

Medical Case 3: Vincent Brody

Documentation Assignments

1. Document your focused respiratory assessment for Vincent Brody.
2. Identify and document key nursing diagnoses for Vincent Brody.
3. Document pain management interventions and Vincent Brody's response to therapy.
4. Document key assessments you would monitor for a chest tube (insertion site, dressing, suction level, drainage, fluctuation, air leak).
5. Referring to your feedback log, document the nursing care you provided.
