

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2020**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester:

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Lora Malfara, MSN, RN; Amy Rockwell, MSN, RN; Brittany Schuster, MSN, RN

Teaching Assistant: Devon Cutnaw, BSN, RN; Nick Simonovich, BSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, or U". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, the following week it must be addressed with a comment as to why it is no longer a "U". If the student does not state why the "U" is corrected, then it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- | | |
|--|------------------|
| Skills Lab Checklists | Faculty Feedback |
| Care plan Grading Rubric | Documentation |
| Administration of Medications | |
| Simulation Scenarios | |
| Skills Demonstration | |
| Evaluation of Clinical Performance Tool | |
| Clinical Discussion Group Grading Rubric | |
| Lasater Clinical Judgment Rubric | |
| Skills Lab Competency Tool | |

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
Faculty's Name			Initials
Frances Brennan			FB
Devon Cutnaw			DC
Lora Malfara			LM
Brittany Schuster (Lombardi)			BS (BL)
Nicholas Simonovich			NS
Amy Rockwell			AR

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/patients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded boxes do not need a student evaluation rating.**

Objective

1. Describe how diverse cultural, ethnic, and social backgrounds function as sources of patient, family, and community values. (2,4,6)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:																			
a. Identify spiritual needs of patient (Noticing).																			
b. Identify cultural factors that influence healthcare (Noticing).																			
c. Coordinate care based on respect for patient's preferences, values, and needs (Responding).			S	N/A	N/A	S													
d. Use Maslow's Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).			S	N/A	N/A	S													
			NS	NS	NS	BS													
Clinical Location: Patient age			4N 74 y.o	NA	NA	3T 69 y.o													

Comments

Week 3 objective 1 (c,d) – This week you coordinated your care for your patient appropriately by respecting her wishes and needs and allowing her to finish her meal and phone conversation prior to obtaining vital signs. The patient was preoccupied appeared stable; therefore, you made the appropriate decision to wait until she was finished to perform your care. You used Maslow's hierarchy of needs to determine your prioritization of care. Great job! NS

Week 6-1(d) Katie, you did an excellent job this week using Maslow's Hierarchy of needs to determine the care needs of your assigned patient. You prioritized obtaining your vital signs and assessment, then once you were finished you inquired about any other needs the patient may have at that time. Great job! BS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

2. Summarize knowledge of anatomy, physiology, chemistry, nutrition, psychosocial and developmental principles in performance of basic physical assessment through use of clinical judgment skills. (3,4, 5)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:																			
a. Perform head to toe assessment utilizing techniques of inspection, palpation and auscultation (Responding).						U													
b. Use correct technique for vital sign measurement (Responding).			S	N/A	N/A	S													
c. Conduct a fall assessment and institute appropriate precautions (Responding).						N/A													
d. Conduct a skin risk assessment and institute appropriate precautions (Responding).																			
e. Collect the nutritional data of assigned patient (Noticing).																			
f. Demonstrates appropriate insertion, maintenance, and removal of NG tube (Responding).																			
g. Describe the findings and the rationale for diagnostic studies with the nursing implications for assigned patient (Interpreting).																			
			NS	NS	NS	BS													

Comments

Week 3 objective 2 (b) – Great job with your first experience obtaining a full set of vital signs on a live patient! You were able to use correct technique to obtain accurate vital sign measurements on your patient. NS

Week 6-2(a,b) Unfortunately competency 2(a) has been graded as “U” because it was left blank. Remember, if you do not self-rate a competency the competency is automatically graded “U.” A “U” in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the “U,” the faculty member will continue to rate the competency unsatisfactory until it is addressed. Going forward, be sure to double check that you have self-rated all white boxes for each week. Please let me know if you have any questions. You did an excellent job performing your first head to toe assessment on your assigned patient in clinical this week. Your assessment was very thorough and systematic. You also did a very nice job obtaining your patient’s vital signs as well. Keep up all your great work! BS

