**Comments:**

**Week 5 (Meditech/BMV):**

**Week 6 (Wound Care):** ): Great job in the lab this week! You were satisfactory with placement of sterile gloves and during 1:1 observation of the wet to dry sterile dressing change. You maintained asepsis throughout the procedure and effectively communicated with your “patient”. You did require 2 prompts as a reminder to always identify your patient by asking for name and date of birth, and for the proper order of wound assessment, cleansing, obtaining a culture, and drying. You were able to remind yourself that the sterile saline is to be poured over the packing prior to placement of sterile gloves. I suggest that you review this procedure frequently in order to become more comfortable with the steps. Wound care documentation on Meditech Expanse was completed. Keep up the great work! AR

<p><b>RESPONDING:</b></p> <ul style="list-style-type: none"> <li>• Calm, Confident Manner: E      A      D      B</li> <li>• Clear Communication:            E      A      D</li> <li style="padding-left: 20px;">B</li> <li>• Well-Planned Intervention/ Flexibility:                    E      A      D      B</li> <li>• Being Skillful:                    E      A      D</li> <li style="padding-left: 20px;">B</li> </ul>	
<p><b>REFLECTING:</b></p> <ul style="list-style-type: none"> <li>• Evaluation/Self-Analysis: E      A      D      B</li> <li>• Commitment to Improvement: E      A      D</li> <li style="padding-left: 20px;">B</li> </ul>	
<p><b>SUMMARY COMMENTS:</b></p> <p><b>Beginning to Developing in all areas is required for Satisfactory completion of this simulation lab.</b></p>	

E = exemplary, A = accomplished, D = developing, B = Beginning  
Based off of Lasater's Clinical Judgment Rubric
