

**EVALUATION OF CLINICAL PERFORMANCE TOOL**  
**Maternal Child Nursing – 2024**

**Firelands Regional Medical Center School of Nursing**  
**Sandusky, Ohio**

**Student:** Trenton McIntyre

**Final Grade:** Satisfactory/Unsatisfactory

**Semester:** Fall

**Date of Completion:** 9/4/24

**Faculty:** Kelly Ammanniti, MSN, RN, CHSE; Monica Dunbar DNP, RN;  
CNE; Rachel Haynes MSN, RN, Brian Seitz, MSN, RN

**Faculty eSignature:**

**DIRECTIONS FOR USE:**

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

**METHODS OF EVALUATION:**

Care Maps  
Patient/Family Education  
Preparedness for Clinical/Clinical Performance  
Online Clinical Discussion Groups  
Administration of Medications  
Nursing Skills Completion of Clinical Performance Tool  
Written Reports of Clinical Experiences  
Documentation  
Conferences with the Faculty  
Lasater Clinical Judgment Rubric  
vSim  
Simulation Scenarios

7/18/24 KA

**Absence: (Refer to Attendance Policy)**

| Date | Number of Hours | Comments | Make-up (/Date/Time) |
|------|-----------------|----------|----------------------|
|      |                 |          |                      |
|      |                 |          |                      |

|      |                 |          |                      |
|      |                 |          |                      |

| Faculty's Name  | Initials |
|-----------------|----------|
| Kelly Ammanniti | KA       |
| Monica Dunbar   | MD       |
| Rachel Haynes   | RH       |
| Brian Seitz     | BS       |

## PERFORMANCE CODE

### SATISFACTORY CLINICAL PERFORMANCE

**Satisfactory (S):** Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

### UNSATISFACTORY CLINICAL PERFORMANCE

**Needs Improvement (NI):** Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

**Unsatisfactory (U):** Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

### OTHER

**Not Available (NA):** The clinical experience which would meet the competency was not available

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

| a. Provide care utilizing techniques and diversions appropriate to the patient's level of development.                                                                                                                                     |      | NA   | NA                                             |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| b. Provide care using developmentally appropriate communication.                                                                                                                                                                           |      | NA   | NA                                             |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| c. Provide care utilizing systematic and developmentally appropriate assessment techniques.                                                                                                                                                |      | NA   | NA                                             |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| d. Describe safety measures for various stages of development. (i.e. monitoring fall risks, restraints, and DVT assessment)                                                                                                                |      | NA   | NA                                             |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| e. Identify stage of growth and development (Erikson's Stages)(List Below and explain reason for choice)*                                                                                                                                  |      | NA   | S                                              |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| Clinical Location Age of patient                                                                                                                                                                                                           |      | NA   | LC, ages 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
|                                                                                                                                                                                                                                            |      | RH   |                                                |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |

**Comments:**

Week 3 e: Stage of growth and development for this clinical experience would be trust vs mistrust. Reason is that the baby is affected greatly by bonding and breastfeeding and if those go wrong, baby could be put into mistrust. If they go how they should, baby will be in trust.

| <b>Objective</b>                                                                                                                                                                                                                           |      |      |     |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |

| a. Recognize areas for improvement and goals to meet these needs. (List Below)*                                                                               |      | NA      | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| b. Accept responsibility for decisions and actions.                                                                                                           |      | NA      | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| c. Demonstrate evidence of growth and self-confidence.                                                                                                        |      | NA      | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| d. Demonstrate evidence of research in being prepared for clinical.                                                                                           |      | NA      | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| e. Exhibits professional behavior i.e. appearance, responsibility, integrity, and respect.                                                                    |      | NA<br>U | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| f. Describe initiatives in seeking out new learning experiences.                                                                                              |      | NA      | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| g. Demonstrate ability to organize time effectively.                                                                                                          |      | NA      | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| h. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. |      | NA      | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
| i. Demonstrates growth in clinical judgment.                                                                                                                  |      | NA      | S   |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |
|                                                                                                                                                               |      | RH      |     |      |      |      |      |         |       |       |       |      |      |       |       |       |         |       |

**Comments:**

Week 2: 6e- this was marked as "U" due to your tool being turned in late. Please address this "U" and how you will prevent getting another "U" in the future. If this is not addressed, it will remain a "U" until it is addressed. RH

Week 2 6e: This U was due to a late submission. I will prevent another U in the future by not turning in my clinical tool past the deadline. I apologize for the late submission and will make sure it doesn't happen again.

**\*End-of-Program Student Learning Outcomes**

Week 3 6a: An area of improvement would be to try and talk to the patients more. I had questions that I wanted to ask but I saved them all for the lactation consultant because I didn't know how they would respond/feel for me to ask them questions. The lactation consultant answered them for me; however, I will try to be more outspoken in the future and talk directly to the patient.

| <b>Remediation:<br/>Date/Evaluation/Initials</b>                                                                 |                                                    |                                              |                                                              |                                              |                                                           |                                                            |                                              |                                                |                                              |                                                        |                                              |                                                 |                                           |

\* Course Objectives

Comments:

**EVALUATION OF CLINICAL PERFORMANCE TOOL**  
**Maternal Child Nursing – 2024**  
**Firelands Regional Medical Center School of Nursing**  
**Sandusky, Ohio**

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
