

I felt more comfortable this clinical than previous. My patient's age is one that I am more used to. I remembered all of my head-to-toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). I recognize I need practice understanding how to hear heart sounds over heavy lung sounds. I will research on my own time and practice doing this on others.

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2021**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:
Semester:

Final Grade: Satisfactory/Unsatisfactory

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Lora Malfara, MSN, RN; Amy Rockwell, MSN, RN
Teaching Assistant: Chandra Barnes, BSN, RN; Devon Cutnaw, BSN, RN; Nick Simonovich, BSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- | | |
|--|---------------------|
| Skills Lab Checklists | Faculty Feedback |
| Care Map Grading Rubric | Documentation |
| Administration of Medications | Clinical Reflection |
| Simulation Scenarios | |
| Skills Demonstration | |
| Evaluation of Clinical Performance Tool | |
| Clinical Discussion Group Grading Rubric | |
| Lasater Clinical Judgment Rubric | |
| Skills Lab Competency Tool | |

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
Faculty's Name			Initials
Chandra Barnes			CB
Frances Brennan			FB
Devon Cutnaw			DC

Nicholas Simonovich			NS
Amy Rockwell			AR

I felt more comfortable this clinical than previous. My patient's age is one that I am more used to. I remembered all of my head to toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). I recognize I need practice understanding how to hear heart sounds over heavy lung sounds. I will research on my own time and practice doing this on others.

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

I felt more comfortable this clinical that previous. My patient's age is one that I am more used to. I remembered all of my head to toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). I recognize I need practice understanding how to hear heart sounds over heavy lung sounds. I will research on my own time and practice doing this on others.

Objective																		
1. Describe how diverse cultural, ethnic, and social backgrounds function as sources of patient, family, and community values. (2,4,6)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final
Competencies:										S	NA							
a. Identify spiritual needs of patient (Noticing).										S	NA							
b. Identify cultural factors that influence healthcare (Noticing).										S	NA							
c. Coordinate care based on respect for patient's preferences, values, and needs (Responding).			NA	NA	s	NA	S	S		S	NA							
d. Use Maslow's Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).			NA	NA	s	NA	S	S		S	NA							
	DC	NS	NS	NS	DC	NS	DC	DC		CB	AR							
		Meditech Orientation	No Clinical	No Clinical	4N 73	No Clinical	3T 68			3T 93	NA							
	Clinical Location: Patient age																	

Comments

Week 5 1(c,d): You properly utilized Maslow to determine the needs of the patient for this specific clinical. DC

Week 9 1(c,d): You appropriately coordinated care depending on your patient's needs and Maslow's. CB

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

I felt more comfortable this clinical than previous. My patient's age is one that I am more used to. I remembered all of my head to toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). I recognize I need practice understanding how to hear heart sounds over heavy lung sounds. I will research on my own time and practice doing this on others.

Objective																		
4. Exemplify advanced searches in accessing electronic health care information and documenting patient care. (1,4,8)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final
Competencies:																		
a. Document vital signs and head to toe assessment according to policy (Responding).			NA	NA	s	NA	S	S		S	NA							
b. Document the patient response to nursing care provided (Responding).										S	NA							
c. Access medical information of assigned patient in Electronic Medical Record (Responding).			NA	NA	s	NA	S	S		S	NA							
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding).		S	NA	NA	NA	NA	NA	S		S	NA							
e. Provide basic patient education with accurate electronic documentation (Responding).										S	NA							
f. Consistently and appropriately post comments for clinical discussion groups on Edvance360 website (Reflection).					S		S	S		U	U							
*Week 2 –Meditech Expans	DC	NS	NS	NS	DC	NS	DC	DC		CB	AR							

Comments

Week 2 4(d) – Satisfactory for listening attentively and actively participating in the Meditech orientation clinical. NS

Week 5 4(a,c,d) – Great job documenting vital signs for the first time as a nursing student in Meditech! Your documentation was accurate and portrayed the correct time. DC

I felt more comfortable this clinical than previous. My patient's age is one that I am more used to. I remembered all of my head to toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). I recognize I need practice understanding how to hear heart sounds over heavy lung sounds. I will research on my own time and practice doing this on others.

Week 9 4(f): You received an U for your clinical discussion group because you did not have an in-text citation and reference for your peer response, and you did not meet the minimum work count of 100 words. Please have a copy of the clinical discussion grade rubric with you while completing your CDG and peer responses. CB

Week 10 (4f)- Please refer to page 2 of this tool for instructions on how to address your unsatisfactory evaluation and do so for Week 11. Failure to correctly address the unsatisfactory will result in continued "U" evaluations. Please reach out to me for assistance if needed. AR

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective
5. Exemplify psychomotor skills and nursing care safely using evidence-based practice. (3,4,5,7,8)*

I felt more comfortable this clinical than previous. My patient's age is one that I am more used to. I remembered all of my head to toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). I recognize I need practice understanding how to hear heart sounds over heavy lung sounds. I will research on my own time and practice doing this on others.

Comments

Week 5 5(a,b,d,e) - You correctly obtained the patient's vital signs utilizing proper safety practices as outlined in class and in lab. You were efficient with obtaining VS and communicating with the patient. DC

****You must document the location of the pull station and extinguisher here for clinical #2 experience.**

Week 9 5(e,f): You had great time management, and also ensured that your patient's hygiene needs were met (bathing, denture care, etc). CB

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

I felt more comfortable this clinical than previous. My patient's age is one that I am more used to. I remembered all of my head-to-toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). I recognize I need practice understanding how to hear heart sounds over heavy lung sounds. I will research on my own time and practice doing this on others.

Objective																		
6. Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final

a. Reflect on areas of strength** (Reflecting)			NA	NA	S	NA	S	S		S	NA							
b. Reflect on areas for self-growth with a plan for improvement. ** (Reflecting)			NA	NA	S	NA	S	S		S	NA							
c. Incorporate instructor feedback for improvement and growth (Reflecting).			NA	NA	S	NA	S	S		S	NA							
d. Follow the standards outlined in the FRMCSN policy, "Student Code of Conduct" (Responding).			NA	NA	S	NA	S	S		S	NA							
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions (Responding).			NA	NA	S	NA	S	S		S	NA							
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect (Responding).			NA	NA	S	NA	S	S		S	NA							
g. Comply with patient's Bill of Rights (Responding).			NA	NA	S	NA	S	S		S	NA							
h. Respect the privacy of patient health and medical information as required by federal HIPAA regulations (Responding).			NA	NA	S	NA	S	S		S	NA							
i. Actively engage in self-reflection. (Reflecting)			NA	NA	S	NA	S	S		S	NA							
*	DC	NS	NS	NS	DC	NS	DC	DC	DC	CB	AR							

** Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, "I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP's with at least three members of my family this week." Please ensure that you answer this section in-depth with your plan of action. Each week must be different.

I felt more comfortable this clinical than previous. My patient's age is one that I am more used to. I remembered all of my head to toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). I recognize I need practice understanding how to hear heart sounds over heavy lung sounds. I will research on my own time and practice doing this on others.

Week 7 Strength- I was able to communicate with the patient well. I obtained all the vitals and he seemed comfortable sharing information with me. I performed a focused assessment on his abdomen and observed hyperactive bowel sounds. I still feel uncomfortable working in a hospital setting. I recognize that I did a focused assessment but realize I did skip other aspects of a head to toe assessment. To improve on this I will practice the routine of head to toes on my family to get more comfortable.

Week 5 Strength- I was comfortable talking to the patient and discovered she had a difficult time sleeping due to being cold. I was able to meet her needs and get her a warm blanket. I forgot to get the manual pulse rate. To improve on this I will make myself cheat sheets to keep with me. **You did very well helping to assist with the patient's needs. Good plan (cheat sheets always helped me until I could increase my memory). DC**

Week 9- You did a great job on your head to toe assessment and realizing that your patient was prone to pressure injuries. Great plan to practice listening to heart sounds on individuals that may have an issue with their breathing. CB

Week 10 (8f)- You have received a "U" due to submitting the incorrect version of the tool for Week 10. Refer to page 2 of this tool for how to properly address a "U"; failure to do so will result in continued unsatisfactory evaluations. Please reach out to me for assistance if needed. AR

* End-of-Program Student Learning Outcomes

Week 10 or 12:

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric

Course Objective:		Student Name:			
		Date:			
Top Nursing Priority:					
		3 Points >75% Complete	2 Points 50-75% Complete	1 Point <50% Complete	Comments
Noticing	Identify all abnormal assessment findings				
	Identify all abnormal lab finds/diagnostic tests				
	Identify all risk factors				
	Highlight all related/relevant data in the noticing boxes				
Interpreting	List all nursing priorities				
	Highlight the top nursing priority				
	Identify all potential complications				
	Highlight potential complications relevant to top nursing priority				
	Identify signs and symptoms to monitor for each complication				
Responding	List all nursing interventions relevant to top nursing priority				
	Interventions are prioritized				
	All interventions include a frequency				
	All interventions are individualized and realistic				
	An appropriate rationale is included for each intervention				
Reflecting	List the reassessment findings for the top nursing priority				
	Reflection includes one of the following statements: <ul style="list-style-type: none"> • Continue plan of care • Modify plan of care • Terminate plan of care 				

I felt more comfortable this clinical than previous. My patient's age is one that I am more used to. I remembered all of my head to toe steps and identified potential pressure sore areas on my patient. I had difficulty hearing any heart sounds on my patient and got my instructor to help identify (she said they were very muffled). Simulation Evaluations

<u>Simulation Evaluation</u>	Simulation #1 (2,3,5,8) *	Simulation #2 (2,3,5,7,8) *
	Date:	Date:
Performance Codes:		
S: Satisfactory		
U: Unsatisfactory		
Evaluation (See Simulation Rubric)		
Faculty Initials		
Remediation: Date/Evaluation/Initials		

* Course Objectives

- A. Reflect on an area of strength after observing/participating in each simulation scenario.
- B. Recognize one area for improvement and set a goal to meet this need.

The goal must include what you will do to improve, how often you will do this, and when you will complete the goal (example- "I forgot to raise the head of the bed when the patient began having trouble breathing. I will review the proper nursing interventions for dyspnea in the textbook and on skyscape twice before the next simulation scenario").

Simulation #1:

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2021

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date: _____
