

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2024**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester: Fall

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy Rockwell, MSN, RN;
Chandra Barnes, MSN, RN; Nick Simonovich, MSN, RN
Heather Schwerer, MSN, RN; Brittany Lombardi, MSN, RN, CNE

Faculty eSignature:

Teaching Assistant: Stacia Atkins, BSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

- | | |
|--|---------------------|
| Skills Lab Checklists | Faculty Feedback |
| Care Map Grading Rubric | Documentation |
| Administration of Medications | Clinical Reflection |
| Simulation Scenarios | |
| Skills Demonstration | |
| Evaluation of Clinical Performance Tool | |
| Clinical Discussion Group Grading Rubric | |
| Lasater Clinical Judgment Rubric | |

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

Objective																
1. Describe how diverse cultural, ethnic, and social backgrounds function as sources of patient, family, and community values. (2,4,6)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Identify spiritual needs of patient (Noticing).									NA	N/A	N/A	N/A	N/A			
b. Identify cultural factors that influence healthcare (Noticing).									NA	N/A	N/A	N/A	N/A			
c. Coordinate care based on respect for patient's preferences, values, and needs (Responding).						n/a	n/a	S	S	S	S	N/A	N/A			
d. Use Maslow's Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).						n/a	n/a	S	S	S	S	N/A	N/A			
						CB	CB	SA	SA	NS	NS	NS				
						NA	NA	3T 67 year old male	NA	4N 86 year old male	4N 86 year old F	N/A	4N 76 year old F			

Clinical Location:
Patient age**

Comments

****Document your clinical location and patient age in the designated box above.**

Week 8 (1c,d) Great job showing respect for your patient's needs, being compassionate and kind while delivering care. You also demonstrated the appropriate use of Maslow's hierarchy of needs during the head to toe assessment performed on your patient during this clinical experience, being you able to recognize physiological needs of your patient when performing head to toe assessment. SA

Week 9 1(c,d) – You did well this week to coordinate your care appropriately based on your patient’s preferences and needs. You used Maslow’s to appropriately prioritize your care, promoting safety in the post-operative period following hip replacement surgery. NS

Week 10 9(a-d) – Yasmin, you did well this week coordinating your care appropriately. You performed your assessments in a timely manner to ensure her physiological needs were met. You used motivation and encouragement to ensure her nutritional needs were addressed by assisting her in selecting food choices to promote appetite and intake to assist in the healing process. On numerous occasions you provided hygiene care related to bowel incontinence to promote skin integrity and self-esteem. Nice job!
NS

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

1. Summarize knowledge of anatomy, physiology, chemistry, nutrition, psychosocial and developmental principles in performance of basic physical assessment through use of clinical judgment skills. (3,4, 5)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Perform head to toe assessment utilizing techniques of inspection, palpation and auscultation (Responding).						n/a	n/a	S	S	S	S	N/A	S			
b. Use correct technique for vital sign measurement (Responding).						n/a	n/a	S	S	S	S	N/A	S			
c. Conduct a fall/safety assessment and institute appropriate precautions (Responding).						n/a	n/a	n/a	NA	S	S	N/A	S			
d. Conduct a skin risk assessment and institute appropriate precautions (Responding).									NA	n/a S	S	N/A	S			
e. Collect the nutritional data of assigned patient (Noticing).									NA	S	S	N/A	S			
f. Demonstrates appropriate insertion, maintenance, and/or removal of NG tube (Responding).									NA	n/a	N/A	N/A	N/A			
g. Describe the findings and the rationale for diagnostic studies with the nursing implications for assigned patient (Interpreting).									NA	S	S	N/A	S			
						CB	CB	SA	SA	NS	NS	NS				

Comments

Week 8 (2a,b): Yasmin, you performed a systematic head to toe assessment and retrieved all vital signs within a timely manner. SA

