

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Comments:

Week 2 (1g)- Great job with IV skills while in Digestive Health. Keep up the great work. AR

Week 3- Comments per Infusion Center preceptor: 1-22-20 – Satisfactory in all areas. Preceptor comments: Appeared comfortable talking to patients; demonstrated good IV skills. (1d)- Satisfactory discussion via CDG posting related to your Infusion Center clinical experience. Great job! AR

*End-of- Program Student Learning Outcomes

Week 5-1(f) Great job administering all your medications this week in clinical while observing the six rights of medication administration. You were very well prepared both days. You also did an excellent job educating the patient on all of his medication as well. BSc

Week 6- Great job providing care to a complex care patient on a ventilator. Excellent job with medication administration including IVP, and PO medications. FB

Week 7- Week 2- 1 a,b,f- Nice job assessing and managing care for your Critical Care patient. Nice job also with medication administration, you got a lot of IV practice this week!. BS

Week 11- Completed preceptorship Alternate Day #1 clinical. CP/AR

Objective

2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Midterm	9	10	11	12	13	14	Make up	Final
Competencies:	NA	NA	NA	S	S	S	NA	NA	S	NA	NA	NA	S	S			
a. Correlate relationships among disease process, patient’s history, patient symptoms, and present condition utilizing clinical judgment skills. CC (noticing, interpreting, responding)	NA	NA	NA	S	S	S	NA	NA	S	NA	NA	NA	S	S			
b. Monitor for potential risks and anticipate possible early complications. CC (noticing, interpreting, responding)	NA	NA	NA	S	S	S	NA	NA	S	NA	NA	NA	S	S			
c. Recognize changes in patient status and take appropriate action. (noticing, interpreting, responding)	NA	S	NA	S	S	S	NA	NA	S	S	NA	NA	S	S			
d. Formulate a prioritized nursing care plan utilizing clinical judgment skills. CC (noticing, interpreting, responding, reflecting)	NA	NA	NA	S	NA	S	NA	NA	S	NA	NA	NA	S	S			
e. Development of clinical judgment in high-fidelity simulation scenarios. (Noticing, Interpreting, Responding, Reflecting)						S	NA	NA	S					S			
f. Incorporate the ABCDEF Standardized Bundle of interventions for assigned patient. CC (noticing, interpreting, responding)	NA	NA	NA	NA	S	NA	NA	NA	S	NA	NA	NA	NA	NA

Comments:

2d. See Care Plan Rubric at the end of this document.

2e. See Clinical Simulation Rubric at the end of this document.

Week 5-2(d) Great job formulating a prioritized nursing care plan. Please see the Care Plan Rubric at the end of this document for my feedback. BSc

Week 6- (2f) Ameila, Great job with ABCDEF bundle. Your assigned patient was a great patient to assess for all processes of the bundle. You did a great job providing the detail of each assessment used throughout the bundle process and how your patient progressed. Your patient was very young and hopefully will make a complete recovery. FB

Week 7- 2 a,b,c,d- Good job correlating your patient's diagnosis with his symptoms, lab values, diagnostic tests, and medications. Nice job also of explaining the pathophysiology of his diagnosis. Nice job monitoring for potential risks and changes in condition for your patient(s) and responding appropriately. You also identified a priority nursing diagnosis for your patient. BS

Objective

3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*

Comments:

Week 3- comments from Patient Advocate/Discharge Planner preceptor: Satisfactory in all areas except Actively engaged in the clinical experience and Demonstrates professionalism in nursing (Excellent). Preceptor comments: Pleasant, knowledgeable, asks appropriate questions, expresses interest. (6c,f)- Satisfactory CDG postings related to your Patient Advocate/Discharge Planner and Infusion Center clinical experiences. Keep up the great work! AR

Week 4 (6f)- Satisfactory CDG posting related to your Quality Department clinical experience. Great job! AR

Week 5-6(b) Great job assisting the RN with discharging your patient this week as well as educating. BSc

Week 5-6(e) You did a great job overall with all of your documentation this week in clinical. There were minor areas in which we discussed that needed to be changed, and you did a great job incorporating my feedback from Tuesday and applying it to your documentation on Wednesday. BSc

Week 6- (6a,b,c) Great job participating in active discussion regarding your collaboration with the healthcare team, patients, families and discharge learning needs. FB

