

**EVALUATION OF CLINICAL PERFORMANCE TOOL**  
**Nursing Foundations – 2024**

**Firelands Regional Medical Center School of Nursing**  
**Sandusky, Ohio**

**Student:**

**Final Grade: Satisfactory/Unsatisfactory**

**Semester: Fall**

**Date of Completion:**

**Faculty:** **Frances Brennan**, MSN, RN; **Amy Rockwell**, MSN, RN;  
**Chandra Barnes**, MSN, RN; **Nick Simonovich**, MSN, RN  
**Heather Schwerer**, MSN, RN; **Brittany Lombardi**, MSN, RN, CNE

**Faculty eSignature:**

**Teaching Assistant: Stacia Atkins**, BSN, RN

**DIRECTIONS FOR USE:**

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

**METHODS OF EVALUATION:**

- |  |                     |
|--|---------------------|
| Skills Lab Checklists                    | Faculty Feedback    |
| Care Map Grading Rubric                  | Documentation       |
| Administration of Medications            | Clinical Reflection |
| Simulation Scenarios                     |                     |
| Skills Demonstration                     |                     |
| Evaluation of Clinical Performance Tool  |                     |
| Clinical Discussion Group Grading Rubric |                     |
| Lasater Clinical Judgment Rubric         |                     |

## PERFORMANCE CODE

### SATISFACTORY CLINICAL PERFORMANCE

**Satisfactory (S):** Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

### UNSATISFACTORY CLINICAL PERFORMANCE

**Needs Improvement (NI):** Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

**Unsatisfactory (U):** Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

### OTHER

**Not Available (NA):** The clinical experience which would meet the competency was not available.

**\*Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

---

Objective																
1. Describe how diverse cultural, ethnic, and social backgrounds function as sources of patient, family, and community values. (2,4,6)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
<b>Competencies:</b>																
a. Identify spiritual needs of patient (Noticing).									NA	S	NA	S	NA	S	NA	
b. Identify cultural factors that influence healthcare (Noticing).									NA	S	NA	S	NA	S	NA	
c. Coordinate care based on respect for patient's preferences, values, and needs (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
d. Use Maslow's Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).						S	NA	NA	S	S	NA	S	NA	S	NA	
						CB	CB	CB	CB	HS	HS	HS	SA	SA		
						3T Age: 79	NA	NA	NA	3T Age: 77		3T Age: 72 Age: 92		3T Age: 32		

Clinical Location:  
Patient age\*\*

**Comments**

**\*\*Document your clinical location and patient age in the designated box above.**

Week 6(1c,d): Great job showing respect for your patient's needs, being compassionate and kind while delivering care. You also demonstrated the appropriate use of Maslow's hierarchy of needs during the head to toe assessment performed on your patient during this clinical experience, being you able to recognize physiological needs of your patient when performing head to toe assessment. CB

Week 9 (1c,d)-Your patient was very sleepy at the beginning of the shift however, you allowed her to have a say in the timing of her care being performed by allowing her to get a little more sleep prior to getting up and getting washed up. HS

Week 11 (1a,c,d) Your patient on the second day had a lot going on and you did a nice job just spending time and listening to him. It seemed at first as if he was grumpy and didn't want to be bothered but after spending some time with him he just seemed lonely. You allowed him to express his concerns and his feelings regarding his wife's recent passing. You also allowed him to have a say in the care and the timing of the care in order to allow him some control while being hospitalized.

Week 13 (1d)- Great job recognizing your patient's needs while allowing the patient to work independently as well. On the first day the patient was having some anxiety and nausea, and you did a great job by responding quickly and providing comfort interventions to help calm them. You did great in allowing the patient time to process and verbally express how she was feeling and what she needed from you as well! SA

\* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

**Objective**

1. Summarize knowledge of anatomy, physiology, chemistry, nutrition, psychosocial and developmental principles in performance of basic physical assessment through use of clinical judgment skills. (3,4, 5)\*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
<b>Competencies:</b>																
a. Perform head to toe assessment utilizing techniques of inspection, palpation and auscultation (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
b. Use correct technique for vital sign measurement (Responding).						S	NA	NA	S	NI	NA	S	NA	S	NA	
c. Conduct a fall/safety assessment and institute appropriate precautions (Responding).						NA	NA	NA	NA	S	NA	S	NA	S	NA	
d. Conduct a skin risk assessment and institute appropriate precautions (Responding).									NA	S	NA	S	NA	S	NA	
e. Collect the nutritional data of assigned patient (Noticing).									NA	S	NA	S	NA	S	NA	
f. Demonstrates appropriate insertion, maintenance, and/or removal of NG tube (Responding).									NA	NA	NA	NA	NA	NA	NA	
g. Describe the findings and the rationale for diagnostic studies with the nursing implications for assigned patient (Interpreting).									NA	S	NA	S	NA	S	NA	
						CB	CB	CB	CB	HS	HS	HS	SA	SA		

**Comments**

Week 6(2a,b): Nevaeh, you performed a systematic head to toe assessment and retrieved all vital signs within a timely manner. CB

-Week 9(2b): For the weak pulse in the right arm, I should have used a doppler to get a more accurate measurement. HS

Week 9 (2a,c,d)- Your patient had a lot going on this week making her assessment a bit more difficult. You were able to successfully obtain the pedal pulses with the doppler which was very challenging to do, she also had other abnormalities based on her history of stroke making her assessment a bit more difficult. HS

Week 11(2a,b,c,d) Your patient on the second day of clinical had several abnormal findings on his head to toe assessment including his weakness, and incontinence. At the beginning of the shift your patient preferred to be left alone to sleep however you were able to communicate with him in order to complete all of your assessments. You did a nice job completing a thorough head to toe, fall/safety, and skin assessment on your patient. HS

Week 13 (2a,g)- You did a great job assessing your patient this week and recognizing to watch their labs and imaging results. SA

\* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

**Objective**

2. Select communication techniques and appropriate boundaries with patients, families, and health care team members. (1,2,3,4,6,7)\*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
<b>Competencies:</b>						S	NA	NA	S	S	NA	S	NA	S	NA	
a. Receive report at beginning of shift from assigned nurse (Noticing).						S	NA	NA	S	S	NA	S	NA	S	NA	
b. Hand off (report) pertinent, current information to the next provider of care (Responding).						NA	NA	NA	NA	S	NA	S	NA	S	NA

d. Report promptly and accurately any change in the status of the patient (Responding).						NA	NA	NA	NA	S	NA	S	NA	S	NA	
e. Communicate effectively with patients and families (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
f. Participate as an accountable health care team member in the provision of patient centered care (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
						CB	CB	CB	CB	HS	HS	HS	SA	SA		

**Comments**

Week 6(3a,c,d,e): Great job receiving hand off report on your patient. Good job using medical terminology while communicating with your patient, reporting abnormal findings, and communicating effectively with your staff RN. CB

Week 9 (3a-f)- You did a nice job receiving report from the previous shift and updating the nurse at the end of your shift. You notified the nurse as soon as you identified that you were unable to find the pedal pulses and sought guidance from the nurse who also was unable to palpate them and instructed you to utilize the doppler to obtain the pulses. HS

Week 11(3a-f) You were able to receive report at the beginning of the shift and hand off at the end of the clinical day. You did a nice job keeping the nurse informed throughout the shift. You communicated very well with your patient after he began to gain trust in you. HS

Week 13 (3e)- Great job communicating with the patient and the family in the room. You also did a nice job locating your nurse to provide updates. You recognized that the patient was requesting medication that was not on her list and provided that information to the nurse appropriately as well. SA

\* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																
3. Exemplify advanced searches in accessing electronic health care information and documenting patient care. (1,4,8)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
<b>Competencies:</b>									S							
a. Document vital signs and head to toe assessment according to policy (Responding).						S	NA	NA	S	NI	NA	S	NA	S	NA	
b. Document the patient response to nursing care provided (Responding).						NA	NA	NA	NA	S	NA	S	NA	S	NA	
c. Access medical information of assigned patient in Electronic Medical Record (Responding).		S				S	NA	NA	S	S	NA	S	NA	S	NA	
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding).		S							S	NA	NA	NA	NA	NA	NA	
e. Provide basic patient education with accurate electronic documentation (Responding).									NA	S	NA	S	NA	S	NA	
f. Consistently and appropriately post comments for clinical discussion groups on Edvance360 website (Reflection).						S	NA	NA	S	S	NA	S	NA	S	NA	
<b>*Week 2 –Meditech</b>		CB				CB	CB	CB	CB	HS	HS	HS	SA	SA		

