

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing- 2024
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student: Presley Stang

Final Grade: Satisfactory/Unsatisfactory

Semester: Summer Session

Date of Completion:

Faculty: Chandra Barnes MSN, RN, Fran Brennan MSN, RN, Monica Dunbar, DNP, RN
Brittany Lombardi MSN, RN, CNE, Heather Schwerer, MSN, RN

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

Clinical Patient Profile
Meditech Documentation
Evaluation of Clinical Performance Tool
Onsite Clinical Debriefing
Online Discussion Rubric
Nursing Process Recording Rubric
Geriatric Assessment Rubric
Lasater Clinical Judgment Rubric
Virtual Simulation scenarios
EBP Presentations
Hospice Reflection Journal
Observation of Clinical Performance
Clinical Nursing Therapy Group
Nursing Care Map Rubric

* End-of-Program Student Learning Outcomes

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded “U.” A “U” in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the “U,” the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Objective										
	1. Apply the principles of psychiatric theory in the care of adolescent to geriatric patients with a mental illness diagnosis. (1, 2, 3, 5, 6, 7, 8)*									
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	NA	S	S	NA	NA	NA				
a. Demonstrate an understanding of the relationship between mental health, physical health, and environment for those patients diagnosed with a mental disorder. (noticing)										
b. Correlate prescribed therapies, psychotherapy, and alternative therapies in relation to the patient's mental disorder. (interpreting)	NA	S	S	NA	NA	NA				
c. Provide culturally and spiritually competent care within the scope of nursing that meets the needs of assigned patients from diverse cultural, racial and ethnic backgrounds. (responding)	NA	S	S	NA S	NA	S				
d. Identify appropriate methods that will assist the patient to regain independence and achieve self-care (noticing)	NA	S	S	NA S	NA	NA				
e. Recognize social determinants of health and the relationship to mental health. (reflecting)	NA	S	S	NA	NA	NA				
f. Develop and implement an appropriate nursing therapy group activity. (responding)	NA	S	NA	NA	NA	NA				
g. Develop a geriatric physical/mental health assessment and education plan. (Geriatric Assessment) (responding)				NA						
Faculty Initials	MD	CB	HS	BL	FB	BL				
Clinical Location	NA	1S	1S	Erie County Detox Unit	SARCC	Hospice				

Comments:

* End-of-Program Student Learning Outcomes

Week 2(1a,b,e,f): Presley, you did a great job this week in clinical, caring for patients diagnosed with a mental health disorder. Great explanation of social determinants of health related to your patient this week. You did an excellent job, planning an preparing an appropriate nursing therapy group activity for the patients of the milieu. CB

Week 3 (1a,b,c,d,e) You did a nice job this week identifying how mental health can be impacted by an individual's physical health, and also the environment in which they are a part of. You were also able to see how the spiritual component played a role in some of the patient's well-being. Nice job discussing the social determinants of health that impacted many of the patients this week. HS

Week 4-1(c,d) Great job identifying and discussing potential barriers to culturally and spiritually competent care at the Erie County Health Center Detoxification Unit in your CDG. You also identified and discussed several appropriate methods that will assist this patient population in regaining independence and achieving self-care. BL

Week 6-1(c) Excellent job this week during your Hospice clinical experience in which you were able to provide culturally and spiritually competent care for end-of-life patients. BL

Objective										
2. Synthesize concepts related to psychopathology, health assessment data, evidenced based practice and the nursing process using clinical judgment skills to plan and care for patients with mental illness. (1, 2, 3, 4, 5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	NA	S	S	NA	NA	NA				
a. Assemble a health history which includes past and current history of mental and medical health issues and chief reason for hospitalization. (noticing)	NA	S	S	NA	NA	NA				
b. Identify patient's subjective and objective findings including labs, diagnostic tests, and risk factors. (noticing, recognizing)	NA	S	S	NA	NA	NA				
c. Demonstrate ability to identify the patient's use of coping/defense mechanisms. (noticing, interpreting)	NA	S	S	NA	NA	NA				
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (noticing, interpreting, responding, reflecting)*	NA	S	S	NA	NA	NA S				
e. Apply the principles of asepsis and standard precautions. (responding)	NA	S	S	NA	NA	S				
f. Practice use of standardized EBP tools that support safety and quality. (noticing, responding)	NA	S	S	NA	NA	NA S				
Faculty Initials	MD	CB	HS	BL	FB	BL				

