job, you recognize the need for this type of resource in the community and the great asset it is to have available. FB

* End-of-Program Student Learning Outcomes

Objective										
	6. Demonstrate satisfactory proficiency when using informatics and techniques in the assessment of patients with a mental illness diagnosis. (1, 2, 3, 4, 6, 8)*									
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	N/A	S	S	N/A	N/A	N/A				
a. Demonstrate competence in navigating the electronic health record. (responding)	N/A	S	S	N/A	N/A	N/A				
b. Demonstrate satisfactory documentation of psychiatric assessments and nursing notes utilizing the electronic health record. (responding)	N/A	S	S	N/A	N/A	N/A				
c. Demonstrate the use of technology to identify mental health resources. (responding)	N/A	S	S	N/A	N/A	N/A				
Faculty Initials	MD	MD	FB	FB	FB	BL				

Comments:

Week 2 Objective 6A-You were able to proficiently navigate the EHR independently. MD

Week 3(6a-c) Great job using the electronic health record to gather information on your assigned patient. FB

* End-of-Program Student Learning Outcomes

Objective

7. Evaluate self-participation in patient care experiences with the focus on safety, ethical, legal, and professional responsibilities. (7)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify your strengths for care delivery of the patient with mental illness. (reflecting)	N/A	S	S	N/A	N/A	N/A				
b. Demonstrates effective use of strategies to reduce risk of harm to self or others. Create a safe environment for patient care. (responding)	N/A	S	S	N/A	N/A	N/A				
c. Illustrate active engagement in self-reflection and debriefing. (reflecting)	N/A	S	S	N/A	N/A	N/A				
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE" – attitude, commitment, and enthusiasm during all clinical interactions. (responding)	N/A	S	S	N/A	S	N/A				
e. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (responding)	N/A	S U	S	N/A	S	N/A				
f. Comply with the standards outlined in the FRMCSN policy, "Student Conduct While Providing Nursing Care." (responding)	N/A	S	S	N/A	S	N/A				
Faculty Initials	MD	MD	FB	FB	FB	BL				

Objective 7a: Provide a comment for the highlighted competency each week of your 1 South clinical. Put "NA" for the weeks not assigned to 1 South.

Comments:

Week 2: I feel like my strength this week was that I overcame my discomfort of being around psychiatric patients. I always had this stereotype that they would be scary or freak me out once I started to talk to them, but once I actually did that I realized that they are just people who need help and if I were to ever be in the same boat as them, I would someone to treat me like a normal person. This is a great strength! There is a huge stigma that having a mental health illness makes you "crazy". The more we interact with these people the more we can encourage others that they are truly just individuals that needs some help. MD

Week 2 Objective 7B-In your CDG this week you were able to identify effective use of strategies to reduce risk of harm for the patient and others. Great job! MD

Week 2 Objective 7E-This week you did not turn in your preparation assignment for the nursing therapy group in on time. You received 1 hour missed clinical for this late assignment. Please respond with how you will prevent this from occurring in the future. MD

7E- How I will prevent this mistake from happening again is by being more attentive to my schedule so that way I know when things are due and if they are supposed to be online or on paper. Great idea, pay attention and be thorough. This will get in the habit of double checking physician orders and act promptly. FB

Week 3: I think that my strength this week was that I was able to help my patient understand what was going on. My patient was very confused and quite frankly upset on her first day on 1 South, so I tried my best to explain to her what was going on so she felt less afraid. After this she seemed more accepting of what had happened and she began to talk to more people around her. Great job communicating with your assigned patient this week. The use of therapeutic communication is beneficial for all types of patients. Being patient is very essential for patient with neurocognitive disorders. FB

Week 5 (7c,d,e) Great job Kailee for being actively engaged, having a great attitude, committing to learn and behaving in a professional manner. FB

Care Map Evaluation Tool**
Psych
2024

Date	Nursing Priority Problem	Evaluation & Instructor Initials	Remediation & Instructor Initials
6/11/2024	Risk for physical trauma	NI/FB	

**Psych students are required to submit one satisfactory care map (CDG) during the 4-day 1 South clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback.

Comments: Your overall score for the care map is 39/45. You received a “NI” because you did not provide an in-text citation, you did provide a reference. Both an in-text and reference are needed to receive a satisfactory grade. You will need to complete and resubmit by Friday 6/21/2024 at 0800 am. FB

Resubmission: You provided an in-text citation with a reference for the Care Map, satisfactory completion of Nursing Care Map. FB

Firelands Regional Medical Center School of Nursing
Nursing Care Map Rubric

Student Name: Kailee Felder				Course Objective: 2. Synthesize concepts related to psychopathology, health assessment data, evidenced based practice and nursing process using clinical judgment skills to plan and care for patient with mental illness. (1, 2, 3, 4, 5, 6, 7, 8)*			
Date or Clinical Week: 6/11/2024 Week 3							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Great job with identification of all subjective and objective assessment findings, abnormal laboratory data, diagnostic testing, and risk factors.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Nice job distinguishing the appropriate abnormal findings as they relate to the priority problem. Priority problems provided were relevant to your assigned patient. Possible complications were appropriate with signs and symptoms provided.
	5. State the goal for the top nursing priority.	Complete			Not complete	3	
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Nursing interventions were prioritized. All interventions were not provided with time frame or frequency, and did not have rationales. In the future make sure to follow the care map guidelines provided.
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	0	
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	0	
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	Evaluation of your priority problem identified was done appropriately, great job!
	15. Evaluation includes one of the following statements: - Continue plan of care - Modify plan of care - Terminate plan of care	Complete			Not complete	3	

Reference

An in-text citation and reference are required.