**Comments**

Week 2(4c,d): Satisfactory for listening attentively and actively participating in the Meditech orientation clinical. You showed beginning competence in the ability to access a patient’s EHR, document care in an intervention, and locate patient data. You were able to access Lexicomp to locate patient education materials. Additionally, nursing policies and procedures were located on the health system intranet. Great job! NS/CB

Week 6(4a,b,c,f): Satisfactory job with documentation of the head to toe assessment and vital signs of your patient. Make sure to note any areas you may have forgot to assess, so that assessments and documentation are thorough and accurate. You did a good job utilizing Meditech for documentation and to look up patient information. You completed your first cdg, meeting all requirements per the grading rubric, excellent job! CB

**-Week 9(2a): I incorrectly documented some parts of my patient's head to toe assessment. For example, switching the information relating to the left arm with the right arm and vice versa. Your patient had several abnormal assessment findings this week. Be sure to take your time and double check your work prior to submitting. Utilize your intervention list for documentation to ensure you have documented all of the necessary information within the chart. With each experience of charting the head to toe assessment it will become more familiar and easier. HS**  
**(2f)- Nice job on your CDG initial post and response this week, you met all of the requirements within the rubric. You stated your patient's priority problem was weakness, it sounds like impaired mobility was a big concern for this patient as well based on all of the factors you discussed within your post. Nice job putting all of those items together. HS**

**Week 11(4a,b,c) You were able to successfully document your head to toe assessment, vital signs and the care you provided to the patient with minimal reminders for corrections. You were able to review the chart to obtain additional information on your patient's history and current plan of treatment.**  
**(4f) You satisfactorily met the requirements for both the initial and peer CDG response. HS**

**Week 13 (4c,e,f)- Great job this week locating all of your medications that you were able to provide to your patient. You appropriately utilized Skyscape and provided information to the patient correctly. Excellent job on your discussion this week and discussing all relevant information required for the medications administered. SA**

\* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

**Objective**

4. Exemplify psychomotor skills and nursing care safely using evidence-based practice. (3,4,5,7,8)\*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
<b>Competencies:</b>																
a. Demonstrate correct body mechanics and practices safety measures during the provision of patient care (Responding).						NI	NA	NA	NI	S	NA	S	NA	S	NA	
b. Apply the principles of asepsis and standard/infection control precautions (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
c. Demonstrates appropriate skill with foley catheter insertion, maintenance, and removal (Responding).									NA	NA	NA	NA	NA	NA	NA	
d. Manage basic patient care situations with evidence of preparation and beginning dexterity (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
e. Organize time providing patient care efficiently and safely (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
f. Manages hygiene needs of assigned patient (Responding).									NA	S	NA	S	NA	S	NA	
g. Demonstrate appropriate skill with wound care (Responding).									NA		NA	NA	NA	NA	NA	
<b>h. Document the location of fire pull stations and fire extinguishers. ** (Interpreting).</b>						S	NA	NA	S							
						CB	CB	CB	CB	HS	HS	HS	SA	SA		

Comments

**\*\*You must document the location of the pull station and extinguisher here for your first clinical experience.**

h. Extinguishers: Next to the stairs by room 3027/Pull stations: Next to the conference room CB

a. I should have raised the bed during the head-to-toe assessment to demonstrate correct body mechanics CB

Week 6(5b): You did a great job ensuring that you foamed in/out when entering/exiting patients' rooms. CB

Week 9 (5d,e,f)- You did a nice job this week working through new situations with your patient. You were able to manage your time in order to provide all of the necessary care for your patient. When it was time for the bag bath you sought additional help from another student because your patient had many limitations making the bath more challenging, and you have limited experience in providing this care. Good job! HS

Week 11(5d,e,f) You did a nice job organizing your care during the clinical day. During the second day you were very busy and you were able to streamline the interventions and perform them in a timely manner. You were able to perform a bladder scan for the first time, nice job. You were also able to assist the patient in using his urinal at the bedside and performing peri-care. HS

