

**EVALUATION OF CLINICAL PERFORMANCE TOOL  
Advanced Medical Surgical Nursing- 2019**

**Firelands Regional Medical Center School of Nursing  
Sandusky, Ohio**

**Student:** Amber Barton  
  
**Semester:** Spring

**Final Grade:** Satisfactory/Unsatisfactory

**Date of Completion:** May 3, 2019

**Faculty:** Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN  
 Carmen Patterson, MSN, RN; Brian Seitz, MSN, RN

**Faculty eSignature:**

**DIRECTIONS FOR USE:**

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, or U". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, the following week it must be addressed with a comment as to why it is no longer a "U". If the student does not state why the "U" is corrected, then it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

**METHODS OF EVALUATION:**

- Clinical Reports
- Competency Performance
- Completion of Patient Care Documentation
- Observation of Clinical Performance
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Online Discussion Rubric
- Preceptor Feedback
- Nursing Care Plan Rubric
- Skills Lab Competency Tool
- Clinical Judgement Rubric for Simulation

## PERFORMANCE CODE

### SATISFACTORY CLINICAL PERFORMANCE

**Satisfactory (S):** Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

### UNSATISFACTORY CLINICAL PERFORMANCE

**Needs Improvement (NI):** Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

**Unsatisfactory (U):** Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

### OTHER

**Not Available (NA):** The clinical experience which would meet the competency was not available.

**Comments:**

**IV Start:** Satisfactory participation in IV Start review and hands-on practice. BS

**Blood Admin/IV Pumps:** Satisfactory participation practice with blood administration safety checks. Great job with priming tubing, secondary IV administration, the use of IV and drug dose library. FB

**Prioritization/Delegation:** You satisfactorily prioritized a group of assigned patients using a multitude of methods (i.e. Maslow's, ABCs, and ABCD system). You also provided a rationale for the order of your prioritized patients. Nice work! CP You were able to appropriately delegate nursing tasks based on the skill level and scope of practice for each member of your team. You actively participated in the group discussion on delegation of nursing tasks and your team shared several important factors to consider when delegating, including: scope of practice and skill level of the delegate, nursing laws, facility policy and condition of the patient. Great job! CP

**Meditech Documentation:** Satisfactory completion of assessment documentation, documentation editing, and the use of IV flowsheet. Great job! FB

**Physician Orders:** You have successfully completed the Physician Orders Lab. You actively participated and did great with interdisciplinary communication, including nurse to nurse and nurse to physician using the SBAR format. Nice job! BS

**Central Line Dressing Change:** Satisfactory central line dressing change using proper technique, as well as line flushing. FB

**Blood Draw:** Central Line Cap Change & Line Draw- You satisfactorily demonstrated proper technique for changing a CVAD cap and satisfactorily demonstrated how to withdraw blood from a CVAD per hospital policy. Nice work! CP

**Ports:** You have successfully completed your skills lab for Infusaports. You did a great job accessing the Infusaport and actively participating in the group discussion. CP

**IV Push:** Great job with reconstitution of powder with NS, and medication administration. FB

**Head to Toe Assessment:** You were satisfactory during your Head to Toe Assessment, with two prompts needed as a reminder to assess for capillary refill in the lower extremities and for use of an ambulatory aid. Great job! AR

\*End-of- Progr

**ECG/Telemetry Placements:** Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads. Satisfactory participation in review of Chest Tube/Atrium tutorial and lab discussion. AR

**ECG Measurements:** Satisfactory participation in and practice of ECG measurements during the ECG Measurements Lab. You accurately measured and interpreted a 6-second rhythm strip for Normal Sinus Rhythm. Great job! AR
