

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Maternal Child Nursing – 2025**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester: Fall

Date of Completion:

Faculty: Kelly Ammanniti, MSN, RN, CHSE; Monica Dunbar DNP, RN;
Rachel Haynes MSN, RN, Brian Seitz, MSN, RN, CNE

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

- Care Maps
- Patient/Family Education
- Preparedness for Clinical/Clinical Performance
- Online Clinical Discussion Groups
- Administration of Medications
- Nursing Skills Completion of Clinical Performance Tool
- Written Reports of Clinical Experiences
- Documentation
- Conferences with the Faculty
- Lasater Clinical Judgment Rubric
- vSim
- Simulation Scenarios

Absence: (Refer to Attendance Policy)

7/11/25 KA

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Date	Care Map Top Nursing Priority	Evaluation & Instructor Initials	Remediation & Instructor Initials	Remediation & Instructor Initials
9/9/2025	Impaired Skin Integrity	NI/MD		

Objective																		
1. Describe the principles of growth and development and knowledge of pathophysiology as a basis for the provision of safe, quality nursing care to children and the childbearing family across the health-illness continuum. (1,2,3,4,7)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/22	8/29	9/5	9/12	9/19	9/26	10/3		10/10	10/17	10/24	10/31	11/7	11/14	11/21	11/28		
Competencies:		NA	NA	S	S													
a. Provide care utilizing techniques and diversions appropriate to the patient's level of development.		NA	NA	S	S													
b. Provide care using developmentally appropriate communication.		NA	NA	S	S													
c. Provide care utilizing systematic and developmentally appropriate assessment techniques.		NA	NA	S	S													
d. Describe safety measures for various stages of development. (i.e. monitoring fall risks, restraints, and DVT assessment)		NA	NA	S	S													
e. Identify stage of growth and development (Erikson's Stages)(List Below and explain reason for choice)*		NA	NA	S	S													
Clinical Location Age of patient		NA	NA	FRMC OB 30 yrs.	FRMC ER 88 yrs.													
	MD	MD	MD	MD														

**Evaluate these competencies for the offsite clinicals: ER: All, H&V: 1A, B, E BG Club: 1B, E Flu: All

Comments:

1.e. Intimacy versus Isolation; I chose this because this is a stage experience in young adulthood, usually from ages 20-40 years. Successfully navigating this stage is shown by developing strong bonds with partner or family, which was shown during this clinical experience by how many friends and family came to visit her after she gave birth.
Excellent! MD

***End-of-Program Student Learning Outcomes**

Week 4 – 1a, c, d – You did a wonderful job providing holistic care to the mom and baby you were assigned to this week. You did a great job assessing your assigned mother utilizing developmentally appropriate assessment skills and reporting any abnormal findings. You were able to identify safety measures used to keep newborns stay safe on the OB unit and completed mother newborn verification process whenever returning the newborn to the parents from the nursery. KA

Objective																		
1. Describe the principles of growth and development and knowledge of pathophysiology as a basis for the provision of safe, quality nursing care to children and the childbearing family across the health-illness continuum. (1,2,3,4,7)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/22	8/29	9/5	9/12	9/19	9/26	10/3		10/10	10/17	10/24	10/31	11/7	11/14	11/21	11/28		
Competencies:		NA	NA	S	NA													
f. Describe psychological changes in response to the expectant mother's pregnancy. Maternal		NA	NA	S	NA													
g. Discuss prenatal influences on the pregnancy. Maternal		NA	NA	S	NA													
h. Identify the stage and progression of a woman in labor. Maternal		NA	NA	S	NA													
i. Discuss family bonding and phases of the puerperium. Maternal		NA	NA	S	NA													
j. Identify various resources available for children and the childbearing family.		NA	NA	S	NA													
k. Value patient's perspective, diversity, age and cultural factors that influence their behaviors.		NA	NA	S	S													
l. Respect the centrality of the patient/family as core members of the health team.		NA	NA	S	S													
	MD	MD	MD	MD														

**Evaluate these competencies for the offsite clinicals: ER: 1K, L H&V: 1J, K BG Club: 1K Flu: 1 K, L

Comments:

