Nursing Foundations 2024
Skills Lab Competency Tool

Student Name: Gracey Crabtree

Comments:

Week 1 (Technology Lab): During this lab you were able to satisfactorily navigate:

- Edvance360 Learning Management System.
- Skyscape Resource System.
- Assessment Technologies Institute (ATI) / Virtual Simulation (vSim) Systems.
- Guided tour of library and computer lab. HS

Week 2 (Hand Hygiene; Vital Signs; PPE): During lab this week you were able to satisfactorily demonstrate:

- Appropriate hand hygiene utilizing hand sanitizer and soap/water.
- Accurate verbalization of procedure for donning & doffing PPE.

Appropriate level of skill during guided practice with measurement of radial and brachial pulses, along with manual blood pressure. Vital signs skills will be observed 1:1 with faculty during Week 3. Keep up the good work! HS

Week 3 (Vital Signs):

Awesome work in the lab this week! You satisfactorily completed the vital sign check off during 1:1 observation, including oral temperature, radial pulse, respiratory rate, pulse oximetry, and blood pressure measurement. During the blood pressure measurement, you accurately obtained two consecutive blood pressure results on the Vital Sim manikin. The first blood pressure measurement was set at 108/66, and you identified it as 108/64, which was within the range for a satisfactory result. The second measurement was set at 126/88 and you interpreted it as 128/90, within the desired range. You were able to verbally discuss the following measurements: axillary and rectal temperature along with orthostatic vital sign assessments. You did not require any prompts throughout the whole checkoff, great work! You provided accurate detail in your communication with the "patient". Your documentation was 100% accurate. I encourage you to continue practicing obtaining a manual pulse with palpation. Your technique and approach were very good; however, you obtained a pulse rate of 60 with palpation, and the Spo2 monitor was reading 74-76. This may have been due to losing track of the full 30 seconds due to your watch going asleep. A little practice will help you master this skill. Keep up the great work!! NS

Week 4 (Assessment):

Week 5 (Assessment; Mobility):

Week 6 (Personal Hygiene Skills):

Week 7 (NG Skills: Insertion, Irrigation, and Removal; Feedings):

Week 8 (Foley Skills: Insertion, Removal; Sterile Gloves; I&O, Documentation Lab):

Week 9 (Dressing Change: Dry Sterile, Damp to Dry Packed, Stoma Skills):

Week 10 (Safety; Infection Control; Prioritization; Weight; Pressure Ulcer Prevention; Soft Restraints; Doppler BP):

Week 11 (Medication Lab):

8/17/2023