The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both.

The care map will be graded “unsatisfactory” if no in-text citation or reference is included.

Total Possible Points= 45 points

45-35 points = Satisfactory

34-23 points = Needs Improvement*

< 23 points = Unsatisfactory*

***Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

*****Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *****

Faculty/Teaching Assistant Comments:

Both an in-text and reference are needed to receive a satisfactory grade. You will need to complete and resubmit by Friday 6/21/2024 at 0800 am. FB

Kailee the in-text citation was provided that will give you a satisfactory completion of the Nursing care map. There was no adjustment to the nursing interventions, you may want to make sure to reference the Nursing Care Map guidelines so you are completing these correctly, in the future. The score will stay the same because no adjustments were made to areas where you received zero points. FB

Total Points: 39/45 points

**Firelands Regional Medical Center School of Nursing
Nursing Process Grading Rubric- Psychiatric Nursing 2024**

Criteria	Ratings				Points Earned
Criterion #1 Process Recording is organized and neatly completed	5 Points Typed process recording with spelling and grammar correct.	3 Points Typed process recording with 5 or less spelling and grammar mistakes.	1 Points Typed process recording with 5 or more spelling and grammar mistakes.	0 Points Process recording is not typed with 10 or more spelling and grammar mistakes.	5
Criterion #2 Assessment	7 Points Identifies pertinent patient background, current medical and psychiatric history. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	5 Points Identifies areas of assessment but incomplete data provided in 2 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	3 Point Identifies areas of assessment but incomplete data provided in 3 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	0 Points Missing data in all 4 areas of assessment.	7
Criterion #3 Mental Health Nursing Diagnosis (priority problem)	8 Points Identifies priority mental health problem (not a medical diagnosis) providing at least 5 relevant/related data and potential complications.	5 Points Identifies Priority mental health problem provides at least 4 relevant/related data and potential complications.	3 Point Identifies priority mental health problem provides at least 3 relevant/related data and potential complications.	0 Points Does not provide priority mental health problem and/or less than 3 relevant/related data and potential complications.	8
Criterion #4 Nursing Interventions	10 Points Identifies at least 5 pertinent nursing interventions in priority order including a rationale and timeframe. Interventions must be individualized and realistic. Identifies a therapeutic communication goal.	6 Points Identifies 4 or less nursing interventions in priority order including a rationale and time frame. Interventions are not individualized and/or realistic. Identifies a therapeutic	4 Point Identifies 4 or less nursing interventions but not prioritized and/or no rationale or time frame provided. Interventions are not individualized and /or realistic. Identifies a therapeutic	0 Points Identifies less than 4 interventions, not prioritized, individual, realistic, no rationale, no time frame. No therapeutic communication goal.	6

		communication goal.	communication goal.		
Criterion #5 Process Recording	15 Points Provides direct quotes for all interchanges. Nonverbal and Verbal behavior is described for all interactions. Students thoughts and feelings concerning each interaction is provided.	10 Points Direct quotes are not provided. Nonverbal and Verbal behavior is described for at least 7 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	5 Point Direct quotes are not provided. Nonverbal and Verbal behavior is described for at least 5 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	0 Points Direct quotes are not provided. Nonverbal and Verbal behavior is not described for less than half of the interactions. Student thoughts and feelings for less than half of the interactions provided.	10
Criterion #6 Process Recording	20 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic) and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 75% of interactions.	15 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 50% of interactions.	10 Point Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), no technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 25% of interactions.	0 Points Analysis not provided for each interaction	20
Criterion #7 Process Recording	10 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 10 interchanges between patient and student.	6 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 7 interchanges between patient and student.	4 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 5 interchanges between patient and student.	0 Points There was less than 5 interchanges between patient and student provided.	10
Criterion #8 Evaluation	15 Points Self-evaluation of communication with patient. Identify at least 3 strengths and 3 weaknesses of therapeutic communication.	10 Points Self-evaluation of communication with patient. Identified 2 strengths and 2 weaknesses of therapeutic communication.	5 Point Self-evaluation of communication with patient. Identified 1 strength and 1 weakness of therapeutic communication.	0 Points No self-evaluation was provided.	15
Criterion #9 Evaluation	10 Points Identify at least 3 barriers to communication including interventions or communication	6 Points Identify at least 2 barriers to communication including interventions or	4 Point Identify at least 2 barriers to communication did not include interventions or	0 Points Identify at least 1 barrier to communication did not	10

	that could have been done differently. Identify all pertinent social determinants of health.	communication that could have been done differently. Identify all pertinent social determinants of health.	communication that could have been done differently. Did not identify any pertinent social determinants of health.	include interventions or communication that could have been done differently. Did not identify any pertinent social determinants of health.	
Total Possible Points= 100 points 77-100 points= Satisfactory completion. 76-53 points= Needs Improvement < 53 points= Unsatisfactory Faculty comments: Kailee, overall, great job! You completed the Nursing Process Recording receiving a Satisfactory per the grading rubric. Please see the comments below, where points were deducted. Criterion #4: Points were deducted from this section due to nursing interventions are not prioritized. Remember to always assess, do, educate. Criterion #5: Points were deducted from this section because you did not provide direct quotes for the interchanges. Faculty Initials: CB					Total Points: 91/100