Week 13 (5e)- Great job this week organizing your time with assessment, documentation, and adding into all that the medication information needed for administration. Your documentation was completed on time and had plenty of time to research your medications. SA

\* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																
5. Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
<b>Competencies:</b> a. Utilize clinical judgment skills to develop a patient-centered plan of care (Responding).									NA	S	NA	S	NA	S	NA	
									CB	HS	HS	HS	SA	SA		

**Comments**

Week 9 (6a)- You did a nice job utilizing clinical judgement skills based on your patient’s priority problem and then identifying interventions specific to the patient and developing the plan of care. HS

Week 11(6a) Excellent job utilizing your clinical judgment skills to care for your patient this week. You assured the plan of care fit your patient’s needs and preferences. You will continue to grow these skills as you progress through the semester and program. HS

Week 13 (6a)- Great job utilizing clinical judgement while providing care to your patient during this clinical rotation. SA

\* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

<b>Objective</b>																
6. Convert basic pharmacology principles into safe medication administration. (3,5,6,7)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
<b>Competencies:</b>																
a. Identify the action, rationale, dosage, side effects and the nursing implications of medications (Interpreting).									NA				NA	S	NA	
b. Recognize patient drug allergies (Interpreting).									NA				NA	S	NA	
c. Practice the 6 rights and 3 checks prior to medication administration (Responding).									NA				NA	S	NA	
d. Administer oral, intramuscular, subcutaneous, and intradermal medications using correct techniques (Responding).									NA				NA	S	NA	
e. Review the patient record for time of last dose before giving PRN medication (Interpreting).									NA				NA	S	NA	
f. Assess the patient response to PRN medications (Responding).									NA				NA	S	NA	
g. Demonstrate medication administration documentation appropriately using BMV (Responding).									NA			NA S	NA	S	NA	

\*Week 11: BMV

								CB			HS	SA	SA		
--	--	--	--	--	--	--	--	----	--	--	----	----	----	--	--

**Comments**

Week 11 (7g) - You are satisfactory for this competency by attending the Bedside Medication Verification (BMV) clinical orientation, actively listening, observing, and discussing accurate medication documentation and safe administration with the use of the BMV scanner. NS/CB

Week 13 (7a)- Excellent job providing the correct information on all of the medications you administered to your patient. You followed all of the correct rights and handled the medication appropriately as well. SA

\* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

**Objective**

2. Exemplify professional conduct through self-reflection, responsibility for learning, and goal setting. (1,5,7)\*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
<b>Competencies:</b>																
a. Reflect on areas of strength** (Reflecting)						S	NA	NA	S	S	NA	S	NA	S	NA	
b. Reflect on areas for self-growth with a plan for improvement. ** (Reflecting)						S	NA	NA	S	S	NA	S	NA	S	NA	
c. Incorporate instructor feedback for improvement and growth (Reflecting).						S	NA	NA	S	S	NA	S	NA	S	NA	
d. Follow the standards outlined in the FRMCSN policy, "Student Code of Conduct" (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
g. Comply with patient's Bill of Rights (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
h. Respect the privacy of patient health and medical information as required by federal HIPAA regulations (Responding).						S	NA	NA	S	S	NA	S	NA	S	NA	
i. Actively engage in self-reflection. (Reflecting)						S	NA	NA	S	S	NA	S	NA	S	NA	
*						CB	CB	CB	CB	HS	HS	HS	SA	SA		

**\*\* Strength/weakness reflection (a,b): Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, "I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP's with at least three members of my family this week." Please ensure that you answer this section in-depth with your plan of action. Each week must be different.**

Week 6 a. An area of strength would be good communication with patient **CB**

Week 6 b. One area of weakness is consistently finding and counting radial and pedal pulses correctly. I had a difficult time at first with palpating the patient's pulse. I will practice finding and counting the pulses(both radial and pedal) of all my family members this week. **Nevaeh, you have a great plan in place to ensure that you are properly palpating pulses and to help build your confidence. Performing a head to toe assessment will become easier with more time and experience. CB**

**Week 6(8d,f,h): Excellent job following the student code of conduct, exhibiting professionalism while in the clinical setting, and ensuring that patient privacy was respected. CB**

Week 9 a. An area of strength would be being able to work together with another student nurse to provide care. **Teamwork is essential in the healthcare profession. HS**

