

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Faculty eSignature:	
----------------------------	--

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

ABSENCE (Refer to Attendance Policy)			
Date	Number of Hours	Comments	Make Up (Date/Time)
1/17/2025	1 H	Late posting of CDG	1/17/2025-11:15

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
a. Manage complex patient care situations with evidence of preparation and organization. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
b. Assess comprehensively as indicated by patient needs and circumstances. (Noticing)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
c. Evaluate patient's response to nursing interventions. (Reflecting)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
d. Interpret cardiac rhythm; determine rate and measurements. (Interpreting)	N/A	N/A	N/A	N/A	N/A	N/A	NA	NA	NA	N/A	N/A	N/A						
e. Administer medications observing the seven rights of medication administration. (Responding)	S	S	S	N/A	N/A	N/A	NA	NA	S	N/A	S	S						
f. Perform venipuncture skill with beginning dexterity and evidence of preparation. (Responding)	N/A	N/A	N/A	N/A	N/A	N/A	NA	NA	NA	N/A S	S	S						
g. Respond appropriately to equipment alarms; IV pumps, ECG monitors, ventilators, etc. (Responding)	N/A	S	S	N/A	N/A	N/A	NA	NA	S	N/A	N/A	N/A

Comments:

Week 2 (1a,b)- Great job managing patient care and prioritizing care based on comprehensive assessment. FB

Week 3 (1a,b,c)- Satisfactory with managing three patients during your patient management clinical experiences this week! Great job! FB

Week 4 (1c)- Great job evaluating the plan of care and patient needs to determine the order of care for several patients during this clinical rotation. FB

Week 6 (1c)- Satisfactory during Patient Advocate/Discharge Planner clinical and with discussion via CDG posting. Preceptor comments: "Excellent in all areas." Great job. AR

*End-of- Program Student Learning Outcomes

Week 9 (1b,c)- Satisfactory during Special Procedures clinical and with discussion via CDG posting. Preceptor comments: “Excellent in ‘Actively engaged in the clinical experience’; Satisfactory in all other areas. Several IV attempts; continue to practice. Observed paracentesis, angiogram, renal biopsy.” Great job. AR

Week 10 (1f)- Great job with several successful IV attempts, appropriate technique was demonstrated. FB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	N/A	S	N/A	NA	NA	S	S	S NA	S						
a. Correlate relationships among disease process, patient's history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding)	S	S	S	N/A	N/A	N/A	NA	NA	S	S	S	S						
b. Monitor for potential risks and anticipate possible early complications. (Noticing, Interpreting, Responding)	S	S	S	N/A	N/A	N/A	NA	NA	S	S	S	S						
c. Recognize changes in patient status and take appropriate action. (Noticing, Interpreting, Responding)	N/A	N/A	S	N/A	N/A	N/A	NA	NA	S	S	S	S						
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (Noticing, Interpreting, Responding, Reflecting) *	N/A	N/A S	S	N/A	S NA	N/A	NA	NA	S	S	S NA	N/A						
e. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
Faculty Initials	FB	FB	FB	AR	AR	AR	AR	AR	AR	AR	AR	AR						

***When completing the 4T Care Map CDG refer to the Care Map Rubric**

Comments:

Week 2(2a,b)- Great use of clinical judgement skills to determine patient needs, plan care for patients, and implement appropriate nursing interventions. FB
 Week 3 (2a,b,d)- Great job with correlation of patient condition, pathophysiology of disease process, and monitoring of any possible complications. Based off assessments you were able to implement the plan of care for several patients. (2d) Providing care for a patient involves the nursing process and the implementation of a plan of care, as you care for patients you are using your clinical judgement to provide the care, prioritize, and formulate a nursing plan of care. Therefore, this competency was changed to a "S". (2c)- Destiny, I hope you are using clinical judgment recognizing when there are changes in your patient's assessments, labs, or status whether it be positive or negative changes and implementing any change in the plan of care. FB
 Week 4 (2a,b)- Good use of clinical judgement as you correlate the relationship between patient's disease process, current symptoms, and present condition. You are also assessing for potential risks and anticipating possible complications as you prioritize care for your assigned patients. Keep up the good work! FB

