**Week 1 (Technology Lab):** During this lab you were able to satisfactorily navigate:

- Edvance360 Learning Management System.
- Skyscape Resource System.
- Assessment Technologies Institute (ATI) / Shadow Health.
- Guided tour of library and computer lab. HS

**Week 2 (Hand Hygiene; Vital Signs; PPE):** During lab this week you were able to satisfactorily demonstrate:

- Appropriate hand hygiene utilizing hand sanitizer and soap/water.
- Accurate verbalization of procedure for donning & doffing PPE.

Appropriate level of skill during guided practice with measurement of radial and brachial pulses, along with manual blood pressure. Vital signs skills will be observed 1:1 with faculty during Week 3. Keep up the good work! HS

### **Week 3 (Vital Signs):**

Great job in lab this week! You successfully completed the vital signs check-off during 1:1 observation, including oral temperature, radial pulse, respiratory rate, pulse oximetry, and blood pressure measurement. During the blood pressure assessment, you accurately obtained two consecutive readings on the Vital Sim manikin. The first measurement was set at 118/64, and you recorded it as 118/68—within the acceptable range for accuracy. The second measurement was set at 130/70, and you interpreted it as 130/72, also well within the desired range.

In addition, you demonstrated strong knowledge by verbally discussing axillary and rectal temperature measurement, as well as orthostatic vital sign assessment. One prompt was needed for inserting the rectal thermometer probe into the anus towards the umbilicus. You communicated clearly and appropriately with the “patient.” Overall, your documentation was well done for the vital signs; however, you omitted the pulse strength and written note that was supposed to be linked. Be sure to take some time to review this documentation next time you are in lab. Keep up all your hard work! BL