*When completing the 1South Care Map CDG refer to the Care Map Rubric

Comments:

Week 2(2a,b,f): Great job this week in the clinical, researching and discussing your patient's mental health and medical history. You were able to research and talk about an EBP article titled "Digital Mental Health Interventions for Depression, Anxiety, and Enhancement of Psychological Well-Being Among College Students: Systematic Review." related to mental health during clinical debriefing. CB

Week 3 (2a,b,c)-You were able to obtain a health history along with the mental health issues impacting your patient. You were also able to use both subjective and objective findings to assist in developing a plan of care for the patient. HS

(2d)- Nice job on your care map this week! You did a nice job including all of the requirements and painting a picture of the patient's priority problem and the interventions and why each one is important. HS

Week 6-2(d) Great job contributing to developing/carrying out the plan of care for each of the patients you helped care for while in hospice. BL

* End-of-Program Student Learning Outcomes

Objective										
3. Refine basic verbal and nonverbal therapeutic communication skills when interacting with patients, families, and members of the health care team. (1, 2, 3, 5, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Illustrate professionally appropriate and therapeutic communication skills in interactions with patients, and families. (responding)	NA	S	S	NA	NA	S				
b. Demonstrate professional and appropriate communication with the treatment team by using the SBAR format for handoff communication during transition of care. (responding)	NA	S	S	NA	NA	NA S				
c. Identify barriers to effective communication. (noticing, interpreting)	NA	S	S	NA	NA	NA				
d. Develop effective therapeutic responses. (responding)	NA	S	S	NA	NA	S				
e. Develop a satisfactory patient-nurse therapeutic communication. (Nursing Process Study) (responding, reflecting)				NA S						
f. Posts respectfully and appropriately in clinical discussion groups. (responding, reflecting)	NA	S	S	S U	S	S				
g. Respect the privacy of patient health and medical information as required by federal HIPAA regulations. (responding)	NA	S	S	S	S	S				
h. Teach patient/family based on readiness to learn and patient needs. (responding, reflecting)	NA	S	S	NA	NA	NA				
Faculty Initials	MD	CB	HS	BL	FB	BL				

Comments:

Week 2(3a,c,d,f): Presley, you did a great job with therapeutic communication this week. You completed day 1 and 2 cdgs Satisfactorily, meeting all requirements. CB

Week 3 (3a,c,d,f)- You did a nice job using therapeutic communication skills when interacting with the patients. You successfully met the requirements for your CDG postings for both days. HS

* End-of-Program Student Learning Outcomes

Week 4-3(e) Satisfactory completion of the Nursing Process Recording assignment. Please see the Nursing Process Grading Rubric at the end of this document for individualized feedback on the assignment. Great job! 3(f) This competency was changed to a “U” for this week because your CDG responses were brief and did not meet the minimum word count required for each question. Each question was to be answered with a minimum of 200 words, and you did not have 200 words for any of your responses. Please be sure to address this “U” on your Week 5 Clinical Tool according to the guidelines on pg. 2 of this document. If you have any questions, please reach out. BL
Week 5: I received a “U” because I did not meet the minimum word requirement for each question. I will be sure to read through the guidelines to be sure I meet the expectations for each assignment going forward. Good idea, use the resources that are provided and double check your work and this will not happen again. FB
Week 5 (3f,g) Great job being respectful on individuals as they are starting the road to sobriety. Clinical discussion was posted in a timely manner following all expectations of the grading rubric. Keep up the great work. FB

Week 6-3(b) This week in Hospice you participated in the transition of care from day shift to night shift in which you observed SBAR handoff communication. 3(f) Satisfactory completion of your Hospice Reflection Journal. You provided a thoughtful reflection related to your experience and shared new knowledge related to hospice services when caring for the end-of-life patient. Great job! BL

Objective										
4. Demonstrate knowledge of frequently prescribed medications utilized in treating mental illness. (1, 4, 5, 6, 7)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Observe &/or administer medication while observing the six rights of medication administration. (responding)	NA	S	S	S	NA	S				
b. Demonstrate ability to discuss the uses and implication of psychotropic medications. (responding, reflecting)	NA	S	S	NA	NA	NA				
c. Identify the major classification of psychotropic medications. (interpreting)	NA	S	S	NA	NA	NA				
d. Identify common barriers to maintaining medication compliance. (reflecting)	NA	S	S	NA	NA	NA				
e. Explain the effects, adverse effects, nursing interventions and safety issues, related to the use of psychotropic medications. (responding, reflecting)	NA	S	S	NA	NA	NA				
Faculty Initials	MD	CB	HS	BL	FB	BL				

Comments:

Week 2(4a-e): Great job this week administering medications following the six rights of medication administration. You were able to research the prescribed medications for your patient, and discuss implications for use, side effects, classification, related interventions and safety issues. CB

Week 3 (4a-e)- You did a nice job this week administering medications. You followed the six rights of medication administration. You were able to discuss each prescribed medications for your patient, the indication for use, side effects, classification, related interventions and safety issues to monitor for. HS

* End-of-Program Student Learning Outcomes

Objective										
5. Develop an awareness of community Mental Health resources and services. (5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify the need for the community resources-detox unit available to patients with a mental illness. (noticing, interpreting)	NA	S NA	S	S	NA	NA				
b. Discuss recommendations for referrals to appropriate community resources and agencies. (reflecting)	NA	S	S	S	NA	NA				
c. Collaborate with the Erie County Health Department Detox Unit while observing the care of a patient with mental illness-substance abuse. (Community Agency Observation-Detox Unit) **	NA	S NA	NA	S	NA	NA				
d. Recognize and describe the need for substance abuse recovery resources. (Alcoholics/Narcotics Anonymous at the Sandusky Artisans Recovery Center (Observation))	NA	S NA	S NA	S NA	S	NA				
Faculty Initials	MD	CB	HS	BL	FB	BL				

****Alternative Assignment**

Comments:

Week 2(5b): You were able to discuss and observe discussion related to resources in the community to help patients with mental health disorders. The other competencies were changed to "NA" due to being related to off-site clinicals. CB

Week 3(5a,b)- You were able to discuss the community resources that are available to those individuals in need within the community. The other competency was changed to "NA" due to being related to off-site clinicals. HS

* End-of-Program Student Learning Outcomes

Week 4-5(a-c) Excellent job attending your Erie County Health Center Detoxification Unit clinical experience in which you were able to learn more about the community resources they provide, and how to care for this patient population during the detoxification process. BL

Week 4 (5b,d)- Great job, you recognizing the need for this type of resource in the community and the great asset it is to have available. FB

Objective										
	6. Demonstrate satisfactory proficiency when using informatics and techniques in the assessment of patients with a mental illness diagnosis. (1, 2, 3, 4, 6, 8)*									
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:	NA	S	S	NA	NA	NA				
a. Demonstrate competence in navigating the electronic health record. (responding)	NA	S	S	NA	NA	NA				
b. Demonstrate satisfactory documentation of psychiatric assessments and nursing notes utilizing the electronic health record. (responding)	NA	S	S	NA	NA	NA				
c. Demonstrate the use of technology to identify mental health resources. (responding)	NA	S	S	NA	NA	NA				
Faculty Initials	MD	CB	HS	BL	FB	BL				

Comments:

Week 2(6a-c): Great job this week documenting medications given in the EMAR. You were able to document on all patients after completion of your nursing group therapy. CB

Week 3 (6a,b)- You were able to successfully navigate the electronic health record in order to obtain the information you needed. You were also able to document on group participation and document the medication administration. HS

* End-of-Program Student Learning Outcomes

Objective

7. Evaluate self-participation in patient care experiences with the focus on safety, ethical, legal, and professional responsibilities. (7)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify your strengths for care delivery of the patient with mental illness. (reflecting)	NA	S	S	NA	NA	NA				
b. Demonstrates effective use of strategies to reduce risk of harm to self or others. Create a safe environment for patient care. (responding)	NA	S	S	NA	NA	NA S				
c. Illustrate active engagement in self-reflection and debriefing. (reflecting)	NA	S	S	NA S	S	S				
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE" – attitude, commitment, and enthusiasm during all clinical interactions. (responding)	NA	S	S	S	S	S				
e. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (responding)	NA	S	S	S	S	S				
f. Comply with the standards outlined in the FRMCSN policy, "Student Conduct While Providing Nursing Care." (responding)	NA	S	S	S	S	S				
Faculty Initials	MD	CB	HS	BL	FB	BL				

Objective 7a: Provide a comment for the highlighted competency each week of your 1 South clinical. Put "NA" for the weeks not assigned to 1 South.

Comments:

Week 2: A strength of care delivery for my patient was talking to her and providing therapeutic communication. I asked her how she was feeling and if she had any concerns about going home. I listened to her concerns about germs and her spiritual beliefs.

Week 2(7a,b): Good job this week with therapeutic communication. I would say that was a strength for you and you were engaged with the patients. You did a good job ensuring a culture of safety, and were able to discuss some of those in your cdg. CB

Week 3: A strength of care delivery for my patient was noticing my patient was very anxious and taking the initiative to approach him first and start a conversation. He was sitting in the comfy chairs in front of the TV bouncing his legs anxiously. He opened up about his feelings more than I was expecting but I provided that listening ear and therapeutic communication. You did a great job communicating with patients this week, while utilizing therapeutic methods of communication. HS

Week 4-7(c) Excellent job reflecting on your clinical experience at the Erie County Health Center Detoxification Unit in your CDG. You did a great job discussing your feelings and attitude about patients that this agency provides services for. BL

Week 4 (7c,d,e) Great job Presley, for being actively engaged, having a great attitude, committing to learn and behaving in a professional manner. FB

Week 6-7(c) Presley, your Hospice Reflection Journal was very well done and provided a great reflection related to your experience. 7(e) Comments from the RN (Michael) in Hospice: Excellent in all areas, “Very attentative to patients and their families. Very compassionate. Has great nursing knowledge.” Keep up all your hard work! BL

Care Map Evaluation Tool**
Psych
2024

Date	Nursing Priority Problem	Evaluation & Instructor Initials	Remediation & Instructor Initials
6/15/2024	Anxiety	S/HS	NA

**Psych students are required to submit one satisfactory care map (CDG) during the 4-day 1 South clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback.

Firelands Regional Medical Center School of Nursing
Nursing Care Map Rubric

Student Name: Presley Stang				Course Objective:			
Date or Clinical Week: 6/15/2024							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Nice job on your list of abnormal assessment and lab finding. You compiled a thorough list of risk factors for the patient. HS
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Great job on the list of nursing priorities and the identified goal and priority problem. Nice job on identifying the potential complications and the signs and symptoms to watch for. HS
	5. State the goal for the top nursing priority.	Complete			Not complete	3	
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Good job on the nursing interventions that you listed and prioritized, only a few didn't have a frequency listed. HS
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	2	
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	Good job reassessing the abnormal assessment findings. HS
	15. Evaluation includes one of the following statements: - Continue plan of care - Modify plan of care - Terminate plan of care	Complete			Not complete	3	

Reference

An in-text citation and reference are required.

The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both.

The care map will be graded “unsatisfactory” if no in-text citation or reference is included.

Total Possible Points= 45 points

45-35 points = Satisfactory

34-23 points = Needs Improvement*

< 23 points = Unsatisfactory*

***Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

*****Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *****

Faculty/Teaching Assistant Comments:

Great job on your care map! You did a nice job directly correlating the care map to your patient and including patient specific information and associating the plan of care directly with the patient. HS

Total Points: 44/45
Satisfactory

You must receive a total of 77 out of 100 points to receive a “S” grade on the Evaluation of Clinical Performance tool. Due date can be located on the clinical schedule.