Week 9 2(a) – Nice job with your assessment this week, noticing numerous deviations from normal in addition to normal assessment findings. Notably, you identified abnormal musculoskeletal findings including an unsteady gait, limited movement, and muscle weakness as a result of his recent hip replacement surgery. You noticed the use of a walker for ambulation assistance. You also noticed abnormal findings to the integumentary system, including a hip incision with healthy appearing surrounding skin, dryness to the lower extremities with rough skin, and the presence of a wound vac to the incision site. Good work! NS

Week 9 2(d) – this competency was changed to “S” because you were able to perform an assessment of the wound vac to the right hip and the skin surrounding the dressing. NS

Week 10 2(c,d) – You were able to identify safety concerns with your patient this week and implemented appropriate interventions to maintain her safety during her hospital stay. You noticed that your patient had not been out of bed in her long-term care setting since July, and interpreted this as a risk factor for numerous complications. When transferring your patient to the chair and back to bed, you used appropriate safety measures and body mechanics to prevent injury. NS

Week 10 2(e) – On day one caring for your patient, you noticed decreased oral intake. On day 2, you promoted her nutritional status by going over her breakfast menu and encouraging foods that she enjoys. You were able to provide her with a protein supplemental to promote healing. Good work! NS

Week 10 2(g) – In your CDG discussion this week you were able to correlate various abnormal lab/diagnostic findings to her priority nursing problem. You discussed her abnormal sodium and hemoglobin level and correlated these findings with potential issues with mobility and activity tolerance. NS

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

2. Select communication techniques and appropriate boundaries with patients, families, and health care team members. (1,2,3,4,6,7)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:						n/a	n/a	S	S	S	S	N/A	S			
a. Receive report at beginning of shift from assigned nurse (Noticing).						n/a	n/a	S	S	S	S	N/A	S			
b. Hand off (report) pertinent, current information to the next provider of care (Responding).						n/a	n/a	n/a	NA	S	S	N/A	S			
c. Use appropriate medical terminology in verbal and written communication (Responding).						n/a	n/a	s	S	S	S	N/A	S			
d. Report promptly and accurately any change in the status of the patient (Responding).						n/a	n/a	n/a	NA	S	S	N/A	S			
e. Communicate effectively with patients and families (Responding).						n/a	n/a	S	S	S	S	N/A	S			
f. Participate as an accountable health care team member in the provision of patient centered care (Responding).						n/a	n/a	S	S	S	S	N/A	S			
						CB	CB	SA	SA	NS	NS	NS				

Comments

Week 8 (3a,c,d,e): Great job receiving hand off report on your patient. Good job using medical terminology while communicating with your patient, reporting abnormal findings, and communicating effectively with your staff RN. Good job participating according to (f) by attending to your patient's needs and walking him to the restroom.SA

Week 9 3(a,b) – You are beginning to gain more experience and confidence in receiving and providing hand-off report. You were able to utilize the SBAR sheet to update the assigned RN on your patient’s status prior to leaving the floor. (e,f) – you communicated well with the patient, his family member, and the health care team throughout the day. You were accountable for your assessments and nursing interventions and participated as an active member of the health care team. Well-done! NS

Week 10 3(d,e,f) – You were an active and accountable member of the health care team by providing thorough nursing care and collaborating with the assigned RN, your peers, and the PCTs on the floor. On numerous occasions you used strong teamwork and collaboration for mobility, hygiene, and safety needs. You were able to assist with an IV insertion, helping to comfort the patient during the procedure. You communicated well with your patient and reported all abnormal findings to the faculty and assigned RN. NS

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																
3. Exemplify advanced searches in accessing electronic health care information and documenting patient care. (1,4,8)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:									S							
a. Document vital signs and head to toe assessment according to policy (Responding).						n/a	n/a	S	S	S	N/A	S				
b. Document the patient response to nursing care provided (Responding).						n/a	n/a	S	S	S	N/A	S				
c. Access medical information of assigned patient in Electronic Medical Record (Responding).		S				n/a	n/a	S	S	S	N/A	S				
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding).		S							S	S	N/A	S				
e. Provide basic patient education with accurate electronic documentation (Responding).									NA	n/a	N/A	N/A	N/a			
f. Consistently and appropriately post comments for clinical discussion groups on Edvance360 website (Reflection).						n/a	n/a	S	S	S	N/A	N/A				
*Week 2 –Meditech		CB				CB	CB	SA	SA	NS	NS	NS				