Week 9 b. An area of weakness would be my confidence in performing physical assessments and what to prioritize during assessments. To improve this I would practice doing assessments on all my family members focusing on different systems. **That is a great plan and completing a head to toe assessment will continue to get easier with more experience. HS**

Week 11 a. An area of strength would be able to manage time effectively. **HS**

Week 11 b. An area of weakness would be lack of confidence in clinical reasoning. To improve this I will look at multiple case studies during the week to promote more critical thinking. **You will also continue to gain confidence on this with more experience and knowledge in the upcoming semesters and clinical experiences. HS**

Week 13a. An area of strength would be ensuring patient safety. **SA**

Week 13 b. An area of weakness would be lack of confidence in educating patients about medications. To improve this I will look into the classifications and indications of some medications over the week. **You did great with your first administration. Nerves are expected, but you have a great plan in place to prepare for future administrations! SA**

**Week 13 (8i)- I am glad you had a great first experience with your first med pass. Great job! SA**

\* End-of-Program Student Learning Outcomes

Care Map Grading Rubric

Student Name:		Course Objective:					
Date or Clinical Week:							
Criteria		3	2	1	0	Points Earned	Comments
<b>Noticing</b>	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)		
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)		
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)		
<b>Interpreting</b>	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	5. State the goal for the top nursing priority.	Complete			Not complete		
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)		
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)		
<b>Responding</b>	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete		
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete		
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete		

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete		
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete		
	15. Evaluation includes one of the following statements: <ul style="list-style-type: none"> <li>Continue plan of care</li> <li>Modify plan of care</li> <li>Terminate plan of care</li> </ul>	Complete			Not complete		

**Reference**

An in-text citation and reference are required.  
The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both.  
The care map will be graded “unsatisfactory” if no in-text citation AND reference is included.

Total Possible Points= 45 points  
45-35 points = Satisfactory  
34-23 points = Needs Improvement\*  
< 23 points = Unsatisfactory\*  
**\*Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

**\*\*\*Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. \*\*\***

**Faculty/Teaching Assistant Comments:**

**Student Roles: A=Assessment Nurse; M=Medication Nurse; O=Observer**

STUDENT NAME(S) AND ROLE(S): Cora Meyer (O), Brooke Schafer (O), Nevaeh Walton (A), Jordan Lugtig (M)

GROUP #: 3

SCENARIO: NF #1

OBSERVATION DATE/TIME(S): 11/5/2024 1230-1330

CLINICAL JUDGMENT COMPONENTS	OBSERVATION NOTES
<p><b>NOTICING: (1,2,4,6,7) *</b></p> <ul style="list-style-type: none"> <li>• Focused Observation:            E        A        D        B</li> <li>• Recognizing Deviations from Expected Patterns:            E        A        D        B</li> <li>• Information Seeking:            E        A        D        B</li> </ul>	<p><b><u>Focused observation</u></b></p> <p>Focused observation on safety when entering the room</p> <p>Focused observation on patient’s vital signs</p> <p>Focused observation on patient’s cough and shortness of breath and lung sounds.</p> <p>Focused observation on patient’s assessment</p> <p><b><u>Recognizing deviations from expected patterns</u></b></p> <p>Noticed BP 132/76, Spo2 of 91% on RA, HR 80, RR 20, temp 99.2</p> <p>Noticed persistent cough</p> <p>Noticed crackles on auscultation</p> <p>Noticed tissues in the bed. Noticed yellow sputum.</p> <p>Noticed reddened heels.</p> <p><b><u>Information seeking</u></b></p> <p>Confirmed name and DOB when entering the room</p> <p>sought additional information related to sputum production, consistency, etc.</p> <p>Sought information related to orientation (mental status)</p> <p>Sought information related to pain (0/10)</p> <p>Assessed allergies, confirmed name and DOB prior to med administration.</p> <p>Asked patient how she takes her medications.</p>
<p><b>INTERPRETING: (1,2,4,6,7) *</b></p> <ul style="list-style-type: none"> <li>• Prioritizing Data:            E        A        D        B</li> </ul>	<p><b><u>Prioritizing data</u></b></p> <p>Prioritized vital sign assessment when entering the room</p>

