

FINAL SUMMARY OF STUDENT'S PROGRESS AND DEVELOPMENT

Firelands Regional Medical Center School of Nursing Faculty Manual

Prior to graduation, senior students will complete the Final Summary of Student's Progress and Development form which is filed and retained in the graduate folder.

NAME OF STUDENT (LAST)	(FIRST)	(MIDDLE)
Harper	Davondre	Latrell

1. Describe your outstanding personality characteristics (relevant to nursing) possessed at the completion of the program:

I did this backwards so I just bragged about my personality in #2 but I would say that a personality characteristic that I possessed throughout the program would be patience, flexibility, and tolerant. Being that I am an extremely impatient person and can be somewhat immovable and hardheaded when it comes to my way versus everyone else's, this experience has definitely humbled me in that aspect.

2. Describe your special interests and abilities in nursing:

I would say my special interest and abilities in nursing are similar to the ones that I utilize in my day-to-day life, which is being extroverted, personable, and having an infectious/magnetic personality. I'm not sure if this counts as a "nursing ability" and know it's not much to offer, but I've found that all of the patients that I have had the privilege of caring for would get acclimated and comfortable with me extremely quick and vocalize their appreciation when it came to how I would overall address them as an equal rather than them being talked at/to as if they were less than.

3. Discuss your experiences with interpersonal relationships – faculty and staff, patients and their families, and members of the healthcare team throughout the nursing program:

My experiences with the interpersonal relationships I have had throughout the nursing program have been beautiful to say the least. I am forever grateful that I was given the opportunity to encounter and interact with all of the supportive faculty and staff, loving and appreciative patients and patient families, and all of the professional members of the healthcare team!

4. Participation in activities throughout the program:

An activity that stands out to me that I've had the privilege of participating in would have to be teaching the kiddos at Saint Mary's about physical health and getting to get them all riled up before sending them back to class. This fulfilled the "cool uncle that gives his nieces and nephews candy and sugar even though their parents said no" shaped hole in my heart!

5. Explain at least 2 professional goals you would like to achieve during your nursing career:

Possibly having the opportunity to deliver a baby

Being able to make a positive, unforgettable, life-altering impact on someone's life.

6. List your address at the time of graduation- Include a future address if known:

620 Bryan Rd. Milan, OH 44846

Signature