Week 4 – 1k and l – You recognized the uniqueness of the family you were caring for and ensured the opinions and questions were responded to with thoughtfulness and their perspective was validated. You respected the family and their right to make decisions for their infant and ensured they had the necessary information to do so. KA

Objective																		
2. Integrate principles of decision-making in utilizing evidenced-based practice in the nursing process in providing care for the childbearing family and children encompassing cultural sensitivity and diversity. (1,2,3,4,5)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/22	8/29	9/5	9/12	9/19	9/26	10/3		10/10	10/17	10/24	10/31	11/7	11/14	11/21	11/28		
a. Engage in discussions of evidenced-based nursing practice.		NA	NA	S	S													
b. Perform nursing measures safely using Standard precautions.		NA	NA	S	S													
c. Perform nursing care in an organized manner recognizing the need for assistance.		NA	NA	S	S													
d. Practice/observe safe medication administration.		NA	NA	S	S													
e. Calculate pediatric and adult drug dosages correctly and determine appropriateness of the dose.		NA	NA	S	S													
f. Utilize information obtained from patients/families as a basis for decision-making.		NA	NA	S	S													
g. Identify factors associated with Social Determinants of Health (SDOH) &/or cultural elements that have the potential to influence patient care.** (Noticing, Interpreting, Responding, Reflecting) (List Below)*		NA	NA	S	S													
	MD	MD	MD	MD														

**Evaluate these competencies for the offsite clinicals: ER: All H&V: 2B, C, G BG Club: 2G Flu: 2B, C, D, F, G

Comments:

2.g. Nausea and vomiting throughout pregnancy as well as low Hgb and Hct may suggest nutrition issues, which could show a limited assess in food, finical resources, or perhaps have a poor health literacy. **This is a good connection for all of these! What resources could you provide the patient? MD**

***End-of-Program Student Learning Outcomes**

2g. I could tell at times he had a slight difficult time hearing the nurse when she asked questions. This could possibly lead to him maybe having difficulty understanding discharge instructions or follow up care. This could lead to him having poor health literacy.

Week 4 – 2b, c, d, e –You utilized appropriate precautions on the newborn who had not had their first bath. You did a wonderful job providing a baby bath to the newborn and monitored their temperature before and after bath as well as helped prevent hypothermia by utilizing appropriate warming techniques. You provided the congenital heart screening to the newborn ensuring the pulse oximeter was placed on the corrects limbs and monitored for 1 minute on each site. You did a nice job following the rights of medication administration and appropriately documenting the medication administration in the MAR this week on clinical. You had the opportunity to administer PO medications to the postpartum mother while on clinical this week. KA

Objective																		
3. Summarize the legal, moral and ethical issues related to care of children and the childbearing family. (2,6,7)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/22	8/29	9/5	9/12	9/19	9/26	10/3		10/10	10/17	10/24	10/31	11/7	11/14	11/21	11/28		
a. Act with integrity, consistency, and respect for differing views.		NA	NA	S	S													
b. Respect the privacy of patient health and medical information as required by federal HIPAA regulations.		NA	NA	S	S													
c. Follow the standards outlined in the FRMCSN policy, "Student Code of Conduct"		NA	NA	S	S													
d. Critique examples of legal or ethical issues observed in the clinical setting. (List Below)*		NA	NA	S	S													
	MD	MD	MD	MD														

**Evaluate these competencies for the offsite clinicals: ER: All H&V: All BG Club: All Flu: All

Comments:

3.d. One ethical issue I observed was the potential for judgment in caring for a postpartum patient who tested positive for THC and nicotine use. While staff were all very professional and I did not see any judgement from any of them, I could see how easily stigma could influence the quality of care that patient may receive. **This is absolutely true. How would you address this if you found this was occurring? MD**

3.d. While at this clinical I observed the patient refuse any pain medication for this pain. Older adults may downplay symptoms, but there could still be hidden injuries or health risks. Nurses have to respect the patient's autonomy while also preventing the patient from being harmed, which can be both a legal and ethical issue.