Comments

Week 2(4c,d): Satisfactory for listening attentively and actively participating in the Meditech orientation clinical. You showed beginning competence in the ability to access a patient’s EHR, document care in an intervention, and locate patient data. You were able to access Lexicomp to locate patient education materials. Additionally, nursing policies and procedures were located on the health system intranet. Great job! NS/CB

Week 8(4a,b,c,f): Satisfactory job with documentation of the head to toe assessment and vital signs of your patient. Make sure to note any areas you may have forgot to assess, so that assessments and documentation are thorough and accurate. You did a good job utilizing Meditech for documentation and to look up patient information. You

completed your first cdg, meeting all requirements per the grading rubric, excellent job! For future reference remember to appropriately utilize the sheet that Brittany and Nick handed out with proper APA formatting, by citing something out of the reference. Example; you stated, “In our nursing foundations book, I was able to see the table how to assess for pitting in the edema”, this is where I would paraphrase in your own words what specific information related to edema, and then your in text would look like this (Potter et. al, 2023). SA

Week 9 4(a,b) – Good job with your documentation this week. You communicated your findings in a timely manner to ensure appropriate understanding of the patient’s condition for all members of the health care team. NS

Week 9 4(e) – Overall you did very well with your CDG this week. You identified the correct priority problem related to impaired mobility and did well to explain your assessment findings to support your discussion. You utilized a reputable resource to enhance the discussion and included an in-text citation and reference appropriately. In your response to Marilyn, I have one tip for future success: Be sure that your in-text citation and reference match. You provided an in-text citation for (Myers, 2023) but referenced Sawyer-Sommers (2023) diseases and disorders. The reference author(s) should always match the author(s) of the in-text citation. Otherwise, all criteria were met for a satisfactory evaluation. NS

Week 10 4(e) – Great work with your CDG prompts this week. See my comments on your posts for further details. All criteria were met for a satisfactory evaluation. NS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																
4. Exemplify psychomotor skills and nursing care safely using evidence-based practice. (3,4,5,7,8)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Demonstrate correct body mechanics and practices safety measures during the provision of patient care (Responding).						n/a	n/a	S	S	S	S	N/A	S			
b. Apply the principles of asepsis and standard/infection control precautions (Responding).						n/a	n/a	S	S	S	S	N/A	S			
c. Demonstrates appropriate skill with foley catheter insertion, maintenance, and removal (Responding).									NA	n/a	N/A	N/A	N/A			
d. Manage basic patient care situations with evidence of preparation and beginning dexterity (Responding).						n/a	n/a	S	S	S	S	N/A	S			
e. Organize time providing patient care efficiently and safely (Responding).						n/a	n/a	S	S	S	S	N/A	S			
f. Manages hygiene needs of assigned patient (Responding).									NA	S	S	N/A	S			
g. Demonstrate appropriate skill with wound care (Responding).									NA		N/A	N/A	N/A			
h. Document the location of fire pull stations and fire extinguishers. ** (Interpreting).						n/a	n/a	S	S							
						CB	CB	SA	SA	NS	NS	NS				

Comments

****You must document the location of the pull station and extinguisher here for your first clinical experience.**

There was a fire extinguisher across from room 3036 and a pull station by the nurse director's office **Thank you SA**

Week 8(5a,b): Great job utilizing correct body mechanics and raising the bed while performing an assessment. I know there was confusion to your patient's ambulatory status, but you did a great job by asking for help taking him to the restroom. You did a great job ensuring that you foamed in/out when entering/exiting patients' rooms as well. SA

Week 9 5(d,e) – Yasmin, you did very well this week with your time management and organization. You provided all patient care in a timely manner to ensure his needs were met. As a result, you were able to observe and participate in other patient care activities with your peers to enhance your learning experience. Nice job! NS

