

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2025

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student: Kayla Jameson

Final Grade: Satisfactory/Unsatisfactory

Semester: Fall

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy Rockwell, MSN, RN;
Chandra Barnes, MSN, RN; Nick Simonovich, MSN, RN
Heather Schwerer, MSN, RN; Brittany Lombardi, MSN, RN, CNE

Faculty eSignature:

Teaching Assistant: Stacia Atkins, BSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. **An unsatisfactory or needs improvement as a final evaluation in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. Patterns of performance over the course of the semester will be utilized to determine the final competency evaluations. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.**

METHODS OF EVALUATION:

Skills Lab Checklists	Faculty Feedback
Care Map Grading Rubric	Documentation
Administration of Medications	Clinical Reflection
Simulation Scenarios	
Skills Demonstration	
Evaluation of Clinical Performance Tool	
Clinical Discussion Group Grading Rubric	
Lasater Clinical Judgment Rubric	

ABSENCE (Refer to Attendance Policy)

---------------	----

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

Objective																
1. Describe how diverse cultural, ethnic, and social backgrounds function as sources of patient, family, and community values. (2,4,6)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Identify spiritual needs of patient (Noticing).										S	S	NA				
b. Identify cultural factors that influence healthcare (Noticing).										S	S	NA				
c. Coordinate care based on respect for patient's preferences, values, and needs (Responding).							S	NA	S	S	S	NA				
d. Use Maslow's Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).							S	NA	S	S	S	NA				
Faculty/TA Initials		NS					SA	CB	CB	BL	BL					
Clinical Location: Patient age**		Meditech Orientation					3 Tower 82 Years Old	NA	N/A	3 Tower 75 Years Old	3 Tower 80- and 90- Years Old	NA				

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

****Document your clinical location and patient age in the designated box above.**

Comments:

Week 7(1c,d): Great job showing respect for your patient's needs, being compassionate and kind while delivering care. You also demonstrated the appropriate use of Maslow's hierarchy of needs during the head to toe assessment performed on your patient during this clinical experience, being able to recognize physiological needs of your patient when performing head to toe assessment. SA

Week 9-1(c,d) You demonstrated excellent care this week by thoughtfully respecting your patient's individual preferences, values, and needs. Additionally, your CDG effectively identified the patient's priority nursing problem, supported by thorough analysis of assessment findings. BL

Objective																
1. Summarize knowledge of anatomy, physiology, chemistry, nutrition, psychosocial and developmental principles in performance of basic physical assessment through use of clinical judgment skills. (3,4, 5)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Perform head to toe assessment utilizing techniques of inspection, palpation and auscultation (Responding).							S	NA	S	S	NA					
b. Use correct technique for vital sign measurement (Responding).							S	NA	S	S	NA					
c. Conduct a fall/safety assessment and institute appropriate precautions (Responding).										S	S	NA				
d. Conduct a skin risk assessment and institute appropriate precautions (Responding).										S	S	NA				
e. Collect the nutritional data of assigned patient (Noticing).										S	S	NA				
f. Demonstrates appropriate insertion, maintenance, and/or removal of NG tube (Responding).										NA	NA	NA				
g. Describe the findings and the rationale for diagnostic studies with the nursing implications for assigned patient (Interpreting).										S	S	NA				
Faculty/TA Initials		NS					SA	CB	CB	BL	BL					

Week 10-1(d) Excellent work this week applying your critical thinking and clinical judgment skills to determine your patient's priority problem. BL

* End-of-Program Student Learning Outcomes
Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Comments:

Week 7(2a,b): Kayla, you performed a systematic head to toe assessment and retrieved all vital signs within a timely manner. Great job! SA

Week 9-2(a,b) Great job this week using correct techniques for measuring vital signs and completing a systematic head to toe assessment on your assigned patient. Your assessment was thorough and completed in a timely manner. 2(c) Great job completing a fall and safety assessment this week and implementing appropriate precautions for your patient. In your CDG, you did well identifying the risk factors that contributed to the patient's fall risk score and pointing out safety concerns in the patient's room. Your efforts to prevent falls show good attention to patient safety. Keep up the great work! BL

Week 10-2(e) Great job discussing your patient's nutritional status in your CDG this week. You demonstrated a thorough assessment by considering factors such as BMI, appetite, oral intake, etc. BL