Week 4 – 3a, b, c – You were professional and considerate with all the care you provided. You made sure to keep patient privacy and follow HIPPA regulations through the day. You also maintained all the standards in the FRMCSN code of conduct while on the OB unit. KA

Objective																		
4. Construct nursing care plans and clinical reports that demonstrate mastery of clinical judgment skills through holistic, age-appropriate nursing care of the childbearing family and children. (1,2,6)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/22	8/29	9/5	9/12	9/19	9/26	10/3		10/10	10/17	10/24	10/31	11/7	11/14	11/21	11/28		
a. Develop and implement a priority care map and/or plan of care utilizing the nursing process and clinical judgment. (Noticing, Interpreting, Responding, Reflecting)		NA	NA	S	S													
b. Document assessment findings, interventions, and outcomes accurately on appropriate forms. (Including risk assessment and monitoring of wound care)		NA	NA	S	NA													
c. Summarize witnessed examples of patient/family advocacy.		NA	NA	S	S													
d. Provide patient centered and developmentally appropriate teaching.		NA	NA	S	S													
e. Analyze the involved pathophysiology of the patient's disease process. (noticing, interpreting, responding)		NA	NA	S	S													
	MD	MD	MD	MD														

**Evaluate these competencies for the offsite clinicals: ER: 4A, C, E H&V: 4B, D BG Club: 4D Flu: 4B, D

Comments:

4.d. Although the patient planned to bottle feed, I provided education on breast engorgement management, including avoiding breast stimulation. This can help her manage some of her discomfort during her postpartum period. Great! MD

4d. Since this patient refused pain medication, he might not feel pain as intensely, so one teaching point is to give him education of other signs of injury like dizziness, confusion, or difficulty walking. This could help him better recognize signs complications.

Week 4 -4b, d - You did a nice job documenting the postpartum assessment in the EMR for the first time. You asked appropriate questions to ensure you were able to document the assessments accurately. You kept up on your charting and ensured documentation was completed in real time. You provided patient education that was focused on the parents' concerns and answered all of the questions appropriately. KA

***End-of-Program Student Learning Outcomes**

Objective																		
4. Construct nursing care plans and clinical reports that demonstrate mastery of clinical judgment skills through holistic, age-appropriate nursing care of the childbearing family and children. (1,2,6)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/22	8/29	9/5	9/12	9/19	9/26	10/3		10/10	10/17	10/24	10/31	11/7	11/14	11/21	11/28		
f. Correlate the diagnostic tests with the patient's disease process. (noticing, interpreting, responding)		NA	NA	S	S													
g. Correlate the pharmacotherapy in relation to the patient's disease process. (noticing, interpreting, responding)		NA	NA	S	S													
h. Correlate the medical treatment in relation to the patient's disease process. (noticing, interpreting, responding)		NA	NA	S	S													
i. Correlate the nutritional needs/diet in relation to the patient's disease process. (noticing, interpreting, responding)		NA	NA	S	NA													
j. Correlate the patient's growth and developmental level in relation to the patient's disease process. (noticing, interpreting, responding)		NA	NA	S	NA													
	MD	MD	MD	MD														

**Evaluate these competencies for the offsite clinicals: ER: 4F, G, H H&V: N/A BG Club: N/A Flu: N/A

Comments:

Week 4 – 4f, g, h, I, j – You utilized information from your patient's chart as well as from your assessment to create a care map that correlated the patient's diagnostic tests, medications, medical treatments, nutritional needs, and nursing interventions to their disease process. You were knowledgeable on clinical and were able to discuss how these aspects interrelated and if you did not have an answer you looked the information up to assist you with making the connections. KA

Objective																		
5. Collaborating professionally with members of the health care team, childbearing and child-rearing families, faculty, and peers through written, verbal and nonverbal methods, and by conferencing, networking, and posting through computer technology. (1,3,5,6,7,8)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/22	8/29	9/5	9/12	9/19	9/26	10/3		10/10	10/17	10/24	10/31	11/7	11/14	11/21	11/28		
a. Demonstrate interest and enthusiasm in clinical activities.		NA	NA	S	S													
b. Evaluate own participation in clinical activities.		NA	NA	S	S													
c. Communicate professionally and collaboratively with members of the healthcare team.		NA	NA	S	S													
d. Document assessment findings, interventions, and outcomes accurately in the electronic health record.		NA	NA	S	NA													
e. Demonstrate skill in accessing and navigating information in the electronic health record. (Responding)		NA	NA	S	NA													
f. Clearly communicate care provided and needed at each transition in care using hand off communication techniques. (I-SBAR-R)		NA	NA	S	S													
g. Consistently and appropriately post comments in clinical discussion groups.		NA	NA	S NA	S													
	MD	MD	MD	MD														