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

3. Select communication techniques and appropriate boundaries with patients, families, and health care team members. (1,2,3,4,6,7)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:						S													
a. Receive report at beginning of shift from assigned nurse (Noticing).																			
b. Hand off (report) pertinent, current information to the next provider of care (Responding).			N/A	N/A	N/A	N/A													
c. Use appropriate medical terminology in verbal and written communication (Responding).			S	N/A	N/A	S													
d. Report promptly and accurately any change in the status of the patient (Responding).			N/A	N/A	N/A	N/A													
e. Communicate effectively with patients and families (Responding).			S	N/A	N/A	S													
f. Participate as an accountable health care team member in the provision of patient centered care (Responding).			S	N/A	N/A	S													
			NS	NS	NS	BS													

Comments

Week 3 objective 3 (e,f) – You did a great job communicating with your patient this week. Although this was a new role as a student nurse, you overcame any nervousness that you may have felt and entered the room confidently. You initiated the nurse/patient relationship through communication and informed her of the care that you were providing. (f) By obtaining vital signs and documenting your findings within the EHR, you participated as an accountable member of the health care team to provide patient care. Great job! NS

Week 6-3(a,e) Excellent job taking report on your assigned patient for the first time this week in clinical. The more you do this, the more comfortable and familiar you will become with the routine of receiving report and where to put all the information on the report sheet that is discussed. You also did an excellent job communicating with your patient this week as well. BS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																			
4. Exemplify advanced searches in accessing electronic health care information and documenting patient care. (1,4,8)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:			N/A	N/A	N/A	S													
a. Document vital signs and head to toe assessment according to policy (Responding).																			
b. Document the patient response to nursing care provided (Responding).																			
c. Access medical information of assigned patient in Electronic Medical Record (Responding).			S	N/A	N/A	S													
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding).		S	N/A	N/A	S N/A	N/A													
e. Provide basic patient education with accurate electronic documentation (Responding).																			
f. Consistently and appropriately post comments for clinical discussion groups on Edvance360 website (Reflection).																			
*Week 2 –Meditech Expanse		DC	NS	NS	NS	BS													

Comments

Week 3 objective 4 (c) – This week you were able to enter meditech and access a patient’s chart in the live environment for the first time. You did well navigating through the chart and accessing medical information that was pertinent to your plan of care. NS

Week 6-4(a) Katie, overall you did an excellent job with your documentation of vital signs and your head to toe assessment this week. There were minimal areas that needed corrected that we discussed in clinical. Remember to ask the patient questions related to assistive devices such as glasses, hearing aids, dentures, etc. It was awesome that you took a lot of notes to help you remember the areas we discussed in order to improve next time. Great job! BS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																			
5. Exemplify psychomotor skills and nursing care safely using evidence-based practice. (3,4,5,7,8)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:			S	N/A	N/A	S													
a. Demonstrate correct body mechanics and practices safety measures during the provision of patient care (Responding).			S	N/A	N/A	S													
b. Apply the principles of asepsis and standard/infection control precautions (Responding).			S	N/A	N/A	S													
c. Demonstrates appropriate skill with foley catheter insertion, maintenance, and removal (Responding).																			
d. Manage basic patient care situations with evidence of preparation and beginning dexterity (Responding).			S	N/A	N/A	S													
e. Organize time providing patient care efficiently and safely (Responding).			S	N/A	N/A	S													
f. Manages hygiene needs of assigned patient (Responding).																			
g. Demonstrate appropriate skill with wound care (Responding).																			
h. Document the location of fire pull stations and fire extinguishers. ** (Interpreting).						S													
			NS	NS	NS	BS													

Comments

****You must document the location of the pull station and extinguisher here for clinical #2 experience.**

Week 6- On one side of 3T there was a fire extinguisher at each end of the hallway and on the other side of 3 tower (where the secretary desk is) there was another one located more in the center of the hall. Excellent job! BS

Week 3 objective 5 (b) –You did a great job this week applying the principles of asepsis and following infection control measures by foaming in and out of the patient’s room to maintain good hand hygiene. Additionally, you wore your mask at all times which follows the infection control guidelines for COVID-19. NS

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																			
6. Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:																			
a. Utilize clinical judgment skills to develop a patient-centered plan of care (Responding). *See rubric at end of tool																			

