**\*Course Objectives**

Firelands Regional Medical Center School of Nursing  
Nursing Foundations 2018  
Skills Lab Competency Tool

**Comments:**

**Week 2 (Hand Hygiene; Vital Signs; PPE):** During lab this week you were able to satisfactorily demonstrate:

- Proper application and removal of personal protective equipment.
- Appropriate hand hygiene utilizing hand sanitizer and soap/water with two attempts.
- Beginner skills level during guided practice with measurement of temperature (oral, axillary, & rectal), radial & brachial pulses, respirations, and oxygen saturation. Vital signs skills will be observed 1:1 with faculty during Week 3. AR

**Week 3 (Vital Signs):** You were satisfactory during your 1:1 observation related to vital signs. Great job!

You obtained an oral temperature, radial pulse, respiratory rate, pulse oximetry reading, and 2 accurate BP measurements (BP #1- reading 110/62-setting 110/60; BP #2- reading 154/90- setting 156/88). You were able to accurately verbalize the procedure for axillary and rectal

temperatures, and orthostatic vital signs. The apical pulse will be assessed with the Basic Head to Toe Assessment. Meditech documentation related to vital signs was completed. You did a great job with role playing and communication, and was able to remind yourself to identify the patient and ask for baseline or normal BP value. One prompt was given as a reminder to raise the side rail and lower the bed prior to leaving the bedside. Keep up the great work! AR

**Week 4 (Assessment):**

**Week 5 (Assessment; Mobility):**

**Week 6 (Personal Hygiene Skills):**

**Week 7 (NG Skills: Insertion, Irrigation, and Removal; Mobility; Sterile Gloves):**

**Week 8 (Foley Skills: Insertion, Removal; Sterile Gloves):**

**Week 9 (Dressing Change: Dry Sterile, Sterile Wet to Dry; Documentation Lab):**

**Week 10 (Safety; Infection Control; Prioritization; Tube Feeding; Weight; Pressure Ulcer Prevention; Soft Restraints; Doppler BP; Care Plan Development):**

**Week 11 (Case Scenarios; Care Plan Development; Medication Lab; Open Lab):**

**Week 12 (Respiratory Equipment; SAM II; Care Plan Development):**
