

Shelby Jamison, Sydney Cmar, Kylie Adelman

1.) Poster Title

Pressure Ulcer Prevention in Incontinent Patients

2.) Reference in APA formatting (6th edition)

Hall, K, Clark, C. (2015). A prospective, descriptive, quality improvement study to decrease incontinence-associated dermatitis and hospital-acquired pressure ulcers. *Ostomy Wound Management*, 61(7), 26-30. Retrieved from <https://www.o-wm.com/article/prospective-descriptive-quality-improvement-study-decrease-incontinence-associated>

3.) Multiple choice question:

Which of the following integrated approach is demonstrated by this study and may be beneficial in preventing hospital acquired pressure ulcers?

- a. Patient education and fall risk precautions
- b. Staff education and UTI prevention measures - (check spelling)
- c. **Staff education and incontinence care interventions**
- d. family education and incontinence care interventions

Shelby, Sydney, and Kylie,

I have reviewed your article information for phase I of the EBP poster presentation. You did an excellent job however you received a 0.5 point deduction due to incorrect APA formatting for your reference. Only the first word of the article is capitalized and the subsequent words are not. Also, the volume of the journal article is italicized. You can now move onto phase II. Please read the directions for phase II submission on the 'guidelines for EBP Poster and Presentation' sheet. This is time-sensitive. The table below shows your points/grade for phase I. Great job!

Thank you,

Lora

Phase I- Submit to EBP Poster dropbox in Edvance360 by 2200 on 2/9/20:	Yes (1)	No (0)