*End-of- Program Student Learning Outcomes

Objective
3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*

*End-of- Program Student Learning Outcomes

Comments:

Week 2 (3d,e)- Great discussion, noticing accountability of delegation and the clarification of roles. You also did a great job interpreting facts to determine the need for prioritization of assigned patient during this clinical rotation. FB

Week 3 (3e) Great job with prioritizing the delivery of care to your assigned patients during the clinical experiences this week. FB

Week 4 (3d,e)- You have demonstrated the process of delegation, responsibility, and accountability of the interdisciplinary team members. Great job determining priority care of assigned patients. Keep up the great work! FB

Week 6 (3b,c)- Satisfactory during Quality Scavenger Hunt, with documentation, and discussion via CDG posting. Good job. AR

Week 9 (3b)- Satisfactory during Quality Assurance/Core Measures observation and with discussion via CDG posting. Great job. AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5,7)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
Faculty Initials	FB	FB	FB	AR	AR	AR	AR	AR	AR	AR	AR	AR						

Objective 4a: Provide a comment for the highlighted competency each week. If no clinical experiences, put "NA" for that week.

Comments:

4a. One example of a legal issue observed is there are many people that leave their computers open with the charts open when they walk away which could be viewed by anyone that is walking by.

Week 2 (4a)- Leaving the computers up with patient information and walking away is a HIPAA violation. If the information was used in a way to affect the patient or the wrong person saw important information the person who was signed into the computer could be fined heavily, lose their job, or do jail time. Individuals do not take this seriously enough. Great example of a legal issue. FB

*End-of- Program Student Learning Outcomes

4a week 3. One example of a legal issue I observed a nurse doing patient care with no gloves on. This is not only unsanitary for the nurse but also it puts the patient at risk for infections. **Good example, this is so important as well as hand hygiene. You are correct, patients are already compromised in the acute care setting exposure to germs should be kept at a minimum to prevent further complications. FB**

4a week 4. One example of a legal and ethical issue I observed was a patient who was a DNRCC and was in the process of passing away. Morphine 2mg was ordered every hour but the patient's family did not want the patient to have the medication every hour. They wanted to avoid giving the patient morphine as much as possible because they did not want it to decrease his blood pressure. The nurses still gave the patient morphine at night and in the morning due to the patient being in pain. This caused the patient's family to get upset. It is complicated when, as nurses we know the patient is in pain, but the family does not want the patient to take pain medications. **This can be very hard for families to understand. Some education for the family members is often times very beneficial. Family members do not want their loved ones to suffer and sometimes do not understand the way morphine works. Unfortunately, they have probably only heard the bad regarding the use of morphine. Education on how it can make passing a lot easier on patients is very beneficial, if they still do not want it used than we must carry out their wishes. Very good ethical issue. FB**

4a week 5. No clinical this week. **AR**

4a week 6. I did not see any legal or ethical issues while on this clinical. One issue that could come up would be to ensure that the patient is comfortable with speaking around whoever is in the room. Sometimes patients do not want to speak about issues they have encountered with other staff members in the room or even with visitors present. It is best to confirm that the patient agrees speaking about anything with whoever may be in the room or even coming back when there is no one in the room may be good. **Good example of an issue that may occur. AR**

4a week 7. No clinical this week. **AR**

4a. week 8. No clinical this week **AR**

4a. week 9. One ethical issue that may occur would be patients may not get the proper education they need to be successful in taking care of themselves once they are discharged from the hospital. This would result in the patient being readmitted in the hospital which we do not want. It is important to ensure the patients are educated properly and given handouts to take home about the things they need to do to ensure they are properly taking care of what they are diagnosed with. **This is a good example. Complete and accurate documentation is so important for our patients, and helps prevent re-admissions, etc. AR**

4a. week 10. I did not see any legal or ethical issues but one legal issue that could occur in Digestive health would be the informed consent that needs to be signed and if it were not signed then that would cause problems for the health care team and the hospital. It is important to ensure the patient is informed about the procedure they will be having and that the consent is signed for it to take place. **Good example of what can occur in Digestive Health. AR**

4a week. 10. One legal issue would be I did notice a nurse walking away from blood that she had for a patient. She went to grab something and left the blood on the computer to grab what she had forgotten and came back. Blood is something that should always be with the nurse if they need to sept away just like medications. Especially because the patients are not in actual rooms, so others have access to everything that is in the open.

