

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2021**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:

Final Grade: ~~Satisfactory/Unsatisfactory~~

Semester: Spring

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN
Carmen Patterson, MSN, RN; Brian Seitz, MSN, RN
Brittany Lombardi, MSN, RN

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Clinical Assignments
- Completion of Patient Care
- Meditech Documentation
- Observation of Clinical Performance
- Evaluation of Clinical Performance Tool

AR	Amy Rockwell, MSN, RN		
BS	Brian Seitz, MSN, RN		
BL	Brittany Lombardi, MSN, RN		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U):

Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded “U.” A “U” in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the “U,” the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA):

The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems.
(1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Midterm	9	10	11	12	13	14	Make up	Final
Competencies:	S																
a. Manage complex patient care situations with evidence of preparation and organization. (Responding)	S																
b. Assess comprehensively as indicated by patient needs and circumstances. (Noticing)	S																
c. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	S																
d. Evaluate patient's response to nursing interventions. (Reflecting)	S																
e. Interpret cardiac rhythm; determine rate and measurements. (Interpreting)	S																
f. Administer medications observing the six rights of medication administration. (Responding)	S																
g. Perform venipuncture skill with beginning dexterity and evidence of preparation. (Responding)	S																
h. Respond appropriately to equipment alarms; IV pumps, ECG monitors, ventilators, etc. (Responding)	S																

*End-of- Program Student Learning Outcomes

Objective																	
3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*																	
Weeks of Course:	2	3	4	5	6	7	8	Make up	Midterm	9	10	11	12	13	14	Make up	Final
Competencies: a. Critique communication barriers among team members. (Interpreting)	S																

*End-of- Program Student Learning Outcomes

b. Participate in QI, core measures, monitoring standards and documentation. (Interpreting & Responding)	NA																
c. Discuss strategies to achieve fiscal responsibility in clinical practice. (Responding)	S																
d. Clarify roles & accountability of team members related to delegation. (Noticing)	S																
e. Determine the priority patient from assigned patient population. (Interpreting) (Patient Mngmt.)	S																
Faculty Initials	CP																

Comments:

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

4. 4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Midterm	9	10	11	12	13	14	Make up	Final
Competencies: a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)	S																
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	S																
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	S																
Faculty Initials	CP																

Comments:

Objective

5. Construct methods for self-reflection and critiquing healthcare systems, processes, practices and regulations on a weekly basis. (7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Midterm	9	10	11	12	13	14	Make up	Final
Competencies:	S																
a. Reflect on your overall performance in the clinical area for the week. (Responding)																	
b. Demonstrate initiative in seeking new learning opportunities. (Responding)	S																
c. Describe factors that create a culture of safety (error reporting, communication, & standardization, etc. (Interpreting)	S																
d. Perform	S																

*End-of- Program Student Learning Outcomes

Standard/Standard Plus Precautions. (Responding)																	
e. Practice use of standardized EBP tools that support safety and quality. (Responding)	S																
f. Utilize faculty feedback to improve clinical performance. (Responding & Reflecting)	S																
Faculty Initials	CP																

Comments:

Week 2 Objective 5a: Erica, per the RN you were assigned to on 1-12-21 – Excellent in all areas. Preceptor comments: “Great job today with communication with patients and team members. Great job with med pass. Keep up the great work! CP

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Midterm	9	10	11	12	13	14	Make up	Final
Competencies:	S																
a. Establish collaborative partnerships with patients, families, and coworkers. (Responding)																	
b. Teach patients and families based on readiness to learn and discharge learning needs. (Interpreting & Responding)	S																
c. Collaborate with members of the healthcare team, patients, and families to achieve optimal patient outcomes. (Responding)	S																
d. Deliver effective and concise hand-off reports. (Responding)	S																
e. Document interventions and medication administration correctly in the electronic medical record. (Responding)	S																
f. Consistently and appropriately posts in clinical discussion groups. (Responding and Reflecting)	S

***Course Objectives**

Comments:

Meditech Documentation: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders: Satisfactory completion of physician's order lab utilizing SBAR communication and taking orders over the phone. Good job! BL/BS

Prioritization/Delegation: You have successfully completed the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, and ABCD methods). You were able to appropriately delegate nursing tasks for your assigned patients. You actively participated in the group discussion on delegation of nursing tasks and your team shared several important factors to consider when delegating, including scope of practice and skill level of the delegate, nursing laws, facility policy, and condition of the patient. Great job! CP

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag- valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Start: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. AR/BS/CP/BSc

Blood Admin/IV Pumps: Satisfactory completion of practice with blood administration safety checks activity. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. FB

Central Line Dressing Change/IV Push: Satisfactory central line dressing change using proper technique, as well as line flushing. Great job with preparation of mixing a medication with normal saline and administering as an IV push through the central line. FB

Ports/Blood Draw: You were satisfactory in accessing an Infusaport device, demonstrated proper technique for CVAD cap change and satisfactorily demonstrated how to draw blood from a CVAD per hospital policy. Nice work! CP

Head to Toe Assessment: You are satisfactory for the head-to-toe assessment competency. Nice Job! BL/BS

ECG/Telemetry Placements/CT: Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium tutorial. BL/BS

ECG Measurements: Satisfactory participation in and practice of ECG measurements during the ECG Measurements Lab. You accurately measured and interpreted a 6-second rhythm strip for Normal Sinus Rhythm. Great job! AR
