

Unit 9: Emergency Preparedness
Z-Chapter 26
ONLINE CONTENT (1 H)

Unit Objectives:

- Identify regulatory initiatives undertaken to prevent and respond to future emergencies, including pandemics. (1,2,7)*
- Discuss the variety of diseases or agents that are likely to be involved in a biologic, chemical, or radiologic terrorism attack in addition to the clinical and community health consequences of each. (2,7)*
- Identify approaches to enhance personal and family preparedness for emergencies. (7)*

*Course Objectives

Review the information provided on the CDC website: <https://emergency.cdc.gov/health-professionals.asp> and place your answers to the following questions in the Z-CH # 26 drop box by 0800 on April 1, 2024.

COCA- clinical outreach and community activity:

Address what COCA does, who they serve, resources and services. Provides timely accurate and credible information to clinicians related to emergency preparedness and response and emerging public health threats. Fosters partnerships with national clinician organizations to strengthen information-sharing networks before, during and after public health emergency.

CERC- Crisis emergency risk communication:

What is CERC? Program that provides tools, training and resources to emergency responders, health communicators, and leaders of organizations communicate effectively about risks during emergencies.

What type of training is available through CERC? Training includes in-depth practice on a variety of skills and techniques relevant to crisis and emergency risk communication.

Who is the training for? Public health professionals and emergency responders

What Information is found on the CERC wallet card? Information includes things to help build trust and credibility between your clients and you, tips to help you, things to know as a spokesperson, and questions you should be prepared to answer and messages to give to our clients.

Emergency Partners Information Connection (EPIC):

What is the role of EPIC? Connects with partners to provide better access to information during public health emergency.

Health Alert network (HAN):

What is the purpose? Provides urgent notifications about public health incidents and emerging health threats.

Report on HAN No. 518-Disruptions in Availability of Peritoneal Dialysis and Intravenous Solutions from Baxter International Facility in North Carolina. Provide a summary of the information from this update including recommendations for healthcare providers and the public? CDC issued a Health Advisory about supply distribution of IV solutions and peritoneal

dialysis from Baxter Internationals North Cove facility in North Carolina caused by Helene the Hurricane. This may affect patient care, requiring healthcare providers and administrators to assess their supplies and create plans to minimize impact on patients. All health departments and healthcare professionals are urged to act regardless of supply chain issues.

Please be prepared to share and discuss your answers in class.

In order to receive full credit (1 H class time) for this assignment, it must be completed in its entirety by the due date/time assigned. Any assignments not completed in its entirety by the assigned due date and time will result in missed class time.
