

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2020

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:
Semester:

Final Grade: Satisfactory/Unsatisfactory

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Lora Malfara, MSN, RN; Amy Rockwell, MSN, RN; Brittany Schuster, MSN, RN
Teaching Assistant: Devon Cutnaw, BSN, RN; Nick Simonovich, BSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, or U". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, the following week it must be addressed with a comment as to why it is no longer a "U". If the student does not state why the "U" is corrected, then it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

Skills Lab Checklists	Faculty Feedback
Care plan Grading Rubric	Documentation
Administration of Medications	
Simulation Scenarios	
Skills Demonstration	
Evaluation of Clinical Performance Tool	
Clinical Discussion Group Grading Rubric	
Lasater Clinical Judgment Rubric	
Skills Lab Competency Tool	

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
Faculty's Name			Initials
Frances Brennan			FB
Devon Cutnaw			DC
Lora Malfara			LM
Brittany Schuster (Lombardi)			BS (BL)
Nicholas Simonovich			NS
Amy Rockwell			AR

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/patients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded boxes do not need a student evaluation rating.**

Objective																			
1. Describe how diverse cultural, ethnic, and social backgrounds function as sources of patient, family, and community values. (2,4,6)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:								NA											
a. Identify spiritual needs of patient (Noticing).								NA											
b. Identify cultural factors that influence healthcare (Noticing).								NA											
c. Coordinate care based on respect for patient's preferences, values, and needs (Responding).			NA	NA	S	NA	S	S											
d. Use Maslow's Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).			NA	NA	S	NA	S	S											
Clinical Location: Patient age			DC	NS	NS	BS	DC	BL											
			NA	NA	4N 62M	NA	3T 86F												

Comments

Week 5 objective 1 (c,d) – By introducing yourself and plan of care and by obtaining vital signs in a timely manner, you respected your patient's needs and coordinated your care appropriately. You used Maslow's hierarchy to interpret the appropriateness of obtaining vital signs at the designated time and understood that the patient did not have other needs that needed addressed first. For you originally assigned patient, you respected his wishes to finish his meal prior to obtaining his vital signs Great job this week! NS

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																			
2. Summarize knowledge of anatomy, physiology, chemistry, nutrition, psychosocial and developmental principles in performance of basic physical assessment through use of clinical judgment skills. (3,4, 5)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:						NA	S	S											
a. Perform head to toe assessment utilizing techniques of inspection, palpation and auscultation (Responding).																			
b. Use correct technique for vital sign measurement (Responding).			NA	NA	S	NA	S	S											
c. Conduct a fall assessment and institute appropriate precautions (Responding).						NA	S-NA	NA											
d. Conduct a skin risk assessment and institute appropriate precautions (Responding).								NA											
e. Collect the nutritional data of assigned patient (Noticing).								NA											
f. Demonstrates appropriate insertion, maintenance, and removal of NG tube (Responding).								NA											
g. Describe the findings and the rationale for diagnostic studies with the nursing implications for assigned patient (Interpreting).								NA											
			DC	NS	NS	BS	DC	BL											

Comments

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Week 5 objective 2 (b) – Great job with your first experience obtaining vital signs on a live patient as a student nurse! You were able to use correct technique to obtain accurate vital sign measurements on your patient. You noticed that your patient's blood pressure was elevated and used good communication and clinical judgement skills to identify potential risk factors for his elevated BP. You understood that nerves and anxiety related to discharge and upcoming wound change in addition to his pain could have led to his elevated BP. Great job! NS

Week 7 2 (c) : The safety and falls assessment intervention was not performed during this clinical week. DC

Objective																			
3. Select communication techniques and appropriate boundaries with patients, families, and health care team members. (1,2,3,4,6,7)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:						NA	S	S											
a. Receive report at beginning of shift from assigned nurse (Noticing).																			
b. Hand off (report) pertinent, current information to the next provider of care (Responding).			NA	NA	NA	NA	NA	NA											
c. Use appropriate medical terminology in verbal and written communication (Responding).			NA	NA	S	NA	S	S											
d. Report promptly and accurately any change in the status of the patient (Responding).			NA	NA	S	NA	S	S											
e. Communicate effectively with patients and families (Responding).			NA	NA	S	NA	S	S											
f. Participate as an accountable health care team member in the provision of patient centered care (Responding).			NA	NA	S	NA	S	S											
			DC	NS	NS	BS	DC	BL											

