Comments:

Week 5 (Meditech/BMV):

Week 6 (Wound Care):

Week 9 (NG Insertion/Care): You satisfactorily completed performance of NG insertion, irrigation, and removal. You also successfully completed the assigned documentation in Meditech. Keep up the good work! CP

Week 10 (Foley Insertion/Care): You did a great job in the lab this week and were satisfactory with the following skills: Application of Sterile Gloves, Foley Catheter Insertion (female), and Foley Catheter Removal. No prompts were needed during insertion! During removal one prompt was needed as a reminder to hold onto the catheter at the labia while allowing the balloon to drain via gravity. You maintained the sterile field throughout the Foley insertion, did not contaminate the catheter or your gloves at any point, had very good communication, and were thorough

throughout the observation. Great job! You correctly verbalized the differences in catheter insertion for a male patient. You independently completed Meditech documentation for Urinary Catheter Management and I & O. Keep up the great work!!! AR

Week 11 (Comprehensive Assessment): You satisfactorily performed VS and Physical assessment skills. Overall, you did a nice job performing your skills. Remember to begin with the head when performing you head to toe physical assessment. Overall, nice work! CP

Week 12 (Documentation):

Week 14 (Simulation):
