Firelands Regional Medical Center School of Nursing
Nursing Foundations 2025
Skills Lab Competency Tool

Student Name: Kathleen Sibert

Comments:

Week 1 (Technology Lab): During this lab you were able to satisfactorily navigate:

- Edvance360 Learning Management System.
- Skyscape Resource System.
- Assessment Technologies Institute (ATI) / Shadow Health.
- Guided tour of library and computer lab. HS

Week 2 (Hand Hygiene; Vital Signs; PPE): During lab this week you were able to satisfactorily demonstrate:

- Appropriate hand hygiene utilizing hand sanitizer and soap/water.
- Accurate verbalization of procedure for donning & doffing PPE.

Appropriate level of skill during guided practice with measurement of radial and brachial pulses, along with manual blood pressure. Vital signs skills will be observed 1:1 with faculty during Week 3. Keep up the good work! HS

Week 3 (Vital Signs):

Great job in lab this week! You successfully completed the vital signs check-off during 1:1 observation, including oral temperature, radial pulse, respiratory rate, pulse oximetry, and blood pressure measurement. During the blood pressure assessment, you accurately obtained two consecutive readings on the Vital Sim manikin. The first measurement was set at 128/64, and you recorded it as 122/64—within the acceptable range for accuracy. The second measurement was set at 110/60, and you interpreted it perfectly at 110/60. In addition, you demonstrated strong knowledge by verbally discussing axillary and rectal temperature measurement, as well as orthostatic vital sign assessment. You required one prompt for remembering to insert the rectal thermometer probe 1-1.5 inches. Your documentation was thorough and 100% accurate. Keep up all your hard work! BL

Week 4 (Assessment):

Satisfactory with head to toe assessment guided practice, hand-off report activity, Lexicomp/Intranet navigation activity, and the assessment/safety activity utilizing your clinical judgment skills. Great job! You will be observed 1:1 for Head to Toe Assessment competency during Week 5. AR

Week 5 (Assessment; Mobility):

Excellent job in lab this week! You demonstrated a systematic and thorough approach to the basic head to toe assessment. Your performance was organized, comprehensive, and overall very well done. One prompt was required for asking about usual bowel habits and the patient's last bowel movement. Your communication style was professional, clear, and approachable, creating a positive and informative interaction. Great job! BL

Feedback on documentation this week: With this being the first time that you fully documented these interventions, there are some areas for improvement. You did a good job, overall, with your Meditech documentation. You documented on the interventions listed below; however, some areas were inaccurate and omitted. Please review each area of documentation within the next two weeks so you can examine areas that were omitted. I want you to feel comfortable and confident with Meditech documentation.

- **Pain-** Documentation complete and accurate.
- **Vital signs-** Documentation complete and accurate.

- **Safety-** Documentation complete and accurate.
- **Physical reassessment-** Psychosocial- make sure to document whether each system is or is not within defined parameters.
Cardiovascular- omitted documentation for right radial pulse. Neurological- omitted sensation of heaviness for right upper extremity.
Dysphagia screen- no documentation. Gastrointestinal- omitted all charting for bowel pattern. BL

Mobility Lab 9/18/2025: Satisfactory completion of mobility lab through demonstration of the following: Logrolling/turning a patient, lifting a patient in bed, repositioning from lying to sitting, repositioning from sitting to standing, stand/pivot transfer from a bed to a chair, ambulating with a walker, ambulating with crutches, ambulating with a cane, use of a gait belt, and safe use of a wheelchair. Proper body mechanics were utilized to promote safety for the healthcare worker and the patient. Great job with active participation throughout the duration of the lab. BL

Week 6 (Personal Hygiene Skills):

Week 7 (NG Skills: Insertion, Irrigation, and Removal; Feedings):

Week 8 (Foley Skills: Insertion, Removal; Sterile Gloves; I&O, Documentation Lab):

Week 9 (Wound Care: Dry Sterile, Damp to Dry Packed, Stoma Skills):

Week 10 (Safety; Infection Control; Prioritization; Weight; Pressure Ulcer Prevention; Soft Restraints; Doppler BP):

Week 11 (Medication Lab):

7/8/2025