Week 10 5(a,d,f) – Your patient required extensive mobility and hygiene needs this week as a result of her prolonged bedrest and recent surgical procedure. You were able to gain experience with transferring a limited mobility patient and used appropriate body mechanics to maintain the safety of yourself and the patient with the use of assistive devices. You noticed your patient was incontinent and prioritized her hygiene needs to promote skin integrity. You also gained experience in managing an external catheter for accurate urine output measurement and successfully placed a Purwik catheter. NS

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																
5. Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Utilize clinical judgment skills to develop a patient-centered plan of care (Responding).									NA	S	S	N/A	S			
									SA	NS	NS	NS				

Comments

Week 9 6(a) – Clinical judgement skills were utilized to identify a priority nursing problem based on the patient care provided and assessments performed. You correctly identified impaired mobility as a priority concern related to his post-operative status following hip replacement surgery. NS

Week 10 6(a) – You continue to enhance your clinical judgement skills with each clinical experience. This week you identified numerous nursing priorities and identified impaired mobility as your priority nursing problem related to her recent hip surgery, altered mental status, and prolonged bedrest in the long-term care facility. Good work discussing the assessment findings, risk factors, and diagnostics that supported your priority problem in your CDG. NS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

6. Convert basic pharmacology principles into safe medication administration. (3,5,6,7)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Identify the action, rationale, dosage, side effects and the nursing implications of medications (Interpreting).									NA				N/A			
b. Recognize patient drug allergies (Interpreting).									NA				N/A			
c. Practice the 6 rights and 3 checks prior to medication administration (Responding).									NA				N/A			
d. Administer oral, intramuscular, subcutaneous, and intradermal medications using correct techniques (Responding).									NA				N/A			
e. Review the patient record for time of last dose before giving PRN medication (Interpreting).									NA				N/A			
f. Assess the patient response to PRN medications (Responding).									NA				N/A			
g. Demonstrate medication administration documentation appropriately using BMV (Responding).									NA			S	S			

*Week 11: BMV

									SA	NS		NS				
--	--	--	--	--	--	--	--	--	----	----	--	----	--	--	--	--

Comments

Week 11 (7g) - You are satisfactory for this competency by attending the Bedside Medication Verification (BMV) clinical orientation, actively listening, observing, and discussing accurate medication documentation and safe administration with the use of the BMV scanner. NS/CB

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

2. Exemplify professional conduct through self-reflection, responsibility for learning, and goal setting. (1,5,7)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Reflect on areas of strength** (Reflecting)						n/a	n/a	s	S	S	S	N/A	S			
b. Reflect on areas for self-growth with a plan for improvement. ** (Reflecting)						n/a	n/a	s	S	S	S	N/A	S			
c. Incorporate instructor feedback for improvement and growth (Reflecting).						n/a	n/a	s	S	S	S	N/A	S			
d. Follow the standards outlined in the FRMCSN policy, "Student Code of Conduct" (Responding).						n/a	n/a	s	S	S	S	N/A	S			
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions (Responding).						n/a	n/a	s	S	S	S	N/A	S			
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect (Responding).						n/a	n/a	s	S	S	S	N/A	S			
g. Comply with patient's Bill of Rights (Responding).						n/a	n/a	s	S	S	S	N/A	S			
h. Respect the privacy of patient health and medical information as required by federal HIPAA regulations (Responding).						n/a	n/a	s	S	S	S	N/A	S			
i. Actively engage in self-reflection. (Reflecting)						n/a	n/a	s	S	S	S	N/A	S			
*						CB	CB	SA	SA	NS	NS	NS				

**** Strength/weakness reflection (a,b): Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, "I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP's with at least three members of my family this week." Please ensure that you answer this section in-depth with your plan of action. Each week must be different.**

My strength I felt was being able to put my nerves aside and think about the patient's needs first. My weakness was locating posterior tibial pulses. I will keep practicing posterior tibial pulses with my family members at home this weekend. I will try on my kids and husband so by next clinical I am able to perform. I could also use a doppler if the patient has a weak pulse. **I am glad you recognized your strengths and weaknesses! This is a great plan to practice on your family as well as future plans for assessments! Do not be too hard on yourself as you are learning, it is great you also put your nerves aside and made the patient's needs your priority, that is what will make an excellent nurse! SA**