**Evaluate these competencies for the offsite clinicals: ER: 5A, B, C, F, G H&V: 5A, B, C BG Club: 5A, B Flu: 5A, B, C

Comments:

Week 4 – 5a, c, d, e, f, – You did a great job showing interest and enthusiasm while in OB. You sought out new learning experiences while on clinical. You communicated and collaborated with the OB staff professionally and worked together to ensure the patients received the appropriate care. You did a nice job navigating the EMR and gathering information on your patient to ensure you could provide appropriate care throughout your clinical day. You provided hand off report to the appropriate nurse when leaving clinical at the end of shift. KA

***End-of-Program Student Learning Outcomes**

Week 4 Objective 5G: This week you completed a care map and not a CDG. This competency is an NA for this week. MD

Objective																		
6. Critique own strengths and areas for improvement modifying behaviors accordingly to achieve personal and professional goals. (7,8)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/22	8/29	9/5	9/12	9/19	9/26	10/3		10/10	10/17	10/24	10/31	11/7	11/14	11/21	11/28		
a. Recognize areas for improvement and goals to meet these needs. (List Below)*		NA	NA	S	S													
b. Accept responsibility for decisions and actions.		NA	NA	S	S													
c. Demonstrate evidence of growth and self-confidence.		NA	NA	S	S													
d. Demonstrate evidence of research in being prepared for clinical.		NA	NA	S	S													
e. Exhibits professional behavior i.e. appearance, responsibility, integrity, and respect.		NA	NA	S	S													
f. Describe initiatives in seeking out new learning experiences.		NA	NA	S	S													
g. Demonstrate ability to organize time effectively.		NA	NA	S	S													
h. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions.		NA	NA	S	S													
i. Demonstrates growth in clinical judgment.		NA	NA	S	S													
	MD	MD	MD	MD														

**Evaluate these competencies for the offsite clinicals: ER: All H&V: All BG Club: All Flu: All

Comments:

6.a. One area for improvement is that I am still getting comfortable explaining health concepts clearly and in patient friendly language. I will practice explaining one health topic a week in simple terms to practice explaining these concepts better to patients so that they can have a better understanding. This is a great plan! Let me know if you need any assistance! MD

***End-of-Program Student Learning Outcomes**

6. a. One area of improvement would be in my SBAR delivery for handoffs and reporting. I will practice delivery SBAR once a week and consider what went well and what could be more precise next time.

Week 4 – 6c, d, e, f, g, h, I – Your thought process and time management skills have grown from previous semesters. You came to clinical ready and prepared to learn. You were enthusiastic and willing to learn whatever your faculty and staff was able to teach you. You were organized and timely with your care and documentation and delivered all your care with and ACE attitude. Terrific job! KA

***End-of-Program Student Learning Outcomes**

Student Name: Nevaeh Walton		Course Objective: 4: Construct nursing care plans and clinical reports that demonstrate mastery of clinical judgment skills through holistic, age-appropriate nursing care of the childbearing family and children. (1,2,6)*					
Date or Clinical Week: 9/9/2025, Impaired Skin Integrity							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	All criteria met. MD
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	All criteria met. MD
	5. State the goal for the top nursing priority.	Complete			Not complete	3	
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	All criteria met. MD
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
--	--	----------------	-----------------	----------------	-------------	---	--

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	All criteria met. MD
	15. Evaluation includes one of the following statements: <ul style="list-style-type: none"> Continue plan of care Modify plan of care Terminate plan of care 	Complete			Not complete	3	

Reference

An in-text citation and reference are required.

The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both. Reference provided, in-text citation missing. This care map is a NI. MD

The care map will be graded “unsatisfactory” if both in-text citation and reference are not included.