<ul style="list-style-type: none"> <li>• Making Sense of Data: E A D B</li> </ul>	<p>Did not prioritize oxygen administration initially. Eventually recognized need for supplemental O2 due to continued shortness of breath and low Spo2.</p> <p>Prioritized placing pillow under her heels.</p> <p><b><u>Making sense of data</u></b></p> <p>Interpreted Spo2 as being low.</p> <p>Interpreted crackles as being related to pneumonia diagnosis</p> <p>Interpreted redness as being related to pressure.</p> <p>Made sense of guaifenesin prescription for persistent cough.</p> <p>Made sense of medications to be administered, made sense of the MAR.</p>
<p><b>RESPONDING: (1,2,3,4,5,6,7) *</b></p> <ul style="list-style-type: none"> <li>• Calm, Confident Manner: E A D B</li> <li>• Clear Communication: E A D B</li> <li>• Well-Planned Intervention/ Flexibility: E A D B</li> <li>• Being Skillful: E A D B</li> </ul>	<p><b><u>Calm, confident manner</u></b></p> <p>Demonstrated confidence in nursing actions and communication with patient and team member.</p> <p>Answered patient’s questions appropriately.</p> <p><b><u>Clear communication</u></b></p> <p>Introduced self and role when entering the room.</p> <p>Good communication with the patient throughout assessment.</p> <p>Educated patient on medications, including proper dose.</p> <p>Educated patient on placing of oxygen tubing.</p> <p><b><u>Well-planned intervention/flexibility</u></b></p> <p>Placed pillow under the heels for redness.</p> <p>Elevated the HOB for shortness of breath and cough</p> <p>Raised the HOB for medication administration.</p> <p>Re-assessed Spo2 prior to placing oxygen tubing.</p> <p>Applied O2 eventually for Spo2 less than 93% per physician orders.</p> <p>Consider re-assessing oxygenation status and vital signs after initiating oxygen to determine effectiveness.</p> <p>Did not assess bony prominences initially. When prompted by the patient noticed redness to heels.</p> <p>Elevated heels related to redness from pressure.</p>

	<p><b><u>Being skillful</u></b></p> <p>Used BMV scanner to patient safety. 7 rights of medication administration observed.</p> <p>Raised the bed for proper body mechanics</p> <p>HEENT assessment performed accurately.</p> <p>Auscultated heart and lung sounds accurately.</p> <p>GI assessment performed accurately (looked, listened, felt). Asked about last BM. Asked about nausea/vomiting, stool characteristics.</p> <p>GU assessment performed accurately. Asked about associated symptoms.</p> <p>Assessed ROM in all extremities.</p> <p>Good integumentary assessment. Did not assess bony prominences initially. When prompted by the patient noticed redness to heels.</p> <p>Pulses assessed and compared bilaterally.</p> <p>Assessed strength of the extremities.</p> <p>Assessed for capillary refill.</p> <p>Good body mechanics by raising the bed and lowering the side rails.</p> <p>Safety assessment performed</p> <p>Consider having meds looked up in full in order to provide education related to side effects.</p>
<p><b>REFLECTING: (1,2,4,5,6,8) *</b></p> <ul style="list-style-type: none"> <li>• Evaluation/Self-Analysis: E    A    D    B</li> <li>• Commitment to Improvement: E    A    D    B</li> </ul>	<p>Observers did a great job actively paying attention to detail throughout scenario. Constructive feedback was provided during debriefing. Observers provided good insight on safe medication administration, including the rights of medication administration. Observers also praised students for initiating O2 via nasal cannula for low SpO2 per orders while also discussing the need for prompt intervention. Constructive feedback was provided related to areas for improvement. Good discussion and support amongst those performing in the scenario and the observers.</p> <p>Everyone participated well in debriefing. Each member of the team reflected on the experience and asked appropriate questions. Members of the team noticed areas for improvement and discussed ways to make improvements in the future. The assessment nurse and medication nurse demonstrated collaborative communication between the team members and the patient.</p>

**SUMMARY COMMENTS: \* = Course Objectives**

**Satisfactory completion of the simulation scenario is a score of “Developing” or higher in all areas of the rubric.**

**E= Exemplary**

**A= Accomplished**

**D= Developing**

**B= Beginning**

**Scenario Objectives:**

- Demonstrate collaborative communication with patients and healthcare team members (1,3,8) \*
- Execute accurate and complete head to toe assessment (1,5,6,8) \*
- Select and administer prescribed oral medications following the six rights (1,4,5,7) \*
- Identify and provide accurate patient education (1,2,3,4,5,7) \*

**Lasater Clinical Judgement Rubric Comments:**

**Noticing:** Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs. Recognizes most obvious patterns and deviations in data and uses these to continually assess. Actively seeks subjective information about the patient’s situation from the patient and family to support planning interventions; occasionally does not pursue important leads.

