

EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2025

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester: Spring

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN
Chandra Barnes, MSN, RN; Brian Seitz, MSN, RN, CNE
Brittany Lombardi, MSN, RN, CNE

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

Clinical Assignments
Completion of Patient Care
Meditech Documentation
Observation of Clinical Performance
Evaluation of Clinical Performance Tool
Onsite Clinical Debriefing
Clinical Discussion Rubric
Preceptor Feedback
Nursing Care Map Rubric
Skills Lab Checklists/Competency Tool
Lasater Clinical Judgment Rubric
Virtual Simulation scenarios
Pathophysiology Grading Rubric
SBAR/Physician Orders Rubric
Hand-Off Report Competency Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
1/31/2025	1H	Didn't complete Scav Hunt survey	1/31/2025 1H
2/18/2025	12 H	Patient management clinical absence d/t illness	4/9/2025 12H
2/19/2025	12H	Patient management clinical absence d/t illness	4/16/2025 12H
Initials	Faculty Name		
CB	Chandra Barnes, MSN, RN		
FB	Fran Brennan, MSN, RN		
BL	Brittany Lombardi, MSN, RN, CNE		
AR	Amy Rockwell, MSN, RN		
BS	Brian Seitz, MSN, RN, CNE		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded “U.” A “U” in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the “U”, the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	NA	S	S	NA	NA	NA	S	S	S	NA						
a. Manage complex patient care situations with evidence of preparation and organization. (Responding)																		
b. Assess comprehensively as indicated by patient needs and circumstances. (Noticing)	S	NA	NA	S	S	NA	NA	NA	S	S	S	NA						
c. Evaluate patient's response to nursing interventions. (Reflecting)	S	NA	NA S	S	S	NA	NA	NA	S	S	S	S						
d. Interpret cardiac rhythm; determine rate and measurements. (Interpreting)	NA	NA	NA	S	S	NA	NA	NA	S	S	S	NA						
e. Administer medications observing the seven rights of medication administration. (Responding)	NA S	NA	NA	S	S	NA	NA	NA	S	S	S	S						
f. Perform venipuncture skill with beginning dexterity and evidence of preparation. (Responding)	S	NA	NA	NA	S	NA	NA	NA	S	NA	NA	NA	S					
g. Respond appropriately to equipment alarms; IV pumps, ECG monitors, ventilators, etc. (Responding)	NA	NA	NA	S	S	NA	NA	NA	S	S	S	S

Comments:

Week 2 (1e,f)- Great job with several successful IV attempts, appropriate technique was demonstrated. FB

Week 4 (1c)- Satisfactory during Patient Advocate/Discharge Planner clinical and with discussion via CDG posting. Preceptor comments: "Excellent in all areas." Great job. AR

*End-of- Program Student Learning Outcomes

Week 5 (1a,b)- Great job managing patient care and prioritizing care based on comprehensive assessment. FB

Week 6 (1a,b,c)- Satisfactory with managing two patients during your patient management clinical experiences this week! Try to manage at least three patients on your own during your next clinical experience. Great job! FB

Week 9-1(a-e,g) Excellent job this week managing complex patient care situations. Your care was very well organized, and you did a great job with your time management. Your head to toe assessments were very thorough and well done. Medication passes were safely done, and you had the opportunity to administer PO, IM, SQ and IV/IVP medications all while following the seven rights. Practice was gained interpreting cardiac rhythms through observation and one on one discussion. Great job monitoring your patient very closely on 4P to ensure positive patient outcomes. BL

Week 10- 1a/b- Nice job assessing and providing care to your mechanically ventilated patient this week. 1d- We briefly discussed your patient's heart rhythm and will continue discussion of rhythm identification and measurement in the coming weeks. 1e- You did a good job administering medications through various routes (OG, IV, IVP, SQ) while observing the rights of medication administration. BS