Comments

Week 5 objective 3 (e,f) – You did a great job communicating with your patient in the role of a student nurse for the first time. By introducing yourself and your role, you allowed the patient to feel more comfortable in your care. By communicating effectively, you are initiating the therapeutic nurse-patient relationship. (f) By obtaining vital signs and documenting your findings within the EHR, you participated as an accountable member of the health care team to provide patient care. Great job! NS

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																			
4. Exemplify advanced searches in accessing electronic health care information and documenting patient care. (1,4,8)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:			NA	NA	NA	NA	S	S											
a. Document vital signs and head to toe assessment according to policy (Responding).																			
b. Document the patient response to nursing care provided (Responding).								NA											
c. Access medical information of assigned patient in Electronic Medical Record (Responding).			NA	NA	S	NA	S	S											
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding).		S	NA	NA	S	NA	S NA	S											
e. Provide basic patient education with accurate electronic documentation (Responding).								NA											
f. Consistently and appropriately post comments for clinical discussion groups on Edvance360 website (Reflection).								NA											
*Week 2 –Meditech Expanse		DC	DC	NS	NS	BS	DC	BL											

Comments

Week 2 Obj 4 (d): You successfully completed the Meditech documentation lab this week. DC

Week 5 objective 4 (c) – This week you were able to enter meditech and accessed a patient's chart in the live environment for the first time. You did well navigating through the chart and accessing medical information that was pertinent to your plan of care. NS

Week 7 4(d) : The patient did not receive any printed education materials during this clinical week. DC

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																			
5. Exemplify psychomotor skills and nursing care safely using evidence-based practice. (3,4,5,7,8)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:			NA	NA	S	NA	S	S											
a. Demonstrate correct body mechanics and practices safety measures during the provision of patient care (Responding).			NA	NA	S	NA	S	S											
b. Apply the principles of asepsis and standard/infection control precautions (Responding).			NA	NA	S	NA	S	S											
c. Demonstrates appropriate skill with foley catheter insertion, maintenance, and removal (Responding).								NA											
d. Manage basic patient care situations with evidence of preparation and beginning dexterity (Responding).			NA	NA	S	NA	S	S											
e. Organize time providing patient care efficiently and safely (Responding).			NA	NA	S	NA	S	S											
f. Manages hygiene needs of assigned patient (Responding).								NA											
g. Demonstrate appropriate skill with wound care (Responding).								NA											
h. Document the location of fire pull stations and fire extinguishers. ** (Interpreting).						NA	S	S											
			DC	NS	NS	BS	DC	BL											

Comments

****You must document the location of the pull station and extinguisher here for clinical #2 experience.**

H. They were located near room 3027, the 3T waiting room, near room 3010, and by the nurses station.DC

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Week 5 objective 5 (b) –You did a great job this week applying the principles of asepsis and following infection control measures by foaming in and out of the patient's room to maintain good hand hygiene. Additionally, you wore your mask at all times which follows the infection control guidelines for COVID-19. NS

Objective																			
6. Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies: a. Utilize clinical judgment skills to develop a patient-centered plan of care (Responding). *See rubric at end of tool								NA											
								BL											

Comments

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																			
7. Convert basic pharmacology principles into safe medication administration. (3,5,6,7)*																			
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:								NA											
a. Identify the action, rationale, dosage, side effects and the nursing implications of medications (Interpreting).								NA											
b. Recognize patient drug allergies (Interpreting).								NA											
c. Practice the 6 rights and 3 checks prior to medication administration (Responding).								NA											
d. Administer oral, intra-muscular, subcutaneous, and intradermal medications using correct techniques (Responding).								NA											
e. Review the patient record for time of last dose before giving prn medication (Interpreting).								NA											
f. Assess the patient response to prn medications (Responding).								NA											
g. Document medication administration appropriately (Responding).								NA											
*Week 11: BMV								BL											

