

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Manage complex patient care situations with evidence of preparation and organization. (Responding)	S	S	S															
b. Assess comprehensively as indicated by patient needs and circumstances. (Noticing)	S	S	S															
c. Evaluate patient's response to nursing interventions. (Reflecting)	S	S	S															
d. Interpret cardiac rhythm; determine rate and measurements. (Interpreting)	S	S	S															
e. Administer medications observing the seven rights of medication administration. (Responding)	S	S	S															
f. Perform venipuncture skill with beginning dexterity and evidence of preparation. (Responding)	N/A	n/a	n/a															
g. Respond appropriately to equipment alarms; IV pumps, ECG monitors, ventilators, etc. (Responding)	S	S	S															
Faculty Initials	CB	CB	BS															
Clinical Location	4P	4P	4C															

Comments:

Week 2(1a,b,d,e): Great job this week managing complex patient situations while on 4P. You were able to perform thorough assessments, implement interventions, and evaluate your patient's response to those interventions. You were able to administer medications using the six rights of medication administration and utilized the BMV system. CB

*End-of- Program Student Learning Outcomes

Week 3(1a,e): Great job this week managing complex care situations. You did a great job being prepared for clinical, and ensuring that your assessments were detailed and thorough. You did a great job administering medications to your patient this week (IV, IV push, PO), following the six rights of medication administration. Great job! CB

Week 4- 1a/b- Nice job assessing and providing care to your mechanically ventilated patient this week and also your acute MI patient. 1d- We discussed atrial fibrillation, PVCs, and paced rhythms. 1e- You did a good job administering medications through various routes while observing the rights of medication administration.

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective																		
2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*																		
Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Correlate relationships among disease process, patient’s history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding)	S	S	S															
b. Monitor for potential risks and anticipate possible early complications. (Noticing, Interpreting, Responding)	S	S	S															
c. Recognize changes in patient status and take appropriate action. (Noticing, Interpreting, Responding)	S	S	S															
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (Noticing, Interpreting, Responding, Reflecting) *	S	S	S															
e. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	S	S	S															
Faculty Initials	CB	CB	BS															

***When completing the 4T Care Map CDG refer to the Care Map Rubric**

Comments:

Week 2(2a,b,d,e): Great job this week, you were able to notice abnormal assessment findings and recognize potential complications. Excellent job on your pathophysiology, please see the grading rubric below. You did a great job participating in debriefing about cultural diversity and racial inequalities that were related to your patient. CB

Week 3(2e): Kailee, you do a great job respecting your patient and family’s needs, ensuring that optimal care is provided around their needs. CB

*End-of- Program Student Learning Outcomes

Week 4- 2a- You did a nice job correlating the relationships among your patient's disease process, past medical history, symptoms, and present condition utilizing your clinical judgment skills, and then using that information to satisfactorily complete a care map for your patient. 2b,c,d- Nice job during debriefing also, where you provided two priority nursing diagnoses for your patient, discussed how you monitored for potential risks and anticipated possible complications, and discussed recognizing changes in patient status and how you responded. BS

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective																		
3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*																		
Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Critique communication barriers among team members. (Interpreting)																		
b. Participate in QI, core measures, monitoring standards and documentation. (Interpreting & Responding)	S	S	S															
c. Discuss strategies to achieve fiscal responsibility in clinical practice. (Responding)	S	S	S															
d. Clarify roles & accountability of team members related to delegation. (Noticing)	S	S	S															
e. Determine the priority patient from assigned patient population. (Interpreting) (Patient Mgmt.)	N/A	n/a	S															
Faculty Initials	CB	CB	BS															

Comments:

Week 2(3c): Great job this week actively participating in debriefing, discussing different strategies to achieve fiscal responsibility in the clinical setting. CB
 Week 3(3a): Great job in debriefing this week discussing communication barriers you witnessed between healthcare team members while at clinical. CB
 Week 4- 3b- Good job during debriefing discussing quality improvement, core measures, and the importance of documentation. BS

*End-of- Program Student Learning Outcomes

Objective

4. 4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5,7)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)																		
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	S	S	S															
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	S	S	S															
Faculty Initials	CB	CB	BS															

Objective 4a: Provide a comment for the highlighted competency each week. If no clinical experiences, put "NA" for that week.

Comments:

Week 2: A legal or ethical issue that I observed in the clinical setting was that there was family at the hospital who had to make the decision to take their family member off life support. This can be a very difficult issue for families especially in the sense that some may not like the decision that was made. I also realized that there could have been an ethical issue related to organ donation because if the patient were an organ donor I did not think that it would have been right had the family decided to not donate the organs. Kailee, great example. This is why this topic along with education is so important to patient's and their families. CB

Week 3: A legal or ethical issue that I observed in the clinical setting was that there was a potential complication with her IV infusion. After initiating the antibiotic, I was pulled away to complete other tasks and I had lost track of time. When I had realized the IV was beeping it had been 45 minutes later when it was a 30-minute infusion, so I should have made sure that it had not been beeping for longer. The issue could have been that the infusion was occluded and had stopped, and the patient had not even got the antibiotic that she needed. Luckily, my amazing nursing instructor heard it beeping and I went and disconnected my patient. I should make sure that I am monitoring my patients IV's to make sure they are not infiltrating, leaking, or not infusing. Kailee, this could be an issue for sure, although it is usually not because most patients will ring the call light, unlike yours! CB

Week 4: A legal or ethical issue that I encountered during clinical was when I had to give my patient fentanyl. As student, I cannot waste a medication with an RN, so we had to wait until a nurse was available to waste it with my instructor. I thought that this could have been a legal issue because we left the bottle sitting in the patients room where anyone could have come in and taken it. Good example, Kailee. If medications cannot be wasted immediately, it is best to lock them in the cabinet, but even then all the nurses on the floor still have access. If someone had taken it I would have had to explain that to pharmacy because the Pyxis knows that it should have been wasted. When it was recognized they would have been calling me. BS

*End-of- Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

5. Construct methods for self-reflection and critiquing healthcare systems, processes, practices and regulations on a weekly basis. (7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Reflect on your overall performance in the clinical area for the week. (Responding)																		
b. Demonstrate initiative in seeking new learning opportunities. (Responding)	S	S	S															
c. Describe factors that create a culture of safety (error reporting, communication, & standardization, etc. (Interpreting)	S	S	S															
d. Maintain the principles of asepsis and standard/infection control precautions (Responding)	S	S	S															
e. Practice use of standardized EBP tools that support safety and quality. (Responding)	S	S	S															
f. Utilize faculty feedback to improve clinical performance. (Responding & Reflecting)	S	S	S															
Faculty Initials	CB	CB	BS															

Comments:

Week 2(5c,e): Good job actively participating in debriefing discussing factors that create a culture of safety for patients and EBP tools that you utilized to care for your patient's during clinical. CB

Week 3(5a,c): Kailee, you do a great job seeking opportunities to learn. You are very engaged during clinical and always ask appropriate questions so that you understand. Great job discussing factors that create a culture of safety during debriefing. Keep up all your hard work! CB

*End-of- Program Student Learning Outcomes

Week 4- 5a,b- Great job caring for your patients this week, one of which was intubated and the other was an acute MI who was just transferred from the cath lab. You were also able to participate in a sheath pull. BS

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Establish collaborative partnerships with patients, families, and coworkers. (Responding)																		
b. Teach patients and families based on readiness to learn and discharge learning needs. (Interpreting & Responding)	S	S	S															
c. Collaborate and communicate with members of the healthcare team, patients, and families to achieve optimal patient outcomes. (Responding)	S	S	S															
d. Deliver effective and concise hand-off reports. (Responding) *	S	S	S															
e. Document interventions and medication administration correctly in the electronic medical record. (Responding)	S	S	S															
f. Consistently and appropriately posts in clinical discussion groups. (Responding and Reflecting)	S	S	S															
Faculty Initials	CB	CB	BS															

