

**EVALUATION OF CLINICAL PERFORMANCE TOOL  
Nursing Foundations – 2021**

**Firelands Regional Medical Center School of Nursing  
Sandusky, Ohio**

**Student:**

**Final Grade: Satisfactory/Unsatisfactory**

**Semester:** ~~Fall~~

**Date of Completion:**

**Faculty:** Frances Brennan, MSN, RN; Lora Malfara, MSN, RN; Amy Rockwell, MSN, RN

**Teaching Assistant:** Chandra Barnes, BSN, RN; Devon Cutnaw, BSN, RN; Nick Simonovich, BSN, RN

**Faculty Signature:**

**DIRECTIONS FOR USE:**

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

**METHODS OF EVALUATION:**

- |  |                     |
|--|---------------------|
| Skills Lab Checklists                    | Faculty Feedback    |
| Care Map Grading Rubric                  | Documentation       |
| Administration of Medications            | Clinical Reflection |
| Simulation Scenarios                     |                     |
| Skills Demonstration                     |                     |
| Evaluation of Clinical Performance Tool  |                     |
| Clinical Discussion Group Grading Rubric |                     |
| Lasater Clinical Judgment Rubric         |                     |
| Skills Lab Competency Tool               |                     |

**ABSENCE (Refer to Attendance Policy)**

| Date                  | Number of Hours | Comments | Make Up (Date/Time) |
|-----------------------|-----------------|----------|---------------------|
|                       |                 |          |                     |
|                       |                 |          |                     |
|                       |                 |          |                     |
| <b>Faculty's Name</b> |                 |          | <b>Initials</b>     |
| Chandra Barnes        |                 |          | CB                  |
| Frances Brennan       |                 |          | FB                  |
| Devon Cutnaw          |                 |          | DC                  |
| Lora Malfara          |                 |          | LM                  |
| Nicholas Simonovich   |                 |          | NS                  |

## PERFORMANCE CODE

### SATISFACTORY CLINICAL PERFORMANCE

**Satisfactory (S):** Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

### UNSATISFACTORY CLINICAL PERFORMANCE

**Needs Improvement (NI):** Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

**Unsatisfactory (U):** Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

### OTHER

**Not Available (NA):** The clinical experience which would meet the competency was not available.

**\*Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

---

| <b>Objective</b>  |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
|---|--------|--------|--------|--------|--------|--------|--------|----------|--------|--------|---------|---------|---------|---------|---------|---------|---------|-------|
| 2. Summarize knowledge of anatomy, physiology, chemistry, nutrition, psychosocial and developmental principles in performance of basic physical assessment through use of clinical judgment skills. (3,4, 5)* |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
| Clinical Experience   | Week 1 | Week 2 | Week 3 | Week 4 | Week 5 | Week 6 | Week 7 | Mid-Term | Week 8 | Week 9 | Week 10 | Week 11 | Week 12 | Week 13 | Week 14 | Week 15 | Make-Up | Final |
| <b>Competencies:</b>  |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
| a. Perform head to toe assessment utilizing techniques of inspection, palpation and auscultation (Responding).  |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
| b. Use correct technique for vital sign measurement (Responding).   |        |        | NA     |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
| c. Conduct a fall assessment and institute appropriate precautions (Responding).  |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
| d. Conduct a skin risk assessment and institute appropriate precautions (Responding).   |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
| e. Collect the nutritional data of assigned patient (Noticing).   |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
| f. Demonstrates appropriate insertion, maintenance, and removal of NG tube (Responding).  |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
| g. Describe the findings and the rationale for diagnostic studies with the nursing implications for assigned patient (Interpreting).  |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |
|   |        |        |        |        |        |        |        |          |        |        |         |         |         |         |         |         |         |       |

**\*\* Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, “I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP’s with at least three members of my family this week.” Please ensure that you answer this section in-depth with your plan of action. Each week must be different.**

\* Course Objectives

- A. Reflect on an area of strength after observing/participating in each simulation scenario.**
- B. Recognize one area for improvement and set a goal to meet this need.**

The goal must include what you will do to improve, how often you will do this, and when you will complete the goal (example- "I forgot to raise the head of the bed when the patient began having trouble breathing. I will review the proper nursing interventions for dyspnea in the textbook and on skyscape twice before the next simulation scenario").

Simulation #1:

A.

B.

**EVALUATION OF CLINICAL PERFORMANCE TOOL**  
**Nursing Foundations – 2021**

**Firelands Regional Medical Center School of Nursing**  
**Sandusky, Ohio**

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
