| Flushing of each port documented q8h | Y / N | Y / N | Y / N | Y / N |
| Cathflo given if sluggish or no return documented per port | Y / N / Not eligible | Y / N / Not eligible | Y / N / Not eligible | Y / N / Not eligible |
| Meditech: Insertion date, gauge, and care documented on each IV assessment (today) | Y / N | Y / N | Y / N | Y / N |
| Theraworx Application | Y / N | Y / N unknown | Y / N | Y / N |

Today= since midnight

Please feel free to add any additional comments that may be helpful to Sydney or Sandie:

4006 did not have a theraworx intervention in their chart. 4007's DVT prophylaxis was discharged and last given at 7:15am. 4007 also had a heart cath which is why they were ineligible for every two hour turns or the head of bed being elevated. This room also had a note in the documentation that said they were not on active sedation, which is why the sedation vacation says ineligible.