Firelands Regional Medical Center School of Nursing
Nursing Process Grading Rubric- Psychiatric Nursing 2024

Criteria	Ratings				Points Earned
Criterion #1 Process Recording is organized and neatly completed	5 Points Typed process recording with spelling and grammar correct.	3 Points Typed process recording with 5 or less spelling and grammar mistakes.	1 Points Typed process recording with 5 or more spelling and grammar mistakes.	0 Points Process recording is not typed with 10 or more spelling and grammar mistakes.	5
Criterion #2 Assessment	7 Points Identifies pertinent patient background, current medical and psychiatric history. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	5 Points Identifies areas of assessment but incomplete data provided in 2 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	3 Point Identifies areas of assessment but incomplete data provided in 3 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	0 Points Missing data in all 4 areas of assessment.	5
Criterion #3 Mental Health Nursing Diagnosis (priority problem)	8 Points Identifies priority mental health problem (not a medical diagnosis) providing at least 5 relevant/related data and potential complications.	5 Points Identifies Priority mental health problem provides at least 4 relevant/related data and potential complications.	3 Point Identifies priority mental health problem provides at least 3 relevant/related data and potential complications.	0 Points Does not provide priority mental health problem and/or less than 3 relevant/related data and potential complications.	8
Criterion #4 Nursing Interventions	10 Points Identifies at least 5 pertinent nursing interventions in priority order including a rationale and timeframe. Interventions must be individualized and realistic. Identifies a therapeutic communication goal.	6 Points Identifies 4 or less nursing interventions in priority order including a rationale and time frame. Interventions are not individualized and/or realistic. Identifies a therapeutic communication goal.	4 Point Identifies 4 or less nursing interventions but not prioritized and/or no rationale or time frame provided. Interventions are not individualized and /or realistic. Identifies a therapeutic communication goal.	0 Points Identifies less than 4 interventions, not prioritized, individual, realistic, no rationale, no time frame. No therapeutic communication goal.	10
Criterion #5	15 Points	10 Points	5 Point	0 Points	15

Process Recording	Provides direct quotes for all interchanges. Nonverbal and Verbal behavior is described for all interactions. Students thoughts and feelings concerning each interaction is provided.	Direct quotes are not provided. Nonverbal and Verbal behavior is described for at least 7 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	Direct quotes are not provided. Nonverbal and Verbal behavior is described for at least 5 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	Direct quotes are not provided. Nonverbal and Verbal behavior is not described for less than half of the interactions. Student thoughts and feelings for less than half of the interactions provided.	
Criterion #6 Process Recording	20 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic) and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 75% of interactions.	15 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 50% of interactions.	10 Point Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), no technique (exploring, focusing, reflecting, formulating a plan of action, etc.) Provides explanation of at least 25% of interactions.	0 Points Analysis not provided for each interaction	20
Criterion #7 Process Recording	10 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 10 interchanges between patient and student.	6 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 7 interchanges between patient and student.	4 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 5 interchanges between patient and student.	0 Points There was less than 5 interchanges between patient and student provided.	10
Criterion #8 Evaluation	15 Points Self-evaluation of communication with patient. Identify at least 3 strengths and 3 weaknesses of therapeutic communication.	10 Points Self-evaluation of communication with patient. Identified 2 strengths and 2 weaknesses of therapeutic communication.	5 Point Self-evaluation of communication with patient. Identified 1 strength and 1 weakness of therapeutic communication.	0 Points No self-evaluation was provided.	15
Criterion #9 Evaluation	10 Points Identify at least 3 barriers to communication including interventions or communication that could have been done differently. Identify all pertinent social determinants of health.	6 Points Identify at least 2 barriers to communication including interventions or communication that could have been done differently. Identify all	4 Point Identify at least 2 barriers to communication did not include interventions or communication that could have been done differently. Did not	0 Points Identify at least 1 barrier to communication did not include interventions or communication that could have been done	10

		pertinent social determinants of health.	identify any pertinent social determinants of health.	differently. Did not identify any pertinent social determinants of health.	
Total Possible Points= 100 points 77-100 points= Satisfactory completion. 76-53 points= Needs Improvement < 53 points= Unsatisfactory Faculty comments: Satisfactory completion of your Nursing Process Study assignment. Excellent job, Presley! Your assignment was very thorough and well done. Points were deducted from criterion #2 for lack of description related to why the patient was admitted to the Behavioral Unit. This section should have been written in paragraph format to provide more of a backstory on the patient. As a general reminder, be sure to include a time frame for all of your nursing interventions. You did not lose any points for this because you had more than five that were correctly done. Overall, great job. Keep up all your hard work! Faculty Initials: BL					Total Points: 98/100

