Faculty	Kelly Ammanniti	Carmen Patterson	Amy Rockwell	Brian Seitz	Liz Woodyard
Initials	KA	CP	AR	BS	LW

Comments:

Week 5 (Meditech/BMV):

Week 6 (Wound Care):): Great job in the lab this week! You were satisfactory with placement of sterile gloves and during 1:1 observation of the wet to dry sterile dressing change. You maintained asepsis throughout the procedure and effectively communicated with your “patient”. You did require 2 prompts as a reminder to always identify your patient by asking for name and date of birth, and for the proper order of wound assessment, cleansing, obtaining a culture, and drying. You were able to remind yourself that the sterile saline is to be poured over the packing prior to placement of sterile gloves. I suggest that you review this procedure frequently in order to become more comfortable with the steps. Wound care documentation on Meditech Expanse was completed. Keep up the great work! AR

Week 9 (NG Insertion/Care): Chelle, you were satisfactory in performing NG insertion, irrigation, and removal. Nice job explaining the procedure to the patient. NG insertion: You forgot to prepare some of your supplies prior to beginning the procedure (prepare tape) however you remembered this after beginning the procedure and verbalized the need to prepare equipment prior to beginning. NG removal: You stated the incorrect amount of solution for flushing the NG when removing the tube however you recognized this and verbalized the correct amount. Overall, nice job performing NG insertion, irrigation, and removal. CP

Week 10 (Foley Insertion/Care): Chelle, you were satisfactory in completing Foley Catheter insertion and removal. Remember to be careful when opening the drape and placing it under the patient so that you maintain sterility. You forgot to put lubricant on your tray when preparing your sterile field however you verbalized this prior to inserting the catheter. Overall, nice work. CP

Week 11 (Comprehensive Assessment):

Week 12 (Documentation):

Week 14 (Simulation):

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME:	OBSERVATION DATE/TIME:				
CLINICAL JUDGMENT COMPONENTS NOTICING: - Focused Observation: E A D B - Recognizing Deviations from Expected Patterns: E A D B - Information Seeking: E A D B	OBSERVATION NOTES				
INTERPRETING: - Prioritizing Data: E A D B - Making Sense of Data: E A D B					
RESPONDING: - Calm, Confident Manner: E A D B - Clear Communication: E A D B - Well-Planned Intervention/Flexibility: E A D B - Being Skillful: E A D B					

B	
REFLECTING: • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B	
SUMMARY COMMENTS: Beginning to Developing in all areas is required for Satisfactory completion of this simulation lab.	

E = exemplary, A = accomplished, D = developing, B = Beginning
Based off of Lasater's Clinical Judgment Rubric
