*Course Objectives

Review Z-chapter 23 the assignment and place your answers to the following questions in the Z-CH # 23 drop box by 0800 on 3/24/2025.

Patients often use the Internet to search for health-related issues. Search the Internet for any health-related issue of your choosing. Evaluate the website by answering the following questions:

<https://my.clevelandclinic.org/health/diseases/17069-heart-failure-understanding-heart-failure>

1. Do the authors have qualifications listed? What are their qualifications? What is the domain? (.gov, .edu, .org)
The domain is a .org.
This article was put together by the Cleveland clinic. There are many references, but I do not see on specific person to wrote the article. The Cleveland clinic is well known for its possibilities with advanced care, and surgical procedures. I would trust what they put out in information.
2. When was the site created? When was the site last updated or revised?
-The year with the copywrite on the bottom lists 2025.I would think this information is updted regularly based on the copywrite date.
3. Who is the targeted audience? Does the web site present facts or opinions?
-This site presents facts. The targeted audience would include someone looking for a more simple expalination with some detail about heart failure.
4. How complete and accurate is the content information? Does it agree with other expert sources? (Provide expert sources you researched.)
-I feel like this website is and expert source, and I would trust it without checking another source. But in comparison to the lewis book, symptoms are consistent with this published book..
5. Does the site load quickly? Is it a secured site? Are there graphics, or pictures on the page that serve a purpose? If so what are they and how do they relate to the health issue?
-Yes the site loaded quickly
-it is a secured site.

-there are some pictures tht show diagrams of a normal heart and an enlarged heart. This can show people the changes that can occur to the heart with heart failure. There are also links on the page that will take someone to a specific form of heart failure, left or right and high cardiac ouput heart failure.

In order to receive full credit (1 H class time) for this assignment, it must be completed in its entirety by the due date/time assigned. Any assignments not completed in its entirety by the assigned due date and time will result in missed class time.
