Comments:

Week 5 (Meditech/BMV): You satisfactorily completed the Meditech/BMV lab and have satisfied the requirements for this lab. CP

Week 6 (Wound Care): You satisfactorily performed a wet to dry and dry sterile dressing change and have satisfied the requirements for this lab. CP

Week 9 (NG Insertion/Care): You satisfactorily completed performance of NG insertion, irrigation, and removal. You also successfully completed the assigned documentation in Meditech. Nice work! CP

Week 10 (Foley Insertion/Care): You did a great job in the lab this week and were satisfactory with the following skills: Application of Sterile Gloves, Foley Catheter Insertion (female), and Foley Catheter Removal. No prompts were needed! During insertion you were able to remind yourself to label the drainage bag or tubing with the orange label, and during removal you reminded yourself to remove the StatLock with alcohol swabs. You maintained the sterile

field throughout the Foley insertion, did not contaminate the catheter or your gloves at any point, had very good communication, and were thorough throughout the observation. Great job! As a reminder always verify the patients name and date of birth with the name band. You correctly verbalized the differences in catheter insertion for a male patient. You independently completed Meditech documentation for Urinary Catheter Management and I & O. Keep up the great work!!! AR

Week 11 (Comprehensive Assessment): You satisfactorily performed VS and Physical assessment skills. You did a great job performing your skills. You communicated well with the patient. You reminded yourself to check capillary refill. Overall, great job! CP

Week 12 (Documentation): You satisfactorily completed the Documentation lab and satisfied the requirements for this lab. CP

Week 14 (Simulation): You have satisfactorily completed the simulation lab. You did a nice job with documentation! Please see comments in graded rubric below. CP