***When completing 4T Hand-Off Report see 4T Hand- Off Competency Rubric**

Comments:

*End-of- Program Student Learning Outcomes

Week 2(6d,e): Great job this week giving hand-off report to the bedside RN. You also did a great job with documentation for your patient's, being thorough and timely. CB

Week 3(6a,b,c,d,f): Great job this week collaborating with peers and bedside nurses to achieve optimal patient outcomes. Good job with your documentation this week, it was very thorough and completed on time. Good job giving a thorough and detailed hand-off report, scoring 30/30, see the grading rubric below. Your CDG was Satisfactory, meeting all requirements. CB

Week 4- 6a,b,c,f- You did a great job this week working with the nursing staff and your fellow students to provide high quality care to your patients. You also did a great job on your care map this week. BS

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery. (1,3,4,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Value the need for continuous improvement in clinical practice based on evidence. (Responding)																		
b. Accountable for investigating evidence-based practice to improve patient outcomes. (Responding)	S	S	S															
c. Comply with the FRMCSN "Student Code of Conduct Policy." (Responding)	S	S	S															
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S	S	S															
Faculty Initials	CB	CB	BS															

Comments:

Week 2(7d): Kailee, you did an excellent job this week having an ACE attitude while caring for your patient. CB

Week 3(7a,d)- You researched and summarized an interesting EBP article in your CDG titled "Effects of smoking on the development of chronic obstructive pulmonary disease in young individuals: A nationwide cohort study." Great job displaying a great attitude, commitment to provide optimal care, and enthusiasm for the caring of individuals at a very vulnerable and often difficult time. CB

Week 4- 7d- An ACE attitude was observed on the clinical floor at all times. BS

*End-of- Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric

Student Name: K. Felder		Course Objective: Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment.					
Date or Clinical Week: Week 4							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Great job noticing all abnormal assessment and lab/diagnostic testing for your patient. You provided specific patient data related to these findings. You also included all risk factors relevant for your patient.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Great job listing all nursing priority problems related to your patient. You highlighted appropriate abnormal findings and risk factors. You listed potential complications related to your priority problem and s/sx to go along with them. A suggestion here, for the cardiac catheterization, would be to put the actual blockage percentages, which you could have shown improvement in your evaluation section.
	5. State the goal for the top nursing priority.	Complete			Not complete	3	
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Great job with specific, prioritized, individualized interventions for your patient that included a frequency and rationale.
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

*End-of- Program Student Learning Outcomes

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	Good job reflecting on all of the highlighted findings in the first two boxes of the care map. You also included to continue the plan of care.
	15. Evaluation includes one of the following statements: <ul style="list-style-type: none"> Continue plan of care Modify plan of care Terminate plan of care 	Complete			Not complete	3	

Reference

An in-text citation and reference are required.

The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both.

The care map will be graded “unsatisfactory” if both in-text citation and reference are not included.

Total Possible Points= 45 points

45-35 points = Satisfactory

34-23 points = Needs Improvement*

< 23 points = Unsatisfactory*

***Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

*****Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *****

Faculty/Teaching Assistant Comments: Great work on your care map, Kailee! BS

Total Points: 45/45 Satisfactory. BS

Faculty/Teaching Assistant Initials: BS

Care Map Evaluation Tool**
AMSN
2025

Date	Nursing Priority Problem	Evaluation & Instructor Initials	Remediation & Instructor Initials
1/28-1/29/2025	Ineffective cardiac tissue perfusion	Satisfactory/BS	NA/BS

** AMSN students are required to submit one satisfactory care map (CDG) during the 3-week 4T clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback. **Students that are not satisfactory after these 2 attempts will be required to meet with course faculty for remediation.**

Pathophysiology Grading Rubric
 Firelands Regional Medical Center School of Nursing
 Advanced Medical Surgical Nursing
 2025

Student Name: Kailee Felder

Clinical Date: 1/14-15/2025

<p>1. Provide a description of your patient including current diagnosis and past medical history. (4 points total)</p> <ul style="list-style-type: none"> • Current Diagnosis (2) -2 • Past Medical History (2) -2 	<p>Total Points: 4 Comments: Great job discussing your patient's current diagnosis and past medical history.</p>
<p>2. Describe the pathophysiology of your patient's current diagnosis. (6 points total)</p> <ul style="list-style-type: none"> • Pathophysiology-what is happening in the body at the cellular level (6) -6 	<p>Total Points: 6 Comments: Excellent job! Pathophysiology is detailed and accurate.</p>
<p>3. Correlate the patient's current diagnosis with presenting signs and symptoms. (6 points total)</p> <ul style="list-style-type: none"> • All patient's signs and symptoms included (2) -2 • Explanation of what signs and symptoms are typically expected with this current diagnosis (Do these differ from what your patient presented with?) (2) -2 • Explanation of how all patient's signs and symptoms correlate with current diagnosis. (2) -2 	<p>Total Points: 6 Comments: All patient's signs and symptoms included with detailed explanation of correlation to current diagnosis. Great job discussing the signs and symptoms that are typically expected with a patient who is diagnosed with this disease.</p>
<p>4. Correlate the patient's current diagnosis with all related labs. (12 points total)</p> <ul style="list-style-type: none"> • All patient's relevant lab result values included (3) -3 • Rationale provided for each lab test performed (3) -3 • Explanation provided of what a normal lab result should be in the absence of current diagnosis (3) -3 • Explanation of how each of the patient's relevant lab result values correlate with current diagnosis (3) -3 	<p>Total Points: 12 Comments: Excellent job, Kailee! All relevant labs were included with rationales. Normal lab values were included and an explanation of how each lab correlates to the patient's diagnosis.</p>
<p>5. Correlate the patient's current diagnosis with all related diagnostic tests. (12 points total)</p> <ul style="list-style-type: none"> • All patient's relevant diagnostic tests and results included (3) -3 • Rationale provided for each diagnostic test performed (3) -3 • Explanation provided of what a normal diagnostic test result would be in the absence of current diagnosis (3) -3 • Explanation of how each of the patient's relevant diagnostic test results correlate with current diagnosis (3) -3 	<p>Total Points: 12 Comments: Excellent job! All relevant diagnostic test were included with rationales. Normal findings were included and an explanation of how each test correlates to the patient's diagnosis.</p>

<p>6. Correlate the patient’s current diagnosis with all related medications. (9 points total)</p> <ul style="list-style-type: none"> • All related medications included (3) -3 • Rationale provided for the use of each medication (3) -3 • Explanation of how each of the patient’s relevant medications correlate with current diagnosis (3) -3 	<p>Total Points: 9 Comments: Great job including all medications, all information is detailed and accurate.</p>
<p>7. Correlate the patient’s current diagnosis with all pertinent past medical history. (4 points total)</p> <ul style="list-style-type: none"> • All pertinent past medical history included (2) -2 • Explanation of how patient’s pertinent past medical history correlates with current diagnosis (2) -2 	<p>Total Points: 4 Comments: Great job correlating the patient’s past medical history with current diagnosis.</p>
<p>8. Prioritize nursing interventions related to current diagnosis. (6 points total)</p> <ul style="list-style-type: none"> • All nursing interventions provided for patient prioritized and rationales provided (6)-6 	<p>Total Points: 6 Comments: All pertinent nursing interventions are prioritized and you provided detailed rationales.</p>
<p>9. Discuss the role of interdisciplinary team members in the care of the patient. (6 points total)</p> <ul style="list-style-type: none"> • Identifies all interdisciplinary team members currently involved in the care of the patient (2)-2 • Explains how each current interdisciplinary team member contributes to positive patient outcomes (2) -2 • Identifies additional interdisciplinary team members (not involved currently) that should be included in the care of the patient to ensure positive patient outcomes (2) -2 	<p>Total Points: 6 Comments: Great job identifying additional interdisciplinary team members that should be included to ensure positive outcomes for your patient.</p>
<p>Total possible points = 65 51-65 = Satisfactory < 51 = Unsatisfactory</p> <p>Course Objective: 2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*</p> <p>Clinical Competency: 2(a.) Correlate relationships among disease process, patient’s history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding)</p> <p>*End-of-Program Student Learning Outcomes</p>	<p>Total Points: 65/65 Comments: Excellent job, Kailee! Your pathophysiology was very detailed, thorough and well done. Keep up all your hard work! CB</p>

Firelands Regional Medical Center School of Nursing
AMSN –4 Tower - Hand-Off Report Competency Rubric
Faculty: Brittany Lombardi, MSN, RN, CNE; Brian Seitz, MSN, RN, CNE; Chandra Barnes, MSN, RN

Student Name: Kailee Felder **Date:** 1/22/2025

Must complete satisfactorily during 4 Tower debriefing.

23-30 points = Satisfactory	< 23 points = Unsatisfactory
-----------------------------	------------------------------

CRITERIA

	Meets Expectations 5	Needs Improvement 3	Does Not Meet Expectations 0	POINTS
Introduction Safety (1,2)*	Introduction provided (includes patient name, room number etc.). Provides socioeconomic factors (e.g. social support), allergies, and alerts (falls, isolation, etc.)	Provides introduction and communicates most of the safety concerns of the patient.	Does not provide introduction and/or does not address the safety concerns of the patient.	5
Situation (3)*	Presents chief complaint and current status (including code status, recent changes, and response to treatment).	Presents most information but missing pertinent data e.g. current status, changes etc.	Information is incomplete and/or disorganized. Not possible to understand and obtain an adequate and clear picture of the patient's situation.	5
Background (4)*	Provides detailed and organized background information regarding presenting diagnosis and signs/symptoms; includes pertinent past medical and surgical history.	Provides background information but information disorganized and difficult to understand. Missing some information related to past medical and surgical history.	Background information is incomplete and/or inaccurate. Missing pertinent information related to past medical and surgical history	5
Assessment Laboratory/Diagnostic Testing (5)*	Provides clear, concise, pertinent assessment information e.g. vital signs, cardiac assessment, respiratory assessment. Communicates pertinent laboratory and diagnostic information and relates findings to current diagnosis/presentation.	Provides assessment information but material is disorganized. Communicates laboratory and diagnostic findings but information is not specific. Example: states hemoglobin is low without stating specific number or why it is abnormal.	Assessment information is incomplete and needs improvement. Does not communicate findings in a way that can be understood.	5
Actions (4,5)*	Explains interventions performed or required. Provides rationale.	Explains interventions performed/required but does not provide rationales.	Does not include all interventions performed and does not provide rationales.	5
Communication Prioritization (1,4,5,6)*	Communicates and prioritizes any outstanding patient issues and the plan of care. Example: patient having change in mental status - would explain CT ordered. Includes patient teaching provided.	Communicates all information but is slightly disorganized in presentation.	Overall communication of hand-off report needs improvement. Incomplete report and/or disorganized in presentation	5
			TOTAL POINTS	30/30

***Course Objectives**

Comments:

Meditech Documentation: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders/SBAR: Satisfactory completion of physician's order lab per the SBAR skills competency rubric: phone call to physician with SBAR report, receiving and reading back multiple physician orders, and hand-off report given to the next student in rotation. Discussion of the treatment, medications, and plan of care for a patient experiencing NSTEMI and STEMI. BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! CB

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag-valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Start: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/CB/BS

Blood Admin/IV Pumps: Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing Change/Ports/Blood Draw: Satisfactory central line dressing change participation providing proper technique guidelines, maintenance of central line ports, and line flushing. You were satisfactory in accessing and de-accessing an infusaport device, demonstrated proper technique on how to draw blood from a CVAD, and properly labeled a blood tube per hospital policy. Great job! CB

Head to Toe Assessment: Satisfactory completion of the Head to Toe Assessment. Great job! DW/BS

*End-of- Program Student Learning Outcomes

ECG/Telemetry Placements/Hand-off report/CT: Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium tutorial; satisfactory completion of handoff report activity. BS

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2025**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