Linda Waterfall vSim-You did not turn in your vSim on time. You were able to turn it in so you have made up the missed hour of simulation time. MD

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME(S) AND ROLE(S): Hannah Baum (A), Kailee Felder (M), Katelyn Morgan (A), Trenton McIntyre (M)

GROUP #: 6

SCENARIO: Alcohol Substance Use Simulation

OBSERVATION DATE/TIME(S): 06/27/2024 0920-1035

CLINICAL JUDGMENT COMPONENTS	<u>OBSERVATION NOTES</u>
NOTICING: (1,2,5)* - Focused Observation: E A D B - Recognizing Deviations from Expected Patterns: E A D B - Information Seeking: E A D B	Notifies patient's blood pressure is elevated. Recognizes that the patient does not need Lorazepam based on the CIWA scale score. Attempts to seek out information related to patient's admission and substance use. Seeks out information related to patient's support system. Notifies patient appears to be anxious. Notifies patient's blood pressure is elevated. Recognizes the patient needs Lorazepam based on the CIWA Scale score.
INTERPRETING: (2,4)* - Prioritizing Data: E A D B - Making Sense of Data: E A D B	Prioritizes performing CIWA Scale. Interprets CIWA Scale score as 3. Interprets CIWA Scale score as 19. Interprets CIWA protocol accurately for Lorazepam dose (4 mg PO).
RESPONDING: (1,2,3,5)* - Calm, Confident Manner: E A D B - Clear Communication: E A D B - Well-Planned Intervention/Flexibility: E A D B - Being Skillful: E A D B	Introduces self and identifies patient. Obtains vital signs (T-98.6, HR-84, BP-154/90, SpO2-98%, RR-20). Rechecks BP after medication administration (149/89). Performs CIWA Scale. Performs the Brief Mental Status Evaluation. Performs the CAGE Questionnaire. Provides education related to community resources and self-help

	groups. Medication nurse reviews medication with the patient and administers them after scanning, did not identify the patient. Identifies self and patient. Obtains vital signs (HR-81, BP-144/88, RR-20, SpO2-99%). Assesses patient's pupils related to fall with head laceration. Performs CIWA Scale. Performs the Brief Mental Status Evaluation. Attempts to distract patient and relocate her from nurse's station. Medication nurse verifies patient, DOB, allergies and scans. Medication nurse administers Lorazepam 4 mg PO (per protocol).
REFLECTING: (1,2,5)* • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B	Group members actively participated during debriefing. Appropriate questions were asked. Each group member discussed what they felt were strengths and weaknesses in their performance. Alternate choices were discussed for improvement in the future. Each member verbalized something they would do differently if they were to do the scenario again.
SUMMARY COMMENTS: * = Course Objectives Satisfactory completion of the simulation scenario is a score of "Developing" or higher in all areas of the rubric. E= Exemplary A= Accomplished D= Developing B= Beginning Scenario Objectives: • Demonstrate effective therapeutic communication while interacting with patient admitted for an acute mental health crisis. (1, 2, 3)* • Utilize the CIWA scale to assess a patient	Lasater Clinical Judgement Rubric Comments: Noticing: Focuses observation appropriately; regularly observes and monitors a wide variety of objective and subjective data to uncover any useful information. Recognizes most obvious patterns and deviations in data and uses these to continually assess. Assertively seeks information to plan intervention; carefully collects useful subjective data from observing and interacting with the patient and family. Interpreting: Focuses on the most relevant and important data useful for explaining the patient's condition. Even when facing complex, conflicting, or confusing data, is able to (a) note and make sense of patterns in the patient's data, (b) compare these with known patterns (from the nursing knowledge base, research, personal experience, and intuition), and (c) develop plans for interventions that can be justified in terms of their likelihood of success. Responding: Assumes responsibility; delegates team assignments; assesses patients and reassures them and their families. Communicates effectively; explains interventions; calms and reassures patients and families; directs and involves team members, explaining and giving directions; checks for understanding. Develops interventions on the basis of relevant patient data; monitors progress regularly but does not expect to have to change treatments.

with a history of substance abuse. (1, 2)* • Determine appropriate medication administration steps utilizing the CIWA scale. (4)* • Provide patient with appropriate education on community support and resources. (5)*	Displays proficiency in the use of most nursing skills; could improve speed or accuracy. Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses. Satisfactory completion of the simulation scenario. Great job! CB

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date:
