needs

Nurses' Health Study **3**

100,000 nurses!

Harvard researchers are recruiting 100,000 female nurses for Nurses' Health Study 3

In the past 35 years, more than 230,000 NHS participants have changed what we know about women's health.

NHS3 is the next generation!

- Female nurses and nursing students
- 20-46 years old
- In the US or Canada

NHS3 participants:

- Complete 30-minute online surveys about lifestyle and health
- Help women everywhere, now and into the future
- Join a world-renowned group of nurses
- Contribute to groundbreaking research on lifestyle, environment, nurses' worklife, and women's health

Joining is quick & easy!