Week 11(1a,d,e): Great job this week managing complex care situations. You did a great job being prepared for clinical, and ensuring that your assessments were detailed and thorough. You were able to discuss cardiac rhythm strips in clinical this week. You did a great job administering medications to your patient this week (IV push, IV, PO), following the seven rights of medication administration. Great job! CB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	NA	NA	S	S	NA	NA	NA	S	S	S	S						
a. Correlate relationships among disease process, patient's history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding)																		
b. Monitor for potential risks and anticipate possible early complications. (Noticing, Interpreting, Responding)	NA	NA	S	S	S	NA	NA	NA	S	S	S	S						
c. Recognize changes in patient status and take appropriate action. (Noticing, Interpreting, Responding)	NA	NA	NA	S	S	NA	NA	NA	S	S	S	S						
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (Noticing, Interpreting, Responding, Reflecting) *	NA	NA	NA	NA S	S	NA	NA	NA	S	S	S	NA						
e. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
Faculty Initials	AR	AR	AR	FB	FB	FB	FB	FB	FB	BL	BS	CB						

***When completing the 4T Care Map CDG refer to the Care Map Rubric**

Comments:

Week 5 (2a,b)- Great use of clinical judgement skills to determine patient needs, plan care for patients, and implement appropriate nursing interventions. (2d) This competency was changed to a "S" because as you care for patients you are prioritizing the plan of care that needs to be implemented for your patient. You are using the knowledge you have gained and your clinical judgment skills based on your patient's status and needs. FB

Week 6 (2a,b,d)- Great job with correlation of patient condition, pathophysiology of disease process, and monitoring of any possible complications. Based off assessments you were able to implement the plan of care for several patients. FB

Week 9-2(d) Excellent job utilizing your clinical judgment skills to formulate a prioritized plan of care for your patient on 4P this week. Please refer to the Care Map Rubric for my feedback. 2(e) Great job in debriefing discussing cultural considerations and racial inequalities that may need to be assessed while caring for patients. BL

Week 10- 2a- You did an excellent job correlating the relationships among your patient's disease process, past medical history, symptoms, and present condition utilizing your clinical judgment skills, and then using that information to complete your pathophysiology CDG this week satisfactorily. 2e- You were also respectful of the patient's family members as they went through this difficult situation. 2e- During debriefing, you did a nice job identifying social determinants of health, relevant to your patient, that could have an impact on her health, well-being, and quality of life. BS

Week 11(2b,c,d) Great job in debriefing discussing how you monitored your patient for potential risks and anticipated early complications. You also did a great job discussing changes in patient status you noticed, as well as how you responded and would take appropriate action. CB
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	NA	S	S	NA	NA	NA	S	S	S	S						
a. Critique communication barriers among team members. (Interpreting)																		
b. Participate in QI, core measures, monitoring standards and documentation. (Interpreting & Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
c. Discuss strategies to achieve fiscal responsibility in clinical practice. (Responding)	NA	NA	NA S	S	S	NA	NA	NA	S	S	S	S						
d. Clarify roles & accountability of team members related to delegation. (Noticing)	NA	NA	NA	S	S	NA	NA	NA	S	S	S	S						
e. Determine the priority patient from assigned patient population. (Interpreting) (Patient Mgmt.)	NA	NA	NA	S	S	NA	NA	NA	S NA	NA	NA	NA						
Faculty Initials	AR	AR	AR	FB	FB	FB	FB	FB	FB	BL	BS	CB						

Comments:

Week 2 (3b)- Satisfactory during Quality Assurance/Core Measures observation and with discussion via CDG posting. Keep up the good work. AR

Week 4 (3b,c)- Satisfactory during Quality Scavenger Hunt clinical, with documentation, and with CDG posting. Great job. AR

Week 5 (3d)- Great discussion, noticing accountability of delegation and the clarification of roles. (3e) You also did a great job interpreting facts to determine the need for prioritization of assigned patient during this clinical rotation. FB

Week 6 (3e) Great job with prioritizing the delivery of care to your assigned patients during the clinical experiences this week. FB

Week 9-3(c) Excellent job demonstrating fiscal responsibility in clinical practice this week, as well as discussing additional strategies to achieve this in debriefing. BL

Week 10- 3a- You did a nice job critiquing communication barriers observed while in the clinical setting. BS

Week 11(3b) Great job in debriefing participating in the discussion of quality indicators and core measures. CB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

4. 4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5,7)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	S	NA	S U	S	S	NA	NA	NA	S	S	S	S						
Faculty Initials	AR	AR	AR	FB	FB	FB	FB	FB	FB	BL	BS	CB						

Objective 4a: Provide a comment for the highlighted competency each week. If no clinical experiences, put "NA" for that week.