**Interpreting:** Makes an effort to prioritize data and focus on the most important, but also attends to less relevant or useful data. In most situations, interprets the patient’s data patterns and compares with known patterns to develop an intervention plan and accompanying rationale.

**Responding:** Generally displays leadership and confidence and is able to control or calm most situations; may show stress in particularly difficult or complex situations. Generally communicates well; explains carefully to patients; gives clear directions to team; could. Develops interventions on the basis of relevant patient data; monitors progress regularly but does not expect to have to change treatments. Displays proficiency in the use of most nursing skills; could improve speed or accuracy.

**Reflecting:** Evaluates and analyzes personal clinical performance with minimal prompting primarily about major events or decisions; key decision points are identified, and alternatives are considered. Demonstrates a desire to improve nursing performance; reflects on and evaluates experiences; identifies strengths and weaknesses; could be more systematic in evaluating weaknesses

**Satisfactory completion of NF Scenario #1.**

**\*Course Objectives**

Comments:

**Week 1 (Technology Lab):** During this lab you were able to satisfactorily navigate:

- Edvance360 Learning Management System.
- Skyscape Resource System.
- Assessment Technologies Institute (ATI) / Virtual Simulation (vSim) Systems.
- Guided tour of library and computer lab. HS

**Week 2 (Hand Hygiene; Vital Signs; PPE):** During lab this week you were able to satisfactorily demonstrate:

- Appropriate hand hygiene utilizing hand sanitizer and soap/water.
- Accurate verbalization of procedure for donning & doffing PPE.

Appropriate level of skill during guided practice with measurement of radial and brachial pulses, along with manual blood pressure. Vital signs skills will be observed 1:1 with faculty during Week 3. Keep up the good work! HS

**Week 3 (Vital Signs):**

Awesome work in the lab this week! You satisfactorily completed the vital sign check off during 1:1 observation, including oral temperature, radial pulse, respiratory rate, pulse oximetry, and blood pressure measurement. During the blood pressure measurement, you accurately obtained two consecutive blood pressure results on the Vital Sim manikin. The first blood pressure measurement was set at 108/66, and you identified it as 108/62, which was within the range for a satisfactory result. The second measurement was set at 146/80 and you interpreted it as 148/80, within the desired range. You were able to verbally discuss the following measurements: axillary and rectal temperature along with orthostatic vital sign assessments. You did not require any prompts throughout the whole checkoff, great work! You provided accurate detail in your communication with the “patient”. Overall your documentation looked very good. One area of note was the time the vital signs were obtained. The instructions stated that the vital signs were obtained at 0715, but were documented as being obtained at 1534. If you need a reminder on how to change the time in an intervention don’t hesitate to reach out. Be sure to pay close attention to all details when documenting. This will improve with continued practice in the lab. Keep up the great work!! NS

**Week 4 (Assessment):**

Satisfactory with head to toe assessment guided practice, hand-off report activity, Lexicomp/Intranet navigation activity, and the assessment/safety activity utilizing your clinical judgment skills. Great job! You will be observed 1:1 for Head to Toe Assessment competency during Week 5. AR

**Week 5 (Assessment; Mobility):**

Excellent job in lab this week! You have satisfactorily performed a basic head to toe assessment in the skills lab. Your approach was systematic, thorough, and overall very well done. You paid close attention to detail and were clearly well-prepared. You did not require any prompts throughout your assessment, nice work! You demonstrated professional and informative communication. Job well done!

**EVALUATION OF CLINICAL PERFORMANCE TOOL**  
**Nursing Foundations – 2024**

**Firelands Regional Medical Center School of Nursing**  
**Sandusky, Ohio**

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