Week 7- 6 a,c- Nice job working and collaborating with nursing staff and fellow students. BS

Week 9 (6b,c,f)- Satisfactory Emergency Department clinical and discussion via CDG posting! Keep up the great work! AR

*End-of- Program Student Learning Outcomes

Week 12 Objective 6f: Satisfactory CDG posting related to virtual preceptorship experience. CP

Objective																	
7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery. (1,3,4,6,7,8)*																	
Weeks of Course:	2	3	4	5	6	7	8	Make up	Midterm	9	10	11	12	13	14	Make up	Final
Competencies:	S	S	S	S	S	S	NA	NA	S	S	NA	S	S	S			
a. Value the need for continuous improvement in clinical practice based on evidence.																	
b. Accountable for investigating evidence-based practice to improve patient outcomes.	S	S	S	S	S	S	NA	NA	S	S	NA	S	S	S			
c. Comply with the FRMCSN "Student Code of Conduct Policy."	S	S	S	S	S	S	NA	NA	S	S	NA	S	S	S			
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions.	S	S	S	S	S	S	NA	NA	S	S	NA	S	S	S

***Course Objectives**

Comments:

IV Start: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. AR/BS/CP/BSc

Blood Admin/IV Pumps: Satisfactory participation practice with blood administration safety checks. Great job with priming tubing, secondary IV medication pump set up, and the use of the IV drug dose library. FB

Prioritization/Delegation: You have successfully completed your skills lab for delegation and prioritization. You satisfactorily prioritized care for multiple patients using multiple methods (i.e. Maslow's hierarchy of needs, ABC, and ABCD methods). You were able to appropriately delegate nursing tasks based on the skill level and scope of practice for each member of your team. You actively participated in the group discussion on delegation of nursing tasks and your team shared several important factors to consider when delegating, including scope of practice and skill level of the delegate, nursing laws, facility policy, and condition of the patient. Great job! CP

Meditech Documentation: Satisfactory completion of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders: Satisfactory completion of physician order labs utilizing SBAR communication and taking orders over the phone. Good job! BS/BSc

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, ventilation with bag- valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

Central Line Dressing Change: Satisfactory central line dressing change using proper technique, as well as line flushing. FB

Blood Draw, Ports: You were satisfactory in accessing an Infusaport device. You also satisfactorily demonstrated proper technique for CVAD cap change and satisfactorily demonstrated how to draw blood from a CVAD per hospital policy. CP

IV Push: Great job with reconstitution of powder with NS, and medication administration. FB

Head to Toe Assessment: Satisfactory completion of Head to Toe Assessment. BS/BSc

Nursing Care Plan Grading Tool
 AMSN
 2020

Student Name: Ameila Renfro Objective # 6: Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*		Clinical Date: 2/4-2/5/2020 Decreased cardiac output r/t EKG changes	
**Nursing care plan not appropriate to patient situation = 0 and automatic unsatisfactory rating		Total Points Comments	
Nursing Diagnosis: (3 points) Problem Statement (1)-1 Etiology (1)-1 Defining Characteristics (1)-1/2		Total Points: 2.5 Comments: Excellent job! Nursing diagnosis is appropriate to your patient situation. Looking at your defining characteristics, these need to be specific. Therefore, you stated "Patient rates pain 9/10 upon admission," but where is the patient's pain at?	
Goal and Outcome (6 points total) Goal Statement (1 point)-1 Outcome: Specific (1)-1/2 Measurable (1)-1 Attainable (1)-1 Realistic (1)-1 Time Frame (1)-1		Total Points: 5.5 Comments: Great job with your goal statement and outcomes. Looking at your first outcome, "Patient will have controlled pain level 2-3/10." Here again you would need to state specifically where the pain was at. Additionally, be sure to include the normal range for lab values within your outcome statements. Overall, you did an excellent job.	
CLINICAL JUDGMENT Nursing Interventions: (8 points total) COMPONENTS NOTICING: (1, 2, 5)*		OBSERVATION NOTES Total Points: 6 Comments: and identifies patient, begins assessment, VS, cardiac monitor. Establishes orientation. Patient CO feeling nauseous. Assessment informs patient to let her know if she experiences dysrhythmia related to atropine administration (good job). Patient vomits, what time each medication is due exactly. Additionally, you did not include an assessment of the cardiovascular system in which you would auscultate the patient's heart sounds. This would be very important to include.	
Focused Observation: E A D When (1)-1 Individualized: (1)-1 Realistic (1)-1 Rational (1)-1/2 All pertinent interventions listed (1)-0 Information Seeking: E A D B		Team introduces self and identifies patient. Cardiac monitor applied. Lung sounds reassessed following fluid bolus. Patient CO of SOB. Team enters and finds patient unresponsive	
Evaluation: (5 points total) Date (1)-1 Goal Met/partially/unmet (1)-1 Defining characteristics (1)-1/2 Plan to continue//modify/terminate (1)-1 Signature (1)-1		Total Points: 4.5 Comments: Excellent job! Remember to include "AEB" after "Goal partially met."	
*End of Program Student Learning Outcomes Total possible points = 22 18-22 = Satisfactory care plan 17-14 = Needs improvement care plan <13 = Unsatisfactory care plan		Total Points for entire Care plan = 18.5/22 Comments: Satisfactory care plan. Great job! BSc	

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME: Renfro
 OBSERVATION DATE/TIME: 2/20/20
 SCENARIO #: Dysrhythmias

<p>INTERPRETING: (2, 4)*</p> <ul style="list-style-type: none"> • Prioritizing Data: E A D B • Making Sense of Data: E E A D B 	<p>Rhythm interpreted to be sinus bradycardia. Later changes to 3rd degree block.</p> <p>Rhythm interpreted to be A-fib. After bolus, lung sounds noted to be crackles.</p>
<p>RESPONDING: (1, 2, 3, 5)*</p> <ul style="list-style-type: none"> • Calm, Confident Manner: E A D B • Clear Communication: E E A D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: E E A D B 	<p>Call to physician to give update, request atropine. Order received for atropine and read back. Atropine prepared and administered correctly. Call to physician to inform of vomit and informs of third degree AV block, asks about EPI vs. transcutaneous pacing. Patches applied.</p> <p>Call to physician to report supraventricular rhythm (remember SBAR). Rhythm re-interpreted to be A-fib (team discussion about suggestion) and suggests Cardizem (physician asks about dose). Dose calculated and reported to physician, orders received (remember to read back). Bolus prepared and administered, drip rate discussed and calculated. Drip initiated. Call back to physician, low BP reported, fluid suggested to raise BP. Order for bolus and IV fluid. (remember to read back). Fluid bolus initiated. Call to physician to report SOB and crackles (history of CHF and EF of 40%). Fluid bolus stopped.</p> <p>Code Blue called (with pulseless V-tach, remember to begin CPR immediately). CPR initiated. Patches applied. After several minutes, defibrillator charged and shock delivered (remember to shock as soon as possible). CPR re-initiated, EPI given.</p>
<p>REFLECTING: (6)*</p> <ul style="list-style-type: none"> • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A A D B 	<p>Team discusses scenario and the manifestations of bradycardia/symptomatic bradycardia (low cardiac output, low BP, dizziness). Pharmacologic and non-pharmacologic treatments for symptomatic bradycardias discussed. Discussed the need for pain management with transcutaneous pacing.</p> <p>Team discussed A-fib scenario. BP initially OK, team realized he had A-fib and was symptomatic. Goal of giving Cardizem for A-fib discussed (slow HR), In this case it also dropped BP, and a fluid bolus was ordered. This cause patient to be overloaded due to his CHF and low EF. Discussed the importance of being more aware of patient's history when determining interventions. Synchronized cardioversion discussed as another option for converting A-fib. Amiodarone discussed as another option to treat A-</p>

*End-of- Program Student Learning Outcomes

	<p>fib.</p> <p>Discussed Code-Blue scenario. With no pulse- CPR, shock, and EPI as soon as possible. Discussed that prior to shock the importance of making sure that all team members are “clear”.</p>
<p>SUMMARY COMMENTS:</p> <p>E = exemplary, A = accomplished, D = developing, B = Beginning</p> <p>Based off of Lasater’s Clinical Judgment Rubric</p> <p>Developing to accomplished is required for satisfactory completion of this simulation.</p>	<p>You are satisfactory for this scenario, good job! BS</p>