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME(S) AND ROLE(S): Karli Schnellinger (A), Essence Byrd (M), Melisa Fahey (A), Presley Stang (M)

GROUP #: 5

SCENARIO: Alcohol Substance Use Simulation

OBSERVATION DATE/TIME(S): 06/27/2024 0800-0915

CLINICAL JUDGMENT COMPONENTS	<u>OBSERVATION NOTES</u>
NOTICING: (1,2,5)* • Focused Observation: E A D B • Recognizing Deviations from Expected Patterns: E A D B • Information Seeking: E A D B	Notices patient's blood pressure is elevated. Attempts to seek out information related to why patient is hospitalized. Recognizes that the patient does not need Lorazepam based on the CIWA scale score. Notices patient appears to be anxious. Notices patient's blood pressure is elevated. Recognizes the patient needs Lorazepam based on the CIWA Scale score. Attempts to seek out information related to the patient's substance use and fall. Seeks out information related to patient's support system and use of coping skills.
INTERPRETING: (2,4)* • Prioritizing Data: E A D B • Making Sense of Data: E A D B	Prioritizes performing CIWA Scale. Interprets CIWA Scale score as 3. Interprets CIWA Scale score as 36. Interprets CIWA protocol accurately for Lorazepam dose (4 mg PO).
RESPONDING: (1,2,3,5)*	Introduces self and identifies patient.

• Calm, Confident Manner: E A D B • Clear Communication: E A D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: E A D B	Obtains vital signs (T-98.6, HR-84, BP-154/90, SpO2-98%, RR-18). Performs CIWA Scale. Performs the Brief Mental Status Evaluation. Medication nurse reviews medication with the patient and administers them, after asked by patient about all morning medications. Medication nurse verifies patient, DOB, allergies and scans. Attempts to utilize therapeutic communication with the patient. Provides education related to community resources and self-help groups. Identifies self and patient. Obtains vital signs (HR-82, BP-145/89, RR-20, SpO2-98%). Assesses patient's pain level (0/10). Assesses patient's anxiety level (6/10). Performs parts of CAGE Questionnaire. Performs CIWA Scale. Be aware of aggressive behavior towards your patient (touching), when the patient informs you to "stop". Medication nurse verifies patient, DOB, allergies and scans. Medication nurse administers Lorazepam 4 mg PO (per protocol).
REFLECTING: (1,2,5)* • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B	Group members actively participated during debriefing. Appropriate questions were asked. Each group member discussed what they felt were strengths and weaknesses in their performance. Alternate choices were discussed for improvement in the future. Each member verbalized something they would do differently if they were to do the scenario again.
SUMMARY COMMENTS: * = Course Objectives Satisfactory completion of the simulation scenario is a score of "Developing" or higher in all areas of the rubric. E= Exemplary A= Accomplished D= Developing	Lasater Clinical Judgement Rubric Comments: Noticing: Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs. Recognizes subtle patterns and deviations from expected patterns in data and uses these to guide the assessment. Actively seeks subjective information about the patient's situation from the patient and family to support planning interventions; occasionally does not pursue important leads.

B= Beginning Scenario Objectives: • Demonstrate effective therapeutic communication while interacting with patient admitted for an acute mental health crisis. (1, 2, 3)* • Utilize the CIWA scale to assess a patient with a history of substance abuse. (1, 2)* • Determine appropriate medication administration steps utilizing the CIWA scale. (4)* • Provide patient with appropriate education on community support and resources. (5)*	Interpreting: Generally, focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data. In most situations, interprets the patient's data patterns and compares with known patterns to develop an intervention plan and accompanying rationale; the exceptions are rare or in complicated cases where it is appropriate to seek the guidance of a specialist or a more experienced nurse. Responding: Generally, displays leadership and confidence and is able to control or calm most situations; may show stress in particularly difficult or complex situations. Generally, communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Develops interventions on the basis of relevant patient data; monitors progress regularly but does not expect to have to change treatments. Displays proficiency in the use of most nursing skills; could improve speed or accuracy. Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses. Satisfactory completion of the simulation scenario. Great job! CB

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date:
