*Course Objectives

Review Z-chapter 23 the assignment and place your answers to the following questions in the Z-CH # 23 drop box by 0800 on 3/24/2025.

Patients often use the Internet to search for health-related issues. Search the Internet for any health-related issue of your choosing. Evaluate the website by answering the following questions:

1. Do the authors have qualifications listed? What are their qualifications? What is the domain? (.gov, .edu, .org)
 - None on the site, they are the Cleveland Clinic. It is a .org domain
2. When was the site created? When was the site last updated or revised?
 - I believe it was initially posted in 2017 and was last reviewed or updated on 5/1/23
3. Who is the targeted audience? Does the web site present facts or opinions?
 - People wanting to learn more about high blood pressure such as symptoms and ways to manage their blood pressure. Facts are being provided
4. How complete and accurate is the content information? Does it agree with other expert sources? (Provide expert sources you researched.)
 - Many references are provided with the information provided by the Cleveland clinic and the information dose match with other resouces.
5. Does the site load quickly? Is it a secured site? Are there graphics, or pictures on the page that serve a purpose? If so what are they and how do they relate to the health issue?
 - Yes it does and it is secure. There are some pictures provided that display what blood pressure is such as systolic and diastolic. Others pictures provide the different stages of hypertension and the ranges of the blood pressure within the stages.

In order to receive full credit (1 H class time) for this assignment, it must be completed in its entirety by the due date/time assigned. Any assignments not completed in its entirety by the assigned due date and time will result in missed class time.
