Initials	KA	MB	CP	EW	AR	NS

Comments:

Week 5 (Meditech/BMV):

Week 6 (Wound Care):

Week 9 (NG Insertion/Care): Nice job performing NG insertion, irrigation, and removal. You showed confidence in skill performance and included all necessary components of each skill without prompting. You also successfully completed the assigned documentation in Meditech. Keep up the good work! CP

Week 10 (Foley Insertion/Care): You did a great job in the lab this week and were satisfactory with the following skills: Application of Sterile Gloves, Foley Catheter Insertion (female), and Foley Catheter Removal. No prompts were needed and you were professional throughout. During removal you were able to remind yourself to empty the tubing and drainage bag prior to removal. You maintained the sterile field throughout the Foley insertion, did not contaminate the catheter or your gloves at any point, had very good communication, and were thorough throughout the observation. Great job! You correctly verbalized the differences in catheter insertion for a male patient. You independently completed Meditech documentation for Urinary Catheter Management and I & O. Keep up the great work!!!

Week 11 (Comprehensive Assessment): You satisfactorily performed VS and Physical assessment skills. You used a strong systematic approach. You also used great communication skills with the patient. Keep up the great work! CP

SUMMARY COMMENTS:	
--------------------------	--

Beginning to Developing in all areas is required for Satisfactory completion of this simulation lab.	
---	--

E = exemplary, A = accomplished, D = developing, B = Beginning
Based off of Lasater's Clinical Judgment Rubric