Objective																
2. Select communication techniques and appropriate boundaries with patients, families, and health care team members. (1,2,3,4,6,7)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:							S	NA	S	S	NA					
a. Receive report at beginning of shift from assigned nurse (Noticing).																
b. Hand off (report) pertinent, current information to the next provider of care (Responding).										NA S	S	NA				
c. Use appropriate medical terminology in verbal and written communication (Responding).							S	NA	S	S	NA					
d. Report promptly and accurately any change in the status of the patient (Responding).							S	NA	S	S	NA					
e. Communicate effectively with patients and families (Responding).							NI S	NA	S	S	NA					
f. Participate as an accountable health care team member in the provision of patient centered care (Responding).							S	NA	S	S	NA					
Faculty/TA Initials		NS					SA	CB	CB	BL	BL					

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Comments: I entered “NI” for area “e” because while I performed my head-to-toe assessment on the patient confidently, I was so focused on that, I forgot to communicate about anything else with the patient. I’m sure it wasn’t the best time to be woken up for an assessment and I didn’t engage more with the patient; find out likes, dislikes, things about the patient, to lighten the process. I also did not see family in the room at this time. I could have done/said more to the patient than medical related tasks.

Week 7(3a,c,d,e): Great job receiving hand off report on your patient. Good job using medical terminology while communicating with your patient, reporting all findings, and communicating effectively with your staff RN. I changed your “NI” to a “S” as you did great communicating with your client! SA

Week 9-3(e,f) Great job this week communicating with your patient, her family, and the rest of the health care team. Your kindness and professionalism were noticed— the patient’s daughter specifically complimented your bedside manner and care. Keep up this compassionate, patient-centered approach; it truly makes a difference in the care experience. BL

Week 10-3(a,b,f) Great job taking report on your patient using the assigned report sheet. Utilizing a structured report sheet, rather than a blank piece of paper, supports accuracy and promotes patient safety. You also communicated pertinent assessment information effectively to the bedside nurse throughout your clinical experience. Keep up the great work! BL

Objective																
3. Exemplify advanced searches in accessing electronic health care information and documenting patient care. (1,4,8)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:									S							
a. Document vital signs and head to toe assessment according to policy (Responding).							S	NA	S	S	NA					
b. Document the patient response to nursing care provided (Responding).							S	NA	S	S	NA					
c. Access medical information of assigned patient in Electronic Medical Record (Responding).*		S					S	NA	S	S	NA					
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding).*		S							S	S	NA					
e. Provide basic patient education with accurate electronic documentation (Responding).									S	S	NA					
f. Consistently and appropriately post comments for clinical discussion groups on Edvance360 website (Reflection).							S	NA	S	S	NA					
*Week 2 –Meditech Orientation		NS					SA	CB	CB	BL	BL					
Faculty/TA Initials																

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Comments:

Week 2(4c,d): Satisfactory for listening attentively and actively participating in the Meditech orientation clinical. You showed beginning competence in the ability to access a patient's EHR, document care in an intervention, and locate patient data. You were able to access Lexicomp to locate patient education materials. Additionally, nursing policies and procedures were located on the health system intranet. Great job! NS/CB/BL

Week 7(4a,b,c,f): Satisfactory job with documentation of the head to toe assessment and vital signs of your patient. Make sure to note any areas you may have forgot to assess, so that assessments and documentation are thorough and accurate. You did a good job utilizing Meditech for documentation and to look up patient information. You completed your first cdg, meeting all requirements per the grading rubric, excellent job! SA

Week 9-4(a,b) Excellent job this week with your documentation. Your documentation was accurate, and completed in a timely manner. 4(c) You did an excellent job thoroughly reviewing your patient's electronic health record (EHR) to gather information that enhanced your understanding of the patient's overall plan of care. 4(f) Satisfactory completion of your CDG this week. Great job! BL

Week 10-4(f) Satisfactory completion of your CDG this week. Excellent job! BL

Objective																
4. Exemplify psychomotor skills and nursing care safely using evidence-based practice. (3,4,5,7,8)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Demonstrate correct body mechanics and practices safety measures during the provision of patient care (Responding).							S	NA	S	S	NA					
b. Apply the principles of asepsis and standard/infection control precautions (Responding).							S	NA	S	S	NA					
c. Demonstrates appropriate skill with foley catheter insertion, maintenance, and removal (Responding).										NA	NA	NA				
d. Manage basic patient care situations with evidence of preparation and beginning dexterity (Responding).							S	NA	S	S	NA					
e. Organize time providing patient care efficiently and safely (Responding).							S	NA	S	S	NA					
f. Manages hygiene needs of assigned patient (Responding).										S	S	NA				
g. Demonstrate appropriate skill with wound care (Responding).											NA	NA				
h. Document the location of fire pull stations and fire extinguishers. ** (Interpreting).							S	NA	S							
Faculty/TA Initials		NS					SA	CB	CB	BL	BL					

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

****You must document the location of the pull station and extinguisher here for your first clinical experience.**

Comments:

Week 7: There were many different locations for a pull station and fire extinguisher. There was a pull station by the exam room/conference room, by room 3027, by room 3021, across from room 3020, and by room 3010. There were fire extinguishers located by room 3027, between rooms 3018 and 3019, and by room 3010. **Thank you! SA**

Week 7(5a,b): Great job utilizing correct body mechanics and raising the bed while performing an assessment. You did a great job ensuring that you foamed in/out when entering/exiting patients' rooms. **SA**

Week 9-5(a,f) Great job managing your patient's hygiene needs this week, as well as utilizing proper body mechanics when providing patient care. **BL**

Week 10-5(a,d) Great job with your CDG this week in which you assessed and identified your patient's mobility level (AM-PAC Basic Mobility Assessment). You correctly identified factors that led to the score, as well as any barriers to achieving the John Hopkins Mobility Goal. Nice job! **BL**

Objective																
5. Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies: a. Utilize clinical judgment skills to develop a patient-centered plan of care (Responding).										S	S	NA				
Faculty/TA Initials		NS							CB	BL	BL					

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Comments:

Week 9-6(a) You are beginning to demonstrate the ability to use clinical judgment in developing a patient-centered plan of care. At this point, you are starting to connect assessment findings, patient needs, and nursing interventions, which shows growth in your reasoning skills. Continue practicing how to prioritize problems and link interventions directly to patient outcomes—this will strengthen your ability to respond effectively and make thoughtful, patient-centered decisions. BL

Objective																
6. Convert basic pharmacology principles into safe medication administration. (3,5,6,7)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Identify the action, rationale, dosage, side effects and the nursing implications of medications (Interpreting).																
b. Recognize patient drug allergies (Interpreting).																
c. Practice the rights of medication administration and safety checks prior to medication administration (Responding).																
d. Administer oral, intra-muscular, subcutaneous, and intradermal medications using correct techniques (Responding).																
e. Review the patient record for time of last dose before giving PRN medication (Interpreting).																
f. Assess the patient response to PRN medications (Responding).																
g. Demonstrate medication administration documentation appropriately using BMV (Responding).												NA				
*Week 11: BMV																
Faculty/TA Initials		NS							CB							

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Comments:

Objective																
2. Exemplify professional conduct through self-reflection, responsibility for learning, and goal setting. (1,5,7)*																
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Mid-Term	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14 Make-Up	Final
Competencies:																
a. Reflect on areas of strength** (Reflecting)							S	NA	S	S	S	NA				
b. Reflect on areas for self-growth with a plan for improvement. ** (Reflecting)							S	NA	S	S	S	NA				
c. Incorporate instructor feedback for improvement and growth (Reflecting).							S	NA	S	S	S	NA				
d. Follow the standards outlined in the FRMCSN policy, "Student Code of Conduct" (Responding).							S	NA	S	S	S	NA				
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions (Responding).							S	NA	S	S	S	NA				
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect (Responding).							S	NA	S	S	S	NA				
g. Comply with patient's Bill of Rights (Responding).							S	NA	S	S	S	NA				
h. Respect the privacy of patient health and medical information as required by federal HIPAA regulations (Responding).							S	NA	S	S	S	NA				
i. Actively engage in self-reflection. (Reflecting)							S	NA	S	S	S	NA				
Faculty/TA Initials		NS					SA	CB	CB	BL	BL					

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

**** Strength/weakness reflection (a,b): Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, "I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP's with at least three members of my family this week." Please ensure that you answer this section in-depth with your plan of action. Each week must be different.**

Comments:

Week 7: I am having a hard time having self confidence when it comes to working in a hospital setting. It's not something I am used to, or have done for many years, let alone incorporating nursing practice into that. I am having trouble with being too hard on myself and my capabilities. For example, I get upset when I don't catch on to things the first time. I feel like people think I am a failure. I can improve on this by steadily taking things day by day and working on one thing at a time to make sure I have

each task mastered. I will also work on this by listening to my instructors when they tell me everything will be okay and that I am doing well because their opinion matters, and if I wasn't doing well or needed improvement, I know they would tell me that, too. This will help me gain improvement on my listening skills as well. **The beginning of every semester will feel overwhelming. You are learning something outside of your comfort zone and that is ok to be hesitant! It is not a race to know it all at once, absorb each day's opportunities! You had a great first day and try to stay positive! You can do this! SA**

Week 7(8d,f,h): Excellent job following the student code of conduct, exhibiting professionalism while in the clinical setting, and ensuring that patient privacy was respected. SA

Week 9(a,b): I find that an area of strength I have is patient care- toileting, bathing, feeding, bed changes, comfort measures. I have experience performing these tasks; however, I didn't realize how much of a positive impact I had with my care until today. I received some wonderful feedback from the patient's family and found out good things were relayed to my clinical instructor about my care. The patient was calm, cooperative and thankful for my care, as well. I performed patient care in a timely manner, according to patient's needs/requests, and respecting any wishes they had, maintaining a safe and calming environment. **Excellent job, Kayla! Your attention to comfort, safety, and respect clearly made a difference. It's wonderful that both the patient and her family noticed and appreciated your thoughtful approach and communication skills. Keep building on this strength, as your compassion and professionalism are key to providing high-quality, patient-centered care. BL**

During my head-to-toe assessment, I seem to be forgetting to palpate the brachial artery and dorsalis pedis artery. This is something that is very new to me, and something that just hasn't seemed to stick. I will make improvements on this by making a note of it before I begin my head-to-toe assessment, so I don't forget. I will also practice a head-to-toe assessment on at least 3 family members, making sure to incorporate these palpations. This way, I can gain practice and gather a better routine on how I conduct my assessment so I don't forget anything. **Great job taking time to reflect on an area of improvement for future clinical experiences. Self-awareness is an important part of learning. It's completely normal to miss small things early on. As you gain more experience and spend more time at the bedside, you'll continue to grow in both confidence and competence. Keep up all your hard work! BL**

Week 10(a,b): This week I was able to assist one of my fellow student nurses with patient care. The assistance needed consisted of hygiene cares such as bathing and linen change. The area of strength this week that I would like to recognize isn't necessarily how well I did with patient care, but how well I demonstrated teamwork and effectiveness with another student nurse. The teamwork I provided helped keep the patient safe and comfortable during these cares. The teamwork I provided also helped my peer to get things done in a more timely and smooth manner. I have always said that to be a good leader is to be a good follower, so when I was asked to help with these tasks, I was excited to do so! **Great job! Teamwork is very important in nursing to ensure positive patient outcomes. Collaborating effectively with your peers, and other healthcare team members helps provide safe, efficient, and patient-centered care. BL** An area for self-growth this week would be that I feel like I need more practice in Meditech. When I document, only minor adjustments need to be made, however, some things I forget that I can or cannot document on, and I keep documenting or not documenting on those things. Very minor things, but I am noticing the repetition of being made aware of these things. I am very old school and not very tech savvy, so as a goal to overcome this, I am going to create a paper outlining the categories specifically on physical assessment and make notes of the things that I should and should not be documenting on. I understand that every semester as I advance, this will probably change, but I will focus on this semester specifically for now. **Great job recognizing an area for self-growth. Overall, your documentation has been very well done and accurate, with only minor corrections needed. Remember to utilize your Meditech Guidelines whenever you are unsure about documentation—they are an excellent resource to help ensure accuracy. Additionally, don't forget to reference the handout listing all interventions you can and cannot document. Using these tools consistently will help strengthen your documentation skills and build confidence. On the topic of confidence, this is an area I would like to see you continue to develop. It is completely normal at the foundational level to feel anxious or unsure at times; however, I encourage you to have more confidence in yourself, your knowledge, and your skill set. You perform very well in the clinical environment, and it's important to acknowledge and give yourself credit for your accomplishments. BL**

Date	Care Map Top Nursing Priority	Evaluation & Instructor Initials	Remediation & Instructor Initials
		*	*

Note: Students are required to submit one satisfactory care map by 11/17/2025 at 0800. If the care map is not evaluated as satisfactory upon initial submission, the student may revise the care map based on instructor feedback/remediation and resubmit one time by 11/24/2025 at 0800 to receive a satisfactory evaluation. ***See Attached Nursing Care Map Grading Rubric**

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric

Student Name:		Course Objective:					
Date or Clinical Week:							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)		
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)		
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)		
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	5. State the goal for the top nursing priority.	Complete			Not complete		
	6. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	7. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)		
	8. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)		
Responding	9. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete		
	10. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete		
	11. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete		
	12. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete		

Criteria		3	2	1	0	Points Earned	Comments
	13. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete		
Reflecting	14. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete		
	15. Evaluation includes one of the following statements: - Continue plan of care - Modify plan of care - Terminate plan of care	Complete			Not complete		

Reference

An in-text citation and reference are required.

The care map will be graded “needs improvement” if missing either the in-text citation or reference, but not both.

The care map will be graded “unsatisfactory” if both in-text citation and reference are not included.

Total Possible Points= 45 points

45-35 points = Satisfactory

34-23 points = Needs Improvement*

< 23 points = Unsatisfactory*

***Total points adding up to less than or equal to 34 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.**

*****Students that are not satisfactory after 2 attempts will be required to meet with course faculty for remediation. *****

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2025

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date: _____
