

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2024**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester: Fall

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy Rockwell, MSN, RN;
Chandra Barnes, MSN, RN; Nick Simonovich, MSN, RN
Heather Schwerer, MSN, RN; Brittany Lombardi, MSN, RN, CNE

Faculty eSignature:

Teaching Assistant: Stacia Atkins, BSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

- | | |
|--|---------------------|
| Skills Lab Checklists | Faculty Feedback |
| Care Map Grading Rubric | Documentation |
| Administration of Medications | Clinical Reflection |
| Simulation Scenarios | |
| Skills Demonstration | |
| Evaluation of Clinical Performance Tool | |
| Clinical Discussion Group Grading Rubric | |
| Lasater Clinical Judgment Rubric | |

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

Objective																
1. Describe how diverse cultural, ethnic, and social backgrounds function as sources of patient, family, and community values. (2,4,6)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:									NA							
a. Identify spiritual needs of patient (Noticing).									NA	S	NA					
b. Identify cultural factors that influence healthcare (Noticing).									NA	S	NA					
c. Coordinate care based on respect for patient's preferences, values, and needs (Responding).						NA	S	NA	S	S	NA					
d. Use Maslow's Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).						NA	S	NA	S	S	NA					
						CB	CB	CB	CB	HS						
						NA	3T 88	NA	NA	3T 70	NA					

Clinical Location:
Patient age**

Comments

****Document your clinical location and patient age in the designated box above.**

Week 7(1c,d): Great job showing respect for your patient's needs, being compassionate and kind while delivering care. You also demonstrated the appropriate use of Maslow's hierarchy of needs during the head to toe assessment performed on your patient during this clinical experience, being able to recognize physiological needs of your patient when performing head to toe assessment. CB

Week 9(1c,d)- Your patient had an extended stay at the hospital, and you did a nice job providing her care based on her needs and preferences. You also utilized Maslow's Hierarchy of needs to determine the care needed. Nice job! HS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

1. Summarize knowledge of anatomy, physiology, chemistry, nutrition, psychosocial and developmental principles in performance of basic physical assessment through use of clinical judgment skills. (3,4, 5)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Perform head to toe assessment utilizing techniques of inspection, palpation and auscultation (Responding).						NA	NI	NA	NI	S	NA					
b. Use correct technique for vital sign measurement (Responding).						NA	S	NA	S	S	NA					
c. Conduct a fall/safety assessment and institute appropriate precautions (Responding).						NA	S NA	NA	NA	S	NA					
d. Conduct a skin risk assessment and institute appropriate precautions (Responding).									NA	NA S	NA					
e. Collect the nutritional data of assigned patient (Noticing).									NA	S	NA					
f. Demonstrates appropriate insertion, maintenance, and/or removal of NG tube (Responding).									NA	NA	NA					
g. Describe the findings and the rationale for diagnostic studies with the nursing implications for assigned patient (Interpreting).									NA	S	NA					
						CB	CB	CB	CB	HS						

Comments

Week 7: I put “Needs Improvement” for 2.a. because I forgot to assess the capillary refill of all four extremities during my head-to-toe assessment. Thank you for explaining why you rated yourself this way. The more clinical experience you get, the easier it will be to remember all components of a head-to-toe assessment. CB

Week 7(2a,b): Izzy, you performed a systematic head to toe assessment and retrieved all vital signs within a timely manner. Competency 2c was changed to a “NA” due to not conducting a fall assessment this clinical. CB

Week 9(a-d) You did a nice job this week completing your vital signs, head to toe assessment, fall/safety, and skin assessment. You were able to identify abnormal lung sounds of rhonchi while auscultating your patients’ lungs. You also identified that the patient had been refusing the bed alarm and provided education and maintained fall precautions during your shift. You also did an excellent job on your pain assessment and made sure to document it thoroughly. HS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

2. Select communication techniques and appropriate boundaries with patients, families, and health care team members. (1,2,3,4,6,7)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:									S							
a. Receive report at beginning of shift from assigned nurse (Noticing).						NA	S	NA	S	NA						
b. Hand off (report) pertinent, current information to the next provider of care (Responding).						NA	NA	NA	NA	S	NA					
c. Use appropriate medical terminology in verbal and written communication (Responding).						NA	S	NA	S	S	NA					
d. Report promptly and accurately any change in the status of the patient (Responding).						NA	S	NA	S	S	NA					
e. Communicate effectively with patients and families (Responding).						NA	S	NA	S	S	NA					
f. Participate as an accountable health care team member in the provision of patient centered care (Responding).						NA	S	NA	S	S	NA					
						CB	CB	CB	CB	HS						

