

**Firelands Regional Medical Center School of Nursing  
Sandusky, Ohio**

**FINAL SUMMARY OF STUDENT'S PROGRESS AND DEVELOPMENT**

<b>NAME OF STUDENT (LAST)</b>	<b>(FIRST)</b>	<b>(MIDDLE)</b>
Odell	Christina	Nicole

**Provide details related to your personal growth and abilities for each of the following topics:**

**1. Outstanding Personality Characteristics:**

Ability to speak up and ask for assistance from more experienced staff. I understand what it's like to be on the patient/family member's side of health care so I can relate to the patient and help put them at ease when they feel anxious.

No matter how many set backs I have had throughout life I have never quit. Each of my obstacles have taught me things about myself along with new approaches to each situation.

**2. Special Interests and Abilities in Nursing:**

Assisting and performing dressing changes on wounds or surgical insertion sites is a very interesting process to me. I also enjoy connecting with the patient and family members to help make their hospital stay a little bit easier.

**3. Interpersonal Relationships with faculty and staff, patients and their families, and members of the health care team:**

I understand that teamwork is absolutely essential to the success of proper health care. I also believe in the importance of including family members in many aspects of the patients health care so that they receive a well-rounded holistic approach.

**4. Participation in Activities and Recreational Interests:**

I enjoy spending time with those around me. For nursing I enjoy wounds and dressing changes, and for life outside of nursing I enjoy the outdoors.

**5. Student's Professional Plans:**

I plan on starting out on a medical surgical floor. It will most likely be 4 North. After a year or more of experience I am unsure of what I may do next. I may go into some form of emergency care or critical care or even surgery.