Comments:

Week 2: Although I did not witness any examples of legal issues, a few do come to mind when thinking about it. For example, not gaining consent for a procedure, like digestive health, could be a legal issue. I noticed today that once the doctors got behind in their cases, they seemed to be in a rush and did not spend as much time explaining the procedure to their patients. If gaining consent were to be forgotten, they could potentially do the procedure without it and risk something happening to the patient during it. **This is a great example and fitting for the Digestive Health setting. AR**

Week 4- While with the patient advocate, I had the opportunity to listen to a phone call that could have easily turned into a malpractice legal issue. The lady reported a bad experience in the ER with one of the doctors. She stated that they had a hard time getting an IV in her and when she asked for a break the doctor told her "Fine, then just leave." And discharged her. She then went to Fisher Titus, and they discovered that her liver was bleeding, and she needed emergency surgery. If anything were to of happened to this patient after the doctor discharged her from the ER saying she was fit to go home, the patient could have suffered major consequences. I believe the doctor was jeopardizing the patient's wellbeing by being frustrated with her, which could have easily jeopardized his license in return. **Thank you for sharing. This is a definite problem and as you said, could have resulted in legal implications (not to mention the ethical issues involved in treating a patient that way). AR**

Week 4 (4c)- You have received an unsatisfactory evaluation for this competency due to not completing the Quality Scavenger Hunt survey by the due date and time. Be sure to follow the instructions on pgs 1-2 of this tool regarding how to correctly address the "U" for your Week 5 tool. **AR**

Week 5- One ethical issue that could occur on 4 North is when delegation of a task occurs. If a PCT performs a task that they are not allowed to do, it could easily turn into a legal issue. The PCT could do it wrong and cause serious harm to the patients or themselves. It is important that the PCT and nurses know what is in their scope of practices and stay within the realm. **Great example of a legal/ethical issue. It is the responsibility of the RN when they are delegating to know the capability of the**

*End-of- Program Student Learning Outcomes

person they are asking to do a task. The person that is being delegated to should also speak up if the task is not something they have been properly trained on and within their scope of practice. FB

Unsatisfactory- I received an unsatisfactory last week for not turning in my scavenger hunt survey. I correct it this week by making sure I did all assigned tasks and turned them in in an appropriate manner. FB

Week 6- One ethical issue that could occur on 3 tower is a nurse staying to do their job even if they are sick. Many nurses are culprits for this unfortunately, but I do feel like this could become an issue. There are many patients in the hospital who are immunosuppressed and could become seriously ill if a nurse gave them care while sick. It is hard for nurses sometimes to call off when sick because they might not have the sick time left. But I have witnessed nurses coming to work sick and not wearing a mask around patients. This could be detrimental to a patient's health and could become a legal issue if they got someone sick and serious issues occurred. **This is definitely an issue, if a nurse comes to work knowing they are sick they should be wearing a mask to protect their patients and coworkers.** FB

Week 9- One ethical issue I noticed was during debriefing today. A patient was denied an MRI because they were too large to fit into the machine. I believe this is a very big ethical issue. The MRI could be a life-or-death situation for some people and if they can't fit they are expected to wait to be transferred somewhere else or try an alternative method of imaging and just hope it catches what the MRI would've caught. I do not believe this is safe and I feel as though Firelands should invest in something more inclusive for all people. **This is definitely a potential ethical issue that could result in negative outcomes for specific patients. This patient should probably be considered for transfer to another facility that can best care for them in all aspects. The inability to perform all necessary diagnostic testing limits the patient's overall treatment plan.** BL

Week 10- One ethical issue I noticed this week was when we had to give blood to my patient. The doctor ordered right around lunch time for my patient to have a unit of blood given. The nurse did all of her assessments and got her initial vitals. She then started the blood and immediately left the room to go get lunch. She then came back a half hour later to turn the blood off. This is an ethical issue because the patient could have had a transfusion reaction and there would have been no one to turn the pump off and it could have severely injured her. **Great point, Tylie. Administering blood is a big responsibility and should not be taken lightly. It would be a terrible feeling to know that you did not follow the appropriate steps and the patient had a reaction.** BS

Week 11- One ethical issue I noticed today was that my patient did not want to go to a skilled nursing facility, but her son wanted her to go. The patient was completely alert and oriented and was set on going home after discharge with home health. Her son did not trust her to be home alone for long periods of time. The son talked to the doctor in private about coercing the patient into going to a SNF. I find this to be a major ethical issue because it could result in an unsafe situation for the patient, but the patient has the right to make their own decisions on their healthcare. **Tylie, this is a great example. Your patient is alert and oriented and should be able to make the decision of where to get the care that she needs. If there was an issue that the patient was unsafe to be home alone, I am sure that PT/OT would have recommended a SNF for the patient.** CB

Week 12- One ethical issue I noticed today was that medications for certain diseases can be very pricey. There were some medications I came across today that were over 88,000\$. This can be a huge burden on patients and can be very overwhelming. There are also some patients that do not have insurance or still can't afford it even with insurance. I find this to be an issue because some of these patients may die without these treatments. If they cannot afford them, they have no choice but to suffer through the disease process. I think this is very unsafe and needs to be looked into more.

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

5. Construct methods for self-reflection and critiquing healthcare systems, processes, practices and regulations on a weekly basis. (7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
a. Reflect on your overall performance in the clinical area for the week. (Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
b. Demonstrate initiative in seeking new learning opportunities. (Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
c. Describe factors that create a culture of safety (error reporting, communication, & standardization, etc. (Interpreting)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
d. Maintain the principles of asepsis and standard/infection control precautions (Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
e. Practice use of standardized EBP tools that support safety and quality. (Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
f. Utilize faculty feedback to improve clinical performance. (Responding & Reflecting)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
Faculty Initials	AR	AR	AR	FB	FB	FB	FB	FB	FB	BL	BS	CB						

Comments:

Week 2 (5c)- Satisfactory discussion via CDG posting related to your Quality Assurance/Core Measures observation. Keep up the good work. AR

Week 5 (5a)- Reported on by assigned RN during clinical rotation 2/4/2025– Excellent in all areas. Student goals: “I want to be able to administer medications with minimal help from the nurse.” Additional Preceptor comments: “Tylie really did amazing today. She provided her patient with a lot of education today. She’s been very helpful all day and takes any opportunity to learn. She’ll be a great RN! KS/FB

Week 6 (5a)- Reported on by assigned RN during clinical rotation 2/11/2025– Excellent in all areas. Student goals: “Better time management skills so I am not rushing my assessments to complete them on time.” Additional Preceptor comments: “Keep doing what you’re doing because you’re doing really well!” HM/FB Reported on by assigned RN during clinical rotation 2/12/2025- Excellent in all areas. Student goals: “Seek more learning opportunities.” Additional preceptor comments: “Take as many opportunities as you can.” HM/FB

*End-of- Program Student Learning Outcomes

Week 9-5(b) Tylie, you do an excellent job working independently and taking initiative in completing nursing interventions for your patient. You are very organized and well prepared. You took excellent care of your patient this week. 5(c,e) Great job this week during debriefing in which you were actively involved in the discussion of these competencies. BL

Week 10- 5a- Great performance in the clinical setting this week. Documentation was accurate and done promptly, as was medication administration. Nice work! BS

Week 11(5b,d) Tylie, you do an excellent job working independently and as a team, while taking initiative in completing nursing interventions for your patient. Great job using standard precautions while caring for your patients this week! Great job discussing factors that create a culture of safety for your patient in your cdg. CB
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	NA	S	S	S	NA	NA	NA	S	S	S	S

***When completing 4T Hand-Off Report see 4T Hand- Off Competency Rubric**

Comments:

Week 2 (6f)- Satisfactory CDG posting related to your Quality Assurance/Core Measures observation, while following the CDG grading rubric. Good job. AR

Week 4 (6c,f)- Satisfactory CDG postings related to your Quality Scavenger Hunt and Patient Advocate/Discharge Planner clinical experiences. Keep up the great work. AR

Week 5 (6d) This competency was completed satisfactorily according to the hand-off report rubric, score of 30/30 points. RN comments: "I was very impressed with Tylie. Any hospital would be lucky to have her." KS/FB (6c) Great job with communication and collaboration skills demonstrated as you worked with assigned RN and other healthcare disciplines. FB

*End-of- Program Student Learning Outcomes

Week 6 (6f)- Satisfactory CDG posting related to your patient management clinical experiences this week! Keep up the great work! FB

Week 9-6(e) Excellent job with all your documentation this week in clinical. Your documentation was done in a timely manner and accurate. 6(f) Satisfactory completion of your CDG this week. Keep up the great work! BL

