Homework Assignment Questions and Answers

Please read the chapter and answer the following questions:

1. **Malpractice and negligence are examples of what kind of law?**

Malpractice and negligence are examples of civil law because they are considered tort's and a tort is a violation of civil law.

2. **What charges may be brought against a nurse for confining a client against his or her wishes (outside of an emergency situation)?**

If a nurse is confining a patient against their wishes the nurse could be charged with false imprisonment.

3. **Which ethical theory espouses that what is right and good is what is best for the individual making the decision? Which quality and safety in nursing education competency may be, at least in part, consistent with ethical egoism?**

The theory that espouses that what is right and good is what's best for the individual making the decision is called ethical egoism. One quality and safety education competency would be providing patient centered care. Providing patient centered care helps build trust and promotes shows the patient that you will respect their wishes and values.

4. **Name the three major elements of informed consent.**

The three major elements of informed consent are knowledge, competency, and free will. The patient should have full understanding of the treatment and be able to consent without feeling pressured as well as be in the right state of mind to make decisions.