Comments

Week 7(3a,c,d,e): Great job receiving hand off report on your patient. Good job using medical terminology while communicating with your patient, reporting abnormal findings, and communicating effectively with your staff RN. CB

Week 9 (a-f) You did a nice job receiving report from the previous shift and updating the nurse at the end of your shift. You notified the nurse regarding your patient being in pain, and you informed her of all of the associated information and documented accordingly. HS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																
3. Exemplify advanced searches in accessing electronic health care information and documenting patient care. (1,4,8)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:									S							
a. Document vital signs and head to toe assessment according to policy (Responding).						NA	S	NA	S	S	NA					
b. Document the patient response to nursing care provided (Responding).						NA	S	NA	S	S	NA					
c. Access medical information of assigned patient in Electronic Medical Record (Responding).		S				NA	S	NA	S	S	NA					
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding).		S							S	NA	NA					
e. Provide basic patient education with accurate electronic documentation (Responding).									NA	NA	NA					
f. Consistently and appropriately post comments for clinical discussion groups on Edvance360 website (Reflection).						NA	S	NA	S	S	NA					
*Week 2 –Meditech		CB				CB	CB	CB	CB	HS						

Comments

Week 2(4c,d): Satisfactory for listening attentively and actively participating in the Meditech orientation clinical. You showed beginning competence in the ability to access a patient’s EHR, document care in an intervention, and locate patient data. You were able to access Lexicomp to locate patient education materials. Additionally, nursing policies and procedures were located on the health system intranet. Great job! NS/CB

Week 7(4a,b,c,f): Satisfactory job with documentation of the head to toe assessment and vital signs of your patient. Make sure to note any areas you may have forgot to assess, so that assessments and documentation are thorough and accurate. You did a good job utilizing Meditech for documentation and to look up patient information. You completed your first cdg, meeting all requirements per the grading rubric, excellent job! CB

Week 9(4a,b,c) You did a good job just this week documenting all of the care and interventions you provided to your patient.

(4f)- Nice job on your initial CDG post and the peer response you met all of the rubric requirements and provided a thorough response to your peer. HS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																
4. Exemplify psychomotor skills and nursing care safely using evidence-based practice. (3,4,5,7,8)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Demonstrate correct body mechanics and practices safety measures during the provision of patient care (Responding).						NA	S	NA	S	S	NA					
b. Apply the principles of asepsis and standard/infection control precautions (Responding).						NA	S	NA	S	S	NA					
c. Demonstrates appropriate skill with foley catheter insertion, maintenance, and removal (Responding).									NA	NA	NA					
d. Manage basic patient care situations with evidence of preparation and beginning dexterity (Responding).						NA	S	NA	S	S	NA					
e. Organize time providing patient care efficiently and safely (Responding).						NA	S	NA	S	S	NA					
f. Manages hygiene needs of assigned patient (Responding).									NA	S	NA					
g. Demonstrate appropriate skill with wound care (Responding).									NA		NA					
h. Document the location of fire pull stations and fire extinguishers. ** (Interpreting).						NA	S	NA	S							
						CB	CB	CB	CB	HS						

Comments

****You must document the location of the pull station and extinguisher here for your first clinical experience.**

One pull station on 3T is located at the front desk and a fire extinguisher is located by room 3010 by the stairs. Great job! CB

Week 7(5a,b): Great job utilizing correct body mechanics and raising the bed while performing an assessment. You did a great job ensuring that you foamed in/out when entering/exiting patients' rooms. CB

Week 9(5d,e,f)- You did a nice job going right in the patients room and getting your assessment completed and assisting the patient with her meal tray and hygiene care. You planned your time efficiently in order to complete all tasks. You did all of these tasks in a timely manner and maintained safety and encouraged independence from the patient. HS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																
5. Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies: a. Utilize clinical judgment skills to develop a patient-centered plan of care (Responding).									NA	S	NA					
									CB	HS						

Comments

Week 9 (6a)- You did a nice job utilizing clinical judgement skills based on your patient's priority problem and then identifying interventions specific to the patient and developing the plan of care. HS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