Week 8(8d,f,h): Excellent job following the student code of conduct, exhibiting professionalism while in the clinical setting, and ensuring that patient privacy was respected. SA

Week 9A Strength for me is being able to get my patient to perform self-hygiene care. At first, he kept saying no and was saying I asked to many questions but I kept conversating with him and said we could do it later. After helping him with his breakfast and getting him situated he felt better and agreed with self-hygiene and even did self-shaving. **Awesome strength to note! While patient's at times may be resistant to personal hygiene care, it is important for many different reasons. Sometimes some education and discussion go a long way in promoting ADLs to be performed in the hospital setting. For his sake, he will feel more refreshed, reduce his chance of infection, and improve his post-operative outcomes. Well done! NS**

Week 9B my weakness in this clinical was knowing where some things were that a patient needed. For example, knowing where there the menu to order food was. To improve where to find stuff I will go to 4 north before my clinical starts and recognize the rooms where the nutrition is at, the bed changing and where the medical equipment is at. **You will get more familiar with the clinical unit as the weeks progress. However, I love your plan for improvement in this area and it will benefit you moving forward. Keep up the hard work! NS**

Week 10a my strength was being able to control my face expressions to the smell of bowel incontinence. At first, I felt like throwing up but my concern for helping the patient helped me put my senses aside and help her get cleaned up. I feel like I am not used to it but with time I know I will be. **This is always challenging. In nursing, you will come across many things that can make your stomach uneasy. This was a unique incontinence experience that required you to overcome these feelings. Nice job maintaining your composure to make the patient feel comfortable. Good work! NS**

Week 10b my weakness for this week was learning how to get the patient with a brief cleaned from lying in bed when they have a bowel movement. There were 3 of us student nurses and we have never done this before so with her left fracture hip we did not want to lift her leg up to much. We didn't know how to clean her. We had help from an RN to show us how to use a pillow and put her left foot on tip and the other under and then turn her to her left side to wipe her. I think the way I could do learn more is looking at videos of how patients are turned and moved when they get changed and being immobile in bed. This will help me next time, so I don't have that issue. **Good reflection! I like how you used teamwork and collaboration to provide patient care. You knew your resources and sought assistance when needed and learned from the experience. Nice plan for improvement! NS**

Week 12A. My weakness for this week was to be able to set up the chair alarm. I needed to ambulate the patient to the chair but she was a high fall risk so I was told to set the chair alarm. I had to go get help and see how to set it up. By watching someone else I was able to learn so next time I can do it on my own.

Week 12B. My strength this week was feeling fully confident on being able to assist the patient to the bathroom and helping her sit on the chair by myself. I was able to know if I was able to do it on my own or if I needed help.

Date	Care Map Top Nursing Priority	Evaluation & Instructor Initials	Remediation & Instructor Initials
		*	*

Note: Students are required to submit one satisfactory care map by 11/18/2024 at 0800. If the care map is not evaluated as satisfactory upon initial submission, the student may revise the care map based on instructor feedback/remediation and resubmit one time by 11/25/2024 at 0800 to receive a satisfactory evaluation. ***See Attached Nursing Care Map Grading Rubric**

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric

Student Name:		Course Objective:					
Date or Clinical Week:							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)		
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)		
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)		
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	5. State the goal for the top nursing priority.	Complete			Not complete		
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)		
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)		
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete		
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete		
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete		

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete		
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete		
	15. Evaluation includes one of the following statements: <ul style="list-style-type: none"> Continue plan of care Modify plan of care Terminate plan of care 	Complete			Not complete		

Reference

An in-text citation and reference are required.
The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both.
The care map will be graded “unsatisfactory” if no in-text citation AND reference is included.

Total Possible Points= 45 points
45-35 points = Satisfactory
34-23 points = Needs Improvement*
< 23 points = Unsatisfactory*
***Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

*****Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *****

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2024

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