Week 10- 6a/b/c- As you no doubt realized this week, teamwork, communication, and collaboration are very important while doing our jobs as nurses. Each patient situation is unique and often requires to use many of our skills at once. Nice job discussing your observations (and participation) about establishing collaborative partnerships and communication with patients, families, fellow students, and other health care team members in an attempt to achieve optimal patient outcomes. BS

Week 11(6d,e,f): Excellent job with all your documentation this week in clinical. Your documentation was done in a timely manner and accurate. Satisfactory completion of your CDG this week. Keep up the great work! CB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery.
(1,3,4,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid- term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
a. Value the need for continuous improvement in clinical practice based on evidence. (Responding)																		
b. Accountable for investigating evidence-based practice to improve patient outcomes. (Responding)	S	NA	NA S	S	S	NA	NA	NA	S	S	S	S						
c. Comply with the FRMCSN "Student Code of Conduct Policy." (Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S	NA	S	S	S	NA	NA	NA	S	S	S	S						
Faculty Initials	AR	AR	AR	FB	FB	FB	FB	FB	FB	BL	BS	CB						

Comments:

Week 6 (7a) Great job recognizing areas of improvement related to evidence-based practice and within your clinical practice. FB

Midterm- Great job during the first half of the semester. Keep it up as you complete the course! FB

Week 10- 7d- A great ACE attitude was observed continuously on the clinical floor. BS

Week 11(7a,b,d)- You researched and summarized an interesting EBP article in your CDG titled "Amiodarone is associated with increased short-term mortality in elderly atrial fibrillation patients with preserved ejection fraction." Great job displaying a great attitude, commitment to provide optimal care, and enthusiasm for the caring of individuals at a very vulnerable and often difficult time. CB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric

Student Name: Tylie Dauch				Course Objective: Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment.			
Date or Clinical Week: 03/11/2025-03/12/2025							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Excellent job identifying all abnormal assessment findings, lab findings and diagnostic tests for your patient. You also did a great job identifying all risk factors relevant to your patient as well.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Great job listing nursing priorities for your patient, as well as identifying the top priority problem. You correctly highlighted all of the related/relevant data from the noticing boxes that support the top priority nursing problem. You could have considered also highlighting the patient’s EKG and findings. The PVCs could be related to the patient’s current oxygenation status. Nice job identifying potential complications for your top nursing priority problem. Rather than heart failure, you could have considered cardiac arrest as a potential higher risk complication as well.
	5. State the goal for the top nursing priority.	Complete			Not complete	3	
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Excellent job with your nursing interventions! You listed all relevant nursing interventions, prioritized them appropriately and provided detailed rationales.
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

*End-of- Program Student Learning Outcomes

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	Excellent job!
	15. Evaluation includes one of the following statements: - Continue plan of care - Modify plan of care - Terminate plan of care	Complete			Not complete	3	
Reference An in-text citation and reference are required. The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both. The care map will be graded “unsatisfactory” if both in-text citation and reference are not included.							
Total Possible Points= 45 points 45-35 points = Satisfactory 34-23 points = Needs Improvement* < 23 points = Unsatisfactory* *Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines. ***Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *** Faculty/Teaching Assistant Comments: Satisfactory completion of your Nursing Care Map. Please review all my feedback above. Excellent job! BL						Total Points: 45/45	
						Faculty/Teaching Assistant Initials: BL	

Care Map Evaluation Tool**
AMSN
2025

Date	Nursing Priority Problem	Evaluation & Instructor Initials	Remediation & Instructor Initials
03/11/2025- 03/12/2025	Impaired Gas Exchange	Satisfactory BL	NA

**

AMSN students are required to submit one satisfactory care map (CDG) during the 3-week 4T clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback. **Students that are not satisfactory after these 2 attempts will be required to meet with course faculty for remediation.**

Comments:

Pathophysiology Grading Rubric
Firelands Regional Medical Center School of Nursing
Advanced Medical Surgical Nursing
2025

Student Name: T. Dauch

Clinical Date: 3/18-3/19/2025

1. Provide a description of your patient including current diagnosis and past medical history. (4 points total) - Current Diagnosis (2) - Past Medical History (2)	Total Points: 4 Comments: Great job providing a description of your patient's current diagnosis and past medical history.
2. Describe the pathophysiology of your patient's current diagnosis. (6 points total) Pathophysiology-what is happening in the body at the cellular level (6)	Total Points: 6 Comments: Great job providing a detailed description of the pathophysiology of your patient's current diagnosis (septic shock) and how it leads to further problems in other body systems.
3. Correlate the patient's current diagnosis with presenting signs and symptoms. (6 points total) - All patient's signs and symptoms included (2) - Explanation of what signs and symptoms are typically expected with this current diagnosis (Do these differ from what your patient presented with?) (2) - Explanation of how all patient's signs and symptoms correlate with current diagnosis. (2)	Total Points: 6 Comments: You did an excellent job correlating the patient's current diagnosis with all her presenting signs and symptoms.
4. Correlate the patient's current diagnosis with all related labs. (12 points total) - All patient's relevant lab result values included (3) - Rationale provided for each lab test performed (3) - Explanation provided of what a normal lab result should be in the absence of current diagnosis (3) - Explanation of how each of the patient's relevant lab result values correlate with current diagnosis (3)	Total Points: 12 Comments: Great job! All relevant labs included with rationales provided. You also did a great job identifying the normal ranges for each lab, as well as explaining how the result correlates with the patient's current diagnosis.
5. Correlate the patient's current diagnosis with all related diagnostic tests. (12 points total) - All patient's relevant diagnostic tests and results included (3) - Rationale provided for each diagnostic test performed (3) - Explanation provided of what a normal diagnostic test result would be in the absence of current diagnosis (3) - Explanation of how each of the patient's relevant diagnostic test results correlate with current diagnosis (3)	Total Points: 12 Comments: All patient's relevant diagnostic tests and results included with rationales provided for each. Nice job describing what a normal diagnostic test result would be for each, and how the results correlate with the patient's current diagnosis.
6. Correlate the patient's current diagnosis with all related	Total Points: 9

medications. (9 points total) • All related medications included (3) • Rationale provided for the use of each medication (3) • Explanation of how each of the patient's relevant medications correlate with current diagnosis (3)	Comments: You did a nice job correlating the patient's current diagnosis with all of her prescribed medications.
7. Correlate the patient's current diagnosis with all pertinent past medical history. (4 points total) • All pertinent past medical history included (2) • Explanation of how patient's pertinent past medical history correlates with current diagnosis (2)	Total Points: 4 Comments: Great job discussing your patient's past medical history and correlating it to her current diagnosis.
8. Prioritize nursing interventions related to current diagnosis. (6 points total) • All nursing interventions provided for patient prioritized and rationales provided (6)	Total Points: 6 Comments: Great job providing a thorough list of prioritized nursing interventions along with rationales.
9. Discuss the role of interdisciplinary team members in the care of the patient. (6 points total) • Identifies all interdisciplinary team members currently involved in the care of the patient (2) • Explains how each current interdisciplinary team member contributes to positive patient outcomes (2) • Identifies additional interdisciplinary team members (not involved currently) that should be included in the care of the patient to ensure positive patient outcomes (2)	Total Points: 9 Comments: Thorough discussion of the interdisciplinary team members and the roles they play in the care of your patient. Additional team members discussed as well.
Total possible points = 65 51-65 = Satisfactory < 51 = Unsatisfactory Course Objective: 2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)* Clinical Competency: 2(a.) Correlate relationships among disease process, patient's history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding) *End-of-Program Student Learning Outcomes	Total Points: 65/65 Comments: Satisfactory. Excellent work, Tylie! BS

Firelands Regional Medical Center School of Nursing

AMSN –4 Tower - Hand-Off Report Competency Rubric

Faculty: Brittany Lombardi, MSN, RN, CNE; Brian Seitz, MSN, RN, CNE; Chandra Barnes, MSN, RN

Student Name: Tylie Dauch Date: 3/19/2024

Must complete satisfactorily during 4 Tower debriefing.