2. Exemplify professional conduct through self-reflection, responsibility for learning, and goal setting. (1,5,7)*

6. Convert basic pharmacology principles into safe medication administration. (1,5,6,7)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Final
Competencies:																
a. Reflect on areas of strength** (Reflecting)						NA	S	NA	S	S	NA		Week		Week	
b. Reflect on areas for self-growth with a plan for improvement. ** (Reflecting)						NA	S	NA	S	S	NA					
c. Incorporate instructor feedback for improvement and growth (Interpreting)						NA	S	NA	S	S	NA					
d. Recognize patient drug allergies (Interpreting)						NA	S	NA	S	S	NA					
e. Practice the 6 rights and 3 checks prior to medication administration (Responding)																
f. Incorporate the core values of nursing (Responding)																
g. Administer oral, intrate, ophthalmic, subcutaneous, and intradermal medications using correct techniques (Responding)						NA	S	NA	S	S	NA					
h. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect (Responding)						NA	S	NA	S	S	NA					
i. Review the patient record for drug allergies (Interpreting)						NA	S	NA	S	S	NA					
j. Administer PRN medication (Responding)						NA	S	NA	S	S	NA					
k. Raise the patient response to PRN medications (Responding)						NA	S	NA	S	S	NA					
l. Demonstrate medication administration documentation required by federal HIPAA regulations (Responding)						NA	S	NA	S	S	NA					
m. Actively engage in self-reflection appropriately using BMV (Reflecting)						NA	S	NA	S	S	NA					
* Week 11: BMV						CB	CB	CB	CB	HS						
									CB							

Comments

* End-of-Program Student Learning Outcomes
 Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

**** Strength/weakness reflection (a,b): Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, “I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP’s with at least three members of my family this week.” Please ensure that you answer this section in-depth with your plan of action. Each week must be different.**

Week 7:

- a. My area of strength was staying calm and collected while ensuring good communication with my patient. I hope to continue good communication with my patients and staying calm even if I am overwhelmed. **Good communication is key in providing patient centered care, great job! CB**
- b. My area of weakness was not keeping up during the hand-off report of my patient. Next time I will be sure to know beforehand how the sheet is set up and will keep up when information is given to me, not missing any details. **Looking over the hand-off report sheet is a good plan to ensure that you know where to put patient information. CB**

Week 7(8d,f,h): Excellent job following the student code of conduct, exhibiting professionalism while in the clinical setting, and ensuring that patient privacy was respected. CB

Week 9:

- a. My area of strength was utilizing different approaches to encourage my patient to get up to the chair for meals. Within the charting system I was able to see that my patient had been continuously refusing to get up to the chair at all during the day. The goal was to at least get up to the chair to eat meals, this would also help relieve some of the symptoms they were experiencing. They started off the morning by refusing right away, I continued to educate and pursue my patient each time I went in the room about the benefits of sitting in the chair for even if it was just a short thirty minutes. Once we started the hygiene care I was able to get them to the chair and they ended up feeling much better than before and ended up staying for a couple hours. This was the first time they had been out of the bed in days. Their symptoms were relieved greatly. I hope to be able to continue using different communication tactics to positively impact my patients. Using education, encouragement, and positivity. **Great job! HS**
- b. My area of weakness was making the time to utilize skyscape. It was harder than I thought to find an open computer or space that I would’ve been able to utilize using skyscape, along with knowing I had a good amount of time to do so. I was able to finish my assessments and other interventions in a timely manner, however there were other factors like my patient meal tray getting lost and having to reorder, that took up the extra time that I would’ve had. All my charting was done in the room, I made sure to take some notes on diagnoses that I wanted to look up on skyscape for my CDG. Next time I hope I can have the opportunity to have a little extra time to utilize skyscape. I think once I get use to the interventions and charting that I need to complete each clinical, it will make it easier to squeeze in time for these things. I hope to continue to improve my time management by being more aware and efficient when completing each intervention. **Each clinical experience will be different and some days you will have extra time and other days you may not have enough time. Becoming more comfortable and familiar with the documentation will allow for additional time in other areas. HS**

* End-of-Program Student Learning Outcomes

Student Name:		Course Objective:					
Date or Clinical Week:							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)		
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)		
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)		
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	5. State the goal for the top nursing priority.	Complete			Not complete		
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)		
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)		
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete		
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete		
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete		

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete		
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete		
	15. Evaluation includes one of the following statements: <ul style="list-style-type: none"> Continue plan of care Modify plan of care Terminate plan of care 	Complete			Not complete		

Reference

An in-text citation and reference are required.
The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both.
The care map will be graded “unsatisfactory” if no in-text citation AND reference is included.

Total Possible Points= 45 points
45-35 points = Satisfactory
34-23 points = Needs Improvement*
< 23 points = Unsatisfactory*
***Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

*****Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *****

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2024

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date: _____