Comments

* End-of-Program Student Learning Outcomes

Objective

8. Exemplify professional conduct through self-reflection, responsibility for learning, and goal setting. (1,5,7)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:			S	N/A	N/A	S													
a. Reflect on areas of strength** (Reflecting)			S	N/A	N/A	S													
b. Reflect on areas for self-growth with a plan for improvement. ** (Reflecting)			S	N/A	N/A	S													
c. Incorporate instructor feedback for improvement and growth (Reflecting).			S	N/A	N/A	S													
d. Follow the standards outlined in the FRMCSN policy, "Student Code of Conduct" (Responding).			S	N/A	N/A	S													
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions (Responding).			S	N/A	N/A	S													
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect (Responding).			S	N/A	N/A	S													
g. Comply with patient's Bill of Rights (Responding).			S	N/A	N/A	S													
h. Respect the privacy of patient health and medical information as required by federal HIPAA regulations (Responding).			S	N/A	N/A	S NI													
i. Actively engage in self-reflection. (Reflecting)			S	N/A	N/A	S													
*			NS	NS	NS	BS													

**** Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, "I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP's with at least three members of my family this week." Please ensure that you answer this section in-depth with your plan of action. Each week must be different.**

Week 3 a.) Confidence in approaching patient and engaging in conversation to create a comfortable environment. Great strength to note! Nerves and anxiety are an appropriate feeling during your first clinical. You have entered a new role and are in unfamiliar territory. Although you may have been nervous internally, you entered the room confidently and never let your nerves show. That is an awesome strength to note for your first experience as a student nurse! Great job. NS

Week 3 b.) Learning to be more organized in clinicals. For an example- learning how to use clinical technology better (clinskills tool, and meditech charting). With every experience there will always be areas in which we can learn and improve. Reflecting on these experiences and identifying ways to improve them is what will make you a well-rounded nurse as you progress throughout this program. I think this is a good reflection on an area in which you can grow and learn. Organization will be one of your most important skills as a nurse. When juggling multiple tasks and priorities in your mind, organization can help reduce stress. What can you do to be more organized in clinical the next time? Keep up the hard work! NS

Week 6 a.) I felt confident in entering the patients room and knowing where the equipment was located (vital sign machine, oxygen flowmeter, sink, etc.) and was able to communicate well with the patient and gain knowledge about the patients history and background. Excellent job! I feel as if you did an awesome job communicating with your patient this week. Keep up all your great work! BS

Week 6 b.) Organization, being able to be more fluent and accurate when conducting my patient assessment. After reviewing my patient assessment this week, I had wrote down some notes and pointers to help me with my next patient encounter. Katie, this is a great area to identify for self-growth. I think it is awesome that you took notes down as well to help you improve going forward. As you get more experience, you will develop a system that works best for you. BS

Week 6-8(h) This competency has been changed to an “NI” because unfortunately you neglected to provide privacy for your patient while performing your head to toe assessment. As I walked by, I noticed the door was wide open and the curtain was not pulled while performing your head to toe assessment. At the time, you had the patient’s gown lifted up while assessing his abdomen, and I had to close the door for you. In the future, please be sure to always provide privacy for your patient. I realize this was your first time performing a head to toe assessment, and there were definitely some nerves involved. I have no doubt you will be satisfactory in this competency going forward. BS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Week 12 or 13:

<p>Objective # 6: Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*</p>	
<p>**Nursing care plan not appropriate to patient situation = 0 and automatic unsatisfactory rating</p>	<p>Total Points Comments</p>
<p>Nursing Diagnosis: (3 points total) Problem Statement (1) Etiology (1) Defining Characteristics (1)</p>	<p>Total Points Comments</p>
<p>Goal and Outcome (6 points total) Goal Statement (1 point) Outcome: Specific (1) Measurable (1) Attainable (1) Realistic (1) Time Frame (1)</p>	<p>Total Points Comments:</p>
<p>Nursing Interventions: (8 points total) Prioritized (1) What (1) How Often (1) When (1) Individualized (1) Realistic (1) Rationale (1) All pertinent interventions listed (1)</p>	<p>Total Points Comments:</p>
<p>Evaluation: (5 points total) Date (1) Goal Met/partially/unmet (1) Defining characteristics (1) Plan to continue/terminate (1) Signature (1)</p>	<p>Total Points Comments:</p>
<p>Total possible points = 22 18-22 = Satisfactory care plan 17-13 = Needs improvement care plan <13 = Unsatisfactory care plan</p>	<p>Total Points for entire Care plan = Comments:</p>

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2020

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date: _____