Comments

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

8. Exemplify professional conduct through self-reflection, responsibility for learning, and goal setting. (1,5,7)*

Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Make-Up	Final
Competencies:			NA	NA	S	NA	S	S											
a. Reflect on areas of strength** (Reflecting)																			
b. Reflect on areas for self-growth with a plan for improvement. ** (Reflecting)			NA	NA	S	NA	S	S											
c. Incorporate instructor feedback for improvement and growth (Reflecting).			NA	NA	S	NA	S	S											
d. Follow the standards outlined in the FRMCSN policy, "Student Code of Conduct" (Responding).			NA	NA	S	NA	S	S											
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions (Responding).			NA	NA	S	NA	S	S											
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect (Responding).			NA	NA	S	NA	S	S											
g. Comply with patient's Bill of Rights (Responding).			NA	NA	S	NA	S	S											
h. Respect the privacy of patient health and medical information as required by federal HIPAA regulations (Responding).			NA	NA	S	NA	S	S											
i. Actively engage in self-reflection. (Reflecting)			NA	NA	S	NA	S	S											
*			DC	NS	NS	BS	DC	BL											

** Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, "I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP's with at least three members of my family this week." Please ensure that you answer this section in-depth with your plan of action. Each week must be different.

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Week 5 A. Was able to recognize that pt. had a high blood pressure. Great strength to note for this week! You used good clinical judgement in your care for your patient. You noticed his elevated BP, interpreted as abnormal and identified potential cause through communicating with the patient. Great job! NS

Week 5 B. An area for self-growth would be more practice with manual blood pressures.

This is a skill that definitely takes time to master and feel comfortable with. The more experience you get, the more comfortable you will become. Don't be afraid to seek those opportunities during clinical. If you want to take a manual blood pressure to confirm what the NIBP shows, find a manual cuff and re-check. This will allow you to compare your results and gain more experience. Keep up the hard work. NS

Week 7 A. Same as last week my patient had a high blood pressure that I was able to recognize. Being aware of what was going on with my patient I think would also be another strength, because of this week's lecture and lab my patient had an NG tube that I knew she had to be at a 30-degree angle. I was able to locate the sign not only that said to keep the head of the bed elevated but also one that stated patient was NPO and no BP in right arm. With listening to nurse to nurse report I was also able to know that my patient having a mastectomy on the right side. Great job! You did very well this week with your patient. DC

Week 7 B. An area that I think that I can improve on is documenting I know you get better with practice but there were so many + drop down boxes and some of the things we were able to chart and some we had yet to learn. Example my patient was on telemetry I wanted to make it because my patient was on it but couldn't because in the drop-down boxes it wanted more detail that we had yet to learn. But with the help of my instructors I was able to make sure nothing was missed and that everything was documented appropriately, which I appreciated. Every clinical, you will begin to feel more comfortable with documentation. If you feel that you need additional practice, don't hesitate to reach out and we can offer time in the computer lab. DC

Week 12 or 13:

Objective # 6: Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*	
**Nursing care plan not appropriate to patient situation = 0 and automatic unsatisfactory rating	Total Points Comments
Nursing Diagnosis: (3 points total) Problem Statement (1) Etiology (1) Defining Characteristics (1)	Total Points Comments
Goal and Outcome (6 points total) Goal Statement (1 point) Outcome: Specific (1) Measurable (1) Attainable (1) Realistic (1) Time Frame (1)	Total Points Comments:
Nursing Interventions: (8 points total) Prioritized (1) What (1) How Often (1) When (1) Individualized (1) Realistic (1) Rationale (1) All pertinent interventions listed (1)	Total Points Comments:
Evaluation: (5 points total) Date (1) Goal Met/partially/unmet (1) Defining characteristics (1) Plan to continue/terminate (1) Signature (1)	Total Points Comments:
Total possible points = 22 18-22 = Satisfactory care plan 17-13 = Needs improvement care plan <13 = Unsatisfactory care plan	Total Points for entire Care plan = Comments:

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2020

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date: _____