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

5. Construct methods for self-reflection and critiquing healthcare systems, processes, practices and regulations on a weekly basis. (7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
a. Reflect on your overall performance in the clinical area for the week. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
b. Demonstrate initiative in seeking new learning opportunities. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
c. Describe factors that create a culture of safety (error reporting, communication, & standardization, etc. (Interpreting)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
d. Maintain the principles of asepsis and standard/infection control precautions (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
e. Practice use of standardized EBP tools that support safety and quality. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						

*End-of- Program Student Learning Outcomes

f. Utilize faculty feedback to improve clinical performance. (Responding & Reflecting)	S	S	S	N/A	S	N/A	NA	NA	S	S	S						
Faculty Initials	FB	FB	FB	AR	AR	AR	AR	AR	AR	AR	AR						

Comments:

Week 2 (5a)- Reported on by assigned RN during clinical rotation 1/14/2025– Satisfactory in all areas. Student goals: Start an IV or place a foley catheter. No additional Preceptor comments. JF/FB

Week 3 (5a)- Reported on by assigned RN during clinical rotation 1/21/2025– Excellent in all areas. Student goals: “Insert an IV and improve on taking report.” Additional Preceptor comments: “Destiny has excellent patient care. She really cares about each patient. She will be a great nurse.” AT/FB Reported on by assigned RN during clinical rotation 1/22/2025- Excellent in all areas. Student goals: “Start an IV.” Additional preceptor comments: “Unfortunately no IV’s to start. Destiny is very attentive and eager to help and learn. She would always be welcome on my team!” VN/FB

Week 4 (5a) Reported on by assigned RN during clinical rotation on 1/28/2025 –Excellent in all areas, except satisfactory in provider of care: collection/documentation of data, establishment of plan of care, manager of care: delegation. Student goals: “Improve on maintaining the 4 patients.” Additional Preceptor comments: “Great job today.” CK/FB Reported on by assigned RN during clinical rotation on 1/29/2025 – Satisfactory in all areas.” Student goals: “Insert an IV.” Additional Preceptor comments: “Destiny is like a sponge and just wants to learn. She did wonderfully.” HM/FB

Week 9 (5c)- Satisfactory CDG posting related to your Quality Assurance/Core Measures observation. Keep up the good work. AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
a. Establish collaborative partnerships with patients, families, and coworkers. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
b. Teach patients and families based on readiness to learn and discharge learning needs. (Interpreting & Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
c. Collaborate and communicate with members of the healthcare team, patients, and families to achieve optimal patient outcomes. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
d. Deliver effective and concise hand-off reports. (Responding)*	S	S	S	N/A	N/A	N/A	NA	NA	S	N/A	N/A	N/A						

*End-of- Program Student Learning Outcomes

e.	Document interventions and medication administration correctly in the electronic medical record. (Responding)	S	S	S	N/A	N/A	N/A	NA	NA	S	N/A	N/A	N/A						
f.	Consistently and appropriately posts in clinical discussion groups. (Responding and Reflecting)	U	S	S NI	N/A	S NI	N/A	NA	NA	NI	S	N/A	S

***When completing 4T Hand-Off Report see 4T Hand- Off Competency Rubric**

Comments:

Week 2 (6d) This competency was completed satisfactorily according to the hand-off report rubric, score of 30/30 points. No RN comments provided. JF/FB (6c) Great job with communication and collaboration skills demonstrated as you worked with assigned RN and other healthcare disciplines. **(6f) You will need to address the “U” rating per instructions provided in the beginning of the evaluation tool. A “U” in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the “U”, the faculty member (s) will continue to rate the competency unsatisfactory.** FB