23-30 points = Satisfactory

< 23 points = Unsatisfactory

CRITERIA

	Meets Expectations 5	Needs Improvement 3	Does Not Meet Expectations 0	POINTS
Introduction Safety (1,2)*	Introduction provided (includes patient name, room number etc.). Provides socioeconomic factors (e.g. social support), allergies, and alerts (falls, isolation, etc.)	Provides introduction and communicates most of the safety concerns of the patient.	Does not provide introduction and/or does not address the safety concerns of the patient.	5
Situation (3)*	Presents chief complaint and current status (including code status, recent changes, and response to treatment).	Presents most information but missing pertinent data e.g. current status, changes etc.	Information is incomplete and/or disorganized. Not possible to understand and obtain an adequate and clear picture of the patient's situation.	5
Background (4)*	Provides detailed and organized background information regarding presenting diagnosis and signs/symptoms; includes pertinent past medical and surgical history.	Provides background information but information disorganized and difficult to understand. Missing some information related to past medical and surgical history.	Background information is incomplete and/or inaccurate. Missing pertinent information related to past medical and surgical history	3
Assessment Laboratory/Diagnostic Testing (5)*	Provides clear, concise, pertinent assessment information e.g. vital signs, cardiac assessment, respiratory assessment. Communicates pertinent laboratory and diagnostic information and relates findings to current diagnosis/presentation.	Provides assessment information but material is disorganized. Communicates laboratory and diagnostic findings but information is not specific. Example: states hemoglobin is low without stating specific number or why it is abnormal.	Assessment information is incomplete and needs improvement. Does not communicate findings in a way that can be understood.	5
Actions (4,5)*	Explains interventions performed or required. Provides rationale.	Explains interventions performed/required but does not provide rationales.	Does not include all interventions performed and does not provide rationales.	5
Communication Prioritization (1,4,5,6)*	Communicates and prioritizes any outstanding patient issues and the plan of care. Example: patient having change in mental status - would explain CT ordered. Includes patient teaching provided.	Communicates all information but is slightly disorganized in presentation.	Overall communication of hand-off report needs improvement. Incomplete report and/or disorganized in presentation	5
			TOTAL POINTS	28/30

Faculty Comments: _____Great job giving hand-off report on your patient. Remember when giving report to include past medical and surgical history.
You were Satisfactory, scoring 28/30 per the 4T hand-off rubric._____

Faculty Signature: Brian Seitz, MSN, RN, CNE_____Date: 3/19/2025_____

Comments:

Week 8: Satisfactory completion of Dysrhythmia simulation, see rubric below. FB

Lasater Clinical Judgment Rubric Scoring Sheet

*End-of- Program Student Learning Outcomes

STUDENT NAME(S): Tylie Dauch, Anthony Drivas, Hannah Baum, Caitlin Gresh

GROUP #: 1

SCENARIO: Week 8 Simulation

OBSERVATION DATE/TIME(S): February 24, 2025 0800-1000

CLINICAL JUDGMENT COMPONENTS	OBSERVATION NOTES				
NOTICING: (1,2)* - Focused Observation: E A D B - Recognizing Deviations from Expected Patterns: E A D B - Information Seeking: E A D B	Identifies patient. Begins V and assessment. BP 96/52. Patient CO being tired, nauseous. Noticed low SpO2. Notices rhythm change. Patient CO being lightheaded, dizzy. Notices another rhythm change. Patient identified. VS and assessment begun. Monitor applied. Notices increased HR. Notices low SpO2. Patient CP feeling woozy. CO room spinning. Notices patient is unresponsive (with v-tach- check the pulse! (Code blue.)				
INTERPRETING: (1,2)* - Prioritizing Data: E A D B - Making Sense of Data: E A D B	Interprets BP as being below normal. Interprets the need to apply heart monitor. Identifies sinus bradycardia. Interprets need to increase O2 to 3L. Rhythm interpreted as 2nd degree AV block, Mobitz type II. Notices rhythm change to third degree heart block. Heart rhythm identified as A-fib. Applies O2 in response to low SpO2. Identifies need to increase O2. Patient interpreted to be in cardiac arrest. Interprets correct doses of medications.				
RESPONDING: (1,2,3,5,6,7)* - Calm, Confident Manner: E A D B - Clear Communication: E A D B - Well-Planned Intervention/ Flexibility: E A D B - Being Skillful: E A D B	Offers emesis bag. Monitor, oxygen applied. Call to HCP to update, request instruction. Suggests atropine to increase HR. Order received and not read back. O2 increased to 3L. Atropine prepared, administered, with explanation to patient. Call to HCP to report rhythm change to 2nd degree type II heart block, requests temporary pacing (transcutaneous). Order received for IV fluids- not read back. Another dose of atropine, IV fluid administered. Call to HCP to report A-fib and request orders. HCP asks for suggestions, diltiazem suggested. HCP asks for dose and it is provided. Order received and read back. O2 applied. Diltiazem bolus and drip prepared correctly and administered. O2 increased to 3L. Diltiazem explained to patient. Call to HCP to report updated symptoms. Diltiazem dc'd. Alternate medication discussed (amiodarone). IV fluid suggested- bolus ordered and read back. Bolus prepared and initiated. CPR initiated, 1 mg epinephrine. Patches applied.				