Total Possible Points= 45 points
45-35 points = Satisfactory
34-23 points = Needs Improvement*
< 23 points = Unsatisfactory*

***Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

*****Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *****

Faculty/Teaching Assistant Comments:

Unfortunately, due to the missing in-text citation, your care map is automatically graded NI. Please add this to the care map so it can be regraded. MD

Total Points: 45/45 Needs Improvement due to missing in-text citation. MD

* Course Objectives

Comments:

The student has satisfactorily completed the assigned vSim and met the established objectives by obtaining at least 80% on the scenario (including SBAR), and post-simulation quiz by the due date and time.

vSim Objectives

9/22/2025 vSim Maternity Case 1

1. Performs focused antepartum assessment of patient with severe preeclampsia. (1, 2, 4)*
2. Recognizes signs and symptoms of severe preeclampsia (hypertensive disorders). (1, 2)*
3. Communicates severe preeclampsia to the interprofessional team. (1, 2, 3, 5)*
4. Administers prescribed antihypertensive medication (magnesium sulfate). (1, 2, 3, 5)*

5. Utilize therapeutic communication and interpersonal skills in the interactions with patients, families, and members of the health team. (1, 3, 5, 6)*
* Course Objectives

10/6/2025 vSim Maternity Case 4

1. Select physical assessment priorities based on individual patient needs. (1, 2)*
2. Recognizes signs and symptoms of umbilical cord prolapse. (1, 2, 5)*
3. Performs emergent nursing management strategies for umbilical cord prolapse. (1, 2, 3, 4, 5)*
4. Utilize therapeutic communication and interpersonal skills in the interactions with patients, families, and members of the health team. (1, 3, 5, 6)*
* Course Objectives

11/3/2025 vSim Pediatric Case 3

1. Identify and describe patient history, physical assessment findings, and diagnostic information related to dehydration.
2. Prioritize and implement evidence-based nursing interventions that are culturally and situation appropriate for the pediatric patient.
3. Implement clinical orders, patient safety measures, and provide education using therapeutic and confidential communication for the pediatric patient and family members.
*Course Objectives

11/18/2025 vSim Pediatric Case 1

1. Select physical assessment priorities based on individual patient needs. (1, 2)*
2. Recognize signs and symptoms of seizure activity. (1, 2)*
3. Demonstrate appropriate nursing interventions for a patient experiencing a seizure. (1, 2, 3, 4, 5, 6)*
4. Demonstrate therapeutic communication skills when interacting with children and their families. (1, 3, 5, 6)*
5. Discuss how social determinants of health can influence the management of a chronic illness. (2, 3)*
* Course Objectives

11/21/2025 vSim Pediatric Case 4

1. Select physical assessment priorities based on individual patient needs. (1, 2)*
2. Identifies developmentally appropriate and culturally competent nursing interventions based on patient care needs. (1, 2, 4)*
3. Prioritizes patient safety measures and appropriate nursing interventions for a patient with an acute sickle cell pain crisis. (1, 2, 3, 4, 5)*
4. Utilize therapeutic communication and interpersonal skills in the interactions with patients, families, and members of the health team. (1, 3, 5, 6)*
* Course Objectives

Lasater Clinical Judgment Rubric Scoring Sheet: SCENARIO: Empathy Simulation

STUDENT NAME:

OBSERVATION DATE/TIME:

8/26/2025

REFLECTING: (6)*

- Evaluation/Self-Analysis: E A D B
- Commitment to Improvement: E A D B

You reflected on many aspects of your time wearing the empathy belly. Your responses were thoughtful and reflective on how you felt and you compared your experience to a real pregnancy.

Great job.

I enjoyed seeing your pregnancy photo!

SUMMARY COMMENTS:

E = exemplary, A = accomplished, D = developing, B = Beginning
Based off of Lasater's Clinical Judgment Rubric

Simulation Objectives:

1. Identify common possible discomforts of the pregnancy and how to empathize with the pregnant patient and childrearing family. (1, 2, 6)*
2. Describe how patient-centered care is dependent on past medical history, cultural history, and social history. (1, 2, 3, 4)*
3. Describe your psychological and social response to the simulation and how it impacts the care provided to the pregnant patient and child-bearing family. (1, 5, 6)*

Developing to accomplished is required for satisfactory completion of this simulation.

Comments

You are satisfactory for this simulation.

*Course Objectives

EVALUATION OF CLINICAL PERFORMANCE TOOL
Maternal Child Nursing – 2025
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