Week2 : I will complete my CDG and my clinical tool from now on, after clinical to ensure that it gets completed on time. Thank you, it might benefit to set a timer on your phone or place due dates and times on a planner you check every day. FB

Week 3 (6f)- Satisfactory CDG posting related to your patient management clinical experiences this week! FB

Week 4 (6e)- Great job with documenting accurately and appropriately for all aspects of care delivered. (6f) This competency was changed to a needs improvement (NI), the clinical discussion was to provide the process of the medication reconciliation, identify an education need and develop an education plan. You were allotted 2 hours for this discussion post. The education plan was to be specific including patient assessment data, disease information, treatment plan, instructions, teaching methods, and an evaluation. Minimal effort was demonstrated with your post being a very brief response. Make sure to provide more detail for future responses. FB

Week 6 (6c,f)- While your Quality Scavenger Hunt CDG was satisfactory, based on the CDG Grading Rubric, your Patient Advocate/Discharge Planner CDG is a needs improvement due to not having an in-text citation to go along with the reference you supplied. You did have a statement in quotations, however there was no citation or source with it. Overall, the information provided was complete and accurate. AR

Week 9 (6f)- Satisfactory CDG postings related to your Special Procedures clinical and Quality Assurance/Core Measures observation. Keep up the good work. AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery.
(1,3,4,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid- term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
a. Value the need for continuous improvement in clinical practice based on evidence. (Responding)																		
b. Accountable for investigating evidence-based practice to improve patient outcomes. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						
c. Comply with the FRMCSN "Student Code of Conduct Policy." (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S	S						

*End-of- Program Student Learning Outcomes

d. Incorporate the core values of caring, diversity, excellence, integrity, and “ACE”- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S	S	S	N/A	S	N/A	NA	NA	S	S	S							
Faculty Initials	FB	FB	FB	AR	AR	AR	AR	AR	AR	AR	AR							

Comments:

Week 3 (7a) Great job recognizing areas of improvement related to evidence-based practice and within your clinical practice. FB

Week 4 (7d)- Great job displaying a great attitude, commitment to provide optimal care, and enthusiasm for the caring of individuals at a very vulnerable and often difficult time of their lives. FB

Midterm- Keep up the good work in clinical for the remainder of the semester. AR

Week 9 (7a)- Satisfactory discussion via CDG posting related to your Quality Assurance/Core Measures observation. Great job. AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric

Student Name:				Course Objective: Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment.			
Date or Clinical Week:							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)		
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)		
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)		
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	5. State the goal for the top nursing priority.	Complete			Not complete		
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)		
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)		
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete		
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete		
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete		

*End-of- Program Student Learning Outcomes

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete		
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete		
	15. Evaluation includes one of the following statements: - Continue plan of care - Modify plan of care - Terminate plan of care	Complete			Not complete		
Reference An in-text citation and reference are required. The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both. The care map will be graded “unsatisfactory” if both in-text citation and reference are not included.							
Total Possible Points= 45 points 45-35 points = Satisfactory 34-23 points = Needs Improvement* < 23 points = Unsatisfactory* *Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines. ***Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *** Faculty/Teaching Assistant Comments:						Total Points:

Pathophysiology Grading Rubric
Firelands Regional Medical Center School of Nursing
Advanced Medical Surgical Nursing
2025

Student Name:

Clinical Date:

1. Provide a description of your patient including current diagnosis and past medical history. (4 points total) - Current Diagnosis (2) - Past Medical History (2)	Total Points: Comments:
2. Describe the pathophysiology of your patient's current diagnosis. (6 points total) Pathophysiology-what is happening in the body at the cellular level (6)	Total Points: Comments:
3. Correlate the patient's current diagnosis with presenting signs and symptoms. (6 points total) - All patient's signs and symptoms included (2) - Explanation of what signs and symptoms are typically expected with this current diagnosis (Do these differ from what your patient presented with?) (2) - Explanation of how all patient's signs and symptoms correlate with current diagnosis. (2)	Total Points: Comments:
4. Correlate the patient's current diagnosis with all related labs. (12 points total) - All patient's relevant lab result values included (3) - Rationale provided for each lab test performed (3) - Explanation provided of what a normal lab result should be in the absence of current diagnosis (3) - Explanation of how each of the patient's relevant lab result values correlate with current diagnosis (3)	Total Points: Comments:
5. Correlate the patient's current diagnosis with all related diagnostic tests. (12 points total) - All patient's relevant diagnostic tests and results included (3) - Rationale provided for each diagnostic test performed (3) - Explanation provided of what a normal diagnostic test result would be in the absence of current diagnosis (3) - Explanation of how each of the patient's relevant diagnostic test results correlate with current diagnosis (3)	Total Points: Comments:
6. Correlate the patient's current diagnosis with all related	Total Points:

medications. (9 points total) • All related medications included (3) • Rationale provided for the use of each medication (3) • Explanation of how each of the patient's relevant medications correlate with current diagnosis (3)	Comments:
7. Correlate the patient's current diagnosis with all pertinent past medical history. (4 points total) • All pertinent past medical history included (2) • Explanation of how patient's pertinent past medical history correlates with current diagnosis (2)	Total Points: Comments:
8. Prioritize nursing interventions related to current diagnosis. (6 points total) • All nursing interventions provided for patient prioritized and rationales provided (6)	Total Points: Comments:
9. Discuss the role of interdisciplinary team members in the care of the patient. (6 points total) • Identifies all interdisciplinary team members currently involved in the care of the patient (2) • Explains how each current interdisciplinary team member contributes to positive patient outcomes (2) • Identifies additional interdisciplinary team members (not involved currently) that should be included in the care of the patient to ensure positive patient outcomes (2)	Total Points: Comments:
Total possible points = 65 51-65 = Satisfactory < 51 = Unsatisfactory Course Objective: 2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)* Clinical Competency: 2(a.) Correlate relationships among disease process, patient's history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding) *End-of-Program Student Learning Outcomes	Total Points: Comments:

Firelands Regional Medical Center School of Nursing

AMSN –4 Tower - Hand-Off Report Competency Rubric

Faculty: Brittany Lombardi, MSN, RN, CNE; Brian Seitz, MSN, RN, CNE; Chandra Barnes, MSN, RN

Student Name: _____ Date: _____

Must complete satisfactorily during 4 Tower debriefing.

23-30 points = Satisfactory	< 23 points = Unsatisfactory
-----------------------------	------------------------------

CRITERIA

	Meets Expectations 5	Needs Improvement 3	Does Not Meet Expectations 0	POINTS
Introduction Safety (1,2)*	Introduction provided (includes patient name, room number etc.). Provides socioeconomic factors (e.g. social support), allergies, and alerts (falls, isolation, etc.)	Provides introduction and communicates most of the safety concerns of the patient.	Does not provide introduction and/or does not address the safety concerns of the patient.	
Situation (3)*	Presents chief complaint and current status (including code status, recent changes, and response to treatment).	Presents most information but missing pertinent data e.g. current status, changes etc.	Information is incomplete and/or disorganized. Not possible to understand and obtain an adequate and clear picture of the patient's situation.	
Background (4)*	Provides detailed and organized background information regarding presenting diagnosis and signs/symptoms; includes pertinent past medical and surgical history.	Provides background information but information disorganized and difficult to understand. Missing some information related to past medical and surgical history.	Background information is incomplete and/or inaccurate. Missing pertinent information related to past medical and surgical history	
Assessment Laboratory/Diagnostic Testing (5)*	Provides clear, concise, pertinent assessment information e.g. vital signs, cardiac assessment, respiratory assessment. Communicates pertinent laboratory and diagnostic information and relates findings to current diagnosis/presentation.	Provides assessment information but material is disorganized. Communicates laboratory and diagnostic findings but information is not specific. Example: states hemoglobin is low without stating specific number or why it is abnormal.	Assessment information is incomplete and needs improvement. Does not communicate findings in a way that can be understood.	
Actions (4,5)*	Explains interventions performed or required. Provides rationale.	Explains interventions performed/required but does not provide rationales.	Does not include all interventions performed and does not provide rationales.	
Communication Prioritization (1,4,5,6)*	Communicates and prioritizes any outstanding patient issues and the plan of care. Example: patient having change in mental status - would explain CT ordered. Includes patient teaching provided.	Communicates all information but is slightly disorganized in presentation.	Overall communication of hand-off report needs improvement. Incomplete report and/or disorganized in presentation

