***Course Objectives**

Comments:

Week 2 (Hand Hygiene; Vital Signs; PPE): During lab this week you were able to satisfactorily demonstrate:

- Appropriate hand hygiene utilizing hand sanitizer and soap/water.
- Accurate verbalization of procedure for donning & doffing PPE.
- Appropriate level of skill during guided practice with measurement of radial and brachial pulses, along with manual and doppler blood pressure. Vital signs skills will be observed 1:1 with faculty during Week 3. Keep up the good work! AR

Week 3 (Vital Signs):

Alana, good job in the lab this week! You satisfactorily completed the vital sign check off during 1:1 observation, including oral temperature, radial pulse, respiratory rate, pulse oximetry, and blood pressure measurement. During the blood pressure measurement, you accurately obtained two out of two blood pressure results on the Vital Sim manikin. You were able to verbally discuss the following measurements: axillary and rectal temperature along with orthostatic blood pressure. Two prompts were needed. You looked at the patient's ID band but you did not ask the patient her name and date of birth. Remember to always look at the name band to verify the patient name and date of birth as the patient is stating this to you. The second prompt included remembering to take the patient's BP reading in both arms while in the supine position during the orthostatic BP procedure and include counting the heart rate. Your Meditech documentation related to vital signs was accurate. Keep up the good work!! LM

Week 4 (Assessment): Satisfactory with head to toe assessment guided practice, hand-off report activity, and Micromedex/Intranet navigation activity. You will be observed 1:1 for Head to Toe Assessment competency during Week 5. BS

Week 5 (Assessment; Mobility):

Week 6 (Personal Hygiene Skills):

Week 7 (NG Skills: Insertion, Irrigation, and Removal):

Week 8 (Foley Skills: Insertion, Removal; Sterile Gloves; Documentation Lab):

Week 9 (Dressing Change: Dry Sterile, Sterile Wet to Dry):

Week 10 (Safety; Infection Control; Prioritization; Tube Feeding; Weight; Pressure Ulcer Prevention; Soft Restraints; Doppler BP; Care Plan Development):

Week 11 (Case Scenario; Care Plan Development; Medication Lab; Open Lab):

6/10/2020
