

## Medical Surgical Nursing 2026

### Erie County Senior Center Activity Proposal

**Directions:** Please answer the following questions, typing your response in the space provided. This document is due in the dropbox labeled ECSC Activity Proposal by **Friday 1/16/2026** by 1500.

1. Please list names of each person in the clinical group.

Kelly Carty, Brock Fortman, Sean Wilkins

2. What activity will you be leading while at the Erie County Senior Center? Give a **detailed outline** of your activity, and explain how you plan on running your activity?

The activity that we will be leading is a flower arranging workshop. We will provide a variety of flowers and let the seniors build their own flower bouquet.

3. How will this activity benefit the clients?

This activity will benefit the clients by letting them use their creative minds while boosting their mood. It will help with their motor skills by picking up the flowers and tying the bouquet together.

4. Describe the anticipated level of participation, any declines in functional ability and what you plan to adapt to these needs.

This is a mild level of activity. If they are not able to grasp the flowers, we can help them build their bouquet. They can tell us what flowers they want and we will help put it together.