Comments:

Week 8 Simulation: See rubric below. AR

3/14/2025- Mary Richards vSim initially unsatisfactory due to not completing by due date/time. You did complete the vSim, following all guidelines per the syllabus, later in the day it was due which resulted in a satisfactory evaluation. AR

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME(S): Katelyn Morgan, Grace Catanese, Kylee Cheek, **Destiny Houghtlen**

GROUP #: 2

SCENARIO: **Week 8 Simulation**

OBSERVATION DATE/TIME(S): **February 24, 2025 1000-1200**

CLINICAL JUDGMENT COMPONENTS	<u>OBSERVATION NOTES</u>				
NOTICING: (1,2)* - Focused Observation: E A D B - Recognizing Deviations from Expected Patterns: E A D B - Information Seeking: E A D B	Identifies patient and begins VS and assessment. Monitor applied. Notices low SpO2. Patient CO nausea, wanting to go to sleep. Noticed reduced HR, BP, and rhythm change. Patient CO feeling like she's going to pass out. BP reassessed. Rhythm change noticed. Patient identified. VS and assessment begun. Monitor applied. Notices increased HR. Notices low SpO2. Patient CO feeling tired, SOB. VS rechecked following medication administration. Notices lower BP. Patient CO being dizzy. New VS obtained after fluid bolus. Patient coughing and SOB. Noticed lung sounds have changed. Notices unresponsive patient, code called begins CPR.				
INTERPRETING: (1,2)* - Prioritizing Data: E A D B - Making Sense of Data: E A D B	SpO2 and BP interpreted as below normal. Interprets the need for medication to increase HR. Rhythm change interpreted to be 2nd degree type 2 AV block. BP noted to be reduced from previous reading. New rhythm interpreted to be 3rd degree AV block. Rate interpreted as sinus tachycardia- actually atrial fibrillation. Need for O2 identified. Rhythm reinterpreted to be a-fib. BP interpreted as lower than previous reading. Interprets need for fluid bolus to raise BP. Lung sounds interpreted to be crackles and patient is overloaded. Interprets no pulse or breathing.				
RESPONDING: (1,2,3,5,6,7)* - Calm, Confident Manner: E A D B - Clear Communication: E A D B - Well-Planned Intervention/ Flexibility: E A D B - Being Skillful: E A D B	O2 applied. Heart and lung sounds assessed. Call to HCP to report symptomatic bradycardia and requests order for atropine. Order received- remember to read back orders to avoid mistakes. Atropine explained to patient and administered (identify patient). Call to HCP to request IV fluid, order received. Pacemaker requested. Neuro assessment performed. IV fluid initiated at 100 mL/hr. Established orientation. Asking appropriate questions during assessment. Oxygen applied. Call to HCP to report sinus tachycardia and request a beta				