*End-of- Program Student Learning Outcomes

REFLECTING: (1,2,5)* • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B	Discussed first scenario, identification and treatments for symptomatic bradycardias. Reviewed chart to look for causes of heart block (metoprolol, patient history). Talked about holding medication to see if sinus rhythm will be restored. Discussed the importance of reading orders back to HCP. Alternate drugs for complete heart block discussed (epi, dopamine). Discussed pacing options for symptomatic bradycardias (transcutaneous, transvenous, permanent). Talked about the importance of adjusting electrical current to obtain capture, need for pain medication). Excellent teamwork! Discussed recognition of A-fib and associated symptoms. Talked about goals of diltiazem therapy. Discussed the need for anticoagulation for someone with a-fib. Explanation and demonstration of synchronized cardioversion; discussed differences between cardioversion and defibrillation, the need for sedating medications prior to delivering shock. Great teamwork and communication. Discussed the importance of immediate CPR and defibrillation with pulseless v-tach. Discussed alternative to epi (amiodarone bolus and drip). Roles of the code team discussed (recorder, CPR, airway, meds, lead). Potential causes of code blue discussed (review of chart reveals low K+). Defibrillation discussed, starting low and increasing joules with subsequent shocks. Excellent job!
SUMMARY COMMENTS: * = Course Objectives Satisfactory completion of the simulation scenario is a score of “Developing” or higher in all areas of the rubric. E= Exemplary A= Accomplished D= Developing B= Beginning Scenario Objectives: • Differentiate the clinical characteristics and ECG patterns of common dysrhythmias. (1,2)* • Choose nursing interventions for patients who are experiencing dysrhythmias. (1)* • Differentiate between defibrillation and cardioversion. (1,2,6)* • Communicates collaboratively to other	Lasater Clinical Judgement Rubric Comments: You are Satisfactory for this scenario. BS Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs Recognizes most obvious patterns and deviations in data and uses these to continually assess Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs Generally, focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data In most situations, interprets the patient’s data patterns and compares with known patterns to develop an intervention plan and accompanying rationale; the exceptions are rare or in complicated cases where it is appropriate to seek the guidance of a specialist or a more experienced nurse Generally displays leadership and confidence and is able to control or calm most situations; may show stress in particularly difficult or complex situations Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport Develops interventions on the basis of the most obvious data; monitors progress but is unable to make adjustments as indicated by the patient’s response Displays proficiency in the use of most nursing skills; could

healthcare providers utilizing SBAR. (3,5,6,7)* You are satisfactory for this scenario. Nice work! BS	improve speed or accuracy Evaluates and analyzes personal clinical performance with minimal prompting primarily about major events or decisions; key decision points are identified, and alternatives are considered Demonstrates a desire to improve nursing performance; reflects on and evaluates experiences; identifies strengths and weaknesses; could be more systematic in evaluating weaknesses

***Course Objectives**

Comments:

Meditech Documentation: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders/SBAR: Satisfactory completion of physician's order lab per the SBAR skills competency rubric: phone call to physician with SBAR report, receiving and reading back multiple physician orders, and hand-off report given to the next student in rotation. Discussion of the treatment, medications, and plan of care for a patient experiencing NSTEMI and STEMI. BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! CB

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag-valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Start: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/CB/BS

Blood Admin/IV Pumps: Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing Change/Ports/Blood Draw: Satisfactory central line dressing change participation providing proper technique guidelines, maintenance of central line ports, and line flushing. You were satisfactory in accessing and de-accessing an infusaport device, demonstrated proper technique on how to draw blood from a CVAD, and properly labeled a blood tube per hospital policy. Great job! CB

Head to Toe Assessment: Satisfactory completion of the Head to Toe Assessment. Great job! DW/BS

*End-of- Program Student Learning Outcomes

ECG/Telemetry Placements/Hand-off report/CT: Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium tutorial; satisfactory completion of handoff report activity. BS

EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2025

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
