FINAL SUMMARY OF STUDENT'S PROGRESS AND DEVELOPMENT

NAME OF STUDENT (LAST)	(FIRST)	(MIDDLE)
RENFRO	AMEILA	MAY

Provide details related to your personal growth and abilities for each of the following topics:

1. Outstanding Personality Characteristics:

Pronounced understanding of different backgrounds, patient, kind, empathetic, compassionate, driven, focused, hard-working and cheerful.

2. Special Interests and Abilities in Nursing:

I enjoy working with babies, but I also have a soft spot in my heart for the geriatric population, especially veterans. I am a fantastic communicator, excellent at multi-tasking and great problem solver. I have the ability to start IV's and IV medication management, insert/remove urinary catheters, tracheostomy care, ventilator care, safe medication administration, accurate assessments and documentation, injections, wound care, NG insertion and management and many other skills that I have developed.

3. Interpersonal Relationships with faculty and staff, patients and their families, and members of the health care team:

I have developed stronger communication skills since starting this journey. I feel more confident in my abilities to ask the "right" questions and hold conversations that I would not have been able to before.

4. Participation in Activities and Recreational Interests:

I coached 5th and 6th grade girls' volleyball for Monroeville Schools, RCIA at ICS in Bellevue every week. I love being outdoors: camping, canoeing and hiking with family and friends.

5. Student's Professional Plans:

I plan to work on a med-surg floor after graduation then hope to make my way into a specialty.