*End-of- Program Student Learning Outcomes

	blocker. HCP questions heart rhythm interpretation- reinterpreted to be a-fib. Call to HCP to request order for coags and an order for warfarin. Order received for coags and diltiazem. HCP asks what appropriate dose would be- bolus and drip rates provided. Orders received for bolus and drip (remember to read back orders). Call back to HCP following medication administration to report new symptom, requests cardioversion. Fluid bolus requested. Fluid bolus ordered and initiated. Call to HCP to report suspected fluid overload and request an order for Lasix. Order received. CPR initiated, 1 mg epinephrine q 3 minutes. Patches applied, patient defibrillated. Amiodarone suggested as an alternate drug to give, doses provided.			
REFLECTING: (1,2,5)* • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B	Discussed first scenario, identification and treatments for symptomatic bradycardias. Reviewed chart to look for causes of heart block (metoprolol, patient history). Talked about holding medication to see if sinus rhythm will be restored. Alternate drugs for complete heart block discussed (epi, dopamine). Discussed pacing options for symptomatic bradycardias (transcutaneous, transvenous, permanent). Talked about the importance of adjusting electrical current to obtain capture, need for medication for comfort). Excellent teamwork! Discussed recognition of A-fib and associated symptoms. Talked about goals of diltiazem therapy. Explanation and demonstration of synchronized cardioversion; discussed differences between cardioversion and defibrillation, the need for sedating medications prior to delivering shock. Great teamwork and communication. Discussed the importance of immediate CPR and defibrillation with pulseless v-tach. Discussed alternative to epi (amiodarone). Roles of the code team discussed (recorder, CPR, airway, meds, lead). Potential causes of code blue discussed (review of chart reveals low K+). Defibrillation discussed, starting low and increasing joules with subsequent shocks. Excellent job!			
SUMMARY COMMENTS: * = Course Objectives Satisfactory completion of the simulation scenario is a score of “Developing” or higher in all areas of the rubric. E= Exemplary A= Accomplished D= Developing B= Beginning	Lasater Clinical Judgement Rubric Comments: You are satisfactory for this scenario. BS Attempts to monitor a variety of subjective and objective data but is overwhelmed by the array of data; focuses on the most obvious data, missing some important information Recognizes most obvious patterns and deviations in data and uses these to continually assess Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs Generally focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data In most situations, interprets the patient’s data patterns and compares with known patterns to develop an intervention plan and accompanying rationale; the exceptions are			

*End-of- Program Student Learning Outcomes

Scenario Objectives: • Differentiate the clinical characteristics and ECG patterns of common dysrhythmias. (1,2)* • Choose nursing interventions for patients who are experiencing dysrhythmias. (1)* • Differentiate between defibrillation and cardioversion. (1,2,6)* • Communicates collaboratively to other healthcare providers utilizing SBAR. (3,5,6,7)* You are satisfactory for this scenario. Nice work! BS	rare or in complicated cases where it is appropriate to seek the guidance of a specialist or a more experienced nurse Generally displays leadership and confidence and is able to control or calm most situations; may show stress in particularly difficult or complex situations Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport Develops interventions on the basis of the most obvious data; monitors progress but is unable to make adjustments as indicated by the patient's response Displays proficiency in the use of most nursing skills; could improve speed or accuracy Evaluates and analyzes personal clinical performance with minimal prompting primarily about major events or decisions; key decision points are identified, and alternatives are considered Demonstrates a desire to improve nursing performance; reflects on and evaluates experiences; identifies strengths and weaknesses; could be more systematic in evaluating weaknesses

***Course Objectives**

Comments:

Meditech Documentation: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders/SBAR: Satisfactory completion of physician's order lab per the SBAR skills competency rubric: phone call to physician with SBAR report, receiving and reading back multiple physician orders, and hand-off report given to the next student in rotation. Discussion of the treatment, medications, and plan of care for a patient experiencing NSTEMI and STEMI. BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! CB

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag-valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Start: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/CB/BS

Blood Admin/IV Pumps: Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing Change/Ports/Blood Draw: Satisfactory central line dressing change participation providing proper technique guidelines, maintenance of central line ports, and line flushing. You were satisfactory in accessing and de-accessing an infusaport device, demonstrated proper technique on how to draw blood from a CVAD, and properly labeled a blood tube per hospital policy. Great job! CB

Head to Toe Assessment: Satisfactory completion of the Head to Toe Assessment. Great job! DW/BS

*End-of- Program Student Evaluation/Comments: **ECG/Telemetry Placements/Hand-off report/CT:** Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium tutorial; satisfactory completion of handoff report activity. BS

ECG Measurements: Satisfactory participation in and practice of ECG measurements during the ECG Measurements Lab. You

EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2025

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date:

ar 11/15/2024
