

EVALUATION OF CLINICAL PERFORMANCE TOOL
Medical Surgical Nursing – 2021

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student: Sydney Castle
Semester: **Spring**

Final Grade: **Satisfactory/Unsatisfactory**

Date of Completion:

Faculty: **Dawn Wikel**, MSN, RN, CNE; **Lora Malfara**, MSN, RN; **Liz Woodyard**, MSN, RN;
Kelly Ammanniti, MSN, RN; **Monica Dunbar**, MSN, RN

Faculty eSignature:

Teaching Assistant: **Devon Cutnaw**, BSN, RN; **Nick Simonovich**, BSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, or U". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, the following week it must be addressed with a comment as to why it is no longer a "U". If the student does not state why the "U" is corrected, then it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

Skills Lab Competency Tool & Skills Checklists
Simulation, Prebriefing, PEARLS Debriefing, & Reflection Journals
Nursing Care Plan Rubric
Meditech Documentation
Clinical Debriefing
Clinical Discussion Group Grading Rubric
Evaluation of Clinical Performance Tool
Lasater's Clinical Judgment Rubric & Scoring Sheet
Virtual Simulation Scenarios

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make-up (/Date/Time)

Faculty's Name	Initials
Kelly Ammanniti	KA
Devon Cutnaw	DC
Monica Dunbar	MD
Lora Malfara	LM
Nick Simonovich	NS
Dawn Wikel	DW
Elizabeth Woodyard	EW

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from instructor or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded boxes do not need a student evaluation rating or faculty member's initials.**

Date	Care Plan Diagnosis	Evaluation & Instructor Initials	Remediation & Instructor Initials	Remediation & Instructor Initials

Note: Students are required to submit two satisfactory care plans over the course of the semester. If the care plan is not evaluated as satisfactory upon initial submission, the student may revise the care plan based on instructor feedback/remediation and resubmit until satisfactory. At least one care plan must be submitted prior to midterm.

Objective

1. Illustrate correlations to demonstrate the pathophysiological alterations in adult patients with medical-surgical problems. (2,3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Final
Competencies:																
a. Analyze the involved pathophysiology of the patient's disease process. (Interpreting)																
b. Correlate patient's symptoms with the patient's disease process. (Interpreting)																
c. Correlate diagnostic tests with the patient's disease process. (Interpreting)																
d. Correlate pharmacotherapy in relation to the patient's disease process. (Interpreting)																
e. Correlate medical treatment in relation to the patient's disease process. (Interpreting)																
f. Correlate the nutritional needs in relation to patient's disease process. (Interpreting)																
g. Assess developmental stages of assigned patients. (Interpreting)																
h. Demonstrate evidence of research in being prepared for clinical. (Noticing)	S															
	Indicate your clinical site as well as your patient's age and primary medical diagnosis in this box weekly.	Meditech, FSBS, D/C IV, IV Pump Sessions														
Instructors Initials	EW															

Comments: Week 1 (1h)- During week 1, the Meditech, FSBS, D/C IV, and IV pump sessions were all considered clinical hours. You came prepared to each of them and demonstrated competency accordingly. For this reason, you have earned an S for this competency. EW

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

2. Perform physical assessments as a method for determining deviations from normal. (3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:																	
a. Perform inspection, palpation, percussion, and auscultation in the physical assessment of assigned patient. (Responding)																	
b. Conduct a fall assessment and implement appropriate precautions. (Responding)																	
c. Conduct a skin risk assessment and implement appropriate precautions and care. (Responding)																	
d. Communicate physical assessment. Responding)																	
e. Analyze appropriate assessment skills for the patient's disease process. (Interpreting)																	
f. Demonstrate skill in accessing electronic information and documenting patient care. (Responding)	S																
	EW																

Comments:

Week 1 (2f)- By attending the Meditech clinical update & providing your full, undivided attention during the demonstration of documenting insulin, IV solutions, saline flushes and IV site assessments you are satisfactory for this competency. NS

Objective																	
3. Execute safety precautions in the implementation of quality, patient-centered care and evidence-based nursing interventions. (2,3,4,5,8)*																	
Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:																	
a. Perform standard precautions. (Responding)	S																
b. Demonstrate nursing measures skillfully and safely. (Responding)	S																
c. Demonstrate promptness and ability to organize nursing care effectively. (Responding)																	
d. Appropriately prioritizes nursing care. (Responding)																	
e. Recognize the need for assistance. (Interpreting)																	
f. Apply the principles of asepsis where indicated. (Responding)	S																
g. Implement the appropriate DVT prophylaxis interventions based on assessment and physicians orders. (Responding)																	
h. Identify the role of evidence in determining best nursing practice. (Interpreting)																	
i. Identify recommendations for change through team collaboration. (Interpreting)																	
	EW																

Comments:

Objective																	
3. Execute safety precautions in the implementation of quality, patient-centered care and evidence-based nursing interventions. (2,3,4,5,8)*																	
Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:																	
j. Administer PO, SQ, IM, or ID medications observing the rights of medication administration. (Responding)																	
k. Calculate medication doses accurately. (Responding)																	
l. Administer IV therapy, piggybacks and/or adding solution to a continuous infusion line. (Responding)																	
m. Regulate IV flow rate. (Responding)	S																
n. Flush saline lock. (Responding)																	
o. D/C an IV. (Responding)	S																
p. Monitor an IV. (Responding)																	
q. Perform FSBS with appropriate interventions. (Responding)	S																
	EW																

Comments: Week 1 (3m,o)- By attending the D/C IV-IV Pump clinical and providing your full, undivided attention and active participation during the demonstration of both the Alaris pump, documentation of IV site maintenance and discontinuing a peripheral IV you are satisfactory for this competency. EW
 Week 1 (3q)-The student was able to demonstrate understanding of the rationale of FSBS and the use of the glucometer. The student was able to perform a Quality Control check of the glucometer as well as demonstrate skills and knowledge required of proper sample ID, collection and handling of blood. LM/DC

Objective

4. Use therapeutic communication techniques to establish a baseline for nursing decisions. (1,5,7)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:																	
a. Integrate professionally appropriate and therapeutic communication skills in interactions with patients, families, and significant others. (Responding)																	
b. Communicate professionally and collaboratively with members of the healthcare team. (Responding)																	
c. Report promptly and accurately any change in the status of the patient. (Responding)																	
d. Maintain confidentiality of patient health and medical information. (Responding)																	
e. Consistently and appropriately post comments in clinical discussion groups. (Reflecting)																	
f. Obtain report, from previous care giver, at the beginning of the clinical day. (Noticing)																	
g. Provide a clear, organized hand-off report to your patient's next provider of care. (Responding)																	

Comments:

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

5. Implement patient education based on teaching needs of patients and/or significant others. (1,6)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:																	
a. Describe a teaching need of your patient.** (Reflecting)																	
b. Utilize appropriate terminology and resources when providing patient education. (Responding)																	
c. Evaluate health-related information on the intranet. (Responding)																	

****5a- You must address this competency in the comments on a weekly basis. For clinicals on 3T, 4N, or Rehab- describe the patient education you provided; be specific. For clinicals on alternative sites- describe a teaching need you identified.**

Comments:

Objective

6. Implement patient-centered plans of care utilizing the nursing process and clinical judgment. (2,3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
a. Develop and implement a priority care plan utilizing the nursing process and clinical judgment. (Noticing, Interpreting, Responding, Reflecting)																	

Comments:

See Care Plan Grading Rubrics below.

Objective # 6a: Implement patient-centered plans of care utilizing the nursing process and clinical judgment. (2,3,4,5)*	Students Name: Date:
**Nursing care plan not appropriate to patient situation = 0 and automatic unsatisfactory rating	Nursing Diagnosis:
Nursing Diagnosis: (3 points total) Problem Statement (1) Etiology (1) Defining Characteristics (1)	Total Points Comments:
Goal and Outcome (6 points total) Goal Statement (1) Outcome: Specific (1) Measurable (1) Attainable (1) Realistic (1) Time Frame (1)	Total Points Comments:
Nursing Interventions: (8 points total) Prioritized (1) What (1) How Often (1) When (1) Individualized (1) Realistic (1) Rationale (1) All pertinent interventions listed (1)	Total Points Comments:
Evaluation: (5 points total) Date (1) Goal Met/partially/unmet (1) Defining characteristics (1) Plan to continue/terminate (1) Signature (1)	Total Points Comments:
Total possible points = 22 18-22 = Satisfactory care plan 17-14 = Needs improvement care plan ≤ 13 = Unsatisfactory care plan	Total Points for entire care plan = Comments: Faculty/Teaching Assistant Initials =

Objective

7. Illustrate professional conduct including self-examination, responsibility for learning, and goal setting. (7)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
a. Reflect on an area of strength. ** (Reflecting)	S																
b. Reflect on an area for improvement and set a goal to meet this need. ** (Reflecting)	S																
c. Demonstrate evidence of growth, initiative, and self-confidence. (Responding)	S																
d. Follow the standards outlined in the FRMCSN Student Code of Conduct Policy. (Responding)	S																
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S																
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (Responding)	S																
g. Demonstrate the ability to give and receive constructive feedback. (Responding)	S																
h. Actively engage in self-reflection. (Reflecting)	S																
	EW																

****7a and 7b: You must address these competencies in the comments section on a weekly basis. Please write a different comment each week. Remember that a goal includes what you will do to improve, how often you will do it, and when you will do it by (example- “I had trouble remembering to do the three checks of the six medication rights prior to administering medications. I will review the six rights and medication administration content in the textbook twice before the next clinical. Additionally, I will request to meet with my clinical faculty member to practice preparing and administering at least three medications before the next clinical.”**

Comments:

Week 1: This week I believe that I was very strong in my head-to-toe assessment. During Nursing Foundations, I felt very overwhelmed and seemed to forget little details during my assessment. During my check-off for Medical-Surgical Nursing, I hit every single point and felt very confident in myself!

Week 1: I believe that this first week I struggled with the new dosage calculation that we had learned. I felt very overwhelmed when trying to learn the in's and outs of each formula and how to solve each type of problem. In order to improve this, I will continue to do practice problems and work to memorize the set up of each type of question in order to fully understand what I am solving! **This is a great solution. Many students feel this way about the math. Practice will build your confidence in your skill. Keep up the good work.**

Week 2: This week I feel that I did fairly well managing my time when preparing for lab and lecture. These first two weeks of class were definitely challenging, but I feel that I faced it head on and got my stuff done! I remained very organized and efficient with my time!

Week 2: This week, I struggled with my tracheostomy suction and care. I feel that I rushed through my procedures, made silly mistakes, and lost focus when it came time for my checkoff. Although I did earn a satisfactory, I know that I can perfect these skills and be able to become much more confident if I put the time in. I have already been re-watching each youtube video created by Devon, as well as reviewing the ATI modules that pertain to tracheostomy care. As long as I keep practicing, I know I will feel much more comfortable in the clinical setting. I can already tell that I am becoming more comfortable with the content!

Comments:

Week 1

(IV Math)-You satisfactorily participated in the IV Math learning session on 1/4/21 as well as the assigned IV Math practice questions and the IV Math Application lab on 1/8/20. KA/DW

(Assessment)- You were able to satisfactorily demonstrate the Basic Head to Toe Assessment during lab. KA/DW

(Insulin)- You were able to correctly prepare an insulin pen and administer subcutaneous insulin. Insulin requirements were accurately identified and calculated through the corrective scale and carbohydrate coverage orders. MD

(Lab Day)- You satisfactorily completed the mandatory lab review of nursing foundational skills. This was achieved through simulating care for a patient in a scenario requiring competency in assessment, communication, medication administration (including PO and IM injection), nasogastric tube insertion and maintenance, patient mobility and hygiene, use of PPE for Contact Isolation, wound care, and foley insertion. NS/LM/EW

(IV Skills)- You have satisfactorily completed IV lab including a saline flush, hanging a primary and secondary IV solution, adjusting a flow rate to run by gravity, discontinuing IV solution, and monitoring the IV site for infiltration, phlebitis, and signs of complication. NS/EW

EVALUATION OF CLINICAL PERFORMANCE TOOL
Medical Surgical Nursing – 2021

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature and Date:
